Counsel for Indirect Purchaser Plaintiffs

UNITED STATES DISTRICT COURT

NORTHERN DISTRICT OF CALIFORNIA

OAKLAND DIVISION

IN RE: LITHIUM ION BATTERIES ANTITRUST LITIGATION	Case No. 13-MD-02420 YGR (DMR) MDL NO. 2420
This Document Relates to: **ALL INDIRECT PURCHASER ACTIONS**	**DECLARATION OF ROBERT S. GREEN IN SUPPORT OF INDIRECT PURCHASER PLAINTIFFS' MOTION FOR AN AWARD OF ATTORNEYS' FEES AND REIMBURSEMENT OF EXPENSES ON BEHALF OF GREEN & NOBLIN, P.C.**

I, ROBERT S. GREEN, declare:

1. I am the Managing Partner of Green & Noblin, P.C., Counsel for Indirect Purchaser Plaintiffs ("IPPs" or "Plaintiffs") in this action. I submit this declaration in support of IPPs' Motion for an Award of Attorneys' Fees and Reimbursement of Expenses. I make this declaration based on my personal knowledge and if called as a witness, I could and would competently testify to the matters stated herein.

2. My firm has served as counsel to Sheri Harmon, Christopher Hunt, the cities of Richmond and Palo Alto and the City College of San Francisco as counsel for IPPs throughout the course of this litigation. The background and experience of Green & Noblin, P.C. and its attorneys are summarized in the curriculum vitae attached hereto as **Exhibit A**.

3. Green & Noblin, P.C., has prosecuted this litigation solely on a contingent-fee basis, and has been at risk that it would not receive any compensation for prosecuting claims against the defendants. While Green & Noblin, P.C., devoted its time and resources to this matter, it has foregone other legal work for which it would have been compensated.

4. During the pendency of the litigation, Green & Noblin, P.C., performed the following work: Green & Noblin was appointed by the Court to serve on the Executive Committee leading the case. Working together with the firm of Renne Sloan, Green & Noblin investigated and brought claims on behalf of several government agencies, including the cities of Palo Alto and Richmond, City College of San Francisco and others. In this context, we coordinated with representatives of the California Attorney General's office who were pursuing separate complementary claims on behalf of governments. In that role, we briefed and argued oppositions to motions to dismiss claims.

(a) Green & Noblin represents individual clients in Oregon and Arizona, who in turn represent the classes in their states. In this context, we worked extensively on responding to individual interrogatories, document requests and deposition notices. We worked with these clients to present their documents, including participation of third party searches into their email

systems and the like. The interrogatories were overbroad and overbearing, but responded to in full, some of them multiple times.

(b) Green & Noblin also participated in document review procedures for both English and Japanese documents. This included review of documents from Sony, Samsung SDI, Panasonic, Toshiba and others. It also involved preparation for deposition of persons like H. Kubo, of Toshiba, K. Takeshima of NEC and others, as well as pulling data from the productions for use by experts.

(c) Finally, we reviewed settlement agreements and communicated with our clients regarding the nature and terms of the settlements to ensure they were in the best interest of the clients and the class.

5. A summary of work performed by Green & Noblin, P.C., and detailed billing records from June 1, 2013 to February 28, 2017 were submitted with the Declaration of Robert S. Green in Support of Indirect Purchaser Plaintiffs' Motion for an Award of Attorneys' Fees and Reimbursement of Expenses on Behalf of Green & Noblin, P.C., and filed on May 26, 2017. (ECF No. 1813-17]. Counsel for Plaintiffs did not and do not seek attorneys' fees for any time billed prior to the appointment of lead counsel. *See* Order dated May 17, 2013 (ECF No. 198).

6. In summary, the total number of hours spent by Green & Noblin, P.C., since June 1, 2013 was 1,825.40, with a corresponding lodestar of $828,960 based on current rates.

7. Attached hereto as **Exhibit B** is a summary of the expenses Green & Noblin, P.C., has incurred from June 1, 2013 to present, plus applicable case filing fees. Green & Noblin, P.C., expended a total of $54,797.84 in unreimbursed costs and expenses in connection with the prosecution of this case. These expenses were incurred on behalf of IPPs by Green & Noblin, P.C., on a contingent basis and have not been reimbursed. The expenses reflected in Exhibit B were prepared from expense reports, vouchers, receipts, and bank records, and thus represent an accurate recordation of the expenses incurred. I have reviewed the time and expenses reported by Green & Noblin, P.C., in this case which are included in this declaration, and I affirm that they are

true and accurate.

I declare under penalty of perjury under the laws of the United States that the foregoing is true and correct.

Executed on April 10, 2019 at Larkspur, California.

/s/ Robert S. Green

FIRM RESUME

Litigation Approach

The Firm's business strategy is to aggressively develop and pursue opportunities in the field of class action litigation. The Firm's principals have many years of experience prosecuting class action claims relating to antitrust violations, consumer protection, truth in lending practices, financial services, securities offerings, accounting malpractice, breach of fiduciary duties of corporate officers and directors, and products liability.

The aggressive, result-oriented approach to client representation applied by the Firm and its principals has been demonstrated in the following litigation:

- *John Doe v. SuccessfulMatch.com*, Case No. 1-22-CV-21120, Superior Court of Santa Clara County. Robert Green served as the Lead Trial Counsel in this class action asserting claims under California's UCL and CLRA statutes. In October 2014, a jury awarded the plaintiffs approximately $1.5 million in compensatory damages and $15 million in punitive damages. The Court entered judgment on the verdict and added injunctive and declaratory relief. The case later settled as part of a nationwide class in which class members received over 100% of their asserted damages.

- *In re TFT-LCD (Flat Panel) Antitrust Litigation*, Case No. 07-mdl-1827 SI. The Firm served a critical role developing the evidence that lead to a $1.1 billion settlement in this indirect purchaser antitrust class action settled earlier this year. Members of the Firm were involved in all phases of the litigation over a five-year period, including research and drafting of our initial complaint and later motions and pleadings, managing document review and deposition preparation teams, and identifying and organizing exhibits and other evidence for trial.

- *In re Lithium Ion Batteries Antitrust Litigation,* Case No. 13-md-2420 YGR. The Firm was selected by the Court to serve on the Steering Committee for indirect purchasers' counsel following a litigated selection process. The Firm represents the cities of Palo Alto and Richmond, California, among other purchasers of the affected products.

- *In re Domestic Drywall Antitrust Litigation,* Case No. 13-md-2437. The Firm was appointed Co-Lead Counsel for indirect purchasers in this multi-district litigation pending in Philadelphia.

- *In re Dynamic Random Access Memory (DRAM) Antitrust Litigation,* 02-mdl-1486 PJH. The Firm worked extensively on this indirect purchaser antitrust action, both in San Francisco Superior Court in a coordinated action, and in the federal antitrust action. Principals of the Firm were active in conducting depositions, such as Dell and Nanya executives among others, along with conducting legal and factual research, drafting significant pleadings and running document review teams. The case settled for in excess of $300 million.

- *In re Static Random Access Memory (SRAM) Antitrust Litigation,* Case No. 07-mdl-1819 CW. The Firm participated in all phases of this direct purchaser class action from researching and drafting complaints up through and including final trial preparations. The case settled for approximately $75 million just days before trial.

- *In re Chase Bank USA, N.A. "Check Loan Litigation.* The Firm served on the Executive Committee running this national MDL proceeding in which JPMorgan Chase & Co., the nation's largest issuer of credit cards, agreed to settle for $100 million. The case is a class action lawsuit charging that the bank acted improperly when it more than doubled the minimum monthly payment requirement for over 1 million customers who entered into balance transfer loans with "fixed" interest rates. The Court approved the final settlement on November 19, 2012. The Firm was active in prosecuting the action, from origination, through motions, fact discovery, expert discovery, summary judgment and trial preparation. *See In re: Chase Bank, USA, N.A. "Check Loan" Contract Litigation*, 274 F.R.D. 286 (N.D. Cal. 2011).

- *Hellum v. Breyer (Prosper Marketplace, Inc.) Unregistered Securities Litigation.* Green & Noblin serve as counsel for the class in this action asserting the sale of unregistered securities. The action settled for $10 million in 2014. The court certified a class of approximately 50,000 purchasers of loan notes from Prosper Marketplace, Inc. and denied summary judgment. At the time of settlement, we were preparing for an imminent trial. The Firm's work resulted in a ruling by the Court of Appeal clarifying the pleading requirements for controlling officers and directors under both California and federal securities laws. *See, Hellum v. Breyer*, 194 Cal.App.4th 1300 (2011).

- *In re Cathode Ray Tube (CRT) Antitrust Litigation*, MDL No. 1917, Case No. 07-5944 SC. The Firm served on document review and deposition preparation teams for this indirect purchaser class action case in the Northern District of California. The case settled in 2015 for over $500 million.

- *In re Textainer Partnership Securities Litigation*. Robert Green served as Lead Trial Counsel in these consolidated cases. The cases settled for $10 million after Plaintiffs obtained a ruling in their favor at the conclusion of Phase 1 of the trial in San Francisco Superior Court. The Plaintiffs asserted breach of fiduciary duty claims in connection with a sale of assets transaction that resulted in the dissolution of six limited partnerships.

- *McKesson Inc. Derivative Litigation.* McKesson-HBOC, Inc. lost $9 billion in stock market capitalization in one day during April 1999 after announcing that prior financial statements would be restated due to accounting errors. Rather than pursuing the individuals and companies who participated in the conduct that led to the accounting

restatements, the company sued its own shareholders in a case that was promptly dismissed by the Ninth Circuit U.S. Court of Appeals. As co-counsel for plaintiff shareholders seeking to recover money on behalf of the corporation from the wrongdoers, the Firm obtained an important decision from the Delaware Supreme Court expanding the rights of shareholders to obtain and inspect corporate documents where there is a proper purpose for investigating potential wrongdoing. *See Saito v. McKesson HBOC, Inc.*, 806 A.2d 113 (Del. Supr. 2002). A substantial settlement on behalf of the Company was approved by the Delaware Chancery Court on February 12, 2006.

- *In re Providian Credit Card Cases*. Robert Green was appointed co-lead counsel in this national class action brought on behalf of Providian credit card customers who were improperly charged late fees, higher interest rates on balance transfers, and fees for add-on products, including Credit Protection, PricePro, Drive Pro, HealthPro, and credit line increases. The San Francisco Superior Court approved a settlement for $105 million, which covered restitution to Providian customers, "in-kind" payments to customers, and the costs and expenses of the litigation.

Counsel for Indirect Purchaser Plaintiffs

UNITED STATES DISTRICT COURT

NORTHERN DISTRICT OF CALIFORNIA

OAKLAND DIVISION

IN RE: LITHIUM ION BATTERIES ANTITRUST LITIGATION	Case No. 13-MD-02420 YGR (DMR) MDL NO. 2420
This Document Relates to: **ALL INDIRECT PURCHASER ACTIONS**	**DECLARATION OF ROBERT S. GREEN IN SUPPORT OF INDIRECT PURCHASER PLAINTIFFS' MOTION FOR AN AWARD OF ATTORNEYS' FEES AND REIMBURSEMENT OF EXPENSES ON BEHALF OF GREEN & NOBLIN, P.C.**

I, ROBERT S. GREEN, declare:

1. I am the Managing Partner of Green & Noblin, P.C., Counsel for Indirect Purchaser Plaintiffs ("IPPs" or "Plaintiffs") in this action. I submit this declaration in support of IPPs' Motion for an Award of Attorneys' Fees and Reimbursement of Expenses. I make this declaration based on my personal knowledge and if called as a witness, I could and would competently testify to the matters stated herein.

2. My firm has served as counsel to Sheri Harmon, Christopher Hunt, the cities of Richmond and Palo Alto and the City College of San Francisco as counsel for IPPs throughout the course of this litigation. The background and experience of Green & Noblin, P.C. and its attorneys are summarized in the curriculum vitae attached hereto as **Exhibit A**.

3. Green & Noblin, P.C., has prosecuted this litigation solely on a contingent-fee basis, and has been at risk that it would not receive any compensation for prosecuting claims against the defendants. While Green & Noblin, P.C., devoted its time and resources to this matter, it has foregone other legal work for which it would have been compensated.

4. During the pendency of the litigation, Green & Noblin, P.C., performed the following work: Green & Noblin was appointed by the Court to serve on the Executive Committee leading the case. Working together with the firm of Renne Sloan, Green & Noblin investigated and brought claims on behalf of several government agencies, including the cities of Palo Alto and Richmond, City College of San Francisco and others. In this context, we coordinated with representatives of the California Attorney General's office who were pursuing separate complementary claims on behalf of governments. In that role, we briefed and argued oppositions to motions to dismiss claims.

Green & Noblin represents individual clients in Oregon and Arizona, who in turn represent the classes in their states. In this context, we worked extensively on responding to individual interrogatories, document requests and deposition notices. We worked with these clients to present their documents, including participation of third party searches into their email systems

and the like. The interrogatories were overbroad and overbearing, but responded to in full, some of them multiple times.

Green & Noblin also participated in document review procedures for both English and Japanese documents. This included review of documents from Sony, Samsung SDI, Panasonic, Toshiba and others. It also involved preparation for deposition of persons like H. Kubo, of Toshiba, K. Takeshima of NEC and others, as well as pulling data from the productions for use by experts.

Finally, we reviewed settlement agreements and communicated with our clients regarding the nature and terms of the settlements to ensure they were in the best interest of the clients and the class.

5. Attached hereto as **Exhibit B** is a billing summary of Green & Noblin, P.C. total hours and lodestar, computed at current billing rates, from June 1, 2013 to February 28, 2017. Counsel for Plaintiffs are not seeking attorneys' fees for any time billed prior to the appointment of lead counsel. *See* Order dated May 17, 2013 (ECF No. 194). The total number of hours spent by Green & Noblin, P.C., during this period of time was 1,825.40, with a corresponding lodestar based on current rates of $828,960. The lodestar amount reflected in Exhibit B is for work assigned by Lead Counsel, and was performed by professional staff at my law firm. This summary was prepared from contemporaneous, daily time records regularly prepared and maintained by Green & Noblin, P.C.

6. Attached hereto as **Exhibit C** is a list of the various billing rates each attorney and staff member at my firm has billed at in this case**.**

7. Attached hereto as **Exhibit D** is a compilation of my firm's detailed records at historical billing rates. The entries in **Exhibit D** have been redacted per the Court's Order in ECF No. 1803.

8. Attached hereto as **Exhibit E** is a summary of the expenses Green & Noblin, P.C., has incurred during the course of this litigation. Green & Noblin, P.C., expended a total of $54,802.86 in unreimbursed costs and expenses in connection with the prosecution of this case.

These expenses were incurred on behalf of IPPs by Green & Noblin, P.C., on a contingent basis and have not been reimbursed. The expenses reflected in **Exhibit E** were prepared from expense vouchers, receipts, and bank records, and thus represent an accurate recordation of the expenses incurred.

9. I have reviewed the time and expenses reported by Green & Noblin, P.C., in this case which are included in this declaration, and I affirm that they are true and accurate.

I declare under penalty of perjury under the laws of the United States that the foregoing is true and correct.

Executed on May 23, 2017 at Larkspur, California.

FIRM RESUME

Litigation Approach

The Firm's business strategy is to aggressively develop and pursue opportunities in the field of class action litigation. The Firm's principals have many years of experience prosecuting class action claims relating to antitrust violations, consumer protection, truth in lending practices, financial services, securities offerings, accounting malpractice, breach of fiduciary duties of corporate officers and directors, and products liability.

The aggressive, result-oriented approach to client representation applied by the Firm and its principals has been demonstrated in the following litigation:

- *John Doe v. SuccessfulMatch.com*, Case No. 1-22-CV-21120, Superior Court of Santa Clara County. Robert Green served as the Lead Trial Counsel in this class action asserting claims under California's UCL and CLRA statutes. In October 2014, a jury awarded the plaintiffs approximately $1.5 million in compensatory damages and $15 million in punitive damages. The Court entered judgment on the verdict and added injunctive and declaratory relief. The case later settled as part of a nationwide class in which class members received over 100% of their asserted damages.

- *In re TFT-LCD (Flat Panel) Antitrust Litigation*, Case No. 07-mdl-1827 SI. The Firm served a critical role developing the evidence that lead to a $1.1 billion settlement in this indirect purchaser antitrust class action settled earlier this year. Members of the Firm were involved in all phases of the litigation over a five-year period, including research and drafting of our initial complaint and later motions and pleadings, managing document review and deposition preparation teams, and identifying and organizing exhibits and other evidence for trial.

- *In re Lithium Ion Batteries Antitrust Litigation,* Case No. 13-md-2420 YGR. The Firm was selected by the Court to serve on the Steering Committee for indirect purchasers' counsel following a litigated selection process. The Firm represents the cities of Palo Alto and Richmond, California, among other purchasers of the affected products.

- *In re Domestic Drywall Antitrust Litigation,* Case No. 13-md-2437. The Firm was appointed Co-Lead Counsel for indirect purchasers in this multi-district litigation pending in Philadelphia.

- *In re Dynamic Random Access Memory (DRAM) Antitrust Litigation*, 02-mdl-1486 PJH. The Firm worked extensively on this indirect purchaser antitrust action, both in San Francisco Superior Court in a coordinated action, and in the federal antitrust action. Principals of the Firm were active in conducting depositions, such as Dell and Nanya executives among others, along with conducting legal and factual research, drafting significant pleadings and running document review teams. The case settled for in excess of $300 million.

- *In re Static Random Access Memory (SRAM) Antitrust Litigation*, Case No. 07-mdl-1819 CW. The Firm participated in all phases of this direct purchaser class action from researching and drafting complaints up through and including final trial preparations. The case settled for approximately $75 million just days before trial.

- *In re Chase Bank USA, N.A. "Check Loan Litigation.* The Firm served on the Executive Committee running this national MDL proceeding in which JPMorgan Chase & Co., the nation's largest issuer of credit cards, agreed to settle for $100 million. The case is a class action lawsuit charging that the bank acted improperly when it more than doubled the minimum monthly payment requirement for over 1 million customers who entered into balance transfer loans with "fixed" interest rates. The Court approved the final settlement on November 19, 2012. The Firm was active in prosecuting the action, from origination, through motions, fact discovery, expert discovery, summary judgment and trial preparation. *See In re: Chase Bank, USA, N.A. "Check Loan" Contract Litigation*, 274 F.R.D. 286 (N.D. Cal. 2011).

- *Hellum v. Breyer (Prosper Marketplace, Inc.) Unregistered Securities Litigation.* Green & Noblin serve as counsel for the class in this action asserting the sale of unregistered securities. The action settled for $10 million in 2014. The court certified a class of approximately 50,000 purchasers of loan notes from Prosper Marketplace, Inc. and denied summary judgment. At the time of settlement, we were preparing for an imminent trial. The Firm's work resulted in a ruling by the Court of Appeal clarifying the pleading requirements for controlling officers and directors under both California and federal securities laws. *See, Hellum v. Breyer*, 194 Cal.App.4th 1300 (2011).

- *In re Cathode Ray Tube (CRT) Antitrust Litigation*, MDL No. 1917, Case No. 07-5944 SC. The Firm served on document review and deposition preparation teams for this indirect purchaser class action case in the Northern District of California. The case settled in 2015 for over $500 million.

- *In re Textainer Partnership Securities Litigation*. Robert Green served as Lead Trial Counsel in these consolidated cases. The cases settled for $10 million after Plaintiffs obtained a ruling in their favor at the conclusion of Phase 1 of the trial in San Francisco Superior Court. The Plaintiffs asserted breach of fiduciary duty claims in connection with a sale of assets transaction that resulted in the dissolution of six limited partnerships.

- *McKesson Inc. Derivative Litigation.* McKesson-HBOC, Inc. lost $9 billion in stock market capitalization in one day during April 1999 after announcing that prior financial statements would be restated due to accounting errors. Rather than pursuing the individuals and companies who participated in the conduct that led to the accounting

restatements, the company sued its own shareholders in a case that was promptly dismissed by the Ninth Circuit U.S. Court of Appeals. As co-counsel for plaintiff shareholders seeking to recover money on behalf of the corporation from the wrongdoers, the Firm obtained an important decision from the Delaware Supreme Court expanding the rights of shareholders to obtain and inspect corporate documents where there is a proper purpose for investigating potential wrongdoing. *See Saito v. McKesson HBOC, Inc.*, 806 A.2d 113 (Del. Supr. 2002). A substantial settlement on behalf of the Company was approved by the Delaware Chancery Court on February 12, 2006.

- *In re Providian Credit Card Cases*. Robert Green was appointed co-lead counsel in this national class action brought on behalf of Providian credit card customers who were improperly charged late fees, higher interest rates on balance transfers, and fees for add-on products, including Credit Protection, PricePro, Drive Pro, HealthPro, and credit line increases. The San Francisco Superior Court approved a settlement for $105 million, which covered restitution to Providian customers, "in-kind" payments to customers, and the costs and expenses of the litigation.

UNITED STATES DISTRICT COURT

NORTHERN DISTRICT OF CALIFORNIA

OAKLAND DIVISION

IN RE: LITHIUM ION BATTERIES ANTITRUST LITIGATION	Case No. 13-MD-02420 YGR (DMR) MDL NO. 2420
This Document Relates to: **ALL INDIRECT PURCHASER ACTIONS**	**DECLARATION OF JUDD B. GROSSMAN IN SUPPORT OF INDIRECT PURCHASER PLAINTIFFS' MOTION FOR AN AWARD OF ATTORNEYS' FEES AND REIMBURSEMENT OF EXPENSES ON BEHALF OF GROSSMAN LLP**

I, Judd B. Grossman, declare:

1. I am the Founder and Managing Partner of Grossman LLP, Counsel for Indirect Purchaser Plaintiffs ("IPPs" or "Plaintiffs") in this action. I submit this declaration in support of IPPs' Motion for an Award of Attorneys' Fees and Reimbursement of Expenses. I make this declaration based on my personal knowledge and if called as a witness, I could and would competently testify to the matters stated herein.

2. My firm has served as counsel to Plaintiff David Tolchin and as counsel for IPPs throughout the course of this litigation. The background and experience of Grossman LLP and its attorneys are summarized in the curriculum vitae attached hereto as **Exhibit A**.

3. Grossman LLP has prosecuted this litigation solely on a contingent-fee basis and has been at risk that it would not receive any compensation for prosecuting claims against the defendants. While Grossman LLP devoted its time and resources to this matter, it has foregone other legal work for which it would have been compensated.

4. During the pendency of the litigation, Grossman LLP performed the following work: Preparation and defense of Plaintiff David Tolchin's deposition testimony; coordinating, drafting and completion of discovery responses, including interrogatories and document production; communicating with Plaintiff regarding terms of proposed settlements; and review of all proposed settlement agreements and communications with Plaintiff regarding duties to the class in settlement approval.

5. A summary of work performed by Grossman LLP and detailed billing records from June 1, 2013 to February 28, 2017 were submitted with the Declaration of Judd B. Grossman in Support of Indirect Purchaser Plaintiffs' Motion for an Award of Attorneys' Fees and Reimbursement of Expenses on Behalf of Grossman LLP and filed on May 26, 2017. (ECF No. 1813-18). Counsel for Plaintiffs did not and do not seek attorneys' fees for any time billed prior to the appointment of lead counsel. *See* Order dated May 17, 2013 (ECF No. 198).

6. In summary, the total number of hours spent by Grossman LLP since June 1, 2013 was 27.6, with a corresponding lodestar of $14,659.50 based on current rates.

7. Attached hereto as **Exhibit B** is a summary of the expenses Grossman LLP has incurred from June 1, 2013 to present, plus applicable case filing fees. Grossman LLP expended a total of $1,075.30 in unreimbursed costs and expenses in connection with the prosecution of this case. These expenses were incurred on behalf of IPPs by Grossman LLP on a contingent basis and have not been reimbursed. The expenses reflected in Exhibit B were prepared from expense reports, vouchers, receipts, and bank records, and thus represent an accurate recordation of the expenses incurred. I have reviewed the time and expenses reported by Grossman LLP in this case which are included in this declaration, and I affirm that they are true and accurate.

I declare under penalty of perjury under the laws of the United States that the foregoing is true and correct.

Executed on April 5, 2019, at New York, New York.

Counsel for Indirect Purchaser Plaintiffs

UNITED STATES DISTRICT COURT

NORTHERN DISTRICT OF CALIFORNIA

OAKLAND DIVISION

IN RE: LITHIUM ION BATTERIES ANTITRUST LITIGATION	Case No. 13-MD-02420 YGR (DMR) MDL NO. 2420
This Document Relates to: **ALL INDIRECT PURCHASER ACTIONS**	**DECLARATION OF ERIC A. GROVER IN SUPPORT OF INDIRECT PURCHASER PLAINTIFFS' MOTION FOR AN AWARD OF ATTORNEYS' FEES AND REIMBURSEMENT OF EXPENSES ON BEHALF OF KELLER GROVER LLP**

I, ERIC A. GROVER, declare:

1. I am a founding partner of Keller Grover LLP, Counsel for Indirect Purchaser Plaintiffs ("IPPs" or "Plaintiffs") in this action. I submit this declaration in support of IPPs' Motion for an Award of Attorneys' Fees and Reimbursement of Expenses. I make this declaration based on my personal knowledge and if called as a witness, I could and would competently testify to the matters stated herein.

2. Keller Grover LLP has served as counsel for IPPs throughout the course of this litigation. Keller Grover is a law firm that specializes in matters involving antitrust, consumer protection, data privacy, and plaintiffs'-side employment issues. The firm is also active in the area of whistleblower and *qui tam* actions. Keller Grover's two partners (each of whom has more than thirty years of experience) have been counsel in scores of cases that have resulted in the recovery of hundreds of millions of dollars on behalf of class members in antitrust, consumer, privacy, and employment class actions. Lawyers in the firm regularly litigate matters throughout California state and federal courts and federal courts around the United States.

3. Keller Grover LLP has prosecuted this litigation solely on a contingent-fee basis, and has been at risk that it would not receive any compensation for prosecuting claims against the defendants. While Keller Grover LLP devoted its time and resources to this matter, it has foregone other legal work for which it would have been compensated.

4. During the pendency of the litigation, Keller Grover LLP performed the following work: extensive document review from the voluminous documents produced by defendants in this case, responding to written discovery, including interrogatories, and preparing for and defending the full-day deposition of Keller Grover's client, Richard Johns.

5. Detailed billing records and a summary of the work performed by Keller Grover LLP from June 1, 2013 through February 28, 2017 were submitted with the Declaration of Eric A. Grover in Support of Indirect Purchaser Plaintiffs' Motion for an Award of Attorneys' Fees and Reimbursement of Expenses on Behalf of Keller Grover LLP filed on May 26, 2017. (ECF No.

1813–20. Counsel for Plaintiffs are not seeking attorneys' fees for any time billed prior to the appointment of lead counsel. *See* Order dated May 17, 2013 (ECF No. 198).

6. In summary, the total number of hours spent by Keller Grover LLP since June 1, 2013 was 942.30, with a corresponding lodestar of $290,370.00. The lodestar amount reflected in the summary and detailed billing records submitted on May 26, 2017 (ECF No. 1813–20) represents work assigned by Lead Counsel, and was performed by professional staff at my law firm. This summary was prepared from contemporaneous, daily time records regularly prepared and maintained by Keller Grover LLP.

7. Attached hereto as **Exhibit A** is a summary of the expenses Keller Grover LLP has incurred during the court of this litigation. The only pre-June 1, 2013 expense that is included is the $350.00 fee associated with the filing of the initial complaint on behalf of Keller Grover LLP's client. The two other expenses included in the summary relate to the deposition of Keller Grover LLP's client and were incurred in 2016. Keller Grover LLP expended a total of $2,474.85 in unreimbursed costs and expenses in connection with the prosecution of this case. These expenses were incurred on behalf of IPPs by Keller Grover LLP on a contingent basis and have not been reimbursed. The expenses reflected in **Exhibit A** were prepared from expense vouchers, receipts, and bank records, and thus represent an accurate recordation of the expenses incurred.

8. I have reviewed the time and expenses reported by Keller Grover LLP in this case which are included in this declaration and the declaration submitted on May 26, 2017, and I affirm that they are true and accurate.

I declare under penalty of perjury under the laws of the United States that the foregoing is true and correct.

Executed on April 12, 2019, at San Francisco, California.

/s/ Eric A. Grover

Keller Rohrback's antitrust and trade regulation practice represents Plaintiffs in state and federal courts to ensure that consumers get the benefits of free and fair competition in the marketplace. Keller Rohrback has successfully litigated cases on behalf of both consumers and businesses who have been harmed by illegal anti-competitive conduct, such as price fixing, price discrimination, misleading and deceptive marketing practices, and the monopolization and attempted monopolization of markets.

For decades, Keller Rohrback has served as lead counsel, on MDL executive committees, and in other prominent roles in large price-fixing and price discrimination cases.

REPRESENTATIVE CASES

Nurse Wage Litigation: Fleischman v. Albany Medical Center; Cason-Merenda v. Detroit Medical Center (N.D.N.Y.); (E.D. Mich.)

Keller Rohrback was Co-Lead Counsel in these long-running antitrust actions which recovered $105 million in underpaid wages resulting from an alleged conspiracy among hospitals to set the compensation of their nurse employees in Albany, New York, and Detroit, Michigan.

Ferko v. National Ass'n For Stock Car Auto Racing, Inc., No. 02-50 (E.D. Tex.)

Keller Rohrback was Counsel for Plaintiff, a shareholder in Texas Motor Speedway (TMS), in a lawsuit that charged NASCAR with breach of contract, unlawful monopolization, and conspiring with International Speedway Corporation (ISC) to restrain trade in violation of the antitrust laws. The settlement agreement allowed TMS to purchase North Carolina Speedway from ISC and required NASCAR to sanction a Nextel Cup Series race at TMS in the future, relief that was valued at $100.4 million.

In re Vitamins Antitrust Litigation, MDL No. 1285 (D.D.C.)

Keller Rohrback played a significant role in litigating this MDL case, one of the largest and most successful antitrust cases in history. Chief Judge Thomas Hogan certified two classes of businesses who directly purchased bulk vitamins and were overcharged as a result of a ten-year global price-fixing and market-allocation conspiracy. Recoveries for the class through settlement and verdict totaled over $1 billion.

In re Online DVD Rental Antitrust Litigation, MDL No. 2029 (N.D. Cal.)

Keller Rohrback represented purchasers of online DVD rental services accusing Wal-Mart and Netflix of engaging in a market allocation scheme. The class achieved settlements of over $30 million.

"The Court has repeatedly stated that the lawyering in the case at every stage was superb, and does again." *In re Linerboard Antitrust Litigation*, MDL No. 1261, 2004 WL 1221350 *6 (E.D. Pa. June, 2 2004) (DuBois, J.).

ANTITRUST AND TRADE REGULATION

REPRESENTATIVE CASES continued

Johnson v. Arizona Hospital and Healthcare Association, No. 07-1292 (D. Ariz.)

Keller Rohrback represented agency nurses who worked at various Arizona hospitals seeking to recover the underpayment of wages resulting from a conspiracy to suppress the cost of agency nurses. The class achieved settlements of more than $26 million.

Molecular Diagnostics v. Hoffman-La Roche, Inc., No. 04-1649 (D.D.C.)

Keller Rohrback served on the Executive Committee of this class action lawsuit on behalf of direct purchasers of thermus aquaticus DNA polymerase (Taq), an essential input to technologies used to study DNA. The lawsuit alleged that various Hoffman-La Roche entities, in concert with the Perkins Elmer Corp., fraudulently procured a patent for Taq with the intent and effect of illegally monopolizing the Taq market. The court approved a $33 million settlement in 2008.

Daisy Mountain Fire District v. Microsoft Corp., MDL No. 1332 (D. Md.)

Keller Rohrback obtained a settlement in excess of $4 million on behalf of a class of Arizona governmental entities that indirectly purchased operating systems and software from Microsoft for overcharges resulting from Microsoft's monopolistic practices. The settlement returned millions of dollars to local government entities at a time of severe budget crisis in the state.

Transamerican Refining Corporation v. Dravo Corp., No. 88-789 (S.D. Tex.)

Keller Rohrback served as Co-Lead Counsel in this class action filed on behalf of all cost-plus purchasers of specialty steel pipe. Fabricators and suppliers of that pipe were sued on allegations of a nationwide price fixing conspiracy. The class, comprised mainly of owners of electric generating plants and oil refineries, achieved a settlement of more than $49 million.

In approving a settlement, Judge Alan McDonald stated, "[T]he Court is impressed by the manner in which the issues have been addressed, the action has been initiated and resolved; and that is, of course, an accolade to the attorneys on both sides of the issue. And, of course, that is the underlying basis for the Court's approval. No one has more respect for the art of settlement than the incumbent of this bench. It is the most difficult of all undertakings by trial lawyers, and settlement always recognizes their composite judgment, oftentimes of nuances which are impossible to articulate. So given the caliber of the attorneys involved on both sides of this matter, the Court is satisfied that if it is good enough for them, it should be good enough for the Court." *In re Soft Drink Bottling Antitrust Litigation* (E.D. Wash. 1990).

Keller Rohrback enjoys a national reputation for excellence in prosecuting securities and financial fraud matters. We represent a variety of investors ranging from classes of individuals to large institutions. Many of our cases reflect recent financial scandals: we are pursuing claims against a group of international banks for rigging LIBOR; we represent investors in connection with their purchases of billions of dollars of mortgage-backed securities; and we pursued claims on behalf of employee benefit plans in connection with the Madoff Ponzi scheme. While our experience is diverse, our approach is simple and straightforward: we master the factual and legal bases for our claims with a focus on providing clear and concise explanations of the financial fraud and why our clients are entitled to recover.

In re IKON Office Solutions, Inc. Securities Litigation, MDL No. 1318 (E.D. Pa.)

Keller Rohrback served as Co-Lead Counsel representing the City of Philadelphia and eight other lead Plaintiffs in this certified class action alleging securities fraud. Class counsel achieved the highest securities fraud settlement at that time in the Eastern District of Pennsylvania by settling with Defendant IKON Office Solutions, Inc. for $111 million. The settlement was listed as one of the "largest settlements in class-action securities-fraud lawsuits since Congress reformed securities litigation in 1995" by *USA Today.*

In re Apple Computer, Inc. Derivative Litigation, No. 06-4128 (N.D. Cal.)

Keller Rohrback served on the Management Committee in this federal derivative shareholder action against nominal Defendant Apple Computer, Inc. and current and former directors and officers of Apple. Plaintiffs pursued breach of fiduciary duty, unjust enrichment, and gross mismanagement claims arising from backdated stock options granted between 1993 and 2001, which diverted millions of dollars of corporate assets to Apple executives. We achieved a settlement that awarded $14 million—one of the largest cash recoveries in a stock backdating case—and that required Apple to adopt a series of unique and industry-leading corporate enhancements.

Raymond Farrow understands the economics behind his clients' cases. Ray, a member of Keller Rohrback's nationally recognized Complex Litigation Group, is a litigation attorney whose practice focuses on antitrust and consumer protection. His background as an academic economist and teacher makes him uniquely qualified to work with economic experts and to communicate statistics and economic analysis to his clients and to the Court.

Working on antitrust matters, Ray must navigate the rules and issues of varied industries, including hi-tech industries involving constantly changing software and hardware. His many years of experience, strong working relationships with other antitrust litigators, and motivation to redress genuine harms to his clients help him tackle complex issues in litigation and across the negotiating table. Most recently, Ray represented 20,000 nurses in a lawsuit that alleged a conspiracy by certain hospitals in Detroit to depress compensation levels that recovered almost $90 million for the nurses.

Prior to law school, Ray was a member of the Economics Department faculty at Seattle University, University of Washington, and Queen's University in Canada. While in law school, he served as Articles Editor of the Washington Law Review and as an intern for the U.S. Department of Labor.

In his spare time, Ray enjoys playing soccer and skiing.

Mark Griffin has over 25 years of experience in antitrust litigation. As a member of Keller Rohrback's nationally recognized Complex Litigation Group, Mark has litigated over 80 class action cases to successful conclusions. Mark joined Keller Rohrback in 1988 after serving as a judicial law clerk for Magistrate Judge Philip K. Sweigert of the U.S. District Court for the Western District of Washington. He helped launch the firm's antitrust practice with achievements including $49.5 million in settlements in the *Specialty Steel Pipe Antitrust Litigation*, paving the way for the firm's success in other class action litigation. Mark has been a partner at Keller Rohrback for almost 20 years, has served on the firm's Executive Committee since 2001, and has chaired the Antitrust Practice Group since 2007. Most recently, his leadership in an antitrust class action resulted in settlements totaling almost $90 million for registered nurses employed by hospitals in Detroit, (Cason-Merenda v. Since 2004, Mark has volunteered his time as pro bono coordinator at Keller Rohrback. He serves as a member of the Board of Trustees of the Legal Foundation of Washington (LFW) and previously as a board member and officer of the Legal Aid for Washington Fund (LAW Fund). In 2013, the firm received the President's Award from the LFW for its work in *Jerry Cooper, Inc. v. Lifequotes of America, Inc.*, a case in which Mark helped achieve judgments totaling over $760 million in favor of the plaintiff class. Mark also volunteers at Public Justice and has served as chair of the Consumer Protection, Antitrust & Unfair Business Practices Section of the Washington State Bar Association.

Amy Hanson helps her clients work past disputes so they can refocus on personal and business goals. As a member of Keller Rohrback's nationally recognized Complex Litigation Group, Amy's practice is focused on class action and other complex litigation. Amy is a practical problem-solver who enjoys rolling up her sleeves to obtain evidence and achieve solutions. She became interested in complex litigation because she wanted to help level the playing field for hard-working people and small businesses that were similarly harmed by large businesses and groups of businesses acting together. In her more than 17 years as a litigator Amy has represented patients who experienced serious medical problems after consuming prescription drugs, small business owners who challenged alleged nationwide price fixing conspiracies, employees who challenged the prudence of allowing their employers' 401(k) plans to hold and acquire company stock and employees who challenged the reasonableness of their employers' data security practices.

Prior to joining Keller Rohrback, Amy was a Student Advocate at the University of Wisconsin Law School's Consumer Litigation Clinic and a judicial law clerk intern for Judge Deininger at the State of Wisconsin Court of Appeals. She is currently honored to serve on the Vioxx Consumer Purchase Claims Subcommittee of the Plaintiffs' Steering Committee in *In re: Vioxx Prods. Liab. Counsel for Indirect Purchaser Plaintiffs

UNITED STATES DISTRICT COURT

NORTHERN DISTRICT OF CALIFORNIA

OAKLAND DIVISION

IN RE: LITHIUM ION BATTERIES ANTITRUST LITIGATION	Case No. 13-MD-02420 YGR (DMR) MDL NO. 2420
This Document Relates to: **ALL INDIRECT PURCHASER ACTIONS**	**DECLARATION OF ROBERT J. GRALEWSKI, JR. IN SUPPORT OF INDIRECT PURCHASER PLAINTIFFS' MOTION FOR AN AWARD OF ATTORNEYS' FEES AND REIMBURSEMENT OF EXPENSES ON BEHALF OF KIRBY MCINERNEY LLP**

I, Robert J. Gralewski, Jr., declare:

1. I am a partner at Kirby McInerney LLP ("Kirby"), Counsel for Indirect Purchaser Plaintiffs ("IPPs" or "Plaintiffs") in this action. I submit this declaration in support of IPPs' Motion for an Award of Attorneys' Fees and Reimbursement of Expenses. I make this declaration based on my personal knowledge and if called as a witness, I could and would competently testify to the matters stated herein.

2. My firm has served as counsel to Erinn Tozer and as counsel for IPPs throughout the course of this litigation. The background and experience of Kirby and its attorneys are summarized in the curriculum vitae attached hereto as **Exhibit A**.

3. Kirby has prosecuted this litigation solely on a contingent-fee basis and has been at risk that it would not receive any compensation for prosecuting claims against the defendants. While Kirby devoted its time and resources to this matter, it has foregone other legal work for which it would have been compensated.

4. During the pendency of the litigation, Kirby has performed vital work on behalf of the Class. For example, one of Kirby's native Japanese speaking lawyers – Sawa Nagano – has played an instrumental role in discovery. Because of Ms. Nagano's superior Japanese language skills and antitrust experience, Ms. Nagano has been tasked by Co-Lead Counsel with high-level assignments such as: (1) having primary responsibility with transliteration for objection responses, (2) selecting exhibits for, preparing for, actively assisting at, and serving as check translator at five depositions of Panasonic and Sanyo employees in 2015, 2016, and 2017,[1] and (3) deposition designations in preparation for trial. Co-Lead Counsel also regularly relied upon Ms. Nagano to perform a myriad of other important tasks ranging from utilizing Japanese terms to search for and

[1] Ms. Nagano performed these duties in connection with the depositions of Fumitsugu Tachihara, Minoru Kondo, Akihiro Shimizu, Kazuhiro Nakae, and Hiroshi Shimokomaki. Ms. Nagano traveled to Japan for Mr. Nakae's deposition.

locate hot documents to providing English translations of foreign language documents which have been used as exhibits at depositions and in motions. Additionally, William Harris (another experienced Kirby antitrust lawyer) and I have reviewed documents at the direction of Co-Lead Counsel. This work included drafting a memorandum summarizing the results of a targeted review to help prepare for the hearing on NEC's Motion to Dismiss.

5. Attached hereto as **Exhibit B** is a billing summary of Kirby's total hours and lodestar, computed at current billing rates, from March 1, 2017 to present. This summary was prepared from contemporaneous, daily time records regularly prepared and maintained by Kirby. Attached hereto as **Exhibit C** is a compilation of my firm's detailed time records at historical billing rates**.** The lodestar amount is for work assigned by Co-Lead Counsel and was performed by professional staff at my law firm.

6. A summary of work performed by Kirby and detailed billing records from June 1, 2013 to February 28, 2017 were submitted with the Declaration of Robert J. Gralewski, Jr., in Support of Indirect Purchaser Plaintiffs' Motion for an Award of Attorneys' Fees and Reimbursement of Expenses on Behalf of Kirby and filed on May 26, 2017. (ECF No. 1813-Ex. 22). Counsel for Plaintiffs did not and do not seek attorneys' fees for any time billed prior to the appointment of lead counsel. *See* Order dated May 17, 2013 (ECF No. 198).

7. In summary, the total number of hours spent by Kirby since June 1, 2013 was 4,292.60, with a corresponding lodestar of $1,932,491.50 based on current rates.

8. Attached hereto as **Exhibit D** is a summary of the expenses Kirby has incurred from June 1, 2013 to present. Kirby expended a total of $135,439.09 in unreimbursed costs and expenses in connection with the prosecution of this case. These expenses were incurred on behalf of IPPs by Kirby on a contingent basis and have not been reimbursed. The expenses reflected in Exhibit D were prepared from expense reports, vouchers, receipts, and bank records, and thus represent an accurate recordation of the expenses incurred. I have reviewed the time and expenses reported by Kirby in this case which are included in this declaration, and I affirm that they are true and accurate.

I declare under penalty of perjury under the laws of the United States that the foregoing is true and correct.

Executed on April 5, 2019 at San Diego, California.

EXHIBIT A

Kirby McInerney LLP is a specialist plaintiffs' litigation firm with expertise in antitrust, commodities, securities, structured finance, whistleblower, health care, consumer, and other fraud litigation.

KM has achieved and is pursuing landmark results in the fields of antitrust, commodities fraud, securities fraud, corporate governance, consumer, and health care, representing our clients in both class actions and individual litigation. KM has recovered billions of dollars for its clients.

KM has been appointed interim lead counsel in *In re North Sea Brent Crude Oil Futures Litig.*, No. 13-md-02475 (S.D.N.Y.), a case brought on behalf of commodity futures traders alleging that certain oil companies misreported or otherwise manufactured market information for crude oil prices. KM also is co-lead counsel in the antitrust action *In re Libor-Based Financial Instruments Antitrust Litig.*, No. 11-md-02262 (S.D.N.Y.), a case alleging the fixing of prices of a benchmark interest rate; and co-lead counsel for the indirect purchaser plaintiffs in *In re Ductile Iron Pipe Fittings ("DIPF") Indirect Purchaser Antitrust Litig.*, No. 12-cv-169 (D.N.J.), a case alleging the raising and fixing of prices in the market for ductile iron pipe fittings.

KM was also co-lead counsel on behalf of indirect purchasers in *In re BP Propane Indirect Purchaser Antitrust Litig.*, No. 06-cv-3541 (N.D.Ill. 2010) which resulted in a $15 million settlement on behalf of propane purchasers.

KM served as lead counsel to classes of indirect purchasers in connection with antitrust proceedings against Microsoft in *Charles Cox and Old Factories, Inc. v. Microsoft Corp.*, Index No. 105193/00, Part 3 (N.Y. Sup. Ct.); *Gordon, et al. v. Microsoft Corp.*, No. MC 00-5994 (Minn. Dist Ct. Hennepin County). These litigations resulted in settlements totaling nearly a billion dollars for consumers in the States of New York, Florida, Tennessee, West Virginia, and Minnesota (where the litigation proceeded to trial). The specific cases cited here, conducted on behalf New York and Minnesota consumers, resulted in recoveries of approximately $350 million and $175 million, respectively.

Additionally, KM acted as lead counsel in *In re Reformulated Gasoline (RFG) Antitrust and Patent Litig. and Related Actions*, No. 05-cv-01671 (C.D. Cal), an antitrust class action pertaining to Unocal's alleged manipulation of the standard-setting process for low-emissions reformulated gasoline in California, which plaintiffs claim caused inflated retail prices. This litigation resulted in a $48 million settlement for indirect purchasers. KM also acted as one of the firms with primary responsibility for *In re Visa Check/MasterMoney Antitrust Litig.*, No. 96-cv-05238 (E.D.N.Y.), a case on behalf of a class of retailers in connection with Visa MasterCard policies pertaining to debit card fees. The litigation resulted in a settlement of over $3 billion for the class and landmark injunctive relief.

KM has been involved in some of the most cutting edge areas of market manipulation cases, including a seminal case involving Sumitomo Corporation's manipulation of the copper market. Of late, KM represented market makers and hedge funds in commodities manipulation cases involving silver, propane and fixed income

products. KM's experience in market manipulation and price fixing for both indirect and direct purchasers, in cases brought under the Sherman Act and state law analogs, spans the markets for gasoline, propane, cement, concrete, steel, potash, silver and even fixed income products.

Many of KM's attorneys are exceptionally well versed in antitrust and commodities litigation. David Kovel, the partner with our firm most involved in commodities litigation, was a commodities trader prior to receiving his JD/MBA and worked in the commodities export markets. As a commodities trader, Mr. Kovel took financial risk in futures and options markets and traded physical markets in U.S., Europe, Asia and Latin America. He became a specialist at trading in futures delivery markets and understanding the relationship between futures prices and the physical spot market. Prior to joining KM, Alice McInerney was Chief of the Investor Protection Bureau and Deputy Chief of the Antitrust Bureau of the New York Attorney General's office. Partner Daniel Hume and our associates too have exceptional antitrust experience.

Some notable KM antitrust work includes:

- *In re Visa Check/MasterMoney Antitrust Litig.*, No. 96-cv-5238 (S.D.N.Y.) (over $3 billion settlement in direct purchaser debit card fee case – KM was class counsel with second largest lodestar in the case);

- *Microsoft antitrust cases*: KM acted as a lead counsel to classes of indirect purchasers in connection with antitrust proceedings against Microsoft. The litigations resulted in settlement totaling nearly a billion dollars for consumers in the states of New York, Florida, Tennessee, West Virginia, and Minnesota (where the litigation proceeded to trial). We presently are helping lead a similar effort on behalf of consumers and government entities in Canada;

- *CRT and LCD Price Fixing Cases*: KM is playing a lead role in the Cathode Ray Tube indirect purchaser antitrust litigation that is approaching trial and played a significant role as well in the Liquid Crystal Display indirect purchaser litigation which recently settled for over $1 billion;

- *In re Reformulated Gasoline (RFG) Antitrust and Patent Litig. and Related Actions*, No. 05-cv-01671 (C.D. Cal. 2005) ($48 million settlement on behalf of indirect gasoline purchasers);

Although the lawyers in this litigation have appeared considerably more in the state courts than in the federal court, they have appeared in the federal court sufficiently for me to attest as to the high professional character of their work. Every issue which has come to this court has been presented by both sides with a thoroughness and zeal which is outstanding .... In sum, plaintiffs and their attorneys undertook a very large and difficult litigation in both the state and federal courts, where the stakes were enormous. This litigation was hard fought over a period of four years. Plaintiffs achieved a settlement which altered commercial relationships involving literally hundreds of millions of dollars."

I submit this declaration in support of IPPs' Motion for an Award of Attorneys' Fees and Reimbursement of Expenses. I make this declaration based on my personal knowledge and if called as a witness, I could and would competently testify to the matters stated herein.

2. My firm has served as counsel to Erinn Tozer and as counsel for IPPs throughout the course of this litigation. The background and experience of Kirby and its attorneys are summarized in the curriculum vitae attached hereto as **Exhibit A**.

3. Kirby has prosecuted this litigation solely on a contingent-fee basis, and has been at risk that it would not receive any compensation for prosecuting claims against the defendants. While Kirby devoted its time and resources to this matter, it has foregone other legal work for which it would have been compensated.

4. During the pendency of the litigation, Kirby has performed vital work on behalf of the Class. For example, one of Kirby's native Japanese speaking lawyers – Sawa Nagano – has played an instrumental role in discovery. Because of Ms. Nagano's superior Japanese language skills and antitrust experience, Ms. Nagano has been tasked with high-level assignments such as: (1) having primary responsibility with transliteration for objection responses, and (2) selecting exhibits for, preparing for, actively assisting at, and serving as check translator at five depositions of Panasonic and Sanyo employees in 2015, 2016, and 2017.[1] Co-Lead Counsel also regularly relied upon Ms. Nagano to perform a myriad of other important tasks ranging from utilizing Japanese terms to search for and locate hot documents to providing English translations of foreign language documents which have been used as exhibits at depositions and in motions. Additionally,

[1] Ms. Nagano performed these duties in connection with the depositions of Fumitsugu Tachihara, Minoru Kondo, Akihiro Shimizu, Kazuhiro Nakae, and Hiroshi Shimokomaki. Ms. Nagano traveled to Japan for Mr. Nakae's deposition.

William Harris (another experienced Kirby antitrust lawyer) and I have reviewed documents at the direction of Co-Lead Counsel. This work included drafting a memorandum summarizing the results of a targeted review to help prepare for the hearing on NEC's Motion to Dismiss.

5. Attached hereto as **Exhibit B** is a billing summary of Kirby's total hours and lodestar, computed at current billing rates, from June 1, 2013 to February 28, 2017. Counsel for Plaintiffs are not seeking attorneys' fees for any time billed prior to the appointment of lead counsel. *See* Order dated May 17, 2013 (ECF No. 198). The total number of hours spent by Kirby during this period of time was 4,003.20, with a corresponding lodestar based on current rates of $1,788,491.50. The lodestar amount reflected in Exhibit B is for work assigned by Lead Counsel, and was performed by professional staff at my law firm. This summary was prepared from contemporaneous, daily time records regularly prepared and maintained by Kirby.

6. Attached hereto as **Exhibit C** is a list of the various billing rates each attorney and staff member at my firm has billed at in this case**.**

7. Attached hereto as **Exhibit D** is a compilation of my firm's detailed records at historical billing rates. The entries in **Exhibit D** have been redacted per the Court's Order in ECF No. 1803.

8. Attached hereto as **Exhibit E** is a summary of the expenses Kirby has incurred during the course of this litigation. Kirby expended a total of $133,946.20 in unreimbursed costs and expenses in connection with the prosecution of this case. These expenses were incurred on behalf of IPPs by Kirby on a contingent basis and have not been reimbursed. The expenses reflected in **Exhibit E** were prepared from expense vouchers, receipts, and bank records, and thus represent an accurate recordation of the expenses incurred.

9. I have reviewed the time and expenses reported by Kirby in this case which are included in this declaration, and I affirm that they are true and accurate.

I declare under penalty of perjury under the laws of the United States that the foregoing is true and correct.

Executed on May 24, 2017 at San Diego, California.

EXHIBIT A

Kirby McInerney LLP is a specialist plaintiffs' litigation firm with expertise in antitrust, commodities, securities, structured finance, whistleblower, health care, consumer, and other fraud litigation.

KM has achieved and is pursuing landmark results in the fields of antitrust, commodities fraud, securities fraud, corporate governance, consumer, and health care, representing our clients in both class actions and individual litigation. KM has recovered billions of dollars for its clients.

KM has been appointed interim lead counsel in *In re North Sea Brent Crude Oil Futures Litig.*, No. 13-md-02475 (S.D.N.Y.), a case brought on behalf of commodity futures traders alleging that certain oil companies misreported or otherwise manufactured market information for crude oil prices. KM also is co-lead counsel in the antitrust action *In re Libor-Based Financial Instruments Antitrust Litig.*, No. 11-md-02262 (S.D.N.Y.), a case alleging the fixing of prices of a benchmark interest rate; and co-lead counsel for the indirect purchaser plaintiffs in *In re Ductile Iron Pipe Fittings ("DIPF") Indirect Purchaser Antitrust Litig.*, No. 12-cv-169 (D.N.J.), a case alleging the raising and fixing of prices in the market for ductile iron pipe fittings.

KM was also co-lead counsel on behalf of indirect purchasers in *In re BP Propane Indirect Purchaser Antitrust Litig.*, No. 06-cv-3541 (N.D.Ill. 2010) which resulted in a $15 million settlement on behalf of propane purchasers.

KM served as lead counsel to classes of indirect purchasers in connection with antitrust proceedings against Microsoft in *Charles Cox and Old Factories, Inc. v. Microsoft Corp.*, Index No. 105193/00, Part 3 (N.Y. Sup. Ct.); *Gordon, et al. v. Microsoft Corp.*, No. MC 00-5994 (Minn. Dist Ct. Hennepin County). These litigations resulted in settlements totaling nearly a billion dollars for consumers in the States of New York, Florida, Tennessee, West Virginia, and Minnesota (where the litigation proceeded to trial). The specific cases cited here, conducted on behalf New York and Minnesota consumers, resulted in recoveries of approximately $350 million and $175 million, respectively.

Additionally, KM acted as lead counsel in *In re Reformulated Gasoline (RFG) Antitrust and Patent Litig. and Related Actions*, No. 05-cv-01671 (C.D. Cal), an antitrust class action pertaining to Unocal's alleged manipulation of the standard-setting process for low-emissions reformulated gasoline in California, which plaintiffs claim caused inflated retail prices. This litigation resulted in a $48 million settlement for indirect purchasers. KM also acted as one of the firms with primary responsibility for *In re Visa Check/MasterMoney Antitrust Litig.*, No. 96-cv-05238 (E.D.N.Y.), a case on behalf of a class of retailers in connection with Visa MasterCard policies pertaining to debit card fees. The litigation resulted in a settlement of over $3 billion for the class and landmark injunctive relief.

KM has been involved in some of the most cutting edge areas of market manipulation cases, including a seminal case involving Sumitomo Corporation's manipulation of the copper market. Of late, KM represented market makers and hedge funds in commodities manipulation cases involving silver, propane and fixed income

products. KM's experience in market manipulation and price fixing for both indirect and direct purchasers, in cases brought under the Sherman Act and state law analogs, spans the markets for gasoline, propane, cement, concrete, steel, potash, silver and even fixed income products.

Many of KM's attorneys are exceptionally well versed in antitrust and commodities litigation. David Kovel, the partner with our firm most involved in commodities litigation, was a commodities trader prior to receiving his JD/MBA and worked in the commodities export markets. As a commodities trader, Mr. Kovel took financial risk in futures and options markets and traded physical markets in U.S., Europe, Asia and Latin America. He became a specialist at trading in futures delivery markets and understanding the relationship between futures prices and the physical spot market. Prior to joining KM, Alice McInerney was Chief of the Investor Protection Bureau and Deputy Chief of the Antitrust Bureau of the New York Attorney General's office. Partner Daniel Hume and our associates too have exceptional antitrust experience.

Some notable KM antitrust work includes:

• *In re Visa Check/MasterMoney Antitrust Litig.*, No. 96-cv-5238 (S.D.N.Y.) (over $3 billion settlement in direct purchaser debit card fee case – KM was class counsel with second largest lodestar in the case);

• *Microsoft antitrust cases*: KM acted as a lead counsel to classes of indirect purchasers in connection with antitrust proceedings against Microsoft. The litigations resulted in settlement totaling nearly a billion dollars for consumers in the states of New York, Florida, Tennessee, West Virginia, and Minnesota (where the litigation proceeded to trial). We presently are helping lead a similar effort on behalf of consumers and government entities in Canada;

• *CRT and LCD Price Fixing Cases*: KM is playing a lead role in the Cathode Ray Tube indirect purchaser antitrust litigation that is approaching trial and played a significant role as well in the Liquid Crystal Display indirect purchaser litigation which recently settled for over $1 billion;

• *In re Reformulated Gasoline (RFG) Antitrust and Patent Litig. and Related Actions*, No. 05-cv-01671 (C.D. Cal. 2005) ($48 million settlement on behalf of indirect gasoline purchasers);

Andrew Watt is a staff attorney based in our New York office focusing on securities and antitrust litigation. Mr. Watt worked at the firm as an associate from 2005 through 2008. He then returned to work with the firm as a staff attorney in 2010.

Recent cases on which Mr. Watt has worked include:

- Representation of the lead plaintiff in *In re Citigroup Inc Securities Litigation*, a class action arising out of Citigroup's alleged misrepresentations regarding their exposure to losses associated with numerous collateralized debt obligations. This case settled for $590 million;

- Representation, as co-lead counsel, of exchange-based investors in futures, swaps, and other Libor-based derivative products, alleging that defendant banks colluded to misreport and manipulate Libor rates; and

- Representation of a class of direct purchasers of Prograf, a branded prescription immunosuppressant used in organ transplant patients in an antitrust action against Astellas Pharma US, Inc. Plaintiffs allege that defendant filed a baseless citizen petition with the Food and Drug Administration ("FDA"), with the sole intent of foreclosing market entry by generic competitors, that improperly extended its monopoly and kept Prograf prices at supra-competitive levels.

Mr. Watt is admitted to the New York State Bar and the United States District Courts for the Southern and Eastern Districts of New York. He graduated from Columbia College (B.A., 1994), Yale University (M.A., 1999), and Columbia University School of Law (J.D., 2002), where he was a Harlan Fiske Stone Scholar.

Prior to joining KM, Mr. Watt practiced at Roberts & Holland, LLP.

Client & Adversary Recognition

KM received the highest available commendations from the City of NY four years in a row for its work on the AWP Litigation. In each of those four years, KM's efforts on the City's behalf received the overall rating of "excellent". The City elaborated, "*Kirby did a truly excellent job and the results reflect that*".

"The case has been in front of the Supreme Court of the United States once, and in front of the Ninth Circuit no fewer than three times. Throughout, [KM] has . . . brought a considerable degree of success . . . and thwarted attempts by other counsel who sought to settle . . . and destroy a potential billion dollars of class rights."

Plaintiff / client,
Epstein v. MCA, Inc.

"[The KM firm] proved to be a highly able and articulate advocate. Single-handedly, [KM] was able to demonstrate not only that [KM's] client had a good case but that many of the suspicions and objections held by the Nigerian Government were ill-founded."

English adversary in The Nigerian Cement Scandal

"[KM] represented us diligently and successfully. Throughout [KM's] representation of our firm, [KM's] commitment and attention to client concerns were unimpeachable."

European institutional defendant /client
involved in a multi-million dollar NASD arbitration

"Against long odds, [KM] was able to obtain a jury verdict against one of the larger, more prestigious New York law firms."

Plaintiff / client,
Vladimir v. U.S. Banknote Corporation

"[KM] represented our investors with probity, skill, and diligence. There is too much money involved in these situations to leave selection of class counsel to strangers or even to other institutions whose interests may not coincide."

Plaintiff / institutional client,

Although the lawyers in this litigation have appeared considerably more in the state courts than in the federal court, they have appeared in the federal court sufficiently for me to attest as to the high professional character of their work. Every issue which has come to this court has been presented by both sides with a thoroughness and zeal which is outstanding .... In sum, plaintiffs and their attorneys undertook a very large and difficult litigation in both the state and federal courts, where the stakes were enormous. This litigation was hard fought over a period of four years. Plaintiffs achieved a settlement which altered commercial relationships involving literally hundreds of millions of dollars."

2. My firm has served as counsel to Steven Bugge ("Bugge") and as counsel for IPPs throughout the course of this litigation. The background and experience of KKBS and its attorneys are summarized in the curriculum vitae attached hereto as **Exhibit A**.

During the pendency of the litigation, KKBS performed the following work: KKBS marshaled declarations and extensive discovery from its client, class representative Steven Bugge, prepared for and defended Bugge's deposition, analyzed settlements, and diligently and thoroughly communicated with its client.

The expenses reflected in Exhibit B were prepared from expense reports, vouchers, receipts, and bank records, and thus represent an accurate recordation of the expenses incurred. I have reviewed the time and expenses reported by KKBS in this case which are included in this declaration, and I affirm that they are true and accurate.

I declare under penalty of perjury under the laws of the United States that the foregoing is true and correct.

PROFESSIONAL SUMMARY

Mr. Lott is a trial lawyer, shareholder and Managing Partner at Langston & Lott, Attorneys at Law, PLLC in Booneville, Mississippi. Mr. Lott is a fourth generation attorney who works alongside his father, Duncan Lott, in the firm his grandfather established in 1964.

Langston & Lott has fifty years of experience successfully litigating on behalf of its clients. With a focus on mass tort, catastrophic personal injury,

wrongful death and products liability litigation, Langston & Lott enjoys a well-earned reputation as one of the state's most successful litigation firms.

Our firm has held leadership positions in national class actions such as the HMO (litigation coordinator) and Sulzer Hip Implant (resolution counsel) litigation. Langston & Lott has also been involved in many other large class action and mass tort cases ranging from asbestos to tobacco to pharmaceuticals to HMO and most recently, the BP Litigation.

Following the *Deepwater Horizon* disaster in April, 2010, Langston & Lott partnered with Faegre Baker Daniels in Minneapolis, Minnesota[1] to represent commercial fishermen who suffered economic damage from the oil spill. This team opened offices in Bayou La Batre, Alabama; Biloxi, Mississippi and New Orleans, Louisiana dedicated solely to prosecuting claims for commercial fishermen. Langston & Lott presently represents approximately 2,000 commercial seafood clients. This client base represents approximately one-third of the federally permitted (EEZ) fishermen in Gulf Coast Area (as defined by the settlement) and close to 60% of commercial shrimpers and oystermen in Mississippi. Other than members of the PSC, the Langston & Lott team of attorneys was the only group of plaintiff attorneys asked by Judge Barbier to speak in support of the settlement at the Fairness Hearing.

Langston & Lott was also one of the firms represented on the Plaintiffs Steering Committee in the Bausch & Lomb ReNu with Moisture Loc MDL centralized in South Carolina. Mr. Lott served on the Discovery Committee in that litigation.

In 2013, Casey Lott was appointed Chairman of the State Liaison Committee in *In Re Blue Cross Blue Shield Antitrust Litigation*, MDL 2406.

In 2014, Casey Lott was appointed to serve on the Plaintiff Steering Committee in the *Lipitor Products Liability Litigation*, MDL 2502.

Mr. Lott also accepts a number of *pro bono* cases each year for clients with worthy causes, but no resources to pay an attorney.

Counsel for Indirect Purchaser Plaintiffs

UNITED STATES DISTRICT COURT

NORTHERN DISTRICT OF CALIFORNIA

OAKLAND DIVISION

IN RE: LITHIUM ION BATTERIES ANTITRUST LITIGATION	Case No. 13-MD-02420 YGR (DMR) MDL NO. 2420 **DECLARATION OF ERIC S. SOMERS IN SUPPORT OF INDIRECT PURCHASER PLAINTIFFS' MOTION FOR AN AWARD OF ATTORNEYS' FEES AND REIMBURSEMENT OF EXPENSES ON BEHALF OF LEXINGTON LAW GROUP**
This Document Relates to: **ALL INDIRECT PURCHASER ACTIONS**	

I, Eric S. Somers, declare:

1. I am a partner with the Lexington Law Group, Counsel for Indirect Purchaser Plaintiffs ("IPPs" or "Plaintiffs") in this action. I submit this declaration in support of IPPs' Motion for an Award of Attorneys' Fees and Reimbursement of Expenses. I make this declaration based on my personal knowledge and if called as a witness, I could and would competently testify to the matters stated herein.

2. My firm has served as counsel to current plaintiff Jason Ames, as well as prior plaintiffs Robert Hyams, Matthew Weiner, Wilbur Franklin, Susanne Hiller, and Chad Conover, and as counsel for IPPs throughout the course of this litigation. The background and experience of Lexington Law Group and its attorneys are summarized in the curriculum vitae attached hereto as **Exhibit A**.

3. Lexington Law Group has prosecuted this litigation solely on a contingent-fee basis and has been at risk that it would not receive any compensation for prosecuting claims against the defendants. While Lexington Law Group devoted its time and resources to this matter, it has foregone other legal work for which it would have been compensated.

4. During the pendency of the litigation, Lexington Law Group performed the following work as to Mr. Ames and the other putative class representatives: explained the nature of the proceedings to the clients; reviewed pleading amendments relating to the clients; coordinated the collection and categorization of product purchase evidence provided by the clients and ensured that all evidence preservation duties were satisfied; assisted the clients in responding to written discovery propounded by the Defendants and later supplementing these responses, including extensive ESI searches requested by Defendants; prepared Mr. Ames for his deposition and first-chaired the defense of that deposition; prepared another class representative for a deposition that was initially requested by Defendants but then cancelled; reviewed proposed settlements to ensure that Plaintiffs understood the agreements and the impact on Mr. Ames and the putative class; and monitored the case proceedings in order to answer questions from Mr. Ames and the clients.

5. Attached hereto as **Exhibit B** is a billing summary of Lexington Law Group's total hours and lodestar, computed at current billing rates, from March 1, 2017 to February 28, 2019. This summary was prepared from contemporaneous, daily time records regularly prepared and maintained by Lexington Law Group. Attached hereto as **Exhibit C** is a compilation of my firm's detailed time records at historical billing rates. Lexington Law Group's rates remained the same from November 2012 to December 2018, then increased as of January 1, 2019. The lodestar amount is for work assigned by Co-Lead Counsel and was performed by professional staff at my law firm.

6. A summary of work performed by Lexington Law Group and detailed billing records from June 1, 2013 to February 28, 2017 were submitted with the Declaration of Eric S. Somers in Support of Indirect Purchaser Plaintiffs' Motion for an Award of Attorneys' Fees and Reimbursement of Expenses on Behalf of Lexington Law Group and filed on May 26, 2017. (ECF No. 1813-27). As noted above, the billing rates of certain Lexington Law Group attorneys who performed work during that time have increased since the previous submission. Specifically, Eric Somers now bills at $850 an hour, Mark Todzo at $800 an hour, Joe Mann at $650 an hour, and Lisa Burger at $550 an hour.

7. In summary, the total number of hours spent by Lexington Law Group between June 1, 2013 and February 28, 2019 was 122.9, with a corresponding lodestar based on current rates (for March 1, 2017 to February 28, 2019) and then-current rates (for June 1, 2013 to February 28, 2017) of $75,824.

8. Attached hereto as **Exhibit D** is a summary of the expenses Lexington Law Group has incurred from June 1, 2013 to February 28, 2019, plus applicable case filing fees. Lexington Law Group has expended a total of $632.20 in unreimbursed costs and expenses in connection with the prosecution of this case. These expenses were incurred on behalf of IPPs by Lexington Law Group on a contingent basis and have not been reimbursed. The expenses reflected in Exhibit D were prepared from expense vouchers, receipts, and confirmatory correspondence, and thus represent an accurate recordation of the expenses incurred. A compilation of these

transactional records is attached hereto in **Exhibit E**. These transactional records have been redacted to remove sensitive personal and financial information. I have reviewed the time and expenses reported by Lexington Law Group in this case which are included in this declaration, and I affirm that they are true and accurate.

I declare under penalty of perjury under the laws of the United States that the foregoing is true and correct.

Executed on April 17, 2019 at San Francisco, California.

ATTORNEY BACKGROUND AND EXPERIENCE

Eric S. Somers specializes in complex consumer, antitrust and environmental public interest litigation. Mr. Somers recently represented a class of consumers in a case against a major paint manufacturer alleging a manufacturing defect that resulted in nationwide relief for aggrieved consumers. He represented a group of plaintiffs in a case against major inkjet printer manufacturers regarding false and misleading print speed representations and he was plaintiff's counsel in a successful class action case alleging violations of the Fair Debt Collection Practices Act against Chase Bank. Mr. Somers was also Liaison Counsel in a complex coordinated proceeding alleging violations of the Truth In Lending Act by California automobile dealers that resulted in industry wide changes in advertising practices.

Mr. Somers also has significant experience enforcing California's landmark Right-to-Know law, Proposition 65, against Fortune 500 companies in the tobacco, pharmaceutical, chemical, cosmetics, water quality, costume jewelry and retail industries. These cases have led to reformulation of thousands of products designed for children to eliminate toxic chemicals such as lead, arsenic, toluene, di-n-butyl phthalate (DBP) and di-2-ethylhexyl phthalate (DEHP). Examples of consumer products that have been reformulated include children's playsets (arsenic treated wood), water filters (lead and arsenic) and children's jewelry (lead). Many of these private enforcement actions have been co-litigated with the California

Attorney General and other public enforcement agencies.

Mr. Somers founded the Lexington Law Group in 1996 and is a principal of the firm. Mr. Somers received his law degree from Hastings College of the Law and received a B.A. from Tulane University. While attending law school, Mr. Somers externed for the Honorable John P. Vukasin, Jr., United States District Court, Northern District of California.

Mark N. Todzo has devoted his practice of law to the representation of plaintiffs in antitrust, consumer and environmental protection litigation for over fifteen years. In that time, he has represented aggrieved individuals, nonprofit organizations and public entities in litigation that has curbed abusive and illegal corporate practices. Mr. Todzo's varied work has, among other things, helped to remove toxic chemicals from the environment, increased staffing in nursing homes, reformed deceptive advertising practices and recovered millions of dollars for the benefit of consumers. Mr. Todzo has argued cases in state and federal trial courts as well as courts of appeal and the California Supreme Court.

Mr. Todzo has served as class counsel in numerous class action lawsuits as well as liaison counsel in complex coordinated actions. He was recently lead counsel in a MDL case against Comcast on behalf of a class of subscribers who were blocked from using peer-to-peer file sharing programs. Mr. Todzo is currently representing classes of individuals in a variety of different cases, including an antitrust class action against Blue Shield seeking to recover increased health care payments for out of network charges.

Mr. Todzo joined the Lexington Law Group in 1998 and is a principal of the firm. Mr. Todzo received his law degree from Hastings College of the Law in 1993 and received a A.B. from Duke University in 1986.

Howard Hirsch has devoted his career to representing plaintiffs in public interest litigation to enforce consumer protections, conserve natural resources, and protect human health from toxic chemicals. After obtaining two years of training and experience at complex litigation with a large commercial law firm, Mr. Hirsch spent five years as a staff attorney at a national, non-profit environmental group representing individuals and other non-profits in citizen suits against polluters under the Clean Water Act, Clean Air Act, and other federal statutes. In that capacity, Mr. Hirsch helped secure the largest penalty ever assessed against a Pennsylvania polluter in a citizens' suit to date.

Mr. Hirsch joined the Lexington Law Group in 2003 and is a principal of the firm. Since joining LLG, Mr. Hirsch's practice has included significant experience litigating class actions against, among others, technology companies, airlines, and health care providers and insurers as well as enforcing California's Proposition 65. These cases have resulted in changes to deceptive business practices, substantial monetary recoveries for the benefit of consumers, and in significant reductions in human exposures to toxic chemicals,. Mr. Hirsch has also volunteered his legal services to the homeless community of San Francisco and currently serves as a volunteer arbiter for the San Francisco Department of Human Services resolving disputes between homeless shelters and their residents.

Mr. Hirsch graduated from the University of California Berkeley Boalt Hall School of Law in 1996 and from Boston College in 1993.

Joe Mann joined the Lexington Law Group as an associate in September 2012. His practice includes representing plaintiffs in public interest litigation involving consumer rights, corporate accountability, and removing toxic chemicals from consumer products. Prior to joining the Lexington Law Group, Mr. Mann worked as a litigation attorney for the National Environmental Law Center, a non-profit organization specializing in the enforcement of federal environmental laws against the nation's most egregious polluters. His practice focused on citizen enforcement suits under the Clean Water Act, the Clean Air Act, and the Endangered Species Act. He also brought several successful challenges against the federal government itself, striking down insufficiently protective rules promulgated by the U.S. Environmental Protection Agency.

Before joining NELC, Mr. Mann spent a year as the Law Clerk to U.S. District Court Judge Irma E. Gonzalez in the Southern District of California. Mr. Mann earned his J.D. degree from New York University School of Law in 1999, where he served as Editor-in-Chief of the NYU Environmental Law Journal. He received his undergraduate degree from Northwestern University in 1991.

Lisa Burger joined the Lexington Law Group as an associate in the Spring of 2008. Since earning her law degree from the University of Notre Dame Law in 2005, Ms. Burger has devoted her practice of law to exclusively representing plaintiffs in environmental, consumer protection, and civil rights litigation. Her current practice focuses on representing consumers in complex class action matters alleging antitrust and unfair and deceptive business practices.

Before joining Lexington Law Group, Ms. Burger was a litigation fellow with Disability Rights Advocates (DRA), a non-profit law center in Berkeley, California, that specializes in class action litigation on behalf of people with disabilities. As the David Boies / LD Access Fellow, Ms. Burger's practice focused on increasing access to standardized testing for people with learning disabilities and ADHD and involved nearly every aspect of civil litigation in both federal and state court.

Counsel for Indirect Purchaser Plaintiffs

UNITED STATES DISTRICT COURT

NORTHERN DISTRICT OF CALIFORNIA

OAKLAND DIVISION

IN RE: LITHIUM ION BATTERIES ANTITRUST LITIGATION	Case No. 13-MD-02420 YGR (DMR) MDL NO. 2420
This Document Relates to: **ALL INDIRECT PURCHASER ACTIONS**	**DECLARATION OF ERIC S. SOMERS IN SUPPORT OF INDIRECT PURCHASER PLAINTIFFS' MOTION FOR AN AWARD OF ATTORNEYS' FEES AND REIMBURSEMENT OF EXPENSES ON BEHALF OF LEXINGTON LAW GROUP**

I, Eric S. Somers, declare:

1. I am a partner with the Lexington Law Group, Counsel for Indirect Purchaser Plaintiffs ("IPPs" or "Plaintiffs") in this action. I submit this declaration in support of IPPs' Motion for an Award of Attorneys' Fees and Reimbursement of Expenses. I make this declaration based on my personal knowledge and if called as a witness, I could and would competently testify to the matters stated herein.

2. My firm has served as counsel to current plaintiff Jason Ames, as well as prior plaintiffs Robert Hyams, Matthew Weiner, Wilbur Franklin, Susanne Hiller and Chad Conover, and as counsel for IPPs throughout the course of this litigation. The background and experience of Lexington Law Group and its attorneys are summarized in the curriculum vitae attached hereto as **Exhibit A**.

3. Lexington Law Group has prosecuted this litigation solely on a contingent-fee basis, and has been at risk that it would not receive any compensation for prosecuting claims against the defendants. While Lexington Law Group devoted its time and resources to this matter, it has foregone other legal work for which it would have been compensated.

4. During the pendency of the litigation, Lexington Law Group performed the following work as to Mr. Ames and the other putative class representatives: explained the nature of the proceedings to the clients; reviewed pleading amendments relating to the clients; coordinated the collection and categorization of product purchase evidence provided by the clients and ensured that all evidence preservation duties were satisfied; assisted the clients in responding to written discovery propounded by the Defendants and later supplementing these responses, including extensive ESI searches requested by Defendants; prepared Mr. Ames for his deposition and first-chaired the defense of that deposition; prepared another class representative for a deposition that was initially requested by Defendants but then cancelled; reviewed proposed settlements to ensure that Plaintiffs understood the agreements and the impact on Mr. Ames and the putative class; and monitored the case proceedings in order to answer questions from Mr. Ames and the clients.

5. Attached hereto as **Exhibit B** is a billing summary of Lexington Law Group's total hours and lodestar, computed at current billing rates, from June 1, 2013 to February 28, 2017. The total number of hours spent by Lexington Law Group during this period of time was 112.6, with a corresponding lodestar based on current rates of $68,512. The lodestar amount reflected in Exhibit B is for work assigned by Lead Counsel, and was performed by professional staff at my law firm. This summary was prepared from contemporaneous, daily time records regularly prepared and maintained by Lexington Law Group.

6. Attached hereto as **Exhibit C** is a list of the various billing rates each attorney and staff member at my firm has billed at in this case. Lexington Law Group's rates have remained the same from November 2012 to February 28, 2017. Thus, for Lexington Law Group, there is no difference between the "historical" and "current" rates at issue in the instant filing.

7. Attached hereto as **Exhibit D** is a compilation of my firm's detailed records at historical billing rates. The entries in Exhibit D have been redacted per the Court's Order in ECF No. 1803.

8. Attached hereto as **Exhibit E** is a summary of the expenses Lexington Law Group has incurred during the course of this litigation. Lexington Law Group expended a total of $632.20 in unreimbursed costs and expenses in connection with the prosecution of this case. These expenses were incurred on behalf of IPPs by Lexington Law Group on a contingent basis and have not been reimbursed. The expenses reflected in Exhibit E were prepared from expense vouchers and receipts, and thus represent an accurate recordation of the expenses incurred. We have not submitted costs for copy, mail, telephone, or computer expenses associated with the case.

9. I have reviewed the time and expenses reported by Lexington Law Group in this case which are included in this declaration, and I affirm that they are true and accurate.

I declare under penalty of perjury under the laws of the United States that the foregoing is true and correct.

Executed on May 23, 2017 at San Francisco, California.

ATTORNEY BACKGROUND AND EXPERIENCE

Eric S. Somers specializes in complex consumer, antitrust and environmental public interest litigation. Mr. Somers recently represented a class of consumers in a case against a major paint manufacturer alleging a manufacturing defect that resulted in nationwide relief for aggrieved consumers. He represented a group of plaintiffs in a case against major inkjet printer manufacturers regarding false and misleading print speed representations and he was plaintiff's counsel in a successful class action case alleging violations of the Fair Debt Collection Practices Act against Chase Bank. Mr. Somers was also Liaison Counsel in a complex coordinated proceeding alleging violations of the Truth In Lending Act by California automobile dealers that resulted in industry wide changes in advertising practices.

Mr. Somers also has significant experience enforcing California's landmark Right-to-Know law, Proposition 65, against Fortune 500 companies in the tobacco, pharmaceutical, chemical, cosmetics, water quality, costume jewelry and retail industries. These cases have led to reformulation of thousands of products designed for children to eliminate toxic chemicals such as lead, arsenic, toluene, di-n-butyl phthalate (DBP) and di-2-ethylhexyl phthalate (DEHP). Examples of consumer products that have been reformulated include children's playsets (arsenic treated wood), water filters (lead and arsenic) and children's jewelry (lead). Many of these private enforcement actions have been co-litigated with the California

Attorney General and other public enforcement agencies.

Mr. Somers founded the Lexington Law Group in 1996 and is a principal of the firm. Mr. Somers received his law degree from Hastings College of the Law and received a B.A. from Tulane University. While attending law school, Mr. Somers externed for the Honorable John P. Vukasin, Jr., United States District Court, Northern District of California.

Mark N. Todzo has devoted his practice of law to the representation of plaintiffs in antitrust, consumer and environmental protection litigation for over fifteen years. In that time, he has represented aggrieved individuals, nonprofit organizations and public entities in litigation that has curbed abusive and illegal corporate practices. Mr. Todzo's varied work has, among other things, helped to remove toxic chemicals from the environment, increased staffing in nursing homes, reformed deceptive advertising practices and recovered millions of dollars for the benefit of consumers. Mr. Todzo has argued cases in state and federal trial courts as well as courts of appeal and the California Supreme Court.

Mr. Todzo has served as class counsel in numerous class action lawsuits as well as liaison counsel in complex coordinated actions. He was recently lead counsel in a MDL case against Comcast on behalf of a class of subscribers who were blocked from using peer-to-peer file sharing programs. Mr. Todzo is currently representing classes of individuals in a variety of different cases, including an antitrust class action against Blue Shield seeking to recover increased health care payments for out of network charges.

Mr. Todzo joined the Lexington Law Group in 1998 and is a principal of the firm. Mr. Todzo received his law degree from Hastings College of the Law in 1993 and received a A.B. from Duke University in 1986.

Howard Hirsch has devoted his career to representing plaintiffs in public interest litigation to enforce consumer protections, conserve natural resources, and protect human health from toxic chemicals. After obtaining two years of training and experience at complex litigation with a large commercial law firm, Mr. Hirsch spent five years as a staff attorney at a national, non-profit environmental group representing individuals and other non-profits in citizen suits against polluters under the Clean Water Act, Clean Air Act, and other federal statutes. In that capacity, Mr. Hirsch helped secure the largest penalty ever assessed against a Pennsylvania polluter in a citizens' suit to date.

Mr. Hirsch joined the Lexington Law Group in 2003 and is a principal of the firm. Since joining LLG, Mr. Hirsch's practice has included significant experience litigating class actions against, among others, technology companies, airlines, and health care providers and insurers as well as enforcing California's Proposition 65. These cases have resulted in changes to deceptive business practices, substantial monetary recoveries for the benefit of consumers, and in significant reductions in human exposures to toxic chemicals,. Mr. Hirsch has also volunteered his legal services to the homeless community of San Francisco and currently serves as a volunteer arbiter for the San Francisco Department of Human Services resolving disputes between homeless shelters and their residents.

Mr. Hirsch graduated from the University of California Berkeley Boalt Hall School of Law in 1996 and from Boston College in 1993.

Joe Mann joined the Lexington Law Group as an associate in September 2012. His practice includes representing plaintiffs in public interest litigation involving consumer rights, corporate accountability, and removing toxic chemicals from consumer products. Prior to joining the Lexington Law Group, Mr. Mann worked as a litigation attorney for the National Environmental Law Center, a non-profit organization specializing in the enforcement of federal environmental laws against the nation's most egregious polluters. His practice focused on citizen enforcement suits under the Clean Water Act, the Clean Air Act, and the Endangered Species Act. He also brought several successful challenges against the federal government itself, striking down insufficiently protective rules promulgated by the U.S. Environmental Protection Agency.

Before joining NELC, Mr. Mann spent a year as the Law Clerk to U.S. District Court Judge Irma E. Gonzalez in the Southern District of California. Mr. Mann earned his J.D. degree from New York University School of Law in 1999, where he served as Editor-in-Chief of the NYU Environmental Law Journal. He received his undergraduate degree from Northwestern University in 1991.

Lisa Burger joined the Lexington Law Group as an associate in the Spring of 2008. Since earning her law degree from the University of Notre Dame Law in 2005, Ms. Burger has devoted her practice of law to exclusively representing plaintiffs in environmental, consumer protection, and civil rights litigation. Her current practice focuses on representing consumers in complex class action matters alleging antitrust and unfair and deceptive business practices.

Before joining Lexington Law Group, Ms. Burger was a litigation fellow with Disability Rights Advocates (DRA), a non-profit law center in Berkeley, California, that specializes in class action litigation on behalf of people with disabilities. As the David Boies / LD Access Fellow, Ms. Burger's practice focused on increasing access to standardized testing for people with learning disabilities and ADHD and involved nearly every aspect of civil litigation in both federal and state court.

THE FIRM'S PRACTICE AND ACHIEVEMENTS

Milberg Tadler Phillips Grossman LLP ("MTPG") helps clients challenge corporate wrongdoing through class action, mass tort, personal injury, consumer, and shareholder rights services. MTPG was established in 2018 by members of Milberg LLP, a leading class action and complex litigation firm, and Sanders Phillips Grossman LLC, a nationally recognized plaintiffs' law firm representing consumers in mass tort and personal injury cases.[1] MTPG is headquartered in New York City and works with a network of lawyers located across the country.

Milberg LLP, founded in 1965, took the lead in landmark cases that set groundbreaking legal precedents and prompted changes in corporate governance benefitting shareholders and consumers. Milberg LLP pioneered federal class action litigation and is widely recognized as a leader in defending the rights of victims of corporate and other large-scale wrongdoing. It has been responsible for recoveries valued at approximately $56 billion during the life of the firm.

Sanders Phillips Grossman LLC provides exemplary legal representation in the practice areas of Defective Drugs, Defective Medical Devices, Consumer Fraud, Whistleblower, Class Actions, Catastrophic Injury, and Toxic Exposure. As a nationally recognized leading plaintiffs' law firm for the past three decades, the firm and its predecessors have recovered more than one billion dollars for injured consumers. Sanders Phillips Grossman has offices in Seattle, WA; Los Angeles, CA; and Puerto Rico.

Through these firms' strategic partnership, MTPG represents government entities and individuals who have suffered harm from securities fraud, data breaches, antitrust violations, consumer fraud, corporate misconduct, opioids, water contamination, and a wide range of commercial and pharmaceutical malfeasance.

MTPG's ability to pursue claims against defendants is augmented by its investigators, headed by a 27-year veteran of the Federal Bureau of Investigation. The firm's lawyers have been regularly recognized as leaders in the plaintiffs' bar by the National Law Journal, Legal 500, Chambers USA, and Super Lawyers, among others.

MTPG'S LAWYERS ARE INDUSTRY LEADERS IN A VARIETY OF PRACTICE AREAS

Securities and Financial Litigation and Arbitration: In its early years, Milberg LLP built a new area of legal practice in representing shareholder interests under the then recently amended Rule 23 of the Federal Rules of Civil Procedure, which allowed securities fraud cases, among others, to proceed as class actions. MTPG's attorneys have since represented plaintiffs in an array of financial cases, including securities class actions, derivative litigations, accounting malpractice disputes, and FINRA arbitrations. Significant litigation results include: *In re Vivendi Universal, S.A. Securities Litigation* (jury verdict for plaintiff class in January 2010); *In re Tyco International, Ltd. Securities Litigation* ($3.2 billion settlement); *In re Nortel Networks Corp. Securities Litigation* (settlement for cash and stock valued at $1.142 billion); *In re Merck & Co., Inc. Securities Litigation*, Nos. 05-1151 and 05-2367 (D.N.J.) (a $1.062 billion recovery); *In re Comverse Technology, Inc. Derivative Litigation*, No. 601272/2006 (N.Y. Sup. Ct. N.Y. Cnty.) ($62 million settlement which also resulted in significant corporate governance reforms).

Consumer Litigation: MTPG's lawyers have long been leaders in protecting consumers from fraudulent and deceptive practices. For example, MTPG lawyers are part of the Court-appointed

[1] As of January 1, 2018, Milberg LLP's lawyers are now prosecuting new and active cases out of MTPG.

Plaintiffs' Executive Committee in *In re Apple, Inc. Device Performance Litigation*, 5:18-MD-02827-EJD (N.D. Cal.), a class action alleging Apple throttled the performance of certain devices, including iPhones, with degraded batteries.

MTPG lawyers also serve as co-lead counsel in class actions challenging the use of "natural" labeling on food products made with crops grown from seeds that have been genetically engineered using sophisticated laboratory techniques (GMOs). *In re Conagra Foods, Inc,*, No.11-05379 (M.D. Cal.) (multi-state class certified; affirmed by Ninth Circuit; petition for *writ of certiorari* denied by U.S. Supreme Court); *Frito-Lay North America, Inc. "All Natural" Litigation,* No. 12-MD-02413 (E.D.N.Y) (resolved by a court-approved settlement). Other representative consumer matters include *Correa v. Sensa Products, LLC.*, No. BC476808 (Cal. Super. Court, Los Angeles Cty.) ($9 million settlement in case alleging that the defendant, manufacturer of a weight-loss product, lacked a sufficient scientific basis for certain of its marketing claims); *In re Shop-Vac Marketing and Sales Practices Litigation*, No. 4:12-md-02380 (M.D. Pa.) (class action against Shop-Vac and Lowe's alleging that the companies misrepresented the tank capacity and horsepower of its wet/dry vacuums; settlement led to extended warranties and marketing and advertising changes); *Novak v. Pacific Bioscience Laboratories Products, Inc., and Pacific Bioscience Laboratories Products, Inc.,* Case No. BC582188 (Cal. Super. Court, Los Angeles Cty.) (pending case alleging that batteries in certain Clarisonic skin brushes are defective; motion for approval of settlement, which would extend owners' warranties and require the repair or replacement of affected brushers).

Data Breach and Privacy Litigation: MTPG's Data Breach and Privacy Practice Group litigates class actions alleging massive data breaches and other violations of consumers' personal and data privacy. Its attorneys have spearheaded numerous highly technical cases and have successfully advanced novel legal theories to protect consumers from ever-evolving cybersecurity and data privacy threats. Representative matters include *In re Equifax, Inc. Customer Data Breach Litigation*, 17-md-02800 (N.D. Ga.) (appointed to Plaintiffs' Steering Committee ("PSC")); *In re Yahoo Inc. Customer Data Security Breach Litigation*, No. 5:16-MD-02752 (N.D. Cal.) (appointed to the Plaintiffs' Executive Committee); *In re Target Corporation Customer Data Security Breach Litig.*, No. 14-md-2522 (D. Minn.) (appointed to the PSC; achieved a $10 million settlement (pending appeal)); *Torres, et al. v. Wendy's International, LLC*, 16-cv-00210 (M.D. Fla.) (plaintiffs' counsel; $3.4 million class action settlement awaiting final Court approval); *Fero v. Excellus Health Plan*, No. 6:16-cv-06569 (W.D.N.Y.) (special discovery counsel to lead counsel); *In re Anthem, Inc. Data Breach*, No. 15-MD-02617 (N.D. Cal.) (plaintiffs' counsel; settlement created a $115 million non-reversionary cash fund, delivered more than $500 million in value to the class, and required extensive injunctive relief to prevent a future breach (pending approval)); *In re Premera Blue Cross Customer Data Breach Litig.*, No. 3:15-md-2633-SI (D. Or.) (plaintiffs' counsel); *Carandang v. Google, Inc.* CGC-12-518415 (Cal. Super., San Francisco Cty.) (plaintiff's counsel; reached confidential resolution); *Ung, et al, v. Facebook, Inc.,* 1-12-CV-217244 (Cal. Super., Santa Clara Cty.) (plaintiff's counsel).

Antitrust: MTPG's Antitrust Practice Group prosecutes large, complex antitrust and trade regulation class actions and other cases that target some of the most powerful and well-funded corporate interests in the world. It has played an important role in many cases involving price-fixing, supply manipulation, tying arrangements, exclusive dealing, and refusals to deal. Significant antitrust cases include *In re Dealer Management Systems Antitrust Litigation*, 18-cv-00864 (N.D. Ill.) (Interim Lead Class Counsel for auto dealerships in a pending class action alleging anticompetitive practices in the markets for dealer management systems and data integration services); *Blessing v. Sirius XM Radio Inc.*, No. 09-cv-10035 (S.D.N.Y.) (Co-Lead Counsel; class settlement valued at $180 million); *Sandhaus v. Bayer AG, et al.*, No. 00-cv-6193 (D. Kan.) (Co-Lead Counsel, secured largest consumer recovery from a pay-for-delay case in Kansas: $9 million settlement); and *In re Fresh & Process Potatoes Antitrust Litig.*, No. 4:10-md-2186 (D. Idaho) (Co-Lead Counsel for Indirect Purchaser Plaintiffs, $5.5 million

settlement and agreed upon injunctive relief). The MTPG Antitrust Practice Group continues to act in a number of significant and ongoing antitrust cases including *In re Liquid Aluminum Sulfate Antitrust Litig.*, No. 16-md-2687 (D.N.J. 2015) (Plaintiffs' Steering Committee member); *In re Processed Eggs Antitrust Litig.*, MDL No. 2002 (E.D. Pa., 2008) (Indirect Purchaser Plaintiffs' Co-Lead Counsel); and *In re Disposable Contact Lens Antitrust Litigation*, No. 3:15-md-02626 (M.D. Fla. 2015).

False Claims Act Litigation: MTPG attorneys have expertise in a wide range of federal and state false claims act ("FCA") cases and have returned hundreds of millions of dollars to federal and state treasuries. Their successful results include: *CareCore* (alleging that CareCore violated the FCA by approving "prior authorizations" for expensive diagnostic procedures without reviewing them for medical necessity. The government intervened, the case settled for $54 million, and the relator received a 20% ($10.5 million) share of the settlement); *Bank of America* (alleging that Bank of America improperly recouped insurance proceeds from the U.S. Department of Housing and Urban Development. Settled as part of the $16.65 billion global settlement regarding Bank of America's mortgage practices – the largest civil settlement with a single entity in American history); *CareAll* (alleging one of Tennessee's largest home healthcare providers made fraudulent submissions of Medicare and Medicaid claims. The government intervened and the case settled for $25 million with a relator's share of $3.9 million); *Medline* (case arising from unlawful kickbacks, bribes, and other illegal remuneration to induce health care providers to continue to purchase defendant's medical supplies in which the government declined to intervene. The resulting $85 million settlement is one of the largest settlements of a non-intervened FCA case to date.); *Bristol-Myers Squibb* (FCA case brought in connection with the company's "off-label" promotion and sales of an anti-psychotic drug. One of seven FCA actions that formed the basis of the government's investigation into BMS's illegal marketing tactics which resulted in a total settlement of over $515 million.).

E-Discovery: Among the first plaintiffs' firms in the country to assemble and train a dedicated team to meet the e-discovery demands of complex litigation, Milberg LLP, at Ariana J. Tadler's direction, developed some of the most exceptional e-discovery capabilities among U.S. law firms. Established more than 15 years ago, that e-discovery practice has grown extensively and today, MTPG offers clients the ability to go toe-to-toe with adversaries in the fast-evolving e-discovery climate. This multidisciplinary group offers clients a full array of counsel services relating to discovery strategy, data preservation, data collection and storage, sophisticated data search and analysis, production, and computer forensic investigation, as well as training on e-discovery issues, including application of the recent amendments to the Federal Rules of Civil Procedure, local rules, and state law. MTPG's e-discovery attorneys are regularly called on by attorneys and courts to oversee complex discovery in high-stakes litigation. *E.g., In re Apple, Inc. Device Performance Litigation*, 5:18-MD-02827-EJD (N.D. Cal.) (appointed to Plaintiffs' Executive Committee and responsible for ESI and offensive discovery); *In re Equifax, Inc. NOTEWORTHY RESULTS AND PRECEDENT-SETTING DECISIONS

The quality of MTPG's representation is further evidenced by Milberg LLP's and MTPG's numerous significant recoveries and successes. Those firms and their attorneys have also been responsible for establishing many important precedents. Some of those achievements are described below:

- ***In re Merck & Co., Inc. Securities Litigation***, Nos. 05-1151 and 05-2367 (D.N.J.). Milberg LLP served as co-lead counsel in this federal securities fraud class action, and following over 12 years of hard-fought litigation, ultimately obtained a combined settlement totaling $1.062 billion, the largest securities class action settlement ever against a pharmaceutical company, which received final approval on June 28, 2016. This lawsuit involved claims under the Securities Exchange Act of 1934 against Merck and certain of its executives arising out of allegations that defendants made materially false and misleading statements concerning the safety profile and commercial viability of Merck's purported "blockbuster" drug VIOXX. During this litigation, Milberg LLP and co-lead counsel engaged in exhaustive discovery, including the review and analysis of over 35 million pages of documents involving complex scientific and medical issues, as well as the examination of over 59 fact and expert witnesses. Plaintiffs successfully appealed the dismissal of this action on state of limitations grounds to the Third Circuit Court of Appeals, and prevailed in defendants' further appeal to the Supreme Court, resulting in a unanimous decision by the Supreme Court in Plaintiffs' favor which clarified the law regarding the application of the statute of limitations to federal securities fraud claims. Plaintiffs' claims also survived additional motions to dismiss and motions for summary judgment, and the parties reached settlement less than three months before trial was scheduled to commence.
- ***In re Oppenheimer Rochester Funds Group Securities Litigation,*** No. 09-md-02063-JLK-KMT (D. Colo.). Milberg LLP, serving as co-lead counsel, litigated this complex securities class action brought on behalf of six separate classes of defrauded investors and obtained settlements totaling $89.5 million in cash for the classes.
- ***In re Vivendi Universal, S.A. Securities Litigation***, No. 02-5571 (S.D.N.Y.). Milberg LLP lawyers served among lead trial counsel and obtained a jury verdict for a class of defrauded investors after a trial lasting nearly four months. The jury found Vivendi liable for 57 false or misleading class period statements. At the close of the trial, Judge Richard Holwell commented, "I can only say that this is by far the best tried case that I have had in my time on the bench. I don't think either side could have tried the case better than these counsel have."
- ***In re Target Corporation Customer Data Security Breach Litigation***, No. 14-md-02522-PAM (D. Minn.). Partner Ariana J. Tadler serves on the Steering Committee guiding the landmark data breach case. In addition to participating in overall case strategy, the drafting of pleadings and motions, and settlement negotiation, the Milberg LLP team was responsible for leading discovery, which included targeted discovery requests, the establishment of a series of discovery protocols, the selection of a data-hosting provider, and discovery motion practice that involved unique topics warranting special attention. The case, which involved an estimated 110 million consumers whose personal information was compromised, settled for $10 million, entitling individual consumers to recover losses up to $10,000. (An appeal remains pending before the Eighth Circuit.)
- ***In re Conagra Foods, Inc.,*** **No.11-05379 (M.D. Cal.).** The firm is co-lead counsel in a class action against ConAgra Foods, Inc., the maker of Wesson Oils, concerning the company's use of the phrase "100% Natural" to market food products made with crops grown from seeds that have been genetically engineered using sophisticated

laboratory techniques. The District Court certified eleven separate statewide classes of Wesson purchasers. ConAgra appealed the class certification order to the Ninth Circuit Court of Appeals, which affirmed in a decision considered extremely favorable to consumer class actions. Conagra petitioned the U.S. Supreme Court for review of the Ninth Circuit's decision. The Supreme Court denied the petition.

- ***In re Chase Bank USA, N.A. "Check Loan" Contract Litig.***, No. 09-2032 (N.D. Cal.). Milberg LLP served on the Executive Committee representing the class in this action against JP Morgan Chase & Co. The complaint alleged that Chase improperly increased by 150% the minimum monthly payment requirement for customers who entered into balance transfer loans with "fixed" interest rates that were guaranteed to remain so for the "life of the loan." Milberg and its co-counsel achieved a $100 million settlement for the class.
- ***Mason v. Medline***, No. 07-05615 (N.D. Ill.). Milberg LLP successfully represented a healthcare worker in a False Claims Act case against his former employer, Medline Industries, Inc., one of the nation's largest suppliers of medical and surgical products, along with its charitable arm, The Medline Foundation. The suit alleged that Medline engaged in a widespread illegal kickback scheme targeting hospitals and other healthcare providers that purchase medical products paid for by federal healthcare programs. Although a party to the settlement agreement, the U.S. Department of Justice chose not to intervene in the lawsuit. Milberg LLP pursued the case on a non-intervened basis and recovered $85 million on behalf of the federal government -- one of the largest settlements of a False Claims Act case in which the government declined to intervene. The whistleblower was awarded 27.5% of the proceeds.
- ***Blessing v. Sirius XM Radio, Inc.***, No. 09-10035 (S.D.N.Y.). This antitrust case stemmed from the 2008 merger of Sirius Satellite Radio, Inc. and XM Satellite Holdings, Inc. that created Sirius XM, the nation's only satellite radio company. The plaintiffs alleged that the merger of the only two U.S. satellite radio providers was an illegal move to eliminate competition and monopolize the satellite radio market. Before the merger, Sirius CEO Mel Karmazin convinced regulators not to block the deal by promising that "the combined company will not raise prices" and that the merger would actually result in "lower prices and more choice for the consumer." After the merger, Sirius quickly reversed course, raised prices by 15-40%, and eliminated multiple radio stations. Milberg LLP achieved a settlement for the class valued at $180 million.
- ***In re Initial Public Offering Securities Litigation***, No. 21-MC-92 (S.D.N.Y.). Milberg LLP represented investors in 300+ consolidated securities actions arising from an alleged market manipulation scheme. Plaintiffs alleged, among other things, that approximately 55 defendant investment banks, in dealing with certain of their clients, conditioned certain allocations of shares in initial public offerings on the subsequent purchase of more shares in the aftermarket, thus artificially boosting the prices of the subject securities. This fraudulent scheme, plaintiffs alleged, was a major contributing factor in the now infamous technology "bubble" of the late 1990s and early 2000s. As a member of the court-appointed Plaintiffs' Executive Committee, and with certain partners appointed by the court as liaison counsel, Milberg LLP oversaw the efforts of approximately 60 plaintiffs' firms in combating some of the most well-respected defense firms in the nation. In granting final approval to a $586 million settlement on

October 5, 2009, the court described the law firms comprising the Plaintiffs' Executive Committee as the "cream of the crop."

- ***In re Tyco International Ltd., Securities Litigation***, MDL 1335 (D.N.H.). Milberg LLP served as co-lead counsel in this litigation, which involved claims under the Securities Act of 1933 and the Securities Exchange Act of 1934 against Tyco and its former CEO, CFO, general counsel, and certain former directors arising out of allegations of Tyco's $5.8 billion overstatement of income and $900 million in insider trading, plus hundreds of millions of dollars looted by insiders motivated to commit the fraud. Plaintiffs also asserted claims under the 1933 and 1934 Acts against PricewaterhouseCoopers LLP for allegedly publishing false audit opinions on Tyco's financial statements during the class period and failing to audit Tyco properly, despite knowledge of the fraud. On December 19, 2007, the court approved a $3.2 billion settlement of the plaintiffs' claims lauded Milberg LLP's efforts as co-lead counsel:

This was an extraordinarily complex and hard-fought case. Co-Lead Counsel put massive resources and effort into the case for five long years, accumulating [millions of dollars in expenses] and expending [hundreds of thousands of hours] on a wholly contingent basis. But for Co-Lead Counsel's enormous expenditure of time, money, and effort, they would not have been able to negotiate an end result so favorable for the class. . . . Lead Counsel's continued, dogged effort over the past five years is a major reason for the magnitude of the recovery. . . .

535 F. Supp. 2d 249, 270 (D.N.H. 2007).

- ***In re Biovail Corp. Securities Litigation***, No. 03-8917 (S.D.N.Y.). Milberg LLP, representing Local 282 Welfare Trust Fund and serving as co-lead counsel, litigated this complex securities class action brought on behalf of a class of defrauded investors, alleging that defendants made a series of materially false and misleading statements concerning Canadian company Biovail's publicly reported financial results and the company's then new hypertension/blood pressure drug, Cardizem LA. This was a highly complex case in which counsel took numerous depositions across the U.S. and Canada and obtained documents from defendants and several third-parties, including, among others, UBS, McKinsey & Co., and Merrill Lynch. Milberg LLP obtained a $138 million settlement for the class, and Biovail agreed to institute significant corporate governance changes.
- ***In re Nortel Networks Corp. Securities Litigation***, No. 01-1855 (S.D.N.Y.). In this federal securities fraud class action, Milberg LLP served as lead counsel for the class and the court-appointed lead plaintiff, the Trustees of the Ontario Public Service Employees' Union Pension Plan Trust Fund. In certifying the class, the court specifically rejected the defendants' argument that those who traded in Nortel securities on the Toronto Stock Exchange (and not the New York Stock Exchange) should be excluded from the class. The Second Circuit denied the defendants' attempted appeal. On January 29, 2007, the court approved a settlement valued at $1.142 billion.
- ***In re CMS Energy Corp. Securities Litigation***, No. 02-72004 (E.D. Mich.). Milberg LLP served as co-lead counsel in this federal securities fraud case arising out of alleged round-trip trading practices by CMS Energy Corporation, Judge Steeh approved a cash settlement of more than $200 million.
- ***In re Deutsche Telekom AG Securities Litigation***, No. 00-9475 (S.D.N.Y.). Milberg LLP served as co-lead counsel in

this securities class action alleging that Deutsche Telekom issued a false and misleading registration statement, which improperly failed to disclose its plans to acquire VoiceStream Wireless Corporation and materially overstated the value of the company's real estate assets. In June 2005, Judge Buchwald approved a $120 million cash settlement.

- ***In re Comverse Technology, Inc. Derivative Litigation***, No. 601272/2006 (N.Y. Sup. Ct. N.Y. Cnty.). On December 28, 2009, Milberg LLP announced a $62 million settlement for the derivative plaintiffs, which was approved by the Court on June 23, 2010. The settlement also resulted in significant corporate governance reforms, including the replacement of the offending directors and officers with new independent directors and officers; the amendment of the company's bylaws to permit certain long-term substantial shareholders to propose, in the Company's own proxy materials, nominees for election as directors (proxy access); and the requirement that all equity grants be approved by both the Compensation Committee and a majority of the non-employee members of the Board.
- ***In re Topps Co., Inc. Shareholder Litig.***, No. 600715/2007 (N.Y. Sup. Ct. N.Y. Cnty. Apr. 17, 2007). Milberg LLP served as co-lead counsel in this transactional case, which led to a 2007 decision vindicating the rights of shareholders under the rules of comity and the doctrine of *forum non conveniens* to pursue claims in the most relevant forum, notwithstanding the fact that jurisdiction might also exist in the state of incorporation. This case was settled in late 2007 in exchange for a number of valuable disclosures for the class.
- ***Platinum Partners v. Chicago Board Options Exchange, Inc.***, No. 1-11-2903 (Ill. App. Ct. 2012). Milberg LLP represented an investment management group in a case against the Chicago Board Options Exchange, Inc. ("CBOE") and Options Clearing Corp. ("OCC"). The plaintiff investment management group alleged that it was injured when the CBOE and OCC privately disclosed strike price information to certain insiders prior to the information being made public. In the interim between the private disclosure and the public announcements, the plaintiff purchased tens of thousands of affected options. The lower court dismissed the complaint on the grounds that the CBOE and OCC, as self-regulatory organizations, were immune from suit. However, the Appellate Court reversed, holding that a private disclosure to insiders served no regulatory purpose and should not be protected from suit. The Illinois Supreme Court declined the defendants' petition for leave to appeal.
- ***In re Lord Abbett Mutual Funds Fee Litigation***, 553 F.3d 248 (3d Cir. 2009). This important decision set significant precedent regarding the scope of preemption under the Securities Litigation Uniform Standards Act of 1998 ("SLUSA"). In reversing the District Court's dismissal of the plaintiffs' claims, the Third Circuit held that "SLUSA does not mandate dismissal of an action in its entirety where the action includes only some pre-empted claims." In so holding, the court explained that "nothing in the language, legislative history, or relevant case law mandates the dismissal of an entire action that includes both claims that do not offend SLUSA's prohibition on state law securities class actions and claims that do . . . ."
- ***Tellabs, Inc. v. Makor Issues & Rights, Ltd.***, 551 U.S. 308 (2007). In *Tellabs*, in which Milberg LLP was lead counsel for the class, the United States Supreme Court

announced a uniform standard for evaluating the sufficiency of a complaint under the PSLRA. The court held that on a motion to dismiss, a court "must consider the complaint in its entirety," accepting "all factual allegations in the complaint as true," as well as "tak[ing] into account plausible opposing inferences." On remand, the Seventh Circuit concluded that "the plaintiffs have succeeded, with regard to the statements identified in our previous opinion as having been adequately alleged to be false and material, in pleading scienter in conformity with the requirements of the PSLRA. We therefore adhere to our decision to reverse the judgment of the district court dismissing the suit." The unanimous decision was written by Judge Richard A. Posner.

- ***South Ferry LP #2 v. Killinger***, 542 F.3d 776 (9th Cir. 2008). The important opinion issued by the Ninth Circuit in this securities fraud class action clarified, in the post-*Tellabs* environment, whether a theory of scienter based on the "core operations" inference satisfies the PSLRA's heightened pleading standard. In siding with the plaintiffs, represented by Milberg LLP, the Ninth Circuit held that "[a]llegations that rely on the core operations inference are among the allegations that may be considered in the complete PSLRA analysis." The court explained that under the "holistic" approach required by *Tellabs*, all allegations must be "read as a whole" in considering whether plaintiffs adequately plead scienter. After remand, the District Court found that the plaintiffs sufficiently alleged scienter under the Ninth Circuit's analysis.

MARC D. GROSSMAN graduated from The University of Michigan in 1989. After completing Brooklyn Law School and Baruch Business School's J.D./M.B.A. program while interning at the Law Department of the United Nations, Mr. Grossman became an associate and later a partner in the law firm of Mergel, Tubman & Grossman in New York City. In addition to his role as a Managing Partner at Milberg Tadler Phillips Grossman LLP, Mr. Grossman is a Founding Partner of Sanders and Grossman P.C. and Baker Sanders Barshay Grossman Fass Muhlstock & Neuwirth, LLC, and a Senior Partner at Sanders, Sanders, Block, Woycik, Viener & Grossman, P.C. and Sanders Viener Grossman LLP.

Since beginning his law career in 1993, Mr. Grossman has focused primarily on representing large groups of plaintiffs against common defendants. In 1999, after six years of practicing plaintiff's personal injury law in state and federal courts in New York and New Jersey, Mr. Grossman founded the law firm of Sanders and Grossman, P.C. specifically to pursue claims on behalf of medical providers. This firm, and its successors, grew dramatically under his leadership, and now represent thousands of medical providers litigating claims against insurance companies, and thousands of injury victims.

Mr. Grossman had a vision of uniting the medical profession by affording them the opportunity to litigate nominal claims that were being written off by medical providers as uncollectible and had not previously been

practical for most attorneys to litigate. By coordinating discovery, utilizing the most up-to-date case management technology, and recruiting top office administrators and trial attorneys, Mr. Grossman's firm was able to greatly improve efficiencies throughout the litigation process and ultimately the viability of collecting these claims. By filing over 100,000 individual lawsuits, Mr. Grossman's firms garnered the attention of the insurance industry and the medical profession in New York eventually leading to a series of mass settlements on behalf of his clients and recoveries in the hundreds of millions of dollars. In just 2006 and 2007, Mr. Grossman's firm personally litigated, negotiated, and recovered over 100 million dollars for his medical provider clients. The unique experience Mr. Grossman garnered as an innovator and leader in the mass settlement of medical claims and mass torts made him a leader in his field in negotiating and obtaining large recoveries.

Most recently, Mr. Grossman has represented hundreds of injured clients in lead paint litigations, asbestos litigations, mold litigations, and thousands of victims of defective drugs and products. Mr. Grossman received recognition litigating Vioxx cases in New Jersey Superior Court where he served as a liaison to the media as a member of the Vioxx Plaintiffs' Steering Committee's ("PSC's") Public Relations Committee, and as a liaison for the Committee to many financial institutions and governmental agencies, offering a common voice for the hundreds of attorneys handling such cases and the tens of thousands of victims they represent. These efforts and the hard work of many other relentless attorneys ultimately led Merck to agree to one of the largest Civil Settlements in American History for $4.85 Billion.

In December 2010, Mr. Grossman was nominated and invited to join both The Board of Directors of the New York State Trial Lawyers Association and the Executive Committee of Association of Trial Lawyers of America. Mr. Grossman is also a member of the Mass Tort Trial Lawyers Association and the Leaders Forum of the American Association of Justice.

Mr. Grossman has actively litigated for other large groups of plaintiffs in the following matters: *In re Avandia Marketing, Sales Practices and Products Liability Litigation*; *In re New York Bextra and Celebrex Product Liability Litigation* in New York's Supreme Court, New York County; Case No. 273, *In re Bextra and Celebrex Litigation*, Superior Court of New Jersey, Atlantic County; Oxycontin Litigation in New York's Supreme Court, Richmond County; MDL-1708, *In re Guidant Corp. Implantable Defibrillators Products Liability Litigation* in Minnesota; MDL-1699, *In re Bextra and Celebrex Marketing, Sales Practices and Products Liability Litigation* in California; MDL-1742, *In Re Ortho Evra Products Liability Litigation* in Ohio; MDL-1789, *In re Fosamax Products Liability Litigation* in New York; and MDL-1804, *In Re Stand 'N Seal, Products Liability Litigation*, where one of Mr. Grossman's firms serves on the PSC. One of Mr. Grossman's firms is also a court-appointed member of the PSC in the following mass tort litigations: *In Re Avandia, In Re Chantix, In Re Zicam, In Re Zimmer Knee, In Re Fosamax*, and the New Jersey state court coordination of *Levaquin*. One of Mr. Grossman's firms is co-lead in the NY Chantix Coordination and the New Jersey Reglan Coordination, as well as Risperdal in California, all Transvaginal Mesh PSC, and Propecia coordination.

After an $8 million verdict in *Boles v. Merck* for a victim of Fosamax, Mr. Grossman, along with co-counsel, led the Trial Team in *Rosenberg v. Merck* which was the first bellwether New Jersey Trial in Atlantic County Superior Court.

Mr. Grossman has become well known as a speaker and host of approximately 20 educational seminars designed to educate victims, the medical community, and other attorneys. Mr. Grossman has been quoted and has appeared in numerous local and national

forums and in the media as a legal commentator and advocate of victims rights against the corporate greed that plagues our nation.

In January 2016, Mr. Grossman received the 2015 Litigator Award a significant distinction, achieved by less than 1% of all trial attorneys. This award is considered among the top honors bestowed on trial attorneys.

MILBERG LLP

THE FIRM'S PRACTICE AND ACHIEVEMENTS

Milberg LLP, founded in 1965, was one of the first law firms to prosecute class actions in federal courts on behalf of investors and consumers. The Firm pioneered this type of litigation and is widely recognized as a leader in defending the rights of victims of corporate and other large-scale wrongdoing. The Firm's practice focuses on the prosecution of class and complex actions in many fields, including securities, corporate fiduciary, ERISA, consumer, False Claims Act, antitrust, bankruptcy, mass tort, and human rights litigation. The Firm has offices in New York City, Los Angeles, and Detroit.

In its early years, the Firm built a new area of legal practice in representing shareholder interests under the then recently amended Rule 23 of the Federal Rules of Civil Procedure, which allowed securities fraud cases, among others, to proceed as class actions. In the following decades, the Firm obtained decisions establishing important legal precedents in many of its areas of practice and prosecuted cases that set benchmarks in terms of case theories, organization, discovery, trial results, methods of settlement, and amounts recovered and distributed to clients and class members.

Important milestones in the Firm's early years include the Firm's involvement in the *U.S. Financial* litigation in the early 1970s, one of the earliest large class actions, which resulted in a $50 million recovery for purchasers of the securities of a failed real estate development company; the Ninth Circuit decision in *Blackie v. Barrack* in 1975, which established the fraud-on-the-market doctrine for securities fraud actions; the Firm's co-lead counsel position in the *In re Washington Public Power Supply System Securities Litigation*, a seminal securities fraud action in the 1980s in terms of complexity and amounts recovered; the representation of the Federal Deposit Insurance Corporation in a year-long trial to recover banking losses from a major accounting firm, leading to a precedent-setting global settlement; attacking the Drexel-Milken "daisy chain" of illicit junk-bond financing arrangements with numerous cases that resulted in substantial recoveries for investors; representing life insurance policyholders defrauded by "vanishing premium" and other improper sales tactics and obtaining large recoveries from industry participants; and ground-breaking roles in the multi-front attack on deception and other improper activities in the tobacco industry.

Milberg remains at the forefront in its areas of practice. Significant litigation results include: *In re Vivendi Universal, S.A. Securities Litigation* (jury verdict for plaintiff class in January 2010; final judgments now on appeal); *In re Tyco International, Ltd. Securities Litigation* ($3.2 billion settlement); *In re Nortel Networks Corp. Securities Litigation* (settlement for cash and stock valued at $1.142 billion); *In re Lucent Technologies, Inc. Securities Litigation* ($600 million recovery); *In re Raytheon Co. Securities Litigation* ($460 million recovery); *In re Managed Care Litigation* (recoveries over $1 billion and major changes in HMO practices); the *In re Washington Public Power Supply System Securities Litigation* (settlements totaling $775 million), and the *In re NASDAQ Market-Makers Antitrust Litigation* ($1 billion in recoveries). Milberg has been responsible for recoveries valued at approximately $55 billion during the life of the Firm.

The Firm's lawyers come from many different professional backgrounds. They include prosecutors, private defense attorneys, and government lawyers. The Firm's ability to pursue claims against defendants is augmented by its investigators, headed by a 27-year veteran of the Federal Bureau of Investigation. The Firm is regularly recognized as one of the nation's leading plaintiffs' law firms by the *National Law Journal*, *Legal 500*, *Chambers USA*, and *Super Lawyers*, among others.

JUDICIAL COMMENDATIONS

Milberg has been commended by countless judges throughout the country for the quality of its representation.

Milberg partners played leading roles in representing class plaintiffs in a nearly four-month jury trial in ***In re Vivendi Universal, S.A. Securities Litigation***, No. 02-5571 (S.D.N.Y.), which in January 2010 resulted in a jury verdict for an international class of defrauded investors (aggregate value of over $9 billion, but class was vastly reduced when subsequent caselaw excluded foreign claimants from coverage of securities statutes; final judgments now on appeal). At the close of the trial, Judge Richard Holwell commented:

> I can only say that this is by far the best tried case that I have had in my time on the bench. I don't think either side could have tried the case better than these counsel have.

In approving a $3.2 billion securities fraud settlement, one of the largest in history, in ***In re Tyco International, Ltd. Securities Litigation***, 535 F. Supp. 2d 249, 270 (D.N.H. 2007), Judge Barbadoro lauded Milberg's efforts as co-lead counsel:

> This was an extraordinarily complex and hard-fought case. Co-Lead Counsel put massive resources and effort into the case for five long years, accumulating [millions of dollars in expenses] and expending [hundreds of thousands of hours] on a wholly contingent basis. But for Co-Lead Counsel's enormous expenditure of time, money, and effort, they would not have been able to negotiate an end result so favorable for the class. . . . Lead Counsel's continued, dogged effort over the past five years is a major reason for the magnitude of the recovery. . . .

In ***Simon v. KPMG LLP***, No. 05-3189, 2006 U.S. Dist. LEXIS 35943, at *18, 30-31 (D.N.J. June 2, 2006), a case in which Milberg served as class counsel, Judge Cavanaugh, in approving the $153 million settlement, found that "Plaintiffs . . . retained highly competent and qualified attorneys" and that "[t]he Initial Complaint . . . demonstrates that [Milberg] expended considerable time and effort with the underlying factual and legal issues in this case before even filing this lawsuit. . . . Settlement discussions were conducted over a period of some fourteen months with the supervision and guidance of Judges Politan and Weinstein, and are evidence of [Milberg's] appreciation of the merits and complexity of this litigation."

In ***In re Lucent Technologies, Inc. Securities Litigation***, 307 F. Supp. 2d 633, 641-47 (D.N.J. 2004), Judge Pisano issued an opinion approving the $600 million settlement and complimenting Milberg's work as co-lead counsel for the class as follows:

> [T]he attorneys representing the Plaintiffs are highly experienced in securities class action litigation and have successfully prosecuted numerous class actions throughout the United States. They are more than competent to conduct this action. Co-Lead Counsel diligently and aggressively represented the Plaintiffs before this Court and in the negotiations that resulted in the Settlement. . . . [T]he efforts and ingenuity of Lead Plaintiffs and Lead Counsel resulted in an extremely valuable Settlement for the Benefit of the Class.

In ***In re Rite Aid Corp. Securities Litigation***, 269 F. Supp. 2d 603, 611 (E.D. Pa. 2003), Judge Dalzell commented on the skill and efficiency of the Milberg attorneys litigating this complex case:

> At the risk of belaboring the obvious, we pause to say a specific word about . . . the skill and efficiency of the attorneys involved. [Milberg was] extraordinarily deft and efficient in handling this most complex matter. [T]hey were at least eighteen months ahead of the United States Department of Justice in ferreting out the conduct that ultimately resulted in the write-down of over $1.6 billion in previously reported Rite Aid earnings. . . . In short, it would be hard to equal the skill class counsel demonstrated here.

MILBERG LLP

NEW YORK
LOS ANGELES

In ***In re IKON Office Solutions, Inc. Securities Litigation***, 194 F.R.D. 166, 195 (E.D. Pa. 2000), Judge Katz commented on Milberg's skill and professionalism as one of plaintiffs' co-lead counsel:

> First, class counsel is of high caliber and has extensive experience in similar class action litigation. . . . Each of the co-lead counsel firms has a national reputation for advocacy in securities class actions, and there is no doubt that this standing enhanced their ability both to prosecute the case effectively and to negotiate credibly. . . .
>
> Of particular note in assessing the quality of representation is the professionalism with which all parties comported themselves. The submissions were of consistently high quality, and class counsel has been notably diligent in preparing filings in a timely manner even when under tight deadlines. This professionalism was also displayed in class counsel's willingness to cooperate with other counsel when appropriate. . . . This cooperation enabled the parties to focus their disputes on the issues that mattered most and to avoid pointless bickering over more minor matters.

In ***In re NASDAQ Market-Makers Antitrust Litigation***, 187 F.R.D. 465, 474 (S.D.N.Y. 1998), in an opinion approving settlements totaling over $1.027 billion, Judge Sweet commented:

> Counsel for the Plaintiffs are preeminent in the field of class action litigation, and the roster of counsel for Defendants includes some of the largest, most successful and well regarded law firms in the country. It is difficult to conceive of better representation than the parties to this action achieved.

Judicial recognition of Milberg's excellence is not limited to courts within the United States. In ***In re Flag Telecom Holdings, Ltd. Securities Litigation***, No. 02-3400 (S.D.N.Y. 2009), Milberg litigated a discovery dispute before the English Royal High Court of Justice, Queens Bench Division, which recognized the Milberg attorney handling the matter as a "Grade A" lawyer and a "vital cog in the machine." Likewise, in ***Sharma v. Timminco Ltd.***, 09-378701 (Can. Ont. Sup. Ct. 2009), Canada's Ontario Superior Court of Justice recognized Milberg's "fine reputation and excellent credentials" in connection with Milberg's representation in a securities case pending in Canada.

Milberg has also been recognized for its commitment to public service. In lauding Milberg's work representing victims of the September 11th attack on the World Trade Center in connection with the September 11 Victims Compensation Fund, Special Master Kenneth R. Feinberg stated the following:

> Once again, as I have learned over the years here in New York, the [Milberg] firm steps up to the plate in the public interest time and time again. The social conscience of the [Milberg] firm, acting through its excellent associates and partners, help deal with crises that confront the American people and others, and I am personally in the debt of Milberg . . . for the work that it is doing . . . . [T]hey are second among none in terms of the public interest, and I'm very, very grateful, not only to you guys for doing this, but . . . for the firm's willingness to help out. I wanted to let everybody know that.

In re September 11 Victim Compensation Fund, Preliminary Hearing, Claim No. 212-003658 (Dec. 9, 2003).

NOTEWORTHY RESULTS

The quality of Milberg's representation is further evidenced by the Firm's numerous significant recoveries, some of which are described below.

- ***In re Chase Bank USA, N.A. "Check Loan" Contract Litig.***, No. 09-2032 (N.D. Cal.). Milberg served on the Executive Committee representing the class in this action against JP Morgan Chase & Co. The complaint alleged that Chase improperly increased by 150% the minimum monthly payment requirement for customers who entered into balance transfer loans with "fixed" interest rates that were guaranteed to remain so for the "life of the loan." Milberg and its co-counsel, achieved a $100 million settlement for the class.
- In ***In re Vivendi Universal, S.A. Securities Litigation***, No. 02-5571 (S.D.N.Y.), Milberg lawyers were instrumental in obtaining a jury verdict for a class of defrauded investors after a trial lasting nearly four months. The jury found Vivendi liable for 57 false or misleading class period statements. Final judgments in the case are now on appeal.
- ***Mason v. Medline***, No. 07-05615 (N.D. Ill.). Milberg successfully represented a healthcare worker in a False Claims Act case against his former employer, Medline Industries, Inc., one of the nation's largest suppliers of medical and surgical products, along with its charitable arm, The Medline Foundation. The suit alleged that Medline engaged in a widespread illegal kickback scheme targeting hospitals and other healthcare providers that purchase medical products paid for by federal healthcare programs. Although a party to the settlement agreement, the U.S. Department of Justice chose not to intervene in the lawsuit. Milberg pursued the case on a non-intervened basis and recovered $85 million on behalf of the federal government -- one of the largest settlements of a False Claims Act case in which the government declined to intervene. The whistleblower was awarded 27.5% of the proceeds.
- ***Blessing v. Sirius XM Radio, Inc.***, No. 09-10035 (S.D.N.Y.). This antitrust case stemmed from the 2008 merger of Sirius Satellite Radio, Inc. and XM Satellite Holdings, Inc. that created Sirius XM, the nation's only satellite radio company. The plaintiffs alleged that the merger of the only two U.S. satellite radio providers was an illegal move to eliminate competition and monopolize the satellite radio market. Before the merger, Sirius CEO Mel Karmazin convinced regulators not to block the deal by promising that "the combined company will not raise prices" and that the merger would actually result in "lower prices and more choice for the consumer." After the merger, Sirius quickly reversed course, raised prices by 15-40%, and eliminated multiple radio stations. Milberg achieved a settlement for the class valued at $180 million.
- ***In re Initial Public Offering Securities Litigation***, No. 21-92 (S.D.N.Y.). Milberg represented investors in 310 consolidated securities actions arising from an alleged market manipulation scheme. Plaintiffs alleged, among other things, that approximately 55 defendant investment banks, in dealing with certain of their clients, conditioned certain allocations of shares in initial public offerings on the subsequent purchase of more shares in the aftermarket, thus artificially boosting the prices of the subject securities. This fraudulent scheme, plaintiffs alleged, was a major contributing factor in the now infamous technology "bubble" of the late 1990s and early 2000s. As a member of the court-appointed Plaintiffs' Executive Committee, and with certain partners appointed by the court as liaison counsel, Milberg oversaw the efforts of approximately 60 plaintiffs' firms in combating some of the most well-respected defense firms in the nation. In granting final approval to a $586 million settlement on October 5, 2009, the court described the law firms comprising the Plaintiffs' Executive Committee as the "cream of the crop."

- ***Carlson v. Xerox***, No. 00-1621 (D. Conn). Milberg served as co-lead counsel in this lawsuit, which consolidated 21 related cases alleging violations of the federal securities laws. Plaintiffs alleged that Xerox and several of its top officers reported false financial results during the class period and failed to adhere to the standard accounting practices the company claimed to have followed. In the course of litigating plaintiffs' claims, Milberg engaged in arduous and exhaustive factual discovery, including review and analysis of more than four million pages of complex accounting and auditing documents and thousands of pages of SEC deposition transcripts. Plaintiffs' claims survived three motions to dismiss and a motion for summary judgment, ultimately resulting in a $750 million settlement, which received final approval on January 14, 2009.
- ***In re Tyco International Ltd., Securities Litigation***, MDL 1335 (D.N.H.). Milberg served as co-lead counsel in this litigation, which involved claims under the Securities Act of 1933 and the Securities Exchange Act of 1934 against Tyco and its former CEO, CFO, general counsel, and certain former directors arising out of allegations of Tyco's $5.8 billion overstatement of income and $900 million in insider trading, plus hundreds of millions of dollars looted by insiders motivated to commit the fraud. Plaintiffs also asserted claims under the 1933 and 1934 Acts against PricewaterhouseCoopers LLP for allegedly publishing false audit opinions on Tyco's financial statements during the class period and failing to audit Tyco properly, despite knowledge of the fraud. On December 19, 2007, the court approved a $3.2 billion settlement of the plaintiffs' claims and praised the work of co-lead counsel.
- ***In re Sears, Roebuck & Co. Securities Litigation***, No. 02-7527 (N.D. Ill.). This case involved allegations that Sears concealed material adverse information concerning the financial condition, performance, and prospects of Sears' credit card operations, resulting in an artificially inflated stock price. The approved settlement provided $215 million to compensate class members.
- ***In re General Electric Co. ERISA Litigation***, No. 04-1398 (N.D.N.Y.). This ERISA class action was brought on behalf of current and former participants and beneficiaries of the General Electric ("G.E.") 401(k) Plan. Milberg, serving as co-lead counsel, achieved a $40 million settlement on behalf of current and former G.E. employees who claimed that the company's 401(k) Plan fiduciaries imprudently invested more than two-thirds of the Plan's assets in company stock. The settlement included important structural changes to G.E.'s 401(k) plan valued at more than $100 million.
- ***In re Biovail Corp. Securities Litigation***, No. 03-8917 (S.D.N.Y.). Milberg, representing Local 282 Welfare Trust Fund and serving as co-lead counsel, litigated this complex securities class action brought on behalf of a class of defrauded investors, alleging that defendants made a series of materially false and misleading statements concerning Canadian company Biovail's publicly reported financial results and the company's then new hypertension/blood pressure drug, Cardizem LA. This was a highly complex case in which counsel took numerous depositions across the U.S. and Canada and obtained documents from defendants and several third-parties, including, among others, UBS, McKinsey & Co., and Merrill Lynch. Milberg obtained a $138 million settlement for the class, and Biovail agreed to institute significant corporate governance changes.
- ***In re Nortel Networks Corp. Securities Litigation***, No. 01-1855 (S.D.N.Y.). In this federal securities fraud class action, Milberg served as lead counsel for the class and the court-appointed lead plaintiff, the Trustees of the Ontario Public Service Employees' Union Pension Plan Trust Fund. In certifying the class, the court specifically rejected the defendants' argument that those who traded in Nortel securities on the Toronto Stock Exchange (and not the New York Stock Exchange) should be excluded from the class. The Second Circuit denied the defendants' attempted appeal. On January 29, 2007, the court approved a settlement valued at $1.142 billion.
- ***In re American Express Financial Advisors Securities Litigation***, No. 04-1773 (S.D.N.Y.).

This case involved allegations that American Express Financial Advisors violated securities laws by representing to class members that the company would provide tailored financial advice, when the company actually provided "canned" financial plans and advice designed to steer clients into American Express and certain nonproprietary mutual funds. The case settled for $100 million, with the settlement agreement requiring that the company institute remedial measures.

- ***In re Lucent Technologies, Inc. Securities Litigation***, No. 00-621 (D.N.J.). In this federal securities fraud action in which Milberg served as co-lead counsel, plaintiffs alleged, *inter alia*, that Lucent and its senior officers misrepresented the demand for Lucent's optical networking products and improperly recognized hundreds of millions of dollars in revenues. The settlement provided compensation of $600 million to aggrieved shareholders who purchased Lucent stock between October 1999 and December 2000.
- ***In re Raytheon Co. Securities Litigation***, No. 99-12142 (D. Mass.). This case, in which Milberg served as lead counsel, concerned claims that a major defense contractor failed to write down assets adequately on long term construction contracts. In May 2004, Raytheon and its auditor, PricewaterhouseCoopers LLP, settled for a total of $460 million.
- In ***In re Rite Aid Corp. Securities Litigation***, No. 99-1349 (E.D. Pa.), in which Milberg served as co-lead counsel, the plaintiffs asserted federal securities fraud claims arising out of allegations that Rite Aid failed to disclose material problems with its store expansion and modernization program, resulting in artificially inflated earnings. Judge Dalzell approved class action settlements totaling $334 million against Rite Aid ($207 million), KPMG ($125 million), and certain former executives of Rite Aid ($1.6 million).
- In ***In re CMS Energy Corp. Securities Litigation***, No. 02-72004 (E.D. Mich.), a federal securities fraud case arising out of alleged round-trip trading practices by CMS Energy Corporation, Judge Steeh approved a cash settlement of more than $200 million. Milberg served as co-lead counsel in this litigation.
- ***In re Deutsche Telekom AG Securities Litigation***, No. 00-9475 (S.D.N.Y.). Milberg served as co-lead counsel in this securities class action alleging that Deutsche Telekom issued a false and misleading registration statement, which improperly failed to disclose its plans to acquire VoiceStream Wireless Corporation and materially overstated the value of the company's real estate assets. On June 14, 2005, Judge Buchwald approved a $120 million cash settlement.
- ***In re CVS Corp. Securities Litigation***, No. 01-11464 (D. Mass). Milberg served as co-lead counsel in this class action alleging that defendants engaged in a series of accounting improprieties and issued false and misleading statements which artificially inflated the price of CVS stock. On September 7, 2005, Judge Tauro approved a $110 million cash settlement for shareholders who acquired CVS stock between February 6, 2001, and October 30, 2001.
- ***Scheiner v. i2 Technologies, Inc.***, No. 01-418 (N.D. Tex.). Milberg served as lead counsel in this securities fraud case, filed on behalf of certain purchasers of i2 common stock. The plaintiffs alleged that certain of the company's senior executives made materially false and misleading statements and omissions in i2's public statements and other public documents regarding i2's software, thereby artificially inflating the price of i2's common stock. In May 2004, Milberg recovered a settlement of $84.85 million.
- ***In re Royal Dutch/Shell Transport ERISA Litigation***, No. 04-1398 (D.N.J.). This was an ERISA breach of fiduciary duty class action against the Royal Dutch/Shell Oil Group of Companies on behalf of certain of the companies' U.S. employee investment plan participants. Notably, the $90 million settlement included important provisions regarding the monitoring and training of individuals appointed to be ERISA fiduciaries.
- Milberg served as co-lead counsel in ***Irvine v. ImClone Systems, Inc.***, No. 02-0109 (S.D.N.Y.), in which a $75 million cash

settlement was approved by the court in July 2005. Plaintiffs alleged that ImClone issued a number of misrepresentations and fraudulent statements to the market regarding the likelihood of approval of the drug Erbitux, thereby artificially inflating the price of ImClone stock.

- In ***In re W.R. Grace & Co. (Official Committee of Asbestos Personal Injury Claimants v. Sealed Air Corp. and Official Committee of Asbestos Personal Injury Claimants v. Fresenius Medical Care Holdings, Inc.)***, Nos. 02-2210 and 02-2211 (D. Del.), Milberg acted as lead counsel for the asbestos personal injury and property damage committees in two separate fraudulent conveyance actions within the W.R. Grace bankruptcy. The actions sought to return the assets of Sealed Air Corporation and Fresenius Medical Care Holdings (each of which had been Grace subsidiaries pre-bankruptcy) to the W.R. Grace bankruptcy estate. Complaints in both cases were filed in mid-March 2002, and agreements in principle in both cases were reached on November 27, 2002, the last business day before trial was set to begin in the Sealed Air matter. The two settlements, which consisted of both cash and stock, were valued at approximately $1 billion.
- ***Nelson v. Pacific Life Insurance Co.***, No. 03-131 (S.D. Ga.). Milberg served as lead counsel in this securities fraud class action arising from allegations of deceptive sales of deferred annuity tax shelters to investors for placement in retirement plans that are already tax-qualified. The court approved a $60 million settlement of claims arising from such deception.
- The Firm was lead counsel in ***In re Prudential Insurance Co. Sales Practice Litigation***, No. 95-4704 (D.N.J.), a landmark case challenging Prudential's sales practices that resulted in a recovery exceeding $4 billion for certain policyholders. The settlement was approved in a comprehensive Third Circuit decision.
- In ***In re NASDAQ Market-Makers Antitrust Litigation***, MDL 1023 (S.D.N.Y.), Milberg served as co-lead counsel for a class of investors. The class alleged that the NASDAQ market-makers set and maintained wide spreads pursuant to an industry-wide conspiracy in one of the largest and most important antitrust cases in recent history. After more than three years of intense litigation, the case settled for a total of $1.027 billion, one of the largest antitrust settlements at that time.
- ***In re Washington Public Power Supply System Securities Litigation***, MDL 551 (D. Ariz.) was a massive securities fraud litigation in which Milberg served as co-lead counsel for a class that obtained settlements totaling $775 million, the largest-ever securities fraud settlement at that time, after several months of trial.
- ***In re Exxon Valdez***, No. 89-095 (D. Alaska) and ***In re Exxon Valdez Oil Spill Litigation***, 3 AN-89-2533 (Alaska Sup. Ct. 3d Jud. Dist.). Milberg was a member of the Plaintiffs' Coordinating Committee and co-chair of the Plaintiffs' Law Committee in the massive litigation resulting from the Exxon Valdez oil spill in Alaska in March 1989. Plaintiffs obtained a jury verdict of $5 billion, which, after years of appeals by Exxon, was reduced to approximately $500 million by the United States Supreme Court. Recently the United States Court of Appeals for the Ninth Circuit held that plaintiffs are entitled to post judgment interest on the award in the amount of approximately $470 million.
- In ***In re Managed Care Litigation***, MDL 1334 (S.D. Fla.). Final approval of a settlement between a nationwide class of physicians and defendant CIGNA Healthcare, valued in excess of $500 million, was granted on April 22, 2004. A similar settlement valued in excess of $400 million involving a nationwide class of physicians and Aetna was approved by the court on November 6, 2003. The settlements stem from a series of lawsuits filed in both state and federal courts by physicians and medical associations against many of the nation's largest health insurers arising from allegations that the insurers engaged in a fraudulent scheme to systematically obstruct, reduce, delay, and deny payments and reimbursements to health care providers. These settlements brought sweeping changes to the health care industry and significant improvements to physician-related business practices.

- ***In re Sunbeam Securities Litigation***, No. 98-8258 (S.D. Fla). Milberg acted as co-lead counsel for the class. Plaintiffs alleged that Sunbeam, its auditor, and its management engaged in a massive accounting fraud which led to a restatement of over three years of previously reported financial results. The court approved a combined settlement of more than $140 million, including a $110 million settlement with Arthur Andersen LLP, Sunbeam's auditor. At that time, the Andersen settlement was one of the largest amounts ever paid by a public accounting firm to settle federal securities claims. The settlement with the individuals was achieved on the eve of trial, and ended almost four years of litigation against Andersen and Sunbeam's insiders, including Albert Dunlap, Sunbeam's former Chairman and CEO. The settlement included a personal contribution from Dunlap of $15 million.
- ***In re Triton Energy Limited Securities Litigation***, No. 98-256 (E.D. Tex.). Plaintiffs alleged that defendants misrepresented, among other things, the nature, quality, classification, and quantity of Triton's Southeast Asia oil and gas reserves during the period March 30, 1998 through July 17, 1998. The case settled for $42 million.
- In ***In re Thomas & Betts Securities Litigation***, No. 00-2127 (W.D. Tenn.), the plaintiffs, represented by Milberg as co-lead counsel, alleged that Thomas & Betts engaged in a series of accounting improprieties while publicly representing that its financial statements were in compliance with GAAP, and failed to disclose known trends and uncertainties regarding its internal control system and computer and information systems. The case settled for $46.5 million dollars in cash from the company and $4.65 in cash from its outside auditor, KPMG.
- ***In re MTC Electronic Technologies Shareholder Litigation***, No. 93-0876 (E.D.N.Y.). Plaintiffs alleged that defendants issued false and misleading statements concerning, among other things, purported joint venture agreements to establish telecommunications systems and manufacture telecommunications equipment in China. The court approved a settlement of $70 million, including $65 million in cash and $5 million worth of MTC Class A shares with "put" rights.
- In ***In re PaineWebber Limited Partnerships Litigation***, No. 94-8547 (S.D.N.Y.). Milberg represented investors alleging that PaineWebber developed, marketed, and operated numerous investment partnerships as part of an ongoing conspiracy to defraud investors and enrich itself through excessive fees and commissions over a twelve-year period. On March 20, 1997, Judge Sidney Stein approved a $200 million settlement, consisting of $125 million in cash and $75 million worth of guarantees and fee waivers.
- In ***Andrews v. AT&T***, No. 91-175 (S.D. Ga.) the Firm represented a class of persons who paid for premium-billed "900-number" calls that involved allegedly deceptive games of chance, starting in 1993. Defendants included major long-distance companies, which approved the call programs and billed for the calls. Defendant MCI settled for $60 million in benefits. The class against AT&T was decertified on appeal and the Firm prosecuted the individual plaintiffs' claims, obtaining a jury verdict in 2003 for compensatory and punitive damages.

In the context of shareholder derivative actions, Milberg has protected shareholder investments by effectuating important changes in corporate governance as part of the global settlement of such cases. Cases in which such changes were made include:

- ***In re Comverse Technology, Inc. Derivative Litigation***, No. 601272/2006 (N.Y. Sup. Ct. N.Y. Cnty.). On December 28, 2009, Milberg announced a $62 million settlement for the derivative plaintiffs, which was approved by the Court on June 23, 2010. The settlement also resulted in significant corporate governance reforms, including the replacement of the offending directors and officers with new independent directors and officers; the amendment of the company's bylaws to permit certain long-term substantial shareholders to propose, in the Company's own proxy materials, nominees for election as directors (proxy access); and the requirement that all equity grants be approved by both the

Compensation Committee and a majority of the non-employee members of the Board.

- ***In re Topps Co., Inc. Shareholder Litig.***, No. 600715/2007 (N.Y. Sup. Ct. N.Y. Cnty. Apr. 17, 2007). Milberg served as co-lead counsel in this transactional case, which led to a 2007 decision vindicating the rights of shareholders under the rules of comity and the doctrine of *forum non conveniens* to pursue claims in the most relevant forum, notwithstanding the fact that jurisdiction might also exist in the state of incorporation. This case was settled in late 2007 in exchange for a number of valuable disclosures for the class.
- ***In re Marketspan Corporate Shareholder Litigation***, No. 15884/98 (N.Y. Sup. Ct. Nassau Cnty.). The settlement agreement in this derivative case required modifications of corporate governance structure, changes to the audit committee, and changes in compensation awards and to the nominating committee.
- ***In re Trump Hotels Shareholder Derivative Litigation***, No. 96-7820 (S.D.N.Y.). In this case, the plaintiff shareholders asserted various derivative claims on behalf of the company against certain Trump entities and senior Trump executives in connection with the self-serving sale of a failing casino to the company in which the plaintiffs held stock. Milberg negotiated a settlement on behalf of the plaintiffs that required Donald Trump to contribute a substantial portion of his personal interest in a pageant he co-owned. In addition, the settlement required the company to increase the number of directors on its board, and certain future transactions had to be reviewed by a special committee.

PRECEDENT-SETTING DECISIONS

Milberg has consistently been a leader in developing the federal securities, antitrust, and consumer protection laws for the benefit of investors and consumers. The Firm has represented individual and institutional plaintiffs in hundreds of class action litigations in federal and state courts throughout the country. In most of those cases, Milberg has served as lead or co-lead counsel. The Firm has also been responsible for establishing many important precedents, including the following:

- ***Platinum Partners v. Chicago Board Options Exchange, Inc.***, No. 1-11-2903 (Ill. App. Ct. 2012). Milberg represented an investment management group in a case against the Chicago Board Options Exchange, Inc. ("CBOE") and Options Clearing Corp. ("OCC"). The plaintiff investment management group alleged that it was injured when the CBOE and OCC privately disclosed strike price information to certain insiders prior to the information being made public. In the interim between the private disclosure and the public announcements, the plaintiff purchased tens of thousands of affected options. The lower court dismissed the complaint on the grounds that the CBOE and OCC, as self-regulatory organizations, were immune from suit. However, the Appellate Court reversed, holding that a private disclosure to insiders served no regulatory purpose and should not be protected from suit. The Illinois Supreme Court declined the defendants' petition for leave to appeal.
- ***In re Merck & Co., Inc. Securities Litigation***, Nos. 05-1151 and 05-2367 (D.N.J.). Milberg served as co-lead counsel in this federal securities fraud class action, and following over 12 years of hard-fought litigation, ultimately obtained a combined settlement totaling $1.062 billion, the largest securities class action settlement ever against a pharmaceutical company, which received final approval on June 28, 2016. This lawsuit involved claims under the Securities Exchange Act of 1934 against Merck and certain of its executives arising out of allegations that defendants made materially false and misleading statements concerning the safety profile and commercial viability of Merck's purported "blockbuster" drug VIOXX. During this litigation, Milberg and co-lead counsel engaged in exhaustive discovery, including the review and analysis of over 35 million pages of documents involving complex scientific and medical issues, as well as the examination of over 59 fact and expert witnesses. Plaintiffs successfully appealed the dismissal of this action on state of limitations grounds to the Third Circuit Court of Appeals, and prevailed in defendants' further appeal to the Supreme Court, resulting in a unanimous decision by the Supreme Court in Plaintiffs' favor which clarified the law regarding the application of the statute of limitations to federal securities fraud claims. Plaintiffs' claims also survived additional motions to dismiss and motions for summary judgment, and the parties reached settlement less than three months before trial was scheduled to commence.
- ***In re Lord Abbett Mutual Funds Fee Litigation***, 553 F.3d 248 (3d Cir. 2009). This important decision set significant precedent regarding the scope of preemption under the Securities Litigation Uniform Standards Act of 1998 ("SLUSA"). In reversing the District Court's dismissal of the plaintiffs' claims, the Third Circuit held that "SLUSA does not mandate dismissal of an action in its entirety where the action includes only some pre-empted claims." In so holding, the court explained that "nothing in the language, legislative history, or relevant case law mandates the dismissal of an entire action that includes both claims that do not offend SLUSA's prohibition on state law securities class actions and claims that do . . . ."
- ***Abdullahi v. Pfizer, Inc.,*** 562 F.3d 163, 170 (2d Cir. 2009). In this matter, the plaintiffs, Nigerian children and their families, asserted claims under the Alien Tort Statute ("ATS") in connection with Pfizer's clinical trial of the drug, Trovan, without their knowledge. In January 2009, the Second Circuit reversed the District Court's dismissal

for lack of jurisdiction. The court held that the plaintiffs pled facts sufficient to state a cause of action under the ATS for a violation of international law prohibiting medical experimentation on human subjects without their consent.

- ***In re Comverse Technology, Inc. Derivative Litigation***, 866 N.Y.S.2d 10 (App. Div. 1st Dep't 2008). In this derivative case in which Milberg serves as co-lead counsel, plaintiff shareholders sued certain of the company's officers and directors based on allegations of illegal options backdating. The lower court dismissed the plaintiffs' claims, holding that the plaintiffs failed to make a pre-suit demand on the company's board, and that in any event, the board had already formed a special committee to investigate the misconduct. In this significant opinion reversing the lower court's dismissal, the Appellate Division clarified the standards of demand futility and held that a board of directors loses the protection of the business judgment rule where there is evidence of the directors' self-dealing and poor judgment. The court noted that the mere creation of a special committee did not justify a stay of the action and did not demonstrate that the board took appropriate steps. Rather, "the picture presented in the complaint is that of a special committee taking a tepid rather than a vigorous approach to the misconduct and the resultant harm. Under such circumstances, the board should not be provided with any special protection."
- ***South Ferry LP #2 v. Killinger***, 542 F.3d 776 (9th Cir. 2008). The important opinion issued by the Ninth Circuit in this securities fraud class action clarified, in the post-*Tellabs* environment, whether a theory of scienter based on the "core operations" inference satisfies the PSLRA's heightened pleading standard. In siding with the plaintiffs, represented by Milberg, the Ninth Circuit held that "[a]llegations that rely on the core operations inference are among the allegations that may be considered in the complete PSLRA analysis." The court explained that under the "holistic" approach required by *Tellabs*, all allegations must be "read as a whole" in considering whether plaintiffs adequately plead scienter. After remand, the District Court found that the plaintiffs sufficiently alleged scienter under the Ninth Circuit's analysis.
- ***In re Gilead Sciences Securities Litigation***, 536 F.3d 1049 (9th Cir. 2008). In this securities fraud class action in which Milberg represents the plaintiffs, the Ninth Circuit reversed the District Court's dismissal of the complaint in this opinion clarifying loss causation pleading requirements. In ruling that the plaintiffs adequately pled loss causation, the Ninth Circuit held that the plaintiffs' complaint identified a "specific economic loss" following the issuance of a specific press release, along with allegations of misrepresentations that were described in "abundant detail." The opinion established that plaintiffs in a securities fraud action adequately plead loss causation where they provide sufficient detail of their loss causation theory and some assurance that the theory has a basis in fact. Based on this analysis, the dismissal was reversed, and the case was remanded to the District Court for further proceedings.
- In ***Tellabs, Inc. v. Makor Issues & Rights, Ltd.***, 551 U.S. 308 (2007), in which Milberg is lead counsel for the class, the United States Supreme Court announced a uniform standard for evaluating the sufficiency of a complaint under the PSLRA. The court held that on a motion to dismiss, a court "must consider the complaint in its entirety," accepting "all factual allegations in the complaint as true," as well as "tak[ing] into account plausible opposing inferences." On remand, the Seventh Circuit concluded that "the plaintiffs have succeeded, with regard to the statements identified in our previous opinion as having been adequately alleged to be false and material, in pleading scienter in conformity with the requirements of the PSLRA. We therefore adhere to our decision to reverse the judgment of the district court dismissing the suit." The unanimous decision was written by Judge Richard A. Posner.
- ***Asher v. Baxter International, Inc.***, 377 F.3d 727 (7th Cir. 2004). In reversing and remanding the District Court's dismissal, the Seventh Circuit resolved in plaintiffs' favor an important issue involving the PSLRA's "safe harbor" for forward-looking statements. The

court held that whether a cautionary statement is meaningful is an issue of fact, because whether a statement is meaningful or not depends in part on what the defendant knew when the statement was made as well as other issues of fact. Thus, this issue is not appropriately resolved on a motion to dismiss.

- ***Gebhardt v. ConAgra Foods, Inc.***, 335 F.3d 824 (8th Cir. 2003). This important decision strongly reaffirmed the principle that whether an undisclosed fact would have been material to investors cannot ordinarily be decided on a motion to dismiss. The Eighth Circuit, stressing that "[t]he question of materiality hinges on the particular circumstances of the company in question," observed that even relatively small errors in financial statements might be material if they concern areas of particular importance to investors and raise questions about management integrity.
- ***In re Cabletron Systems, Inc.***, 311 F.3d 11 (1st Cir. 2002). In this opinion, the First Circuit joined the Second Circuit in allowing a complaint to be based on confidential sources. The court also accepted the argument made by plaintiffs, represented by Milberg, that courts should consider the amount of discovery taken place prior to deciding a motion to dismiss, with a lack of discovery resulting in a correspondingly less stringent standard for pleading securities fraud claims with particularity.
- In ***Puckett v. Sony Music Entertainment***, No. 108802/98 (N.Y. Sup. Ct. N.Y. Cnty. 2002), a class action was certified against Sony Music Entertainment on behalf of a class of recording artists who were parties to standard Sony recording or production agreements entered into during the class period. The complaint alleged that Sony had a policy of treating the value added tax on foreign sales of recordings improperly thereby impermissibly reducing the royalties paid or credited to the class members. Justice DeGrasse of the New York State Supreme Court determined that class certification was appropriate and that Gary Puckett (of Gary Puckett & the Union Gap) and jazz musician and composer Robert Watson were appropriate class representatives to represent the class of artists and producers to whom Sony accounts for foreign record royalties.
- ***Novak v. Kasaks***, 216 F.3d 300 (2d Cir. 2000). The Firm was lead counsel in this seminal securities fraud case in which the Second Circuit undertook an extensive analysis of the statutory text and the legislative history of the PSLRA and pre-existing Second Circuit case law. Among other things, the Second Circuit held that the PSLRA's pleading standard for scienter was largely equivalent to the pre-existing Second Circuit standard and vacated the District Court's dismissal which sought to impose a higher standard for pleading scienter under the PSLRA. The Second Circuit also rejected any general requirement that plaintiffs' confidential sources must be disclosed to satisfy the PSLRA's newly-enacted particularity requirements.
- ***In re Advanta Corp. Securities Litigation***, 180 F.3d 525 (3d Cir. 1999). Here, the plaintiffs, represented by Milberg, successfully argued that under the PSLRA, scienter is sufficiently pled by making an adequate showing that the defendants acted knowingly or with reckless disregard for the consequences of their actions. The Third Circuit specifically adopted the Second Circuit's scienter pleading standard for pleading fraud under the PSLRA.
- In ***Hunt v. Alliance North American Government Income Trust, Inc.***, 159 F.3d 723 (2d Cir. 1998), the Second Circuit reversed the District Court's ruling, which denied plaintiffs leave to amend to assert a cause of action against defendants for failing to disclose that the defendant Trust was unable to utilize proper "hedging" techniques to insure against risk of loss. In the court's view, taken together and in context, the Trust's representations would have misled a reasonable investor.
- In ***Shaw v. Digital Equipment Corp.***, 82 F.3d 1194 (1st Cir. 1996), the First Circuit remanded plaintiffs' action after affirming, in part, Milbergs' position that in association with the filing of a prospectus related to the issuance of securities, a corporate-issuer must disclose intra-quarter, materially adverse changes in its business, if such adverse changes constitute

"material changes" the disclosure of which is required pursuant to the Securities Act of 1933.

- ***In re Salomon, Inc. Shareholders Derivative Litigation***, 68 F.3d 554 (2d Cir. 1995). The Second Circuit affirmed the District Court's holding that derivative federal securities claims against defendants would not be referred to arbitration pursuant to the arbitration provisions of the Rules of the New York Stock Exchange, but would be tried in District Court. Shortly thereafter, the case settled for $40 million.
- ***Kamen v. Kemper Financial Services, Inc.***, 500 U.S. 90 (1991). The Supreme Court upheld the right of a stockholder of a mutual fund to bring a derivative suit without first making a pre-suit demand. Specifically, the Court held that "where a gap in the federal securities laws must be bridged by a rule that bears on the allocation of governing powers within the corporation, federal courts should incorporate state law into federal common law unless the particular state law in question is inconsistent with the policies underlying the federal statute. . . . Because a futility exception to demand does not impede the regulatory objectives of the [Investment Company Act], a court that is entertaining a derivative action under that statute must apply the demand futility exception as it is defined by the law of the State of incorporation."
- ***Mosesian v. Peat, Marwick, Mitchell & Co.***, 727 F.2d 873 (9th Cir. 1984), *cert. denied*, 469 U.S. 932 (1984). The Ninth Circuit upheld an investor's right to pursue a class action against an accounting firm, adopting statute of limitation rules for Section 10(b) suits that are favorable to investors.
- ***Hasan v. CleveTrust Realty Investors***, 729 F.2d 372 (6th Cir. 1984). The Sixth Circuit very strictly construed, and thus narrowed, the ability of a "special litigation committee" of the board of a public company to terminate a derivative action brought by a shareholder.
- ***Fox v. Reich & Tang, Inc.***, 692 F.2d 250 (2d Cir. 1982), *aff'd sub nom*, ***Daily Income Fund, Inc. v. Fox***, 464 U.S. 523 (1984). The court held that a Rule 23.1 demand is not required in a shareholder suit brought pursuant to Section 36(b) of the Investment Company Act.
- ***Rifkin v. Crow***, 574 F.2d 256 (5th Cir. 1978). The Fifth Circuit reversed an order granting summary judgment for defendants in a Section 10(b) case, paving the way for future acceptance of the "fraud-on-the-market" rationale in the Fifth Circuit.
- ***Blackie v. Barrack***, 524 F.2d 891 (9th Cir. 1975), *cert. denied*, 429 U.S. 816 (1976). This is the seminal appellate decision on the use of the "fraud-on-the-market" theory of reliance, allowing investors who purchase stock at artificially inflated prices to recover even if they were personally unaware of the false and misleading statements reflected in the stock's price. In so holding, the court noted that class actions are necessary to protect the rights of defrauded purchasers of securities.
- ***Bershad v. McDonough***, 300 F. Supp. 1051 (N.D. Ill. 1969), *aff'd*, 428 F.2d 693 (7th Cir. 1970). In this case, the plaintiff, represented by Milberg, obtained summary judgment on a claim for violation of Section 16(b) of the Securities Exchange Act, where the transaction at issue was structured by the defendants to look like a lawful option. The decision has been cited frequently in discussions as to the scope and purpose of Section 16(b).
- ***Heit v. Weitzen***, 402 F.2d 909 (2d Cir. 1968). The court held that liability under Section 10(b) of the Securities Exchange Act extends to defendants, such as auditors, who were not in privity with the named plaintiffs or the class represented by the named plaintiffs.

He was one of the principal trial counsel for plaintiffs in *In re Vivendi Universal, S.A. Securities Litigation* (S.D.N.Y.), a securities fraud class action in which the jury returned a verdict for the plaintiffs in January 2010. Mr. Spencer has also led the Firm's prosecution of other cases in diverse fields. Mr. Spencer began his legal career as a law clerk to U.S. District Judge Wm. Matthew Byrne Jr. in Los Angeles (1976-77). He then returned to New York and joined Cravath, Swaine & Moore as an associate, where he worked until 1986, when he joined Milberg as an associate and became a partner later that year. Mr. SPENCER graduated from Yale University in 1973 with a B.A. degree, magna cum laude, with distinction, in philosophy. While at Yale, he was elected to Phi Beta Kappa. He was one of the principal trial counsel for plaintiffs in In re Vivendi Universal, S.A. Securities Litigation (S.D.N.Y.), a securities fraud class action in which the jury returned a verdict for the plaintiffs in January 2010. He is presently handling post-trial motions and defendant's anticipated appeal. The case is notable for the size of the verdict and for inclusion of investors from France, England, and the Netherlands, as well as the United States, in the certified class.

Mr. Spencer has handled many other securities cases at the Firm, including those against defendants in the fields of technology, real estate, finance, leasing, manufacturing, and pharmaceuticals. His first exposure to this type of case was in the precedent-setting "WPPSS" litigation in the late 1980s, which involved bond defaults on nuclear power plants in the Pacific Northwest and established the blueprint for prosecuting many complex securities class actions that followed.

Mr. Spencer has also led the Firm's prosecution of other cases in diverse fields. He was one of two principal trial counsel representing the FDIC in its year-long trial against a major accounting firm involving failed-bank audits, which led to a global settlement covering all government claims just before closing arguments to the jury. He has prosecuted consumer and securities claims against companies that sold deferred annuities unsuitable for retirement plan investors. He has taken appraisal and breach of fiduciary duty cases to trial in Delaware and Pennsylvania. He had extensive involvement in representing a coalition of union health care funds seeking to recover costs for treating smoking-related illnesses from the tobacco industry, pursuing the cases through several appeals. He has also represented plaintiffs in cases involving accounting malpractice, limited partnership investments, real estate closing fees and mortgage insurance, contract disputes, defamation, unlawful lotteries, and consumer deception.

Mr. Spencer began his legal career as a law clerk to U.S. District Judge Wm. Matthew Byrne Jr. in Los Angeles (1976-77). I, Craig Nicholas, declare:

1. I am the managing partner of Nicholas & Tomasevic, LLP Counsel for Indirect Purchaser Plaintiffs ("IPPs" or "Plaintiffs") in this action. 2. My firm has served as counsel to Bradley Van Patten and as counsel for IPPs throughout the course of this litigation. The background and experience of Nicholas & Tomasevic, LLP and its attorneys are summarized in the curriculum vitae attached hereto as **Exhibit A**.

3. Nicholas & Tomasevic, LLP has prosecuted this litigation solely on a contingent-fee basis and has been at risk that it would not receive any compensation for prosecuting claims against the defendants. 4. During the pendency of the litigation, Nicholas & Tomasevic, LLP performed the following work:

a. Read and review pleadings and briefs;

b. Litigation strategy, analysis, and case management; and

c. Review settlement agreement.

5. Attached hereto as **Exhibit B** is a billing summary of Nicholas & Tomasevic LLP's total hours and lodestar, computed at current billing rates, from March 1, 2017 to present. This summary was prepared from contemporaneous, daily time records regularly prepared and maintained by Thania Cuevas. Attached hereto as **Exhibit C** is a compilation of my firm's detailed time records at historical billing rates**.** The lodestar amount is for work assigned by Co-Lead Counsel and was performed by professional staff at my law firm.

6. A summary of work performed by Nicholas & Tomasevic, LLP and detailed billing records from June 1, 2013 to February 28, 2017 were submitted with the Declaration of Craig Nicholas in Support of Indirect Purchaser Plaintiffs' Motion for an Award of Attorneys'

7. In summary, the total number of hours spent by Nicholas & Tomasevic, LLP since June 1, 2013 was 75.4 with a corresponding lodestar of $17,984.00.

8. Attached hereto as **Exhibit D** is a summary of the expenses Nicholas & Tomasevic, LLP has incurred from June 1, 2013 to present, plus applicable case filing fees. We expended a total of $106.84 in unreimbursed costs and expenses in connection with the prosecution of this case. The expenses reflected in Exhibit D were prepared from expense reports, vouchers, receipts, and bank records, and thus represent an accurate recordation of the expenses incurred. A compilation of these transactional records is attached hereto in **Exhibit E**. I have reviewed the time and expenses reported by Nicholas & Tomasevic, LLP in this case which are included in this declaration, and I affirm that they are true and accurate. Nicholas & Tomasevic, LLP represents businesses and individuals in litigation across a spectrum of specialized practice areas, including business contract, tort and other business-to-business disputes. We provide the personal service offered by small law firms with the legal skills and litigation experience found in a large firm, by providing the highest quality legal representation, outstanding client service and cost effective representation.

The cornerstone of our firm is providing excellent legal representation to our clients. Our attorneys thoroughly prepare from the outset to maximize our clients' results in trial or settlement. We pride ourselves on winning cases – it is our business. We are client service driven. We stay in close contact. Telephone calls are returned promptly. We keep clients fully informed of developments. Our goal is not only to win, but to do so with the least disruption possible to our clients' business.

Efficient, cost-effective representation is a priority. By understanding our clients' objectives, and working hard to achieve them, the firm delivers high quality services at an acceptable cost.

By meeting these objectives, we seek to develop long-term client relationships and to exceed expectations with creative problem solving, untiring responsiveness, and use of cutting-edge technology. These components, combined with effective advocacy and hard work, bring results that our clients value.

The experience of the lawyers at Nicholas & Tomasevic, LLP includes, but is not limited to, California Superior Court certification of class action cases for purposes of trial and for settlement in a variety of contexts, including unfair competition, false advertising, and wage and hour litigation. Nicholas & Tomasevic, LLP has played a leading role in shaping class action law in California by obtaining Ninth Circuit decisions affirming that class action waivers contained in consumer contracts are void as unconscionable under California law, which have been followed and cited throughout the country.

Representative cases handled by Nicholas & Tomasevic, LLP include:

i. *Laster v. T-Mobile* to represent a class of consumers who were charged sales tax on cellphones purchased as part of a "bundled" transaction. Nicholas & Tomasevic, LLP successfully argued both before the United States District Court and at the Ninth Circuit Court of Appeal that the waiver of class action rights is unconscionable under California law. N&T participated in the drafting of a United States Supreme Court certification petition opposition, requesting that the

Supreme Court deny certification, and prevailed on the certification issue at the United States Supreme Court.

ii. *Concepcion v. AT&T* to represent a class of consumers who were charged sales tax on cellphones advertised as "free." Nicholas & Tomasevic, LLP (formerly Nicholas & Butler, LLP) participated in the successful defeat of a "second generation" arbitration provision which denies class action rights but includes additional provisions that the cell phone carrier argued were not unconscionable. Again, Nicholas & Tomasevic, LLP was successful both at the District Court and Ninth Circuit Court of Appeal in confirming the unconscionability of the arbitration clause. The *Concepcion* decision by the Ninth Circuit was challenged by another United States Supreme Court certification petition and Nicholas & Tomasevic, LLP participated in the opposition to that certification petition, and the briefing of the merits once the U.S. Supreme Court took it up.

iii. *Loera v. Akal Security* to represent a class of approximately 350 guards who did not receive appropriate overtime, breaks, or meal periods in accordance with California law.

iv. *Cohen v. Robert Bosch Tools* to represent a class of consumers who purchased saws that were mislabeled as "Made in the USA."

v. *Nava v. Home Carpet Investment, Inc.* to represent a class of employees of Home Carpet who did not receive appropriate overtime, breaks, or meal periods in accordance with California law.

vi. *Maxwell v. Toys R Us* to represent a class of Toys R Us and Babies R Us customers for claims relating to Toys R Us's gift card program.

vii. *Moyle v. Liberty Mutual Insurance Company* to represent a non-opt out class of 1,166 employees seeking past service credits resulting from Liberty Mutual's purchase of Golden Eagle Insurance Company's assets through the rehabilitation process.

viii. *LaGuardia v. Allegro Towers* to represent four classes of current and former tenants who had their security deposits unlawfully withheld, and who were charged unlawful late and insufficient funds fees.

Nicholas & Tomasevic, LLP represents businesses and individuals in litigation across a spectrum of specialized practice areas, including business contract, tort and other business-to-business disputes. We provide the personal service offered by small law firms with the legal skills and litigation experience found in a large firm, by providing the highest quality legal representation, outstanding client service and cost effective representation.

The cornerstone of our firm is providing excellent legal representation to our clients. Our attorneys thoroughly prepare from the outset to maximize our clients' results in trial or settlement. We pride ourselves on winning cases – it is our business. We are client service driven. We stay in close contact. Telephone calls are returned promptly. We keep clients fully informed of developments. Our goal is not only to win, but to do so with the least disruption possible to our clients' business.

Efficient, cost-effective representation is a priority. By understanding our clients' objectives, and working hard to achieve them, the firm delivers high quality services at an acceptable cost.

By meeting these objectives, we seek to develop long-term client relationships and to exceed expectations with creative problem solving, untiring responsiveness, and use of cutting-edge technology. These components, combined with effective advocacy and hard work, bring results that our clients value.

The experience of the lawyers at Nicholas & Tomasevic, LLP includes, but is not limited to, California Superior Court certification of class action cases for purposes of trial and for settlement in a variety of contexts, including unfair competition, false advertising, and wage and hour litigation. Nicholas & Tomasevic, LLP has played a leading role in shaping class action law in California by obtaining Ninth Circuit decisions affirming that class action waivers contained in consumer contracts are void as unconscionable under California law, which have been followed and cited throughout the country.

Representative cases handled by Nicholas & Tomasevic, LLP include:

i. *Laster v. T-Mobile* to represent a class of consumers who were charged sales tax on cellphones purchased as part of a "bundled" transaction. Nicholas & Tomasevic, LLP successfully argued both before the United States District Court and at the Ninth Circuit Court of Appeal that the waiver of class action rights is unconscionable under California law. N&T participated in the drafting of a United States Supreme Court certification petition opposition, requesting that the

Supreme Court deny certification, and prevailed on the certification issue at the United States Supreme Court.

ii. *Concepcion v. AT&T* to represent a class of consumers who were charged sales tax on cellphones advertised as "free." Nicholas & Tomasevic, LLP (formerly Nicholas & Butler, LLP) participated in the successful defeat of a "second generation" arbitration provision which denies class action rights but includes additional provisions that the cell phone carrier argued were not unconscionable. Again, Nicholas & Tomasevic, LLP was successful both at the District Court and Ninth Circuit Court of Appeal in confirming the unconscionability of the arbitration clause. The *Concepcion* decision by the Ninth Circuit was challenged by another United States Supreme Court certification petition and Nicholas & Tomasevic, LLP participated in the opposition to that certification petition, and the briefing of the merits once the U.S. Supreme Court took it up.

iii. *Loera v. Akal Security* to represent a class of approximately 350 guards who did not receive appropriate overtime, breaks, or meal periods in accordance with California law.

iv. *Cohen v. Robert Bosch Tools* to represent a class of consumers who purchased saws that were mislabeled as "Made in the USA."

v. *Nava v. Home Carpet Investment, Inc.* to represent a class of employees of Home Carpet who did not receive appropriate overtime, breaks, or meal periods in accordance with California law.

vi. *Maxwell v. Toys R Us* to represent a class of Toys R Us and Babies R Us customers for claims relating to Toys R Us's gift card program.

vii. *Moyle v. Liberty Mutual Insurance Company* to represent a non-opt out class of 1,166 employees seeking past service credits resulting from Liberty Mutual's purchase of Golden Eagle Insurance Company's assets through the rehabilitation process.

viii. *LaGuardia v. Allegro Towers* to represent four classes of current and former tenants who had their security deposits unlawfully withheld, and who were charged unlawful late and insufficient funds fees.

Securities Litigation

Significant Landmarks

On January 3, 2018, in a significant victory for investors, Pomerantz, as sole Lead Counsel for the class, along with Lead Plaintiff Universities Superannuation Scheme Limited ("USS"), achieved a historic $2.95 billion settlement with Petróleo Brasileiro S.A. ("Petrobras") and its related entity, Petrobras International Finance Company, as well as certain of Petrobras' former executives and directors. On February 2, 2018, Pomerantz and USS reached a $50 million settlement with Petrobras' auditors, PricewaterhouseCoopers Auditores Independentes, bringing the total recovery for Petrobras investors to $3 billion. This is not only the largest securities class action settlement in a decade but is the largest settlement ever in a securities class action involving a foreign issuer, the fifth-largest securities class action settlement ever achieved in the United States, the largest securities class action settlement achieved by a foreign Lead Plaintiff, and the largest securities class action settlement in history not involving a restatement of financial reports.

The class action, brought on behalf of all purchasers of common and preferred American Depositary Shares ("ADSs") on the New York Stock Exchange, as well as purchasers of certain Petrobras debt, principally alleged that Petrobras and its senior executives engaged in a multi-year, multi-billion-dollar money-laundering and bribery scheme, which was concealed from investors.

The settlement was achieved after nearly three years of hard-fought litigation, including U.S. and foreign discovery and complex motion practice before Judge Jed S. Rakoff, United States District Judge for the Southern District of New York; and an appeal before the United States Court of Appeals for the Second Circuit. Defendants also filed a petition for writ of certiorari with the United States Supreme Court.

In addition to the outstanding multi-billion-dollar recovery to investors, Pomerantz secured precedent-setting decisions during the litigation. In a February 2016 Opinion and Order, the district court certified all the classes proposed by plaintiffs, encompassing not only purchasers of Petrobras American Depository Receipts, but also Petrobras bondholders who acquired securities pursuant to domestic transactions. Plaintiffs asserted claims under Sections 10(b) and 20(a) of the Securities Exchange Act of 1934, and Sections 11, 12(a)(2), and 15 of the Securities Act of 1933. Defendants appealed the district court's certification opinion on multiple grounds, including for failure to satisfy the requirement of ascertainability, and for failure to satisfy the burden of showing that the Petrobras securities at issue traded in efficient markets. The Second Circuit accepted the appeal and largely rejected defendants' arguments, sending the case back to the district court for further proceedings.

The Second Circuit's decision is an important and favorable precedent in several respects. First, in an issue of first impression, the Second Circuit squarely rejected defendants' invitation to adopt the heightened ascertainability requirement promulgated by the United States Court of Appeals for the Third Circuit, which would have required plaintiffs to demonstrate that determining membership in a class is "administratively feasible." The Second Circuit's rejection of this standard is not only a victory for bondholders in securities class actions, but also for plaintiffs in consumer fraud class actions and other class actions where documentation regarding Class membership is not readily attainable.

With respect to Petrobras' bondholders, the Second Circuit vacated the district court's granting of class certification, but only to the extent that it did not perform an analysis regarding the impact of the Supreme Court's decision in *Morrison v. National Australia Bank Ltd*., 561 U.S. 247 (2010), on the predominance requirement of class certification, acknowledging that "the district court might properly certify one or more classes that capture all of the Securities holders who fall within the Classes as currently defined." *In re Petrobras Sec. Litig.,* 862 F.3d 250, 274 (2d Cir. 2017).

The Second Circuit also refused to adopt a requirement, urged by defendants, that all securities class action plaintiffs seeking class certification prove through direct evidence (*i.e.*, via an event study) that the prices of the relevant securities moved in a particular direction in response to new information.

Pomerantz, as sole Lead Counsel in *Strougo v. Barclays PLC,* No. 14-cv-5797 (S.D.N.Y.), achieved a $27 million settlement for the Class (pending court approval) in January 2019. This high-profile securities litigation alleges that defendants concealed information and misled investors regarding its management of its "LX" dark pool, a private trading platform where the size and price of the orders are not revealed to other participants. On November 6, 2017, the Second Circuit affirmed former District Court Judge Shira S. Scheindlin's February 2, 2016, Opinion and Order granting plaintiffs' motion for class certification in the case.

The Court of Appeals in *Barclays* held that direct evidence of price impact is not always necessary to demonstrate market efficiency, as required to invoke the *Basic* presumption of reliance, and was not required here. Significantly, when handing down its decision, the Second Circuit cited its own *Petrobras* decision, stating, "We have repeatedly—and recently—declined to adopt a particular test for market efficiency." *Waggoner v. Barclays PLC,* 875 F.3d 79, 94 (2d Cir. 2017).

The court held that defendants seeking to rebut the *Basic* presumption of reliance on an efficient market must do so by a preponderance of the evidence. The court further held that it would be inconsistent with *Halliburton II* to "allow [ ] defendants to rebut the *Basic* presumption by simply producing *some* evidence of market inefficiency, but not demonstrating its inefficiency to the district court." *Id.* at 100. The court rejected defendants' contention that Federal Rule of Evidence 301 applies, and made clear that the *Basic* presumption is a judicially-created doctrine and thus the burden of persuasion properly shifts to defendants. The court thus confirmed that plaintiffs have no burden to show price impact at the class certification stage—a significant victory for investors.

On September 10, 2018, Pomerantz, as Co-Lead Counsel, achieved final approval of a historic $80 million settlement for the Class in *In re Yahoo! Inc. Sec. Litig.*, No. 17-cv-00373 (N.D. Cal.). The complaint, filed in January 2017, alleged that the internet giant intentionally misled investors about its cybersecurity practices in the wake of massive data breaches in 2013 and 2014 that compromised the personal information of all 3 billion Yahoo customers. Plaintiffs allege that Yahoo violated federal securities laws by failing to disclose the breaches, which caused a subsequent stock price dive. This represents the first significant settlement to date of a securities fraud class action filed in response to a data breach.

As part of due diligence, Pomerantz located critical evidence showing that Yahoo's management had concurrent knowledge of at least one of the data breaches. Importantly, these records showed that Yahoo's Board of Directors, including Defendant CEO Marissa Mayer, had knowledge of and received repeated updates regarding the breach. In its public filings, Yahoo denied that the CEO knew about the breach, and the CEO's knowledge was a key issue in the case.

After receiving Plaintiffs' opposition to the motion to dismiss, but before the federal District Court ruled on the motion, the case settled for $80 million. This early and large settlement reflects the strength of the complaint's allegations.

In May 2017, Pomerantz, as Co-Lead Counsel, achieved final approval of a $135 million recovery for the Class in *Kaplan v. S.A.C. Capital Advisors, L.P*, No. 12-cv-9350 (S.D.N.Y.). This securities class action stemmed from what has been called the most profitable insider trading scheme in U.S. history. After years of vigorous litigation, billionaire Steven A. Cohen's former hedge fund, S.A.C. Capital Advisors LP, agreed to settle the lawsuit by investors in the drug maker Elan Corp, who said they lost money because of insider trading by one of his portfolio managers.

In July 2017, Pomerantz secured the right of investors in BP p.l.c. to pursue "holder claims." The ruling, by Judge Keith P. Ellison of the U.S. District Court for the Southern District of Texas, is significant, given the dearth of precedent from anywhere in the U.S. that both recognizes the potential viability of a holder claim under some body of non-U.S. federal law and holds that the plaintiffs pursuing one had sufficiently alleged facts giving rise to reliance and other required elements of the underlying legal claims. Since 2012, Pomerantz has pursued ground-breaking claims on behalf of institutional investors in BP p.l.c. to recover losses in BP's common stock (which trades on the London Stock Exchange) stemming from the 2010 Gulf oil spill. The threshold challenge was how to litigate in U.S. court in the wake of the Supreme Court's 2010 decision in *Morrison v. National Australia Bank*, which barred recovery for losses in foreign-traded securities under the U.S. federal securities laws. In 2013 and 2014, Pomerantz secured a series of significant victories in individual actions pursued on behalf of institutional investors in *In re BP p.l.c. Securities Litigation*, MDL No. 2185 (S.D. Tex.). Pomerantz defeated BP's *forum non conveniens* arguments seeking dismissal of U.S. institutions and, later, foreign institutions, pursuing English common law claims seeking recovery of investment losses stemming in both NYSE-traded ADSs and London Stock Exchange (LSE)-traded common stock. Pomerantz also defeated BP's attempt to extend the Securities Litigation Uniform Standards Act to dismiss these claims. Thanks to these rulings, Pomerantz now leads the only litigation, post-*Morrison*, where U.S. and foreign investors, pursuing foreign claims seeking recovery for losses in foreign-traded stocks, are doing so in a U.S. court.

In June 2010, Judge Nicholas G. Garaufis of the U.S. District Court for the Eastern District of New York granted final approval of a $225 million settlement proposed by Pomerantz and Lead Plaintiff the Menora Group, with Comverse Technology and certain of Comverse's former officers and directors, after four years of highly-contested litigation. The *Comverse* settlement is one of the largest securities class action settlements reached since the passage of the Private Securities Litigation Reform Act ("PSLRA").[1] It is the second-largest recovery in a securities litigation involving the backdating of options, as well as one of the largest recoveries – $60 million – from an individual officer-defendant, Comverse's founder and former CEO, Kobi Alexander. *In re Comverse Technology, Inc. Sec. Litig.,* No. 06-CV-1825 (E.D.N.Y.)

Even before the enactment of the PSLRA, Pomerantz represented state agencies in securities class actions, including the Treasurer of the Commonwealth of Pennsylvania (recovered $100 million) against a major investment bank. *In re Salomon Brothers Treasury Litig.*, No. 91-cv-5471 (S.D.N.Y.).

[1] Institutional Shareholder Services, *SCAS Top 100 Settlements Quarterly Report* (Sept. 30, 2010).

Pomerantz recovered $50 million for the Treasurer of the State of New Jersey and several New Jersey pension funds in an individual action. This was a substantially higher recovery than what our clients would have obtained had they remained in a related federal class action. *Treasurer of State of New Jersey v. AOL Time Warner, Inc.* (N.J. Super. Ct. Law Div., Mercer Cty.).

Pomerantz has litigated numerous cases for the Louisiana School Employees' Retirement System. For example, as Lead Counsel, Pomerantz recovered $74.75 million in a securities fraud class action against Citigroup, its CEO Sanford Weill, and its now infamous telecommunications analyst Jack Grubman. *In re Salomon Analyst AT&T Litig*., No. 02-cv-6801 (S.D.N.Y.) Also, the Firm played a major role in a complex antitrust and securities class action which settled for over $1 billion. *In re NASDAQ Market-Makers Antitrust Litig*., MDL No. 1023 (S.D.N.Y.). Pomerantz was a member of the Executive Committee in *In re Transkaryotic Therapies, Inc. Securities Litigation*, C.A. No. 03-10165 (D. Mass.), helping to win a $50 million settlement for the class.

In 2008, together with Co-Counsel, Pomerantz identified a substantial opportunity for recovery of losses in Countrywide mortgage-backed securities ("MBS") for three large New Mexico funds (New Mexico State Investment Council, New Mexico Public Employees' Retirement Association, and New Mexico Educational Retirement Board), which had been overlooked by all of the firms then in their securities litigation pool. We then filed the first non-class lawsuit by a public institution with respect to Countrywide MBS. *See N.M. State Inv. Council v. Countrywide Fin. Corp.,* No. D-0101-CV-2008-02289 (N.M. 1st Dist. Ct.). In Fall 2010, we negotiated for our clients an extremely favorable but confidential settlement.

Over its long history, Pomerantz has achieved significant settlements in numerous cases, a sampling of which is listed below:

Pomerantz has also obtained stellar results for private institutions and Taft-Hartley funds. Below are a few examples:

- *In re Charter Commc'ns, Inc. Sec. Litig*., No. 02-cv-1186 (E.D. Mo. 2005) (sole Lead Counsel for Lead Plaintiff StoneRidge Investment Partners LLC); $146.25 million class settlement, where Charter also agreed to enact substantive improvements in corporate governance.

Partners Ltd. and obtained judgment of contempt against controlling shareholder for having made "extraordinary" payments to himself in violation of a preliminary injunction; persuaded the court to jail him for two years upon his refusal to pay; and, in a related action, won a $43 million judgment after trial and obtained turnover of stock of two companies).

Shaping the Law

Not only has Pomerantz established a long track record of obtaining substantial monetary recoveries for our clients; whenever appropriate, we also pursue corporate governance reforms on their behalf. In *In re Chesapeake Shareholders Derivative Litig*ation, No. CJ-2009-3983 (Okla. Dist. Ct., Okla. Cty. 2011), for example, the Firm served as Co-Lead Counsel, representing a public pension client in a derivative case arising from an excessive compensation package granted to Chesapeake's CEO and founder. This was a derivative action, not a class action. Yet it is illustrative of the results that can be obtained by an institutional investor in the corporate governance arena. There we obtained a settlement which called for the repayment of $12.1 million and other consideration by the CEO. The Wall Street Journal (Nov. 3, 2011) characterized the settlement as "a rare concession for the 52-year old executive, who has run the company largely by his own rules since he co-founded it in 1989." The settlement also included comprehensive corporate governance reforms.

The Firm has won many landmark decisions that have enhanced shareholders' rights and improved corporate governance. These include decisions that established that:

- defendants seeking to rebut the *Basic* presumption of reliance on an efficient market must do so by a preponderance of the evidence. *Waggoner v. Barclays PLC*, 875 F.3d 79 (2d Cir. 2017) (*Strougo v. Barclays PLC,* in the court below);
- plaintiffs have no burden to show price impact at the class certification stage. *Waggoner v. Barclays PLC*, 875 F.3d 79 (2d Cir. 2017) (*Strougo v. Barclays PLC,* in the court below);
- the ascertainability doctrine requires only that a class be defined using objective criteria that establish a membership with definite boundaries. *Universities Superannuation Scheme Ltd. v. Petróleo Brasileiro S.A. Petrobras*, 862 F.3d 250 (2d Cir. 2017);
- companies cannot adopt bylaws to regulate the rights of former stockholders. *Strougo v. Hollander*, C.A. No. 9770-CB (Del. Ch. 2015);
- a temporary rise in share price above its purchase price in the aftermath of a corrective disclosure does not eviscerate an investor's claim for damages. *Acticon AG v. China Ne. Petroleum Holdings Ltd.,* 692 F.3d 34 (2d Cir. 2012);
- an MBS holder may bring claims if the MBS price declines even if all payments of principal and interest have been made. Transcript of Proceedings, *N.M. State Inv. Council v. Countrywide Fin. Corp.,* No. D-0101-CV-2008-02289 (N.M. 1st Dist. Ct. Mar. 25, 2009);
- when a court selects a Lead Plaintiff under the Private Securities Litigation Reform Act ("PSLRA"), the standard for calculating the "largest financial interest" must take into account sales as well as purchases. *In re Comverse Tech.,, Inc. - a managing underwriter can owe fiduciary duties of loyalty and care to an issuer in connection with a public offering of the issuer stock, even in the absence of any contractual agreement. Professor John C. Coffee, a renowned Columbia University securities law professor, commenting on the ruling, stated: "It's going to change the practice of all underwriting." *EBC I, Inc. v. Goldman Sachs & Co*., 5 N.Y. 3d 11 (2005);
- purchasers of options have standing to sue under federal securities laws. *In re Green Tree Fin. Corp. Options Litig.*, No. 97-2679, 2002 U.S. Dist. LEXIS 13986 (D. Minn. July 29, 2002);
- shareholders have a right to a jury trial in derivative actions. *Ross v. Bernhard*, 396 U.S. 531 (1970);

- a company may have the obligation to disclose to shareholders its Board's consideration of important corporate transactions, such as the possibility of a spin-off, even before any final decision has been made. *Kronfeld v. Trans World Airlines, Inc*., 832 F.2d 726 (2d Cir. 1987);
- specific standards for assessing whether mutual fund advisors breach fiduciary duties by charging excessive fees. *Gartenberg v. Merrill Lynch Asset Mgmt., Inc*., 740 F.2d 190 (2d Cir. 1984);
- investment advisors to mutual funds are fiduciaries who cannot sell their trustee positions for a profit. *Rosenfeld v. Black*, 445 F.2d 1337 (2d Cir. 1971); and

Comments from the Courts

Throughout its history, courts time and again have acknowledged the Firm's ability to vigorously pursue and successfully litigate actions on behalf of investors.

In approving the $3 billion settlement in *In re Petrobras Securities Litigation* in June 2018, Judge Jed S. Rakoff of the Southern District of New York wrote:

> [T]he Court finds that Class Counsel's performance was in many respects exceptional, with the result that, as noted, the class is poised to enjoy a substantially larger per share recovery [65%] than the recovery enjoyed by numerous large and sophisticated plaintiffs who separately settled their claims.

At the hearing for preliminary approval of the settlement in *In re Petrobras Securities Litigation* in February 2018, Judge Rakoff stated:

> [T]he lawyers in this case [are] some of the best lawyers in the United States, if not in the world.

Two years earlier, in certifying two Classes in *In re Petrobras Securities Litigation* in February 2016, Judge Rakoff wrote:

> [O]n the basis not only of USS's counsel's prior experience but also the Court's observation of its advocacy over the many months since it was appointed Lead Counsel, the Court concludes that Pomerantz, the proposed class counsel, is "qualified, experienced and able to conduct the litigation." ... [T]he Pomerantz firm has both the skill and resources to represent the Classes adequately.

In approving the settlement in *Thorpe v. Walter Investment Management Corp.*, No. 14-cv-20880, 2016 U.S. Dist. LEXIS 144133 (S.D. Fla. Oct. 14, 2016) Judge Ursula Ungaro wrote:

> Class Counsel has developed a reputation for zealous advocacy in securities class actions. ... The settlement amount of $24 million is an outstanding result.

At the May 2015 hearing wherein the court approved the settlement in *Courtney v. Avid Technology, Inc.*, No. 13-cv-10686 (D. Mass. May 12, 2015), following oral argument by Jeremy A. Lieberman, Judge William G. Young stated:

> This has been very well litigated. It is always a privilege. I don't just say that as a matter of form. And I thank you for the vigorous litigation that I've been permitted to be a part of. [Tr. at 8-9.]

At the January 2012 hearing wherein the court approved the settlement in *In re Chesapeake Energy Corp. Shareholder Derivative Litigation*, No. CJ-2009-3983 (Okla. Dist. Ct., Okla. Cty. Jan. 30, 2012), following oral argument by Marc I. Gross, Judge Daniel L. Owens stated:

> Counsel, it's a pleasure, and I mean this and rarely say it. I think I've said it two times in 25 years. It is an extreme pleasure to deal with counsel of such caliber.
> [Tr. at 48.])

In approving the $225 million settlement in *In re Comverse Technology, Inc. Securities Litigation*, No. 06-CV-1825 (E.D.N.Y.) in June 2010, Judge Nicholas G. Garaufis stated:

> As outlined above, the recovery in this case is one of the highest ever achieved in this type of securities action. ... The court also notes that, throughout this litigation, it has been impressed by Lead Counsel's acumen and diligence. The briefing has been thorough, clear, and convincing, and ... Lead Counsel has not taken short cuts or relaxed its efforts at any stage of the litigation.

In approving a $146.25 million settlement in *In re Charter Communications Securities Litigation*, No. 02-CV-1186, 2005 U.S. Dist. LEXIS 14772 (E.D. Mo. June 30, 2005), in which Pomerantz served as sole Lead Counsel, Judge Charles A. Shaw praised the Firm's efforts, citing "the vigor with which Lead Counsel ... investigated claims, briefed the motions to dismiss, and negotiated the settlement." He further stated:

> This Court believes Lead Plaintiff achieved an excellent result in a complex action, where the risk of obtaining a significantly smaller recovery, if any, was substantial.

In approving a $24 million settlement in *In re Force Protection, Inc.,* No. 08 CV 845 (D.S.C. 2011), Judge C. Weston Houk described the Firm as "attorneys of great ability and great reputation" and commended the Firm for having "done an excellent job."

In certifying a class in a securities fraud action against analysts in *DeMarco v. Robertson Stephens Inc.*, 228 F.R.D. 468 (S.D.N.Y. 2005), Judge Gerard D. Lynch stated that Pomerantz had "ably and zealously represented the interests of the class."

Numerous courts have made similar comments:

- Appointing Pomerantz Lead Counsel in *American Italian Pasta Co. Securities Litigation*, No 05-CV-0725 (W.D. Mo.), a class action that involved a massive fraud and restatements spanning several years, the District Court observed that the Firm "has significant experience (and has been extremely effective) litigating securities class actions, employs highly qualified attorneys,

and possesses ample resources to effectively manage the class litigation and protect the class's interests."

- In approving the settlement in *In re Wiring Devices Antitrust Litigation*, MDL No. 331 (E.D.N.Y. Sept. 9, 1980), Chief Judge Jack B. Weinstein stated that "Counsel for the plaintiffs I think did an excellent job. ... They are outstanding and skillful. The litigation was and is extremely complex. They assumed a great deal of responsibility. They recovered a very large amount given the possibility of no recovery here which was in my opinion substantial."
- In *Snyder v. Nationwide Insurance Co.*, No. 97/0633, (N.Y. Supreme Court, Onondaga Cty.), a case where Pomerantz served as Co-Lead Counsel, Judge Tormey stated, "It was a pleasure to work with you. This is a good result. You've got some great attorneys working on it."
- In *Steinberg v. Nationwide Mutual Insurance Co.* (E.D.N.Y. 2004), Judge Spatt, granting class certification and appointing the Firm as class counsel, observed: "The Pomerantz firm has a strong reputation as class counsel and has demonstrated its competence to serve as class counsel in this motion for class certification." (224 F.R.D. 67, 766.)
- In *Mercury Savings & Loan*, No. 90-cv-00087 LHM (C.D. Cal. 1993), Judge McLaughlin commended the Firm for the "absolutely extraordinary job in this litigation."
- In *Boardwalk Marketplace Securities Litigation*, MDL No. 712 (D. Conn.), Judge Eginton described the Firm's services as "exemplary," praised it for its "usual fine job of lawyering ...[in] an extremely complex matter," and concluded that the case was "very well-handled and managed." (Tr. at 6, 5/20/92; Tr. at 10, 10/10/92.)
- In *Nodar v. Weksel*, No. 84 Civ. 3870 (S.D.N.Y.), Judge Broderick acknowledged "that the services rendered [by Pomerantz] were excellent services from the point of view of the class represented, [and] the result was an excellent result." (Tr. at 21-22, 12/27/90.)
- In *Klein v. A.G. Becker Paribas, Inc.*, No. 83 Civ. 6456 (S.D.N.Y.), Judge Goettel complimented the Firm for providing "excellent ...absolutely top-drawer representation for the class, particularly in light of the vigorous defense offered by the defense firm." (Tr. at 22, 3/6/87.)
- In *Digital Securities Litigation*, No. 83-3255 (D. Mass.), Judge Young lauded the Firm for its "[v]ery fine lawyering." (Tr. at 13, 9/18/86.)
- In *Shelter Realty Corp. v. Allied Maintenance Corp*., 75 F.R.D. 34, 40 (S.D.N.Y. 1977), Judge Frankel, referring to Pomerantz, said: "Their experience in handling class actions of this nature is known to the court and certainly puts to rest any doubt that the absent class members will receive the quality of representation to which they are entitled."
- In *Rauch v. Bilzerian*, No. 88 Civ. 15624 (N.J. Sup. Ct.), the court, after trial, referred to Pomerantz partners as "exceptionally competent counsel," and as having provided "top drawer, topflight [representation], certainly as good as I've seen in my stay on this court."

Corporate Governance Litigation

Pomerantz is committed to ensuring that companies adhere to responsible business practices and practice good corporate citizenship. We strongly support policies and procedures designed to give shareholders the ability to oversee the activities of a corporation. We vigorously pursue corporate

governance reform, particularly in the area of excess compensation, where it can address the growing disparity between the salaries of executives and the workers of major corporations. We have successfully utilized litigation to bring about corporate governance reform in numerous cases, and always consider whether such reforms are appropriate before any case is settled.

Pomerantz partners are frequent speakers at domestic and international conferences on the importance of securities fraud actions in such countries as the United Kingdom, France, and Israel. According to Senior Partner, Marc Gross, "We need to have these kinds of legal remedies available in order to maintain corporate honesty and accountability."

Pomerantz's Corporate Governance Practice Group, led by Partner Gustavo F. Bruckner, enforces shareholder rights and prosecutes actions challenging corporate transactions that arise from an unfair process or result in an unfair price for shareholders.

In September 2017, New Jersey Superior Court Judge Julio Mendez, of Cape May County Chancery Division, approved Pomerantz's settlement in a litigation against Ocean Shore Holding Co. The settlement provided non-pecuniary benefits for a non-opt out class. In so doing, Judge Mendez became the first New Jersey state court judge to formally adopt the Third Circuit's nine-part *Girsh* factors, *Girsh v. Jepson*, 521 F.2d 153 (3d Cir. 1975). There has never before been a published New Jersey state court opinion setting out the factors a court must consider in evaluating whether a class action settlement should be determined to be fair and adequate. After conducting an analysis of each of the nine *Girsh* factors and holding that "class actions settlements involving non-monetary benefits to the class are subject to more exacting scrutiny," Judge Mendez held that the proposed settlement provided a material benefit to the shareholders.

In February 2018, the Maryland Circuit Court, Montgomery County, approved a $17.5 million settlement that plaintiffs achieved as additional consideration on behalf of a class of shareholders of American Capital, Ltd. *In re Am. Capital, Ltd. S'holder Litig.*, C.A. No. 422598-V (2018). The settlement resolved Plaintiffs' claims regarding a forced sale of American Capital.

Pomerantz filed an action challenging the sale of American Capital, a Delaware corporation with its headquarters in Maryland. Among other things, American Capital's board of directors (the "Board") agreed to sell the company at a price below what two other bidders were willing to offer. Worse, the merger price was even below the amount that shareholders would have received in the company's planned phased liquidation, which the company was considering under pressure from Elliott Management, an activist hedge fund and holder of approximate 15% of American Capital stock. Elliott was not originally named as a defendant, but after initial discovery showed the extent of its involvement in the Board's breaches of fiduciary duty, Elliott was added as a defendant in an amended complaint under the theory that Elliott exercised actual control over the Board's decision-making. Elliott moved to dismiss on jurisdictional grounds and additionally challenged its alleged status as a controller of American Capital. In June 2017, minutes before the hearing on defendants' motion to dismiss, a partial settlement was entered into with the members of the Board for $11.5 million. The motion to dismiss hearing proceeded despite the partial settlement, but only as to Elliott. In July 2017, the court denied the motion to dismiss, finding that Elliott, "by virtue solely of its own conduct, … has easily satisfied the transacting business prong of the Maryland long arm statute." The court also found that the "amended complaint in this case sufficiently pleads that Elliott was a controller with respect to" the sale, thus

implicating a higher standard of review. Elliott subsequently settled the remaining claims for an additional $6 million. Pomerantz served as Co-Lead Counsel.

In May 2017, the Circuit Court of the State of Oregon approved the settlement achieved by Pomerantz and co-counsel of a derivative action brought by two shareholders of Lithia Motors, Inc. The lawsuit alleged breach of fiduciary duties by the board of directors in approving, without any meaningful review, the Transition Agreement between Lithia Motors and Sidney DeBoer, its founder, controlling shareholder, CEO, and Chairman, who was stepping down as CEO. DeBoer and his son, the current CEO, Bryan DeBoer, negotiated virtually all the material terms of the Agreement, by which the company agreed to pay the senior DeBoer $1,060,000 and a $42,000 car allowance annually for the rest of his life, plus other benefits, in addition to the $200,000 per year that he would receive for continuing to serve as Chairman.

The *Lithia* settlement extracted corporate governance therapeutics that provide substantial benefits to Lithia and its shareholders and redress the wrongdoing alleged by plaintiffs. The board will now be required to have at least five independent directors -- as defined under the New York Stock Exchange rules -- by 2020; a number of other new protocols will be in place to prevent self-dealing by board members. Further, the settlement calls for the Transition Agreement to be reviewed by an independent auditor who will determine whether the annual payments of $1,060,000 for life to Sidney DeBoer are reasonable. Lithia has agreed to accept whatever decision the auditor makes.

In January 2017, the Group received approval of the Delaware Chancery Court for a $5.6 million settlement it achieved on behalf of a class of shareholders of Physicians Formula Holdings Inc. over an ignored merger offer in 2012. *In re Physicians Formula Holdings Inc.*, C.A. No. 7794-VCL (Del. Ch.).

The Group obtained a landmark ruling in *Strougo v. Hollander*, C.A. No. 9770-CB (Del. Ch.), that fee-shifting bylaws adopted after a challenged transaction do not apply to shareholders affected by the transaction. They were also able to obtain a *25% price increase* for members of the class cashed out in the going private transaction.

In *Miller v. Bolduc*, No. SUCV 2015-00807 (Mass. Super. Ct.), the Group caused Implant Sciences to hold its first shareholder annual meeting in five years and put an important compensation grant up for a shareholder vote.

In *Smollar v. Potarazu*, C.A. No. 10287-VCN (Del. Ch.), the Group pursued a derivative action to bring about the appointment of two independent members to the board of directors, retention of an independent auditor, dissemination of financials to shareholders and the holding of first ever in-person annual meeting, among other corporate therapeutics.

In *Hallandale Beach Police Officers & Firefighters' Personnel Retirement Fund vs. Lululemon athletica, Inc.,* C.A. No. 8522-VCP (Del. Ch.), in an issue of first impression in Delaware, the Chancery Court ordered the production of the chairman's 10b5-1 stock trading plan. The court found that a stock trading plan established by the company's chairman, pursuant to which a broker, rather than the chairman himself, would liquidate a portion of the chairman's stock in the company, did not preclude potential liability for insider trading.

In *Strougo v. North State Bancorp*, No. 15 CVS 14696 (N.C. Super. Ct.), the Group caused the Merger Agreement to be amended to provide a "majority of the minority" provision for the holders of North State Bancorp's common stock in connection with the shareholder vote on the merger. As a result of the Action, common shareholders could stop the merger if they did not wish it to go forward.

Pomerantz's commitment to advancing sound corporate governance principles is further demonstrated by the more than 26 years that we have co-sponsored the Abraham L. Pomerantz Lecture Series with Brooklyn Law School. These lectures focus on critical and emerging issues concerning shareholder rights and corporate governance and bring together top academics and litigators.

Our bi-monthly newsletter, *The Pomerantz Monitor*, provides institutional investors updates and insights on current issues in corporate governance.

Antitrust Litigation

Pomerantz has earned a reputation for prosecuting complex antitrust and consumer class actions with vigor, innovation, and success. Pomerantz's Antitrust and Consumer Group has recovered billions of dollars for the Firm's business and individual clients and the classes that they represent. Time and again, Pomerantz has protected our free-market system from anticompetitive conduct such as price fixing, monopolization, exclusive territorial division, pernicious pharmaceutical conduct, and false advertising. Pomerantz's advocacy has spanned across diverse product markets, exhibiting the Antitrust and Consumer Group's versatility to prosecute class actions on any terrain.

Pomerantz has served and is currently serving in leadership or Co-Leadership roles in several high-profile multi-district litigation class actions. In December 2018, the Firm achieved a $31 billion partial settlement with three defendants on behalf of a class of U.S. lending institutions that originated, purchased or held loans paying interest rates tied to the U.S. Dollar London Interbank Offered Rate (USD LIBOR). It is alleged that the class suffered damages as a result of collusive manipulation by the LIBOR contributor panel banks that artificially suppressed the USD LIBOR rate during the class period, causing the class members to receive lower interest payments than they would have otherwise received. *In re Libor Based Financial Instruments Antitrust Litig.,* 1:11-md-2262.

Pomerantz represented baseball and hockey fans in a game-changing antitrust class action against Major League Baseball and the National Hockey League, challenging the exclusive territorial division of live television broadcasts, internet streaming, and the resulting geographic blackouts. *See Laumann v. NHL* and *Garber v. MLB* (S.D.N.Y. 2012).

Pomerantz has spearheaded the effort to challenge harmful anticompetitive conduct by pharmaceutical companies—including Pay-for-Delay Agreements—that artificially inflates the price of prescription drugs by keeping generic versions off the market.

Even prior to the 2013 precedential U.S. Supreme Court decision in *Actavis*, Pomerantz litigated and successfully settled the following generic-drug-delay cases:

- *In re Flonase Antitrust Litig.* (E.D. Pa. 2008) ($35 million);
- *In re Toprol XL Antitrust Litig.* (D. Del. 2006) ($11 million); and

- *In re Wellbutrin SR Antitrust Litig.* (E.D. Pa. 2004) ($21.5 million).

Other exemplary victories include Pomerantz's prominent role in *In re NASDAQ Market-Makers Antitrust Litigation* (S.D.N.Y.), which resulted in a settlement in excess of $1 billion for class members, one of the largest antitrust settlements in history. Pomerantz also played prominent roles in *In re Sorbates Direct Purchaser Antitrust Litigation* (N.D. Cal.), which resulted in over an $82 million recovery, and in *In re Methionine Antitrust Litigation* (N.D. Cal.), which resulted in a $107 million recovery. These cases illustrate the resources, expertise, and commitment that Pomerantz's Antitrust Group devotes to prosecuting some of the most egregious anticompetitive conduct.

Strategic Consumer Litigation

Pomerantz represents consumers in strategic consumer litigation, namely, actions that recover monetary relief on behalf of class members while also advocating for important consumer rights. We have successfully prosecuted claims involving California's Unfair Competition Law, California's Consumer Legal Remedies Act, the Song Beverly Consumer Warranty Act and the Song Beverly Credit Card Act. Pomerantz attorneys have resolved data breach privacy cases and cases involving unlawful recording, illegal background checks, unfair business practices, misleading advertising and other consumer finance related actions. Attorneys at Pomerantz also have been Lead Counsel in the prosecution and successful resolution of major nationwide class actions against Nissan, Ford, Volkswagen, BMW, Toyota, Chrysler and General Motors arising out of failures to disclose car defects. All of these actions also have involved significant changes to defendants' business practices.

Jeremy A. Lieberman

Jeremy A. Lieberman is Pomerantz's Managing Partner. Jeremy became associated with the Firm in August 2004 and was elevated to Partner in January 2010. He was honored as Benchmark Litigation's 2019 Plaintiff Attorney of the Year. In 2018, Jeremy was honored as a Titan of the Plaintiffs Bar by Law360 and as a Benchmark Litigation Star. The Pomerantz team that Jeremy leads was named a 2018 Securities Practice Group of the Year. Jeremy has been honored as a Super Lawyers® "Top-Rated Securities Litigation Attorney" in 2016, 2017, and 2018 – a recognition bestowed on no more than 5% of eligible attorneys in the New York Metro area. The Legal 500, in honoring Pomerantz as a Leading Firm for 2016 and 2017, stated that in New York, "Jeremy Lieberman is super impressive – a formidable adversary for any defense firm."

Jeremy led the litigation of *In re Petrobras Securities Litigation,* a closely-watched securities class action arising from a multi-billion-dollar kickback and bribery scheme involving Brazil's largest oil company, Petróleo Brasileiro S.A. – Petrobras, in which Pomerantz was sole Lead Counsel. The biggest instance of

corruption in the history of Brazil ensnared not only Petrobras' former executives but also Brazilian politicians, including former president Lula da Silva and one-third of the Brazilian Congress. In January and February 2018, Jeremy achieved a historic $3 billion settlement for the Class. This is not only the largest securities class action settlement in a decade but is the largest settlement ever in a securities class action involving a foreign issuer, the fifth-largest securities class action settlement ever achieved in the United States, the largest securities class action settlement achieved by a foreign Lead Plaintiff, and the largest securities class action settlement in history not involving a restatement of financial reports.

Jeremy also secured a significant victory for Petrobras investors at the Second Circuit Court of Appeals, when the court rejected the heightened ascertainability requirement for obtaining class certification that had been imposed by the Third Circuit Courts of Appeals. The ruling will have a positive impact on plaintiffs in securities fraud litigation. Indeed, the *Petrobras* litigation was honored in 2019 as a National Impact Case by Benchmark Litigation.

In January 2019, Jeremy achieved a $27 million settlement for the Class, pending court approval, in *Strougo v. Barclays PLC*, a high-profile securities class action in which Pomerantz is Lead Counsel. Plaintiffs allege that Barclays PLC misled institutional investors about the manipulation of the banking giant's so-called "dark pool" trading systems in order to provide a trading advantage to high-frequency traders over its institutional investor clients. This case turns on the duty of integrity owed by Barclays to its clients. In November 2017, he achieved precedent-setting victories for investors, when the Second Circuit Court of Appeals held that direct evidence of price impact is not always necessary to demonstrate market efficiency to invoke the presumption of reliance, and that defendants seeking to rebut the presumption of reliance must do so by a preponderance of the evidence rather than merely meeting a burden of production.

Jeremy led the Firm's high-profile class action litigation against Yahoo! Inc., in which Pomerantz, as Lead Counsel, achieved an $80 million settlement for the Class in 2018. The case involved the biggest data breaches in U.S. history, in which over 3 billion Yahoo accounts were compromised.

In 2018 Jeremy achieved a $3,300,000 settlement for the Class in the Firm's securities class action against Corinthian Colleges, one of the largest for-profit college systems in the country, for alleged misrepresentations about its job placement rates, compliance with applicable regulations, and enrollment statistics. Pomerantz prevailed in the motion to dismiss the proceedings, a particularly noteworthy victory because Chief Judge George King of the Central District of California had dismissed two prior lawsuits against Corinthian with similar allegations. *Erickson v. Corinthian Colleges, Inc.* (C.D. Cal.).

Jeremy led the Firm's litigation team that in 2018 secured a $31 million partial settlement with three defendants in *In re Libor Based Financial Instruments Antitrust Litigation*, a closely-watched multi-district litigation, which concerns the London Interbank Offered Rate (LIBOR) rigging scandal.

Jeremy heads the Firm's recently filed individual action against pharmaceutical giant Teva Pharmaceutical Industries Ltd., Teva Pharmaceuticals USA, Inc. (together, "Teva"), and certain of Teva's current and former employees and officers relating to alleged anticompetitive practices in Teva's sales of generic drugs. *Clal Insurance Company Ltd. v. Teva Pharmaceutical Industries Ltd.*

Jeremy also serves as Lead Counsel in a number of the most high-profile securities class actions pending in the U.S. courts, such as *In re Mylan N.V. Securities Litigation, In re Perrigo Co. Securities Litigation,* and *In re Fiat Chrysler Automobiles N.V. Securities Litigation.*

In *In re China North East Petroleum Corp. Securities Litigation*, Jeremy achieved a significant victory for shareholders in the United States Court of Appeals for the Second Circuit, whereby the Appeals Court ruled that a temporary rise in share price above its purchase price in the aftermath of a corrective disclosure did not eviscerate an investor's claim for damages. The Second Circuit's decision was deemed "precedential" by the *New York Law Journal* and provides critical guidance for assessing damages in a § 10(b) action.

Jeremy had an integral role in *In re Comverse Technology, Inc. Securities Litigation*, in which he and his partners achieved a historic $225 million settlement on behalf of the Class, which was the second-largest options backdating settlement to date.

Jeremy regularly consults with Pomerantz's international institutional clients, including pension funds, regarding their rights under the U.S. securities laws. Jeremy is working with the Firm's international clients to craft a response to the Supreme Court's ruling in *Morrison v. National Australia Bank, Ltd*., which limited the ability of foreign investors to seek redress under the federal securities laws. Currently, Jeremy is representing several UK and EU pension funds and asset managers in individual actions against BP plc in the United States District Court for the Southern District of Texas.

Jeremy is a frequent lecturer regarding current corporate governance and securities litigation issues. In March 2017, he spoke at the ICGN conference in Washington D.C., regarding recent trends in foreign securities litigation. He also recently led a discussion regarding U.S. securities class actions in Paris, France.

Jeremy graduated from Fordham University School of Law in 2002. While in law school, he served as a staff member of the *Fordham Urban Law Journal*. Upon graduation, he began his career at a major New York law firm as a litigation associate, where he specialized in complex commercial litigation.

Jeremy is admitted to practice in the State of New York; the U.S. District Courts for the Southern and Eastern Districts of New York, the Southern District of Texas, the District of Colorado, the Eastern District of Michigan and Northern District of Illinois; the U.S. Courts of Appeals for the Second, Third, Fourth, Sixth, Ninth, and Tenth Circuits; and the United States Supreme Court.

Patrick V. Dahlstrom

Patrick Dahlstrom joined Pomerantz as an associate in 1991 and was elevated to Partner in January 1996. He was Co-Managing Partner with Jeremy Lieberman in 2017 and 2018 and is now Senior Partner. Patrick is based in the Firm's Chicago office. He was honored as a Super Lawyers® "Top-Rated Securities Litigation Attorney" in 2018.

Patrick, a member of the Firm's Institutional Investor Practice and New Case Groups, has extensive experience litigating cases under the PSLRA. He led *In re Comverse Technology, Inc. Securities Litigation*,

No. 06-CV-1825 (E.D.N.Y.), in which the Firm, as Lead Counsel, recovered a $225 million settlement for the Class – the second-highest ever for a case involving back-dating options, and one of the largest recoveries ever from an individual officer-defendant, the company's founder and former CEO. In *Comverse*, the Firm obtained an important clarification of how courts calculate the "largest financial interest" in connection with the selection of a Lead Plaintiff, in a manner consistent with *Dura Pharmaceuticals, Inc. v. Broudo*, 544 U.S. 336 (2005). Judge Garaufis, in approving the settlement, lauded Pomerantz: "The court also notes that, throughout this litigation, it has been impressed by Lead Counsel's acumen and diligence. The briefing has been thorough, clear, and convincing, and ... Lead Counsel has not taken short cuts or relaxed its efforts at any stage of the litigation."

In *DeMarco v. Robertson Stephens Inc.*, 228 F.R.D. 468 (S.D.N.Y. 2005), Patrick obtained the first class certification in a federal securities case involving fraud by analysts.

Patrick's extensive experience in litigation under the PSLRA has made him an expert not only at making compelling arguments on behalf of Pomerantz' clients for Lead Plaintiff status, but also in discerning weaknesses of competing candidates. *In re American Italian Pasta Co. Securities Litigation* and *Comverse* are the most recent examples of his success in getting our clients appointed sole Lead Plaintiff despite competing motions by numerous impressive institutional clients.

Patrick was a member of the trial team in *In re ICN/Viratek Securities Litigation* (S.D.N.Y. 1997), which, after trial, settled for $14.5 million. Judge Wood praised the trial team: "[P]laintiffs counsel did a superb job here on behalf of the class. ...This was a very hard fought case. You had very able, superb opponents, and they put you to your task. ...The trial work was beautifully done and I believe very efficiently done."

Patrick's speaking engagements include interviews by NBC and the CBC regarding securities class actions, and among others, a presentation at the November 2009 State Association of County Retirement Systems Fall Conference as the featured speaker at the Board Chair/Vice Chair Session entitled: "Cleaning Up After the 100 Year Storm. How trustees can protect assets and recover losses following the burst of the housing and financial bubbles."

Patrick is a 1987 graduate of the Washington College of Law at American University in Washington, D.C., where he was a Dean's Fellow, Editor in Chief of the *Administrative Law Journal*, a member of the Moot Court Board representing Washington College of Law in the New York County Bar Association's Antitrust Moot Court Competition, and a member of the Vietnam Veterans of America Legal Services/Public Interest Law Clinic. Upon graduating, Patrick served as the Pro Se Staff Attorney for the United States District Court for the Eastern District of New York and was a law clerk to the Honorable Joan M. Azrack, United States Magistrate Judge.

Patrick is admitted to practice in New York and Illinois, the United States District Courts for the Southern and Eastern Districts of New York, Northern District of Illinois, Northern District of Indiana, Eastern District of Wisconsin, District of Colorado, Western District of Pennsylvania, the United States Courts of Appeals for the First, Fourth, Sixth, Seventh, Eighth, and Ninth Circuits, and the United States Supreme Court.

Gustavo F. Bruckner

Gustavo F. Bruckner heads Pomerantz's Corporate Governance practice area, which enforces shareholder rights and prosecutes litigation challenging corporate actions that harm shareholders. Under Gustavo's leadership, the Corporate Governance group has achieved numerous noteworthy litigation successes. He has been quoted frequently by Bloomberg, Law360, The New York Times, and Reuters, and was honored in 2016, 2017, and 2018 by Super Lawyers® as a "Top-Rated Securities Litigation Attorney," a recognition bestowed on no more than 5% of eligible attorneys in the New York Metro area. Gustavo regularly appears in state and federal courts across the nation.

In September 2017, Gustavo's Corporate Governance team achieved a settlement in New Jersey Superior Court that provided non-pecuniary benefits for a non-opt out class, in Pomerantz's litigation against Ocean Shore Holding Co. In approving the settlement, Judge Julio Mendez, of Cape May County Chancery Division, became the first New Jersey state court judge to formally adopt the Third Circuit's nine-part *Girsh* factors, *Girsh v. Jepson*, 521 F.2d 153 (3d Cir. 1975). Never before has there been a published New Jersey state court opinion setting out the factors a court must consider in evaluating whether a class action settlement should be determined to be fair and adequate.

Gustavo successfully argued *Strougo v. Hollander*, C.A. No. 9770-CB (Del. Ch. 2015), obtaining a landmark ruling in Delaware that bylaws adopted after shareholders are cashed out do not apply to shareholders affected by the transaction. In the process, Gustavo and the Corporate Governance team beat back a fee-shifting bylaw and were able to obtain a 25% price increase for members of the class cashed out in the "going private" transaction. Shortly thereafter, the Delaware Legislature adopted legislation to ban fee-shifting bylaws.

In *Stein v. DeBoer* (Or. Cir. Ct. 2017), Gustavo and the Corporate Governance group achieved a settlement that provides significant corporate governance therapeutics on behalf of shareholders of Lithia Motors, Inc. The company's board had approved, without meaningful review, the Transition Agreement between the company and Sidney DeBoer, its founder, controlling shareholder, CEO, and Chairman, who was stepping down as CEO. DeBoer and his son, the current CEO, negotiated virtually all the material terms of the Agreement, by which the company agreed to pay the senior DeBoer $1,060,000 and a $42,000 car allowance annually for the rest of his life, plus other benefits, in addition to the $200,000 per year that he would receive for continuing to serve as Chairman.

In *Miller v. Bolduc*, No. SUCV 2015-00807 (Mass. Sup. Ct. 2015), Gustavo and the Corporate Governance group, by initiating litigation, caused Implant Sciences to hold its first shareholder annual meeting in 5 years and to place an important compensation grant up for a shareholder vote.

In *Strougo v. North State Bancorp*, No. 15 CVS 14696 (N.C. Super. Ct. 2015), Gustavo and the Corporate Governance team caused the North State Bancorp merger agreement to be amended to provide a "majority of the minority" provision for common shareholders in connection with the shareholder vote on the merger. As a result of the action, common shareholders had the ability to stop the merger if they did not wish it to go forward.

In *Hallandale Beach Police Officers and Firefighters' Personnel Retirement Fund vs. Lululemon athletica, Inc.*, C.A. No. 8522-VCP (Del. Ch. 2014), in an issue of first impression in Delaware, Gustavo successfully

argued for the production of the company chairman's Rule 10b5-1 stock trading plan. The court found that a stock trading plan established by the company's chairman, pursuant to which a broker, rather than the chairman himself, would liquidate a portion of the chairman's stock in the company, did not preclude potential liability for insider trading.

Gustavo was Co-Lead Counsel in *In re Great Wolf Resorts, Inc. Shareholders Litigation*, C.A. No. 7328-VCN (Del. Ch. 2012), obtaining the elimination of stand-still provisions that allowed third parties to bid for Great Wolf Resorts, Inc., resulting in the emergence of a third-party bidder and approximately $94 million (57%) in additional merger consideration for Great Wolf shareholders.

Gustavo received his law degree in 1992 from the Benjamin N. Cardozo School of Law, where he served as an editor of the Moot Court Board and on the Student Council. Upon graduation, he received the award for outstanding student service.

After graduating law school, Gustavo served as Chief-of-Staff to a New York City legislator.

Gustavo is a Mentor and Coach to the NYU Stern School of Business, Berkley Center for Entrepreneurial Studies, New Venture Competition. He was a University Scholar at NYU where he obtained a B.S. in Marketing and International Business in 1988 and an MBA in Finance and International Business in 1989.

Gustavo is a Trustee and the Treasurer of the Beit Rabban Day School, and an arbitrator in the Civil Court of the City of New York.

Gustavo is licensed to practice in New York and New Jersey and is admitted to practice before the United States District Court for the Eastern, Northern, and Southern Districts of New York, the United States District Court for the District of New Jersey, United States Court of Appeals for the Second and Seventh Circuits, and the United States Supreme Court.

Emma Gilmore

Emma Gilmore is a partner at the Firm and is regularly involved in high-profile class-action litigation. In 2018, Emma was honored as an MVP in Securities Litigation, part of an "elite slate of attorneys [who] have distinguished themselves from their peers by securing hard-earned successes in high-stakes litigation, complex global matters and record-breaking deals." Only up to six attorneys nationwide are selected each year as MVPs in Securities Litigation. Emma is only the third woman in that practice group to have received this outstanding award since it was initiated in 2011. Emma was also honored as a 2018 Super Lawyer® in the New York Metro area.

Emma is a Fellow of the American Bar Foundation, an honorary society of lawyers, judges, law faculty and legal scholars who have demonstrated outstanding leadership in the profession. Membership is limited to one percent of the lawyers admitted to practice in the United States and includes the leading US lawyers.

Emma recently played a leading role in the Firm's class action case in the Southern District of New York against Brazil's largest oil company, Petrobras, arising from a multi-billion-dollar kickback and bribery scheme, in which the Firm was sole Lead Counsel. The biggest instance of corruption in the history of

Brazil had ensnared not only Petrobras' former executives but also Brazilian politicians, including former president Lula da Silva and one-third of the Brazilian Congress. Emma was the principal drafter of the complaint. She deposed and defended numerous fact and expert witnesses, including deposing the former CEO of Petrobras, the whistleblower, and the chief accountant. She was also the principal drafter of the appellate brief and played an instrumental role in securing a significant victory for investors in this case at the Second Circuit Court of Appeals, when the Court rejected the heightened ascertainability requirement for obtaining class certification that had been imposed by other circuit courts. She opposed defendants' petition for a writ of certiorari to the Supreme Court. In a significant victory for investors, Pomerantz has achieved a historic $3 billion settlement with Petrobras. This is not only the largest securities class action settlement in a decade but is the largest settlement ever in a class action involving a foreign issuer, the fifth-largest class action settlement ever achieved in the United States, and the largest settlement achieved by a foreign lead plaintiff.

Emma played a leading role in *Strougo v. Barclays PLC*, a high-profile securities class action that alleges Barclays PLC misled institutional investor clients about the extent of the banking giant's use of so-called "dark pool" trading systems. She drafted the complaint and defeated defendants' efforts to dismiss the action and more recently contributed to securing an important precedent-setting opinion from the Second Circuit. Emma organized a group of leading evidence experts who filed amicus briefs supporting plaintiffs' position in the Second Circuit.

Together with managing partner Jeremy Lieberman, Emma leads the securities class action litigation against Philip Morris International, arising from the development of its Reduced Risk smoking products.

Emma also plays a leading role in the Firm's class action litigation against Arconic, arising from the deadliest U.K. fire in more than a century.

She also represents Safra Bank in a class action against Samarco Mineração S.A., in connection with the Fundao dam-burst disaster, which is widely regarded as the worst environmental disaster in Brazil's history.

Emma played a leading role in the high-profile class action litigation against Yahoo! Inc., in which the Firm, as Lead Counsel, achieved an $80 million settlement for the Class. The case involved the biggest data breaches in U.S. history, in which over 3 billion Yahoo accounts were compromised.

Among other cases, Emma is part of the team prosecuting securities fraud claims against BP on behalf of many foreign and domestic public and private pension funds arising from the company's 2010 Deepwater Horizon oil spill. *In re BP p.l.c. Sec. Litig.*, No. 10-md-2185 (S.D. Tex.). She helped devise a cutting-edge strategy that established the right of individual foreign investors who purchased foreign-traded shares of a foreign corporation to pursue claims for securities fraud in a U.S. court, thereby overcoming obstacles created by the U.S. Supreme Court's 2010 decision in *Morrison v. National Australia Bank Ltd*.

Emma secured a unanimous decision by a panel of the Ninth Circuit Court of Appeals, benefitting defrauded investors in *Costa Brava Partnership III LP v. ChinaCast Education Corp*. In an issue of first impression, the Ninth Circuit held that imputation of the CEO's scienter to the company was warranted

vis-a-vis innocent third parties, despite the fact that the executive acted for his own benefit and to the company's detriment.

She has also devoted a significant amount of time to pro bono matters. She played a critical role in securing a unanimous ruling by the Arkansas Supreme Court striking down as unconstitutional a state law banning cohabiting individuals from adopting children or serving as foster parents. The ruling was a relief for the 1,600-plus children in the state of Arkansas who needed a permanent family. The litigation generated significant publicity, including coverage by the Arkansas Times, the Wall Street Journal, and the New York Times.

Before joining Pomerantz, Emma was a litigation associate with the firms of Skadden, Arps, Slate, Meagher and Flom, LLP, and Sullivan & Cromwell, LLP, where she was involved in commercial and securities matters. Her experience includes working on the *WorldCom Securities Litigation,* representing more than a dozen prominent banks and also representing clients such as General Electric, Columbia University, Samsung, LG Electronics, Sony, Philips, BT, and JVC.

She also served as a law clerk to the Honorable Thomas C. Platt, former U.S. Chief Judge for the Eastern District of New York.

Emma graduated *cum laude* from Brooklyn Law School, where she served as a staff editor for the *Brooklyn Law Review*. She was the recipient of two CALI Excellence for the Future Awards, being the highest scoring student in the subjects of evidence and discovery. She graduated *summa cum laude* from Arizona State University, with a BA in French and a minor in Business.

She serves on the Firm's Anti-Harassment and Discrimination Committee.

Matthew L. Tuccillo

Matthew L. Tuccillo joined Pomerantz in 2011 and was elevated to Partner in December 2013. He is responsible, on an ongoing basis, for the Firm's litigation of numerous securities fraud class actions pending nationwide, currently including: *In re Toronto-Dominion Bank Securities Litigation*, 1:17-cv-01735 (D.N.J.); *Chun v. Fluor Corp., et al.*, No. 3:18-cv-01338-S (N.D. Tex.); and *Heuschen v. Sibanye Gold Ltd., et al.*, No. 1:18-cv-03902 (E.D.N.Y.).

Matt oversees and is the lead litigator on the Firm's securities fraud lawsuits arising from BP's 2010 Gulf oil spill, pending in Multidistrict Litigation 2185, *In re BP p.l.c. Secs. Litig*., No. 4:10-md-2185 (S.D. Tex.). He briefed and argued successful oppositions to three rounds of BP's motions to dismiss the claims of roughly 100 institutional investors, drawing the court's praise for the "quality of lawyering," which it called "uniformly excellent." In leading the BP litigation, Matt has secured some of the Firm's most ground-breaking rulings:

- He successfully argued that foreign and domestic investors had asserted viable "holder claims" seeking to recover investment losses due to their retention of already-owned shares in reliance upon the fraud, which is believed to be the first ruling by a U.S. court sustaining such a theory under English common law.

- He successfully argued against *forum non conveniens* dismissal, obtaining the first ruling after the Supreme Court's decision in *Morrison v. Nat'l Australia Bank Ltd.*, 130 S. Ct. 2869 (2010) to

permit foreign investors pursuing foreign law claims to seek recovery for losses on a foreign stock exchange in a U.S. court.

- He successfully argued that the Securities Litigation Uniform Standards Act of 1998 (SLUSA), which extinguishes U.S. state law claims in deference to the U.S. federal securities laws, should not be extended to foreign common law claims being pursued by both domestic and foreign investors.

Matt also fulfills Pomerantz's roles as MDL 2185 Individual Action Plaintiffs Steering Committee member and sole Liaison with BP and the Court. The Firm's BP clients include 32 public and private pension funds, investment management firms, limited partnerships, and investment trusts from the U.S., Canada, the U.K., France, the Netherlands, and Australia, seeking recovery for losses in BP's common stock (traded on the London Stock Exchange) and American Depository Shares (traded on the NYSE).

As the Firm's lead litigator in *Perez v. Higher One Holdings, Inc., et al.*, No. 14-cv-00755-AWT (D. Conn.), Matt persuaded the court, after an initial dismissal, to uphold a second amended complaint that pled five separate threads of fraud over a multi-year period by an education funding company and its executives. Among other rulings, court agreed that the company's reported financial and operating results violated Regulation S-K, Item 303, 17 C.F.R. §229.303, for failure to disclose known trends regarding the underlying misconduct and its impacts on reported results – a rare ruling in the absence of any accounting restatement. He negotiated a $7.5 million class-wide settlement that was approved by the court.

As the Firm's lead litigator in *In re KaloBios Pharmaceuticals, Inc. Securities Litigation*, No. 15-cv-05841 (N.D. Cal.), Matt negotiated two court-approved class-wide settlements worth over $3.25 million in the aggregate, from a bankrupt pharmaceutical company, its jailed former CEO, and two separate D&O insurers. Significantly, he secured payments of cash and stock directly from the bankrupt company, which also required bankruptcy court approval.

As the Firm's lead litigator in *In re Silvercorp Metals, Inc. Securities Litigation*, No. 1:12-cv-09456 (S.D.N.Y.), Matt worked closely with mining, accounting, damages, and market efficiency experts to defeat a motion to dismiss and oversee discovery in a securities class action involving a Canadian company with mining operations in China and stock traded on the NYSE. After two mediations, the case was resolved for a $14 million all-cash fund. In granting final approval of the settlement, Judge Rakoff noted that the case was "unusually complex," given the technical nature of mining metrics, the need to compare mining standards in Canada, China, and the U.S., and the volume of Chinese-language evidence requiring translation.

Matt's prior casework also includes litigation and resolution of complex disputes over roll ups of consulting companies and of commercial real estate interests. At Pomerantz, he was on the multi-firm team that litigated and settled *In re Empire State Realty Trust, Inc. Investor Litig*., No. 650607/2012 (N.Y. Sup. Ct.), representing investors in public and private commercial real estate interests against the long-term lessees/operators, the Malkin family and the Estate of Leona Helmsley, regarding a proposed consolidation, REIT formation, and IPO centered around New York's iconic Empire State Building. These efforts achieved broad relief for the class, including a $55 million cash/securities settlement fund, a restructured deal creating a $100 million tax benefit, expansive remedial disclosures, and important deal

protections.

Before joining Pomerantz, Matt began his career at a large full-service Boston firm, litigating primarily for corporate clients. He also worked at plaintiff-side firms in Boston and Connecticut, litigating securities, consumer, and wage and hour class actions, as well as complex sale of business disputes. He has negotiated numerous multi-million-dollar settlements, through both mediation and direct negotiation. His pro bono work includes securing Social Security benefits for a veteran suffering from non-service-related disabilities.

In 2018, Matt was recognized by *Lawyer Monthly* as its Lawyer of the Year (U.S.A.) in the Federal Tort & Military category, based on a ten-point assessment including significance of legal matters, case value, legal expertise, innovation in client care, activity level, and peer recognition. Also in 2018, he was a New York honoree in both the National Trial Lawyers' Class Action Trial Lawyers Association Top 25 and in America's Top 100 High Stakes Litigators® for New York. He was honored as a 2018, 2017, and 2016 Super Lawyers® "Top-Rated Securities Litigation Attorney," a recognition bestowed on 5% of eligible attorneys in the New York Metro area, after a rigorous process overseen by Thompson Reuters. Since 2016, he has been a recommended securities litigator by The Legal 500, which evaluates law firms worldwide for cutting edge, innovative work based on client feedback, practitioner interviews, and independent research. Since 2014, he has maintained Martindale-Hubbell's highest-available AV® Preeminent™ peer rating, scoring 5.0 out of 5.0 in Securities Law, Securities Class Actions, and Securities Litigation while being described as a "First class, top flight lawyer, especially in complex litigation."

Matt graduated from the Georgetown University Law Center in 1999, where he made the Dean's List. He graduated from Wesleyan University in 1995, and among his various volunteer activities, he currently serves as President of the Wesleyan Lawyers Association.

Matt is a member of the Bars of the Supreme Court of the United States; the State of New York; the State of Connecticut; the Commonwealth of Massachusetts; the Second and Ninth Circuit Courts of Appeals; and the United States District Courts for the Southern and Eastern District of New York, Connecticut, Massachusetts, the Northern District of Illinois, and the Southern District of Texas. He is regularly admitted to practice *pro hac vice* in state and federal courts nationwide.

Murielle Steven Walsh

Murielle Steven Walsh joined the Firm in 1998 and was elevated to Partner in 2007. She was recently recognized as a 2018 Lawyer of Distinction, an honor bestowed upon less than 10% of attorneys in any given state.

During her career at Pomerantz, Murielle has prosecuted highly successful securities class action and corporate governance cases. She was one of the lead attorneys litigating *In re Livent Noteholders' Securities Litigation*, a securities class action in which she obtained a $36 million judgment against the company's top officers, a ruling which was upheld by the Second Circuit on appeal. Murielle was also part of the team litigating *EBC I v. Goldman Sachs*, where the Firm obtained a landmark ruling from the New York Court of Appeals, that underwriters may owe fiduciary duties to their issuer clients in the context of a firm-commitment underwriting of an initial public offering.

Murielle currently leads the high-profile securities class action against Wynn Resorts Ltd., in which Pomerantz is lead counsel. The litigation arises from the company's concealment of a long-running pattern of sexual misconduct against Wynn employees by billionaire casino mogul Stephen Wynn, the company's founder and former Chief Executive Officer. *Ferris v. Wynn Resorts Ltd*., No. 18-cv-479 (D. Nev.). She also leads the Firm's ground-breaking litigation arising from the popular Pokémon Go game, in which Pomerantz is lead counsel. Pokémon Go is an "augmented reality" game in which players use their smart phones to "catch" Pokémon in real-world surroundings. GPS coordinates provided by defendants to gamers included directing the public to private property without the owners' permission, amounting to an alleged mass nuisance. *In re Pokémon Go Nuisance*, No. 3:16-cv-04300 (N.D. Cal.)

Murielle is co-lead counsel in *Thorpe v. Walter Investment Management Corp.*, No. 14-cv-20880 (S.D. Fla.), a securities fraud class action challenging the defendants' representations that their lending activities were regulatory-compliant, when in fact the company's key subsidiary engaged in rampant violations of federal consumer financial protection laws, subjecting it to various government investigations and a pending enforcement action by the CFPB and FTC. In 2016, the Firm obtained a $24 million settlement on behalf of the class. She is also co-lead counsel in *Robb v. Fitbit Inc.*, No. 16-cv-00151 (N.D. Cal.), a securities class action alleging that the defendants misrepresented that their key product delivered "highly accurate" heart rate readings when in fact their technology did not consistently deliver accurate readings during exercise and its inaccuracy posed serious health risks to users of Fitbit's products. The Firm obtained a $33 million settlement on behalf of the investor class in this action.

In 2018 Murielle, along with then-Senior Partner Jeremy Lieberman, achieved a $3,300,000 settlement for the Class in the Firm's case against Corinthian Colleges, one of the largest for-profit college systems in the country, for alleged misrepresentations about its job placement rates, compliance with applicable regulations, and enrollment statistics. Pomerantz prevailed in the motion to dismiss the proceedings, a particularly noteworthy victory because Chief Judge George King of the Central District of California had dismissed two prior lawsuits against Corinthian with similar allegations. *Erickson v. Corinthian Colleges, Inc.*, No. 2:13-cv-07466 (C.D. Cal.).

Murielle serves as a member and on the Executive Committee of the Board of Trustees of the non-profit organization Court Appointed Special Advocates for Children ("CASA") of Monmouth County. She also serves on the Honorary Steering Committee of Equal Rights Advocates ("ERA"), which focuses on and discusses specific issues that women face in the legal profession. ERA is an organization that protects and expands economic and educational access and opportunities for women and girls. In the past, Murielle served as a member of the editorial board for Class Action Reports, a Solicitor for the Legal Aid Associates Campaign, and has been involved in political asylum work with the Association of the Bar of the City of New York.

Murielle serves on the Firm's Anti-Harassment and Discrimination Committee.

Murielle graduated *cum laude* from New York Law School in 1996, where she was the recipient of the Irving Mariash Scholarship. During law school, Murielle interned with the Kings County District Attorney and worked within the mergers and acquisitions group of Sullivan & Cromwell.

Murielle is admitted to practice in New York, the United States District Court for the Southern District of New York, the United States Court of Appeals for the Second Circuit and the United States Court of Appeals for the Sixth Circuit.

Tamar A. Weinrib

Tamar A. Weinrib joined Pomerantz in early 2008. She was Of Counsel to the Firm from 2014 through 2018 and was elevated to Partner in 2019. Tamar was named a 2018 Rising Star under 40 years of age by Law360, a prestigious honor awarded to a select few "top litigators and dealmakers practicing at a level usually seen from veteran attorneys." Tamar has been recognized by Super Lawyers® as a New York Metro Rising Star every year from 2014 through 2018.

In January 2019, Tamar and Managing Partner Jeremy Lieberman achieved a $27 million settlement for the Class, pending court approval, in *Strougo v. Barclays PLC*, a high-profile securities class action in which Pomerantz is Lead Counsel. Plaintiffs allege that Barclays PLC misled institutional investor clients about the extent of the banking giant's use of so-called "dark pool" trading systems. This case turns on the duty of integrity owed by Barclays to its clients. In November 2016, Tamar and Jeremy achieved precedent-setting victories for investors, when the Second Circuit Court of Appeals held that direct evidence of price impact is not always necessary to demonstrate market efficiency to invoke the presumption of reliance, and that defendants seeking to rebut the presumption of reliance must do so by a preponderance of the evidence rather than merely meeting a burden of production. In 2018, Tamar successfully opposed Defendants' petition to the Supreme Court for a writ of certiorari.

Tamar was the attorney responsible for the litigation of *In re Delcath Systems, Inc. Securities Litigation*, in which Pomerantz recently achieved a settlement of $8,500,000 for the Class. She successfully argued before the Second Circuit in *In re China North East Petroleum Securities Litigation,* to reverse the district court's dismissal of the defendants on scienter grounds. In addition to her involvement in several other securities matters pending nationwide, Tamar is the Pomerantz attorney responsible for the litigation of *KB Partners I, L.P. v. Pain Therapeutics, Inc.*, a securities fraud case for which Judge Sparks of the Western District of Texas recently granted final approval for a settlement of up to $8,500,000 for class members.

Before coming to Pomerantz, Tamar had over three years of experience as a litigation associate in the New York office of Clifford Chance US LLP, where she focused on complex commercial litigation. Tamar has successfully tried pro bono cases, including two criminal appeals and a housing dispute filed with the Human Rights Commission.

Tamar graduated from Fordham University School of Law in 2004 and, while there, won awards for successfully competing in and coaching Moot Court competitions.

Tamar is admitted to practice in New York, the United States District Courts for the Southern and Eastern Districts of New York, and the United States Courts of Appeals for the Second, Third, Fourth, and Ninth Circuits.

Michael J. Wernke

Michael J. Wernke joined Pomerantz as Of Counsel in 2014 and was elevated to Partner in 2015.

Michael is Co-Lead Counsel in *Pirnik v. Fiat Chrysler Automobiles N.V. et al.*, No. 1:15-cv-07199-JMF (S.D.N.Y), a high profile securities class action that alleges Fiat Chrysler concealed from investors that it improperly outfitted its diesel vehicles with "defeat device" software designed to cheat NOx emissions regulations in the U.S. and Europe, and that regulators had accused Fiat Chrysler of violating the emissions regulations.

In December 2018, Michael, along with Pomerantz Managing Partner Jeremy A. Lieberman, secured a $31 million partial settlement with three defendants in *In re Libor Based Financial Instruments Antitrust Litigation*, a closely-watched multi-district litigation, which concerns the LIBOR rigging scandal.

In October 2018, Michael secured a $15 million settlement in *In re Symbol Technologies, Inc. Securities Litigation*, No. 2:05-cv-03923-DRH-AKT (E.D.N.Y.), a securities class action that alleges that, following an accounting fraud by prior management, Symbol's management misled investors about state of its internal controls and the Company's ability to forecast revenues.

He was Lead Counsel in *Thomas v. Magnachip Semiconductor Corp.*, in which he achieved a $23.5 million partial settlement with certain defendants, securing the settlement despite an ongoing investigation by the Securities and Exchange Commission and shareholder derivative actions. He played a leading role in *In re Lumber Liquidators, Inc. Securities Litigation*, in which Pomerantz, as Co-Lead Counsel, achieved a settlement of $26 million in cash and 1,000,000 shares of Lumber Liquidators common stock for the Class. Michael also secured a $7 million settlement (over 30% of the likely recoverable damages) in the securities class action *Todd v. STAAR Surgical Company, et. al.*, No. 14-cv-05263-MWF-RZ (C.D. Cal.), which alleged that STAAR concealed from investors violations of FDA regulations that threatened the approval of STAAR's long awaited new product.

In the securities class action *In re Atossa Genetics, Inc. Securities Litigation*, No. 13-cv-01836-RSM (W.D. Wash.), Michael secured a decision by the Ninth Circuit Court of Appeals that reversed the district court's dismissal of the complaint. The Ninth Circuit held that the CEO's public statements that the company's flagship product had been approved by the FDA were misleading despite the fact that the company's previously-filed registration statement stated that that the product did not, at that time, require FDA approval.

Michael is also Lead Counsel in the securities class action *Zwick Partners, LP v. Quorum Health Corp., et al.*, No. 3:16-cv-2475, which alleges that defendants misrepresented to investors the poor prospects of hospitals that the parent company spun-off into a stand-alone company. In defeating the defendants' motions to dismiss the complaint, Michael successfully argued that company from which Quorum was spun-off was a "maker" of the false statements even though

all the alleged false statements concerned only Quorum's financials and the class involved only purchasers of Quorum's common stock.

During the nine years prior to coming to Pomerantz, Michael was a litigator with Cahill Gordon & Reindel LLP, with his primary focus in the securities defense arena, where he represented multinational financial institutions and corporations, playing key roles in two of only a handful of securities class actions to go to jury verdict since the passage of the PSLRA.

In 2014 and 2015, Michael was voted by his peers as a Super Lawyers® New York Metro Rising Star.

Michael received his J.D. from Harvard Law School in 2004. He also holds a B.S. in Mathematics and a B.A. in Political Science from Ohio State University, where he graduated *summa cum laude*.

He serves on the Firm's Anti-Harassment and Discrimination Committee.

Michael is admitted to practice in the State of New York and the United States District Court for the Southern District of New York.

EXHIBIT A

POMERANTZLLP

Pomerantz LLP is one of the nation's foremost specialists in corporate, securities, antitrust and ERISA class litigation. The Firm was founded in 1936 by the late Abraham L. Pomerantz, one of the "pioneers who developed the class action/derivative action field." [1] Mr. Pomerantz rose to national prominence as a "champion of the small investor" and a "battler against corporate skullduggery." [2] Today, led by Co-Managing Partners Jeremy A. Lieberman and Patrick V. Dahlstrom, the Firm maintains the commitments to excellence and integrity passed down by Mr. Pomerantz.

For 80 years, the Firm has consistently shaped the law, winning landmark decisions that have expanded and protected investor rights, and initiated historic corporate governance reforms. In 2016, The Legal 500 honored Pomerantz as a Leading Firm; Partners Jeremy Lieberman, Marc Gross, Gustavo Bruckner, and Matthew Tuccillo were honored as Super Lawyers® "Top-Rated Securities Litigation Attorneys"; Tamar Weinrib and Louis C. Ludwig were honored as Rising Stars: the *Daily Journal* selected Partner Jennifer Pafiti as one of 40 outstanding lawyers in California under age 40; and Pomerantz was honored by Equal Rights Advocates for its outstanding commitment to diversity and equal opportunities for women. Securities Law 360, in its 2015 *Glass Ceiling Report*, ranked Pomerantz #1 in *Top Plaintiffs' Class Action Law Firms for Women Attorneys*.

Pomerantz is headquartered in New York City, with offices in Chicago, Los Angeles and Paris.

SECURITIES LITIGATION

SIGNIFICANT LANDMARKS IN SECURITIES-RELATED LITIGATIONS

In March 2015, Pomerantz was selected as sole lead counsel, representing lead plaintiff Universities Superannuation Scheme, Ltd. ("USS"), in a historic securities class action against Petróleo Brasileiro SA ("Petrobras"). In July 2015, New York U.S. District Judge Jed S. Rakoff denied in most part Defendants' Motion to Dismiss Lead Plaintiff's Complaint. The class action against Petrobras, brought on behalf of all purchasers of common and preferred American Depositary Shares ("ADSs") on the New York Stock Exchange, as well as purchasers of certain Petrobras debt, principally alleges that Petrobras and its senior executives engaged in a multi-year, multi-billion dollar money-laundering and bribery scheme, which was, of course, concealed from investors.

USS, chosen over three other strong candidates for lead plaintiff, was not the lead plaintiff applicant with the largest losses from the fraud. However, as Pomerantz articulated during the lead plaintiff process, USS's conduct represented the "gold standard" for institutional oversight of proposed lead counsel. Judge Rakoff set a trial date of February 6, 2016.

[1] New York Law Journal (August 1, 1983).
[2] Robert J. Cole, *Class Action Dean*, The National Law Journal, Vol. 1 No. 2 at 1 (Sept. 25, 1978).

In September 2016, Pomerantz, as Co-Lead Counsel, achieved preliminary approval of a $135 million recovery for the Class in *Kaplan v. S.A.C. Capital Advisors, L.P.* This securities class action stems from what has been called the most profitable insider trading scheme in U.S. history. After years of vigorous litigation, billionaire Steven A. Cohen's former hedge fund, SAC Capital Advisors LP, agreed to settle the lawsuit by investors in the drug maker Elan Corp, who said they lost money because of insider trading by one of his portfolio managers.

In 2013 and 2014, Pomerantz secured a series of significant victories in individual actions pursued on behalf of institutional investors in *In re BP plc. Securities Litigation*, MDL 2185 pending in the U.S. District Court for the Southern District of Texas. Pomerantz defeated BP's *forum non conveniens* arguments seeking dismissal of U.S. institutions and, later, foreign institutions, pursuing English common law claims seeking recovery of investment losses stemming from the 2010 Gulf oil spill in both NYSE-traded American Depository Shares and London Stock Exchange (LSE)-traded common stock. Pomerantz also defeated BP's attempt to extend the Securities Litigation Uniform Standards Act to dismiss these claims. Thanks to these rulings, Pomerantz is now leading the only litigation following the Supreme Court's decision in *Morrison v. Nat'l Australia Bank*, which foreclosed use of U.S. federal securities laws to recover for losses in foreign-traded stocks, where U.S. and foreign investors, pursuing foreign claims, seeking recovery for losses in foreign-traded stocks are doing so in a U.S. court. (See fuller discussion below, in "At the Vanguard, Post-*Morrison*.")

In June 2010, the court granted final approval of a $225 million settled proposed by Pomerantz and Lead Plaintiff the Menora Group, with Comverse Technology and certain of Comverse's former officers and directors, after four years of highly contested litigation. The *Comverse* settlement is one of the largest securities class action settlements reached since the passage of the Private Securities Litigation Reform Act ("PSLRA").[3] It is the second-largest recovery in a securities litigation involving the backdating of options, as well as one of the largest recoveries – $60 million – from an individual officer-defendant, Comverse's founder and former CEO, Kobi Alexander. *In re Comverse Technology, Inc. Sec. Litig.,* No. 06-CV-1825 (E.D.N.Y.)

Even before the enactment of the PSLRA, Pomerantz represented state agencies in securities class actions, including the Treasurer of the Commonwealth of Pennsylvania (recovered $100 million) against a major investment bank. *In re Salomon Brothers Treasury Litig.* (S.D.N.Y.).

Pomerantz recovered $50 million for the Treasurer of the State of New Jersey and several New Jersey pension funds in an individual action. This was a substantially higher recovery than what our clients would have obtained had they remained in a related federal class action. *Treasurer of the State of New Jersey v. AOL Time Warner, Inc.* (N.J. Super. Ct. Law Div., Mercer Co.).

Pomerantz has litigated numerous cases for the Louisiana School Employees' Retirement System. For example, as Lead Counsel, Pomerantz recovered $74.75 million in a securities fraud class action against Citigroup, its CEO Sanford Weil, and its now infamous telecommunications analyst Jack Grubman. *In re Salomon Analysts AT&T Litig*., (S.D.N.Y.) Also, the Firm played a major role in a complex antitrust and securities class action which settled for over $1 billion. *In re NASDAQ Market-Makers Antitrust Litig*., (S.D.N.Y.). Pomerantz was a member of the Executive Committee in *In re*

[3] Institutional Shareholder Services, *SCAS "Top 100 Settlements Quarterly Report,"* (Sept. 30, 2010).

Transkaryotic Sec. Litig., (D. Mass), helping to win a $50 million settlement for the class.

In 2008, together with Co-Counsel, Pomerantz identified a substantial opportunity for recovery of losses in Countrywide mortgage-backed securities ("MBS") for three large New Mexico funds (New Mexico State Investment Council, New Mexico Public Employees' Retirement Association, and New Mexico Educational Retirement Board), that had been overlooked by all of the firms then in their securities litigation pool. We then filed the first non-class lawsuit by a public institution with respect to Countrywide MBS. *See New Mexico State Inv. Council v. Countrywide Fin. Corp., et al.,* No. D-0101-CV-2008-02289 (N.M. 1st Dist. Ct.). In Fall 2010, we negotiated for our clients an extremely favorable but confidential settlement.

Over its long history, Pomerantz has achieved significant settlements in numerous cases, a sampling of which are listed below:

- *Kaplan v. S.A.C. Capital Advisors, L..P.*, No. 12 Civ. 9350 (S.D.N.Y.)
  $135 million settlement of class action in which Pomerantz was Co-Lead Counsel.
- *In re Groupon, Inc. Securities Litigation*, No. 12-cv-02450 (N.D. Ill.)
  $45 million settlement of class action in which Pomerantz was sole Lead Counsel.
- *Thomas v. Magnachip Semiconductor Corp. et al*, No. 14-cv-01160 (N.D. Cal.)
  $23.5 million partial settlement of class action in which Pomerantz was sole Lead Counsel.
- *In re Lumber Liquidators, Inc. Securities Litigation,* No. 4:13-cv-00157-AWA-DEM (E.D. Va.)
  $26 million and 1 million shares of common stock tentative settlement in class action in which Pomerantz was sole Lead Counsel.
- *Richard Thorpe and Darrel Weisheit v. Walter Investment Management Corp., et al.*, No. 1:14-cv-20880-UU
  $24 million settlement of class action in which Pomerantz was sole Lead Counsel.
- *In re Sealed Air Corp. Sec. Litig.* (D.N.J. 2010)
  $20 million settlement in class action in which Pomerantz was Co-Lead Counsel representing the Louisiana Municipal Police Employees' Retirement System.
- *In re Elan Corp. Sec. Litig.* (S.D.N.Y. 2005)
  $75 million settlement in class action arising out of alleged accounting manipulations.
- *In re Livent, Inc. Noteholders Sec. Litig.* (S.D.N.Y. 2005)
  $17 million settlement for the class; plus summary judgment against remaining defendants for $36 million (including pre-judgment interest); totaling over 100% of claimed damages.
- *In re Safety-Kleen Corp. Stockholders Litig.* (D. S.C. 2004)
  $54.5 million in total settlements in class action alleging accounting manipulations by corporate officials and auditors; last settlement reached on eve of trial.
- *Mardean Duckworth v. Country Life Insurance Co.* (Ill. Cir. Ct., Cook Cty. 2000)
  $45 million recovery.
- *In re First Executive Corp. Sec. Litig.* (C.D. Cal. 1994)
  $102 million recovery for the class, exposing a massive securities fraud arising out of the Michael Milken debacle.
- *Snyder v. Nationwide Insurance Co.* (Sup. Ct., Onondaga Cty. 1998)
  Settlement valued at $100 million in derivative case arising from injuries to consumers purchasing life insurance policies.
- *In re Boardwalk Marketplace Sec. Litig.* (D. Conn. 1994)
  Over $66 million benefit in securities fraud action.

- *In re National Health Lab., Inc. Sec. Litig.* (S.D. Cal. 1995)
  $64 million recovery.
- *In re Telerate, Inc. Shareholders Litig.* (Del. Ch. 1989)
  $95 million benefit in case alleging violation of fiduciary duty under state law.

Pomerantz has also obtained stellar results for private institutions and Taft-Hartley funds. Below are a few examples:

- *In re Charter Communications, Inc. Secs. Litig*. (W.D. Mo.) (sole Lead Counsel for Lead Plaintiff StoneRidge Investment Partners LLC); $146.25 million class settlement, where Charter also agreed to enact substantive improvements in corporate governance.
- *In re American Italian Pasta Securities Litigation* (W.D. Mo.) (sole Lead Counsel for Lead Plaintiff Ironworkers Locals 40, 361 and 417; $28.5 million aggregate settlements).
- *Richardson and CC Partners, LLC v. Gray* (Sup. Ct. N.Y. Cty.); and *In re Summit Metals*, (Bankr. D. Del.) (two derivative actions where the Firm represented C.C. Partners Ltd. and obtained judgment of contempt against controlling shareholder for having made "extraordinary" payments to himself in violation of a preliminary injunction; persuaded the court to jail him for two years upon his refusal to pay; and, in a related action, won a $43 million judgment after trial and obtained turnover of stock of two companies).

SHAPING THE LAW

Not only has Pomerantz established a long track record of obtaining substantial monetary recoveries for our clients; whenever appropriate, we also pursue corporate governance reforms on their behalf. In *In re Chesapeake S'holder Deriv. Litig*., No. CJ-2009-3983 (Dist. Okla.), for example, the Firm served as co-lead counsel, representing a public pension client in a derivative case arising from an excessive compensation package granted to Chesapeake's CEO and founder. This was a derivative action, not a class action. Yet it is illustrative of the results that can be obtained by an institutional investor in the corporate governance arena. There, we obtained a settlement which called for the repayment of $12.1 million and other consideration by the CEO. The *Wall Street Journal* (November 3, 2011) characterized the settlement as "a rare concession for the 52-year old executive, who has run the company largely by his own rules since he co-founded it in 1989." The settlement also included comprehensive corporate governance reforms.

The Firm has won many landmark decisions that have enhanced shareholders' rights and improved corporate governance. These include decisions that established that:

- shareholders have a right to a jury trial in derivative actions. *Ross v. Bernhard*, 396 U.S. 531 (1970).
- a mortgage-backed securities ("MBS") holder may bring claims if the MBS price declines even if all payments of principal and interest have been made. *New Mexico State Inv. Council v. Countrywide Fin. Corp., et al.,* No. D-0101-CV-2008-02289, Transcript of Proceedings on March 25, 2009 (N.M. 1st Dist. Ct.)
- when a court selects a Lead Plaintiff under the Private Securities Litigation Reform Act ("PSLRA"), the standard for calculating the "largest financial interest" must take into account sales as well as purchases. *In re Comverse Technology Inc. Sec. Litig*., 2007 U.S. Dist. LEXIS 14878 (E.D.N.Y. 2007).

- purchasers of options have standing to sue under federal securities laws. *In re Green Tree Fin. Corp. Options Litig.*, 2002 U.S. Dist. LEXIS 13986 (D. Minn. 2002).
- a company may have the obligation to disclose to shareholders its Board's consideration of important corporate transactions, such as the possibility of a spin-off, even before any final decision has been made. *Kronfeld v. Trans World Airlines, Inc.*, 832 F.2d 726 (2d Cir. 1987).

AT THE VANGUARD, POST-*MORRISON*

The April 20, 2010 Deepwater Horizon rig explosion and the resulting oil spill – the worst in U.S. history – devastated countless lives and caused immeasurable environmental damage in the Gulf of Mexico and along its coastlines. The spill also impacted investors in BP plc. ("BP"). Within weeks, the price of BP's ordinary shares and its American Depository Shares (ADS) plummeted nearly 50%, driven down by revelations regarding BP's prior misstatements about its commitment to safety and the true scope of the spill.

Although many BP investors immediately considered their legal options, the U.S. Supreme Court's decision in *Morrison v. Nat'l Australia Bank Ltd.*, 130 S. Ct. 2869 (2010) presented a seeming insurmountable hurdle, in that it barred use of the U.S. federal securities laws to recover losses from investments in foreign-traded securities. Thus, although the U.S. federal securities laws protected purchasers of BP's ADS, which trade on the New York Stock Exchange, the same was not true for the purchasers of BP's ordinary shares, which trade on the London Stock Exchange. For investors who purchased BP common stock, they seemed to have no legal options in the U.S. court system.

With a long tradition of developing innovative ways to advance client interests, Pomerantz responded by developing a new legal theory, placing it once again at the vanguard of ground-breaking litigation. On behalf of its clients, Pomerantz is pursuing common law fraud and negligence claims against BP, in the U.S. courts, to recover losses associated with its clients' BP common stock investments. For investors who also purchased BP's ADS, Pomerantz is simultaneously pursuing U.S. federal securities claims – in the same lawsuit.

Through a series of hard-fought victories, Pomerantz has secured the right of both U.S. and foreign institutional investors to pursue these claims in U.S. federal court. First, in a landmark decision issued in October 2013 (as revised in December 2013), the Honorable Keith Ellison of the United States District Court for the Southern District of Texas denied BP's motion to dismiss Pomerantz's

complaint on behalf of three U.S. pension funds. Judge Ellison rejected BP's argument that the case should be sent to courts in England under the doctrine of *forum non conveniens*, and his decision to apply English law mooted BP's arguments that the case should be dismissed under *Morrison* or the Dormant Commerce Clause of the U.S. Constitution as improper regulation of foreign commerce.

More recently, in decisions issued in October 2014, Judge Ellison denied BP's attempt to dismiss the cases of Pomerantz's foreign institutional clients on *forum non conveniens* grounds. He also rejected BP's attempt to extend the Securities Litigation Uniform Standards Act (SLUSA) to the English common law claims being pursued by Pomerantz's clients, and by extension, rejected BP's argument that SLUSA required the dismissal of our foreign and U.S. non-public institutional clients.

These decisions secured the right of Pomerantz's clients, both foreign and domestic, to pursue English common law claims – in U.S. federal court – to recover their losses in BP's London-traded common shares and its New York-traded ADS. This litigation is literally the first time, post-*Morrison*, that institutional investors have been permitted to pursue foreign claims seeking recovery for foreign traded securities in a U.S. court.

Also in October 2014, Pomerantz secured important rulings regarding the Exchange Act claims being pursued by certain of our clients regarding their ADS losses. Judge Ellison agreed with Pomerantz that *American Pipe* tolling applied to both the statute of limitation and the statute of repose applicable to our Section 10(b) claims. This ruling was significant given the split of authority nationwide and the Supreme Court's expression of interest in the repose issue (which was to have been heard in the *IndyMac* appeal).

These outcomes represent hard-fought, important victories for Pomerantz's clients. In total, Pomerantz currently represents nearly three dozen clients in BP-related litigation, including U.S. public pension funds, U.S. limited partnerships and ERISA trusts, and institutional investors from the U.K., France, the Netherlands, Canada, and Australia.

Pomerantz's BP litigation is overseen by Partners Marc I. Gross, Jeremy A. Lieberman, and Matthew L. Tuccillo.

COMMENTS FROM THE COURTS

Throughout its history, courts time and again have acknowledged the Firm's ability to vigorously pursue and successfully litigate actions on behalf of investors.

In approving the settlement in *Richard Thorpe and Darrel Weisheit, et al. v. Walter Investment Management, et al*., No. 1:14-cv-20880-UU (S.D. Fla.) the Hon. Ursula Ungaro wrote,

> Class Counsel has developed a reputation for zealous advocacy in securities class actions.. . . The settlement amount of $24 million is an outstanding result.

Judge Jed S. Rakoff, in certifying two Classes in *In re Petrobras Sec. Litig.* in February 2016, wrote:

> . . . [O]n the basis not only of USS's counsel's prior experience but also the Court's observation of its advocacy over the many months since it was appointed lead

> counsel, the Court concludes that Pomerantz, the proposed class counsel, is "qualified, experienced and able to conduct the litigation." . . . [T]he Pomerantz firm has both the skill and resources to represent the Classes adequately.

At the May 2015 hearing wherein the Court approved the settlement in *Courtney, et al. v. Avid Technology, et al.*, No. 1:13-cv-10686-WGY (D. Mass.) following oral argument by Jeremy A. Lieberman, the Hon. William G. Young stated,

> This has been very well litigated. It is always a privilege. I don't just say that as a matter of form. And I thank you for the vigorous litigation that I've been permitted to be a part of. (Tr. at 8-9)

At the January 2012 hearing wherein the Court approved the settlement in *In re Chesapeake Shareholder Derivative Litig*. No. CJ-2009-3983 (Okla. Dist.), following oral argument by Marc I. Gross, the Hon. Daniel L. Owens stated,

> Counsel, it's a pleasure, and I mean this and rarely say it. I think I've said it two times in 25 years. It is an extreme pleasure to deal with counsel of such caliber.
> (Tr. at 48)

In approving the $225 million settlement in *In re Comverse Technology Inc. Sec. Litig.*, No. 06-CV-1825 (E.D.N.Y.) in June 2010, Judge Nicholas G. Garaufis stated:

> As outlined above, the recovery in this case is one of the highest ever achieved in this type of securities action. . . . The court also notes that, throughout this litigation, it has been impressed by Lead Counsel's acumen and diligence. The briefing has been thorough, clear, and convincing, and . . . Lead Counsel has not taken short cuts or relaxed its efforts at any stage of the litigation.

In approving a $146.25 million settlement in *In re Charter Communications Sec. Litig.*, 02 Cv1186 (E.D. Mo. 2005), in which Pomerantz served as sole Lead Counsel, Judge Charles A. Shaw praised the Firm's efforts:

> This Court believes Lead Plaintiff achieved an excellent result in a complex action, where the risk of obtaining a significantly smaller recovery, if any, was substantial. In awarding fees to Pomerantz, the Court cited "the vigor with which Lead Counsel . . . investigated claims, briefed the motions to dismiss, and negotiated the settlement." . . .

In approving a $24 million settlement in *In re Force Protection, Inc.* 08 CV 845 (D.S.C. 2011), Judge C. Weston Houk described the Firm as "attorneys of great ability and great reputation" and commended the Firm for having "done an excellent job."

In certifying a class in a securities fraud action against analysts in *DeMarco v. Robertson Stephens*, 2005 U.S. Dist. LEXIS (S.D.N.Y.), Judge Gerard D. Lynch stated that Pomerantz had "ably and zealously represented the interests of the class."

Numerous courts have made similar comments:

- Appointing Pomerantz Lead Counsel in *American Italian Pasta Co. Sec. Litig.*, No 05-CV-0725-W-ODS (W.D. Mo.), a class action that involved a massive fraud and restatements spanning several years, the District Court observed that the Firm ". . . has significant experience (and has been extremely effective) litigating securities class actions, employs highly qualified attorneys, and possesses ample resources to effectively manage the class litigation and protect the class's interests."
- In approving the settlement in *In re Wiring Devices Antitrust Litigation*, MDL Docket No. 331 (E.D.N.Y. Sept. 9, 1980), Chief Judge Jack B. Weinstein stated that "Counsel for the plaintiffs I think did an excellent job. . . . They are outstanding and skillful. The litigation was and is extremely complex. They assumed a great deal of responsibility. They recovered a very large amount given the possibility of no recovery here which was in my opinion substantial."
- In *Snyder v. Nationwide Insurance Co.*, Index No. 97/0633, (N.Y. Supreme Court, Onondaga County), a case where Pomerantz served as Co-Lead Counsel, Judge Tormey stated, "It was a pleasure to work with you. This is a good result. You've got some great attorneys working on it."
- In *Steinberg v. Nationwide Mutual Insurance Co.*, 99 CV 7725 (E.D.N.Y.), Judge Spatt, granting class certification and appointing the Firm as class counsel, observed: "The Pomerantz firm has a strong reputation as class counsel and has demonstrated its competence to serve as class counsel in this motion for class certification." (2004 U.S. Dist. LEXIS 17669 at *24)
- In *Mercury Savings and Loan*, CV 90-87 LHM (C.D. Cal.), Judge McLaughlin commended the Firm for the "absolutely extraordinary job in this litigation."
- In *Boardwalk Marketplace Securities Litigation*, MDL No. 712 (D. Conn.), Judge Eginton described the Firm's services as "exemplary," praised it for its "usual fine job of lawyering . . . [in] an extremely complex matter," and concluded that the case was "very well-handled and managed." (Tr. at 6, 5/20/92; Tr. at 10, 10/10/92)
- In *Nodar v. Weksel*, 84 Civ. 3870 (S.D.N.Y.), Judge Broderick acknowledged "that the services rendered [by Pomerantz] were excellent services from the point of view of the class represented, [and] the result was an excellent result." (Tr. at 21-22, 12/27/90)
- In *Klein v. A.G. Becker Paribas, Inc.*, 83 Civ. 6456 (S.D.N.Y.), Judge Goettel complimented the Firm for providing "excellent . . . absolutely top-drawer representation for the class, particularly in light of the vigorous defense offered by the defense firm." (Tr. at 22, 3/6/87)
- In *Digital Sec. Litig.*, 83-3255Y (D. Mass.), Judge Young lauded the Firm for its "[v]ery fine lawyering." (Tr. at 13, 9/18/86)

Allied Maintenance Corp.*, 75 F.R.D. 34, 40 (S.D.N.Y.), Judge Frankel, referring to Pomerantz, said: "Their experience in handling class actions of this nature is known to the court and certainly puts to rest any doubt that the absent class members will receive the quality of representation to which they are entitled."
- In *Rauch v. Bilzerian*, 88 Civ. 15624 (Sup. Ct. N.J.), the court, after trial, referred to Pomerantz partners as "exceptionally competent counsel," and as having provided "top drawer, topflight [representation], certainly as good as I've seen in my stay on this court."

ANTITRUST LITIGATION

Pomerantz has earned a reputation for prosecuting complex antitrust and consumer class actions with vigor, innovation, and success. Pomerantz's Antitrust and Consumer Group has recovered billions of dollars for the Firm's business and individual clients and the classes that they represent. Time and again, Pomerantz has protected our free-market system from anticompetitive conduct, such as price fixing, monopolization, exclusive territorial division, pernicious pharmaceutical conduct, and false advertising. Pomerantz's advocacy has spanned across diverse product markets, exhibiting the Antitrust and Consumer Group's versatility to prosecute class actions on any terrain.

Pomerantz has served and is currently serving in leadership or co-leadership roles in several high-profile multi-district litigation class actions. The Firm currently represents a class of lending institutions in New York that originated, purchased outright, or purchased a participation interest in loans paying interest rates tied to the U.S. Dollar Interbank Offered Rate (USD LIBOR), *The Berkshire Bank v. Bank of America Corp.* (S.D.N.Y.) (2012). It is alleged that the class suffered damages as a result of collusive manipulation by the contributor panel banks that artificially increased the USD LIBOR rate during the class period, causing them to receive lower interest than they would have otherwise.

Pomerantz also currently represents baseball and hockey fans in a potentially game-changing antirust class action against Major League Baseball and the National Hockey League challenging the exclusive territorial division of live television broadcasts, internet streaming, and the resulting geographic blackouts. *See Laumann v. NHL* and *Garber v. MLB* (S.D.N.Y.) (2012).

Pomerantz has spearheaded the effort to challenge harmful anticompetitive conduct by pharmaceutical companies—including Pay-for-Delay Agreements—that artificially inflates the price of prescription drugs by keeping generic versions off the market.

Even prior to the 2013 precedential U.S. Supreme Court decision in *Actavis*, Pomerantz litigated and successfully settled the following generic-drug-delay cases:

- *In re Flonase Antitrust Litig.* (E.D. Pa.) (2008) ($35 million);
- *In re Toprol XL Antitrust Litig.* (D. Del.) (2006) ($11 million); and
- *In re Wellbutrin SR Antitrust Litig.* (E.D. Pa.) (2004) ($21.5 million).

Pomerantz's results speak for themselves. Pomerantz served as liaison counsel, a member of plaintiffs' executive committee, and represented the largest retailer class representative in *In re Payment Card Interchange Fee & Merch. Disc. Antitrust Litig.* (E.D.N.Y., Dec. 13, 2013). This monumental antitrust class action resulted in a settlement in excess of $7 billion, which is estimated to be the largest-ever U.S. antitrust settlement.

Other exemplary victories include Pomerantz's prominent role in *In re NASDAQ Mkt.-Makers Antitrust Litig.* (S.D.N.Y.), which resulted in a settlement in excess of $1 billion for class members, one of the largest antitrust settlements in history. Pomerantz also played prominent roles in *In re Sorbates Direct Purchaser Antitrust Litig.* (N.D. Cal.), which resulted in over an $82 million recovery, and in *In re Methionine Antitrust Litig.* (N.D. Cal.), which resulted in a $107 million recovery. These

cases illustrate the resources, expertise, and commitment that Pomerantz's Antitrust Group devotes to prosecuting some of the most egregious anticompetitive conduct.

CORPORATE GOVERNANCE LITIGATION

Pomerantz is committed to ensuring that companies adhere to responsible business practices and practice good corporate citizenship. We strongly support policies and procedures designed to give shareowners the ability to oversee the activities of a corporation. We vigorously pursue corporate governance reform, particularly in the area of excess compensation, where it can address the growing disparity between the salaries of executives and the workers of major corporations. We have successfully utilized litigation to bring about corporate governance reform in numerous cases, and always consider whether such reforms are appropriate before any case is settled.

Pomerantz partners are frequent speakers at domestic and international conferences on the importance of securities fraud actions in such countries as the United Kingdom, France, and Israel. According to Managing Partner Marc Gross, "We need to have these kinds of legal remedies available in order to maintain corporate honesty and accountability."

Pomerantz's Corporate Governance Practice Group, led by Partner Gustavo F. Bruckner, enforces shareholder rights and prosecutes actions challenging corporate transactions that arise from an unfair process or result in an unfair price for shareholders. Most recently, in January 2017, the Group received the approval of the Delaware Chancery Court for a $5.6 million settlement it achieved on behalf of a class of shareholders of Physicians Formula Holdings Inc. over an ignored merger offer in 2012. *In re: Physicians Formula Holdings Inc.*, C.A. No. 7794-VCL (Del. Ch. Ct.).

The Group obtained a landmark ruling in *Strougo v. Hollander*, C.A. No. 9770-CB (Del. Ch. Ct.), that fee-shifting bylaws adopted after a challenged transaction do not apply to stockholders affected by the transaction. They were also able to obtain a *25% price increase* for members of the class cashed out in the going private transaction.

In *Miller v. Bolduc*, SUCV 2015-00807 (Superior Court Massachusetts) the Group caused Implant Sciences to hold its first stockholder annual meeting in 5 years and put an important compensation grant up for a stockholder vote.

In *Smollar v. Potarazu*, C.A. No. 10287-VCN (Del. Ch. Ct.), the Group pursued a derivative action to bring about the appointment of two independent members to the board of directors, retention of an independent auditor, dissemination of financials to stockholders and the holding of first ever in-person annual meeting, among other corporate therapeutics.

In *Hallandale Beach Police Officers and Firefighters' Personnel Retirement Fund vs. lululemon athletica, Inc.,* Civil Action No. 8522-VCP (Del. Ch. Ct.), in an issue of first impression in Delaware, the Chancery Court ordered the production of the chairman's 10b5-1 stock trading plan. The Court found that a stock trading plan established by the company's chairman, pursuant to which a broker, rather than the chairman himself, would liquidate a portion of the chairman's stock in the company, did not preclude potential liability for insider trading.

In *Strougo v. North State Bancorp*, 15 CVS 14696 (North Carolina Superior Court), the Group caused the Merger Agreement to be amended to provide a "majority of the minority" provision for the holders of North State Bancorp's common stock in connection with the stockholder vote on the Merger. As a result of the Action, common stockholders could stop the Merger if they did not wish it to go forward.

Pomerantz's commitment to advancing sound corporate governance principles is further demonstrated by the more than 26 years that we have co-sponsored The Abraham L. Pomerantz Lecture Series with Brooklyn Law School. These lectures focus on critical and emerging issues concerning shareholder rights and corporate governance and bring together top academics and litigators.

Our bi-monthly newsletter, *The Pomerantz Monitor*, provides institutional investors updates and insights on current issues in corporate governance.

PARTNERS

JEREMY A. LIEBERMAN

Jeremy A. Lieberman is Pomerantz's Co-Managing Partner with Patrick Dahlstrom. Mr. Lieberman became associated with the Firm in August 2004, and became a partner in January 2010. He has been honored as a 2016 Super Lawyers® "Top-Rated Securities Litigation Attorney," a recognition bestowed on no more than 5% of eligible attorneys in the New York Metro area.

Mr. Lieberman serves as lead counsel in *In re Petrobras Sec. Litig.,* a closely-watched case arising from a multi-billion dollar kickback and bribery scheme involving Brazil's largest oil company, Petróleo Brasileiro S.A. - Petrobras. Mr. Lieberman has had an integral role in a number of high-profile securities class and derivative actions, including *Comverse Technology Sec. Litig*., in which he and his partners achieved a historic $225 million settlement on behalf of the Class, which was the second-largest options backdating settlement to date.

Mr. Lieberman is lead counsel in a putative securities class action that alleges Barclays PLC misled institutional investor clients about the extent of the banking giant's use of so-called "dark pool" trading systems. This case turns on the duty of integrity owed by Barclays to its clients. He also serves as lead counsel in the Firm's case against Corinthian Colleges, one of the largest for-profit college systems in the country, for alleged misrepresentations about its job placement rates, compliance with applicable regulations, and enrollment statistics. Pomerantz prevailed in the motion to dismiss proceedings, a particularly noteworthy victory because Chief Judge George King of the Central District of California had dismissed two prior lawsuits against Corinthian with similar allegations.

Mr. Lieberman serves as Interim Class Counsel on behalf of a class lenders and financial institutions litigating claims arising out of the London Interbank Offered Rate ("LIBOR") rate rigging scandal. He was lead counsel in *In re Medicis Corp. Sec. Litig*., in which the Court approved an $18 million settlement, and is lead counsel in a number of the Firm's other litigations.

In In re *China North East Petroleum Corp. Sec. Litig*., Mr. Lieberman achieved a significant victory for shareholders in the United States Court of Appeals for the Second Circuit, whereby the Appeals Court ruled that a temporary rise in share price above its purchase price in the aftermath of a corrective disclosure did not eviscerate an investor's claim for damages. The Second Circuit's decision was deemed "precedential" by the New York Law Journal, and provides critical guidance for assessing damages in a § 10(b) action.

Mr. Lieberman regularly consults with Pomerantz's international institutional clients, including pension funds, regarding their rights under the U.S. securities laws. Mr. Lieberman is working with the firm's international clients to craft a response to the Supreme Court's ruling in *Morrison v. Nat'l Australia Bank, Ltd*., which limited the ability of foreign investors to seek redress under the federal securities laws. Currently, Mr. Lieberman is representing several UK and EU pension funds and asset managers in individual actions against BP plc in the United States District Court for the Southern District of Texas.

Mr. Lieberman is a frequent lecturer regarding current corporate governance and securities litigation issues. In December 2013, he spoke at the Annual Provident Funds Coalition Conference in Eilat, Israel on Morrison and its implications for TASE investors. He also recently led a discussion regard U.S. securities class actions in Amsterdam.

Mr. Lieberman graduated from Fordham University School of Law in 2002. While in law school, he served as a staff member of the Fordham Urban Law Journal. Upon graduation, he began his career at a major New York law firm as a litigation associate, where he specialized in complex commercial litigation.

PATRICK V. DAHLSTROM

Patrick Dahlstrom is Pomerantz's Co-Managing Partner with Jeremy A. Lieberman. Mr. Dahlstrom joined Pomerantz as an associate in 1991 and became a partner in January 1996. He is based in the Firm's Chicago office.

Mr. Dahlstrom is a member of the Firm's Institutional Investor Practice and New Case Groups, and has extensive experience litigating cases under the PSLRA. He was partner-in-charge of *In re Comverse Technology Sec. Litig*., No. 06-CV-1825 (E.D.N.Y.), in which the Firm, as Lead Counsel, recovered a $225 million settlement for the Class – the second-highest ever for a case involving the back-dating options, and one of the largest recoveries ever from an individual officer-defendant, the company's founder and former CEO. In *Comverse*, the Firm obtained an important clarification of how courts calculate the "largest financial interest" in connection with the selection of a Lead Plaintiff, in a manner consistent with *Dura*, 544 U.S. 336 (2005). Judge Garaufis, in approving the settlement, lauded Pomerantz: "The court also notes that, throughout this litigation, it has been impressed by Lead Counsel's acumen and diligence. The briefing has been thorough, clear, and convincing, and . . . Lead Counsel has not taken short cuts or relaxed its efforts at any stage of the litigation."

In *DeMarco v. Robertson Stephens*, 2005 U.S. Dist. LEXIS (S.D.N.Y. 2005), Mr. Dahlstrom obtained the first class certification in a federal securities case involving fraud by analysts.

Mr. Dahlstrom's extensive experience in litigation under the PSLRA has made him an expert not only at making compelling arguments on behalf of Pomerantz' clients for Lead Plaintiff status, but also in discerning weaknesses of competing candidates. *In re American Italian Pasta Co. Sec. Litig*. and *Comverse* are the most recent examples of his success in getting our clients appointed sole Lead Plaintiff despite competing motions by numerous impressive institutional clients.

Mr. Dahlstrom was a member of the trial team in *In re ICN/Viratek Sec. Litig*. (S.D.N.Y.), which, after trial, settled for $14.5 million. Judge Wood praised the trial team: "[P]laintiffs counsel did a superb job here on behalf of the class . . . This was a very hard fought case. You had very able, superb opponents, and they put you to your task . . . The trial work was beautifully done and I believe very efficiently done."

Mr. Dahlstrom's speaking engagements include interviews by NBC and the CBC regarding securities class actions, and among others, a presentation at the November 2009 State Association of County

Retirement Systems Fall Conference as the featured speaker at the Board Chair/Vice Chair Session entitled: "Cleaning Up After the 100 Year Storm. How trustees can protect assets and recover losses following the burst of the housing and financial bubbles."

Mr. Dahlstrom is a 1987 graduate of the Washington College of Law at American University in Washington, D.C., where he was a Dean's Fellow, Editor in Chief of the Administrative Law Journal, a member of the Moot Court Board representing Washington College of Law in the New York County Bar Association's Antitrust Moot Court Competition, and a member of the Vietnam Veterans of America Legal Services/Public Interest Law Clinic. Upon graduating, Mr. Dahlstrom served as the Pro Se Staff Attorney for the United States District Court for the Eastern District of New York and was a law clerk to the Honorable Joan M. Azrack, United States Magistrate Judge.

Mr. Dahlstrom is admitted to practice in New York and Illinois, as well as the United States District Courts for the Southern and Eastern Districts of New York, Northern District of Illinois, Northern District of Indiana, Eastern District of Wisconsin, District of Colorado, Western District of Pennsylvania, the United States Courts of Appeals for the Fourth, Sixth, Seventh and Eighth Circuits, and the United States Supreme Court.

GUSTAVO F. BRUCKNER

Gustavo F. Bruckner heads Pomerantz's Corporate Governance Practice, which enforces shareholder rights and prosecutes actions challenging corporate transactions that arise from an unfair process or result in an unfair price for shareholders. Under Mr. Bruckner's leadership, the Corporate Governance Practice has achieved numerous noteworthy litigation successes. He was honored as a 2016 Super Lawyers® "Top-Rated Securities Litigation Attorney," a recognition bestowed on no more than 5% of eligible attorneys in the New York Metro area.

Mr. Bruckner successfully argued *Strougo v. Hollander*, C.A. No. 9770-CB (Del. Ch. Ct. 2015), obtaining a landmark ruling in Delaware that bylaws adopted after stockholders are cashed out do not apply to stockholders affected by the transaction. In the process, Mr. Bruckner and the Corporate Governance team beat back a fee-shifting bylaw and were able to obtain a 25% price increase for members of the class cashed out in the going private transaction. Shortly thereafter, the Delaware Legislature adopted legislation to ban fee-shifting bylaws.

In January 2017, Mr. Bruckner, as Lead Counsel, received the approval of the Delaware Chancery Court for a $5.6 million settlement the Firm achieved on behalf of a class of shareholders of Physicians Formula Holdings Inc. over an ignored merger offer in 2012. *In re: Physicians Formula Holdings Inc.*, C.A. No. 7794-VCL (Del. Ch. Ct.).

In *Miller v. Bolduc*, SUCV 2015-00807 (Mass. Sup. Ct. 2015), Mr. Bruckner and the Corporate Governance group, by initiating litigation, caused Implant Sciences to hold its first stockholder annual meeting in 5 years and to place an important compensation grant up for a stockholder vote.

In *Hallandale Beach Police Officers and Firefighters' Personnel Retirement Fund vs. lululemon athletica, Inc.*, C.A. No. 8522-VCP (Del. Ch. Ct. 2014), in an issue of first impression in Delaware, the Chancery Court ordered the production of the company chairman's Rule 10b5-1 stock trading plan. The Court found that a stock trading plan established by the company's chairman, pursuant to which a

broker, rather than the chairman himself, would liquidate a portion of the chairman's stock in the company, did not preclude potential liability for insider trading.

Mr. Bruckner was co-lead counsel in the matter of *In re Great Wolf Resorts, Inc. Shareholders Litigation*, No. C.A. 7328-VCN (Del. Ch. 2012), obtaining the elimination of stand-still provisions that allowed third parties to bid for Great Wolf Resorts, Inc., resulting in the emergence of a third-party bidder and approximately $94 million (57%) in additional merger consideration for Great Wolf shareholders.

After graduating law school, Mr. Bruckner served as Chief-of-Staff to a New York City legislator. He received his law degree from Benjamin N. Cardozo School of Law in 1992, where he served as an editor of the Moot Court Board.

Mr. Bruckner is a Mentor and Coach to the NYU Stern School of Business, Berkley Center for Entrepreneurial Studies, New Venture Competition. He was a University Scholar at NYU where he obtained a B.S. in Marketing and International Business in 1988 and an MBA in Finance and International Business in 1989.

He is also a Trustee and the Treasurer of the Beit Rabban Day School.

Mr. Bruckner is licensed to practice in New York and New Jersey and is admitted to practice before the United States District Courts for the Eastern and Southern Districts of New York, the United States District Court for the District of New Jersey, United States Court of Appeals for the Second Circuit, and the United States Supreme Court. Mr. Bruckner also serves as an arbitrator in the Civil Court of the City of New York.

Emma Gilmore became associated with the Firm in May 2012 and became a partner in December 2015. Ms. Gilmore plays an integral role in the Firm's case against Brazil's largest oil company, Petróleo Brasileiro S.A. - Petrobras, arising from a multi-billion dollar kickback and bribery scheme, in which the Firm is Lead Counsel. *In re Petrobras Sec. Litig.,* No. 14-cv-9662 (S.D.N.Y.)

Ms. Gilmore also plays a leading role in the Firm's class action litigation against Deutsche Bank, arising from the bank's $10 billion money-laundering scheme, for which Deutsche Bank was recently fined $425 million by the New York State Department of Financial Services. *In re Deutsche Bank Aktiengesellschaft Sec. Litig.,* No. 16-cv-03495-(AT) (BCM) (S.D.N.Y.)

Among other cases, Ms. Gilmore is also actively involved in the Firm's securities fraud lawsuits concerning British Petroleum's 2010 Deepwater Horizon oil spill, representing a multitude of foreign and domestic public and private pension funds, limited liability partnerships, and investment trusts in individual actions related to Multidistrict Litigation 2185, *In re BP plc. Secs. Litig.*, No. 4:10-md-2185 (S.D. Tex.).

Prior to joining Pomerantz, Ms. Gilmore was a litigation associate with the firms of Skadden, Arps, Slate, Meagher and Flom, LLP and Sullivan & Cromwell, LLP, where she was involved in commercial and securities matters. Her experience includes working on the *WorldCom Securities Litigation*.

Ms. Gilmore also served as a law clerk to the Honorable Thomas C. Platt, United States District Judge for the Eastern District of New York.

MARC I. GROSS

Marc I. Gross served as the Firm's Managing Partner from 2009 to July 2016. He has been with Pomerantz for over three decades, focusing on securities fraud class actions and derivative actions, while also litigating antitrust and consumer cases, and is Lead Counsel in many of the Firm's major pending cases. He is a Fellow of the American Bar Foundation.

Mr. Gross' numerous notable achievements include: *In re BP plc Sec. Litig*. (individual and institutional investors have a right to sue under common law for purchases abroad); *In re Comverse Inc. Sec. Litig*. ($225 million settlement, including a $60 million contribution by the former CEO); *In re Charter Communications Inc. Sec. Litig*. ($146.25 million settlement); *In re Salomon Analyst AT&T Litig*. ($74.75 million settlement); *In re Elan Corp. Sec. Litig*. ($75 million settlement); *and Snyder v. Nationwide Insurance Co*. (derivative settlement valued at $100 million). His role in high-profile cases has garnered international media attention. Mr. Gross has been interviewed on the CBS Evening News, the BBC, and numerous Israeli media sources. In 2012, Benchmark Litigation named Mr. Gross a "Local Litigation Star" in New York. He has been honored as a Super Lawyer seven times, most recently in 2016.

Mr. Gross leads the Firm's ground-breaking litigations against BP. In the wake of *Morrison*, they developed an innovative legal strategy using common law as a viable path to recovery for BP common stockholders – in the U.S. federal court system. In a landmark 97-page decision publicly issued on October 10, 2013, the Honorable Keith Ellison of the United States District Court for the Southern District of Texas denied defendants' motion to dismiss Pomerantz's robust complaint filed on behalf of three U.S. pension funds that had purchased BP ordinary shares and ADS. Judge Ellison rejected defendants' arguments that the case should be sent to courts in England, and his decision to apply English law here negated the need to address defendants' arguments that the case should be dismissed under *Morrison* and the Dormant Commerce Clause of the U.S. Constitution. Pomerantz's clients can now proceed to discovery on their U.S. federal securities claims and their English law claims of deceit (fraud) and negligent misrepresentation.

Mr. Gross has extensive trial experience, including *In re Zila Inc. Securities Litig*. (D.C. Ariz. (PHX)) and *In re Zenith Labs Securities Litig*. (D.C. N.J.) Courts have consistently praised his lawyering. In approving the $225 million settlement in *Comverse*, Judge Garaufis stated, "Throughout this

litigation, [the Court] has been impressed by Lead Counsel's acumen and diligence. The briefing has been thorough, clear, and convincing."

At the January 30, 2012 hearing wherein the Court approved the settlement of *In re Chesapeake Shareholder Derivative Litig.,* (whereby plaintiffs clawed back $13 million in excess compensation paid to CEO Aubrey McClendon) Judge Owens of the District Court of Oklahoma stated, "Counsel, it's a pleasure, and I mean this and rarely say it. I think I've said it two times in 25 years. It is an extreme pleasure to deal with counsel of such caliber."

Approving the $100 million settlement in *Snyder*, where Mr. Gross was the lead Pomerantz lawyer, the court stated: "I think you all did a very, very good job for all the people. You made attorneys look good." Mr. Gross was also the attorney-in-charge of *Texas Int'l Co. Sec. Litig*. (W.D. Okla.), where, in granting class certification, the Court stated: "The performance of plaintiffs' counsel thus far leaves the Court with no doubt that plaintiffs' claims will be vigorously and satisfactorily prosecuted throughout the course of this litigation." In the course of approving the subsequent settlement of the case, the Court added:

> I would like to compliment all the parties and attorneys in this case. . . . You have all worked together better than I think any case I've had that involved these extensive issues and parties and potential problems. And I for one appreciate it. And I think it shows certainly a great deal of professionalism on all your part.

Mr. Gross is a Fellow of the American Bar Association. He has been a member of the New York City Bar Association's Federal Courts Committee, an early neutral evaluator for the Eastern District of New York, and a mediator for the Commercial Division of the Supreme Court of the State of New York. He is currently a Vice President of the Institute of Law and Economic Policy ("ILEP"), a not-for-profit organization devoted to promoting academic research and dialogue in securities law issues and litigation, and for many years was an officer of the National Association of Shareholder and Consumer Attorneys ("NASCAT").

Mr. Gross speaks frequently at legal forums on shareholder-related issues. He recently moderated a panel at the Loyola University Chicago School of Law's Institute for Investor Protection Conference on "Litigating the New Evidentiary Burdens: At the Class Certification Stage and Beyond." In 2013, he spoke at the National Conference on Public Employee Retirement Systems' ("NCPERS") Legislative Conference on "Morrison and Recoveries of Damages Arising From Fraudulent Foreign Investments," and at Loyola University Chicago School of Law's Institute for Investor Protection Conference on "The Effective and Ethical Use of Confidential Witnesses." In 2012, he spoke at the Tel Aviv Institutional Investors Forum; and moderated a panel at the Second Annual Institute for Investor Protection Conference at the Loyola University Chicago School of Law, on "Behavioral Economics Applied: Expert Witnesses, Event Studies, Loss Causation, and Damages Calculation." Among the panelists was Daniel R. Fischel, whose seminal article describing the application of financial economics to securities fraud litigation was a basis for the Supreme Court's decision in *Basic v. Levinson* adopting "fraud on the market." In 2011 he organized a conference on Proxy Access California; and chaired a panel on Pleading and other Pre-Trial requirements impacting class action suits at the annual ILEP conference; and spoke on *Morrison* and on Opportunities under Dodd-Frank for Say On Pay and Say on Contributions at the National Summit on the Future of

Fiduciary Responsibility, organized by the American Conference Institute with responsible-investor.com.

Mr. Gross is valued by foreign investors for his expertise in the relevance to them of securities class actions in the United States, and how they might benefit from participation. In 2012, Mr. Gross spoke at the Tel Aviv Institutional Investors Forum on "Israel's Pyramids/Corporate Governance Lessons from the U.S." and in 2011, participated in a panel at the National Association of Pension Funds Conference in Edinburgh regarding the impact of U.S. class actions on U.K. investors.

Mr. Gross recently authored "Class Certification in a Post-Halliburton II World," published in *Law360* on July 21, 2014. He is the author of the article "Loser-Pays - or Whose 'Fault' Is It Anyway: A Response to Hensler-Rowe's "Beyond 'It Just Ain't Worth It'," which appeared in 64 Law & Contemporary Problems (Duke Law School) (2001). He recently authored "Class Certification in a Post-Halliburton II World," published in *Law360* on July 21, 2014.

Mr. Gross graduated from New York University Law School in 1976, and received his undergraduate degree from Columbia University in 1973.

Mr. Gross is admitted to practice in New York, the United States District Courts for the Southern and Eastern Districts of New York, the United States Courts of Appeals for the First, Second, Third and Eighth Circuits, and the United States Supreme Court.

MATTHEW L. TUCCILLO

Matthew L. Tuccillo joined Pomerantz in 2011 and was named a Partner in December 2013. He is responsible, on an ongoing basis, for the Firm's litigation of numerous securities fraud class actions pending nationwide, currently including: *In re KaloBios Pharmaceuticals, Inc. Securities Litigation*, No. 15-cv-05841 (N.D. Cal.); *Perez v. Higher One Holdings, Inc., et al.*, No. 14-cv-00755-AWT (D. Conn.); and *Plumley v. Sempra Energy, et al.*, No. 16-CV-512 (S.D. Cal.).

Mr. Tuccillo manages the Firm's securities fraud lawsuits relate to BP's 2010 Gulf oil spill in Multidistrict Litigation 2185, *In re BP p.l.c. Secs. Litig.*, No. 4:10-md-2185 (S.D. Tex.). He briefed and argued successful oppositions to BP's motions to dismiss the claims of nearly 70 institutional

investors, drawing Judge Ellison's praise for the "quality of lawyering," which he called "uniformly excellent." He successfully argued against *forum non conveniens* dismissal, obtaining the first ruling after the Supreme Court's decision in *Morrison v. Nat'l Australia Bank Ltd.*, 130 S. Ct. 2869 (2010) to permit foreign investors pursuing foreign law claims to seek recovery for losses on a foreign stock exchange in a U.S. court. He also successfully argued against extension of the Securities Litigation Uniform Standards Act (SLUSA) to dismiss foreign common law claims by both domestic and foreign investors, and he persuaded the court to toll both the statutes of limitations and repose applicable to U.S. federal securities claims. Mr. Tuccillo also fulfills Pomerantz's roles as MDL 2185 Individual Action Plaintiffs Steering Committee member and sole Liaison with BP and the Court. The Firm's BP clients include nearly three dozen public and private pension funds, investment management firms, limited partnerships, and investment trusts from the U.S., Canada, the U.K., France, the Netherlands, and Australia, seeking recovery for losses in BP's common stock (traded on the London Stock Exchange) and American Depository Shares (traded on the NYSE).

As the Firm's lead litigator in *In re KaloBios Pharmaceuticals, Inc. Securities Litigation*, No. 15-cv-05841 (N.D. Cal.), Mr. Tuccillo negotiated a partial class-wide settlement for a cash/stock fund worth roughly $3 million from a bankrupt pharmaceutical company and its insurance carriers, while retaining the right to continue litigation against its former CEO. The settlement was approved by the bankruptcy court and preliminarily approved by the district court.

Mr. Tuccillo was the Firm's lead litigation lawyer in *In re Silvercorp Metals, Inc. Secs. Litig.*, No. 1:12-cv-09456 (S.D.N.Y.), a securities class action involving a Canadian company with mining operations in China and stock traded on the NYSE. He worked closely with mining, accounting, damages, and market efficiency experts to defeat a motion to dismiss and oversee discovery. After two mediations, the case was resolved for a $14 million all-cash fund. In granting final approval of the settlement, Judge Rakoff noted that the case was "unusually complex," given the technical nature of mining metrics, the need to compare mining standards in Canada, China, and the U.S., and the volume of Chinese-language evidence requiring translation.

Mr. Tuccillo's prior casework includes litigation and resolution of complex disputes over roll ups of consulting companies and of commercial real estate interests. At Pomerantz, he was on the multi-firm team that litigated and settled *In re Empire State Realty Trust, Inc. Investor Litig.*, No. 650607/2012 (N.Y. Sup. Ct.), representing investors in public and private commercial real estate interests against the long-term lessees/operators, the Malkin family and the Estate of Leona Helmsley, regarding a proposed consolidation, REIT formation, and IPO centered around New York's iconic Empire State Building. These efforts achieved broad relief for the class, including a $55 million cash/securities settlement fund, a restructured deal creating a tax benefit estimated at $100 million, expansive remedial disclosures, and important deal protections.

Mr. Tuccillo has also handled shareholder books and records demands, as well as shareholder derivative, consumer, wage and hour, and mergers and acquisitions litigation. His handling of *GSS 5-08 Trust v. Arch Chemicals, Inc.*, et al., No. X-08 FST-CV11-6010654-S (Conn. Sup. Ct.), concerning a Swiss multi-national's acquisition of a Connecticut-based chemicals company, earned the court's praise for his "preparation" and "hard work."

Before joining Pomerantz, Mr. Tuccillo began his career at a large full-service Boston firm, litigating primarily for corporate clients. He also worked at plaintiff-side firms in Boston and Connecticut,

litigating securities, consumer, and wage and hour class actions, as well as complex sale of business disputes. He has helped negotiate numerous multi-million dollar settlements, at times through the use of alternative dispute resolution. His pro bono work includes securing Social Security benefits for a veteran suffering from non-service-related disabilities.

Mr. Tuccillo is a recommended securities litigator by The Legal 500, which evaluates law firms worldwide for cutting edge, innovative work based on client feedback, practitioner interviews, and independent research. He was honored as a 2016 Super Lawyers® "Top-Rated Securities Litigation Attorney," a recognition bestowed on no more than 5% of eligible attorneys in the New York Metro area, after a rigorous process overseen by Thompson Reuters. Since 2014, he has maintained Martindale-Hubbell's highest-available AV® Preeminent™ peer rating, scoring 5.0 out of 5.0 in Securities Law, Securities Class Actions, and Securities Litigation while being described as a "First class, top flight lawyer, especially in complex litigation." Mr. Tuccillo graduated from the Georgetown University Law Center in 1999, where he made the Dean's List. He graduated from Wesleyan University in 1995, and he currently serves as President of the Wesleyan Lawyers Association.

Mr. Tuccillo is a member of the Bars the Supreme Court of the United States; the State of New York; the State of Connecticut; the Commonwealth of Massachusetts; the Second and Ninth Circuit Courts of Appeals; and the United States District Courts for the Southern and Eastern District of New York, Connecticut, Massachusetts, the Northern District of Illinois, and the Southern District of Texas. UNITED STATES DISTRICT COURT

NORTHERN DISTRICT OF CALIFORNIA

OAKLAND DIVISION

IN RE: LITHIUM ION BATTERIES ANTITRUST LITIGATION	Case No. 13-MD-02420 YGR (DMR) MDL NO. 2420 **DECLARATION OF MARC G. REICH IN SUPPORT OF INDIRECT PURCHASER PLAINTIFFS' MOTION FOR AN AWARD OF ATTORNEYS' FEES AND REIMBURSEMENT OF EXPENSES ON BEHALF OF REICH RADCLIFFE & HOOVER LLP**
This Document Relates to: **ALL INDIRECT PURCHASER ACTIONS**	

I, Marc G. Reich, declare:

1. I am a partner of Reich Radcliffe & Hoover LLP, FKA Reich Radcliffe & Kuttler LLP, ("RRH"), Counsel for Indirect Purchaser Plaintiffs ("IPPs" or "Plaintiffs") in this action. I submit this declaration in support of IPPs' Motion for an Award of Attorneys' Fees and Reimbursement of Expenses. I make this declaration based on my personal knowledge and if called as a witness, I could and would competently testify to the matters stated herein.

2. My firm has served as counsel to class representative Tom Pham and as counsel for IPPs throughout the course of this litigation. The background and experience of RRH and its attorneys are summarized in the curriculum vitae attached hereto as **Exhibit A**.

3. RRH has prosecuted this litigation solely on a contingent-fee basis and has been at risk that it would not receive any compensation for prosecuting claims against the defendants. While RRH devoted its time and resources to this matter, it has foregone other legal work for which it would have been compensated.

4. During the pendency of the litigation, RRH performed the following work: Updated Mr. Pham on the status of and developments in the case and responded to his questions; obtained and organized documents and information from Mr. Pham relating to his purchases of lithium ion batteries and products; drafted and revised discovery responses for Mr. Pham and organized his document production; prepared Mr. Pham for and defended his deposition; and communicated with and obtained Mr. Pham's approvals for settlements obtained in this case.

5. Attached hereto as Exhibit B is a billing summary of RRH's total hours and lodestar, computed at current billing rates, from March 1, 2017 to present. This summary was prepared from contemporaneous, daily time records regularly prepared and maintained by RRH. Attached hereto as Exhibit C is a compilation of my firm's detailed time records at historical billing rates. The lodestar amount is for work assigned by Co-Lead Counsel and was performed by professional staff at my law firm.

6. A summary of work performed by RRH and detailed billing records from June 1, 2013 to February 28, 2017 were submitted with my Declaration of in Support of Indirect

Purchaser Plaintiffs' Motion for an Award of Attorneys' Fees and Reimbursement of Expenses on Behalf of RRH and filed on May 26, 2017. (ECF No. 1813-31). Counsel for Plaintiffs did not and do not seek attorneys' fees for any time billed prior to the appointment of lead counsel. *See* Order dated May 17, 2013 (ECF No. 198).

7. In summary, the total number of hours spent by RRH since June 1, 2013 was 100.6, with a corresponding lodestar of $58,785 based on current rates.

8. Attached hereto as **Exhibit D** is a summary of the expenses RRH has incurred from June 1, 2013 to present, plus applicable case filing fees. RRH expended a total of $151.41 in unreimbursed costs and expenses in connection with the prosecution of this case. These expenses were incurred on behalf of IPPs by RRH on a contingent basis and have not been reimbursed. The expenses reflected in Exhibit D were prepared from expense reports, vouchers, receipts, and bank records, and thus represent an accurate recordation of the expenses incurred. I have reviewed the time and expenses reported by RRH in this case which are included in this declaration, and I affirm that they are true and accurate.

I declare under penalty of perjury under the laws of the United States that the foregoing is true and correct.

Executed on April 9, 2019 at RSM, CA.

Counsel for Indirect Purchaser Plaintiffs

UNITED STATES DISTRICT COURT

NORTHERN DISTRICT OF CALIFORNIA

OAKLAND DIVISION

IN RE: LITHIUM ION BATTERIES ANTITRUST LITIGATION	Case No. 13-MD-02420 YGR (DMR) MDL NO. 2420
This Document Relates to: **ALL INDIRECT PURCHASER ACTIONS**	**DECLARATION OF MARC G. REICH IN SUPPORT OF INDIRECT PURCHASER PLAINTIFFS' MOTION FOR AN AWARD OF ATTORNEYS' FEES AND REIMBURSEMENT OF EXPENSES ON BEHALF OF REICH RADCLIFFE & HOOVER LLP**

I, Marc G. Reich, declare:

1. I am partner of Reich Radcliffe & Hoover LLP, FKA Reich Radcliffe & Kuttler LLP, ("RRH"), Counsel for Indirect Purchaser Plaintiffs ("IPPs" or "Plaintiffs") in this action. I submit this declaration in support of IPPs' Motion for an Award of Attorneys' Fees and Reimbursement of Expenses. I make this declaration based on my personal knowledge and if called as a witness, I could and would competently testify to the matters stated herein.

2. My firm has served as counsel to class representative Tom Pham and as counsel for IPPs throughout the course of this litigation. The background and experience of RRH and its attorneys are summarized in the curriculum vitae attached hereto as **Exhibit A**.

3. RRH has prosecuted this litigation solely on a contingent-fee basis, and has been at risk that it would not receive any compensation for prosecuting claims against the defendants. While RRH devoted its time and resources to this matter, it has foregone other legal work for which it would have been compensated.

4. During the pendency of the litigation, RRH performed the following work: Updated Mr. Pham on the status of and developments in the case and responded to his questions; obtained and organized documents and information from Mr. Pham relating to his purchases of lithium ion batteries and products; drafted and revised discovery responses for Mr. Pham and organized his document production; and prepared Mr. Pham for and defended his deposition.

5. Attached hereto as **Exhibit B** is a billing summary of RRH's total hours and lodestar, computed at current billing rates, from June 1, 2013 to February 28, 2017. Counsel for Plaintiffs are not seeking attorneys' fees for any time billed prior to the appointment of lead counsel. *See* Order dated May 17, 2013 (ECF No. 194). The total number of hours spent by RRH during this period of time was 96.8, with a corresponding lodestar based on current rates of $55,935.00. The lodestar amount reflected in Exhibit B is for work assigned by Lead Counsel, and was performed by professional staff at my law firm. This summary was prepared from contemporaneous, daily time records regularly prepared and maintained by RRH.

6. Attached hereto as **Exhibit C** is a list of the various billing rates each attorney and staff member at my firm has billed at in this case.

7. Attached hereto as **Exhibit D** is a compilation of my firm's detailed records at historical billing rates. The entries in **Exhibit D** have been redacted per the Court's Order in ECF No. 1803.

8. Attached hereto as **Exhibit E** is a summary of the expenses RRH has incurred during the course of this litigation. RRH expended a total of $151.41 in unreimbursed costs and expenses in connection with the prosecution of this case. These expenses were incurred on behalf of IPPs by RRH on a contingent basis and have not been reimbursed. The expenses reflected in **Exhibit E** were prepared from expense vouchers, receipts, and bank records, and thus represent an accurate recordation of the expenses incurred.

9. I have reviewed the time and expenses reported by RRH in this case which are included in this declaration, and I affirm that they are true and accurate.

I declare under penalty of perjury under the laws of the United States that the foregoing is true and correct.

Executed on May 23, 2017 at Newport Beach, CA.

Counsel for Indirect Purchaser Plaintiffs

UNITED STATES DISTRICT COURT

NORTHERN DISTRICT OF CALIFORNIA

OAKLAND DIVISION

IN RE: LITHIUM ION BATTERIES ANTITRUST LITIGATION	Case No. 13-MD-02420 YGR (DMR) MDL NO. 2420
This Document Relates to: **ALL INDIRECT PURCHASER ACTIONS**	**DECLARATION OF STEVE CIKES IN SUPPORT OF INDIRECT PURCHASER PLAINTIFFS' MOTION FOR AN AWARD OF ATTORNEYS' FEES AND REIMBURSEMENT OF EXPENSES ON BEHALF OF RENNE PUBLIC LAW GROUP AND SLOAN SAKAI YEUNG & WONG LLP**

I, Steve Cikes, declare:

1. I am a partner with the law firm Sloan Sakai Yeung & Wong LLP ("SSYW). SSYW, along with Louise H. Renne of the Renne Public Law Group ("RPLG"), serve as Counsel for Indirect Purchaser Plaintiffs ("IPPs" or "Plaintiffs") in this action.[1] I submit this declaration in support of IPPs' Motion for an Award of Attorneys' Fees and Reimbursement of Expenses. I make this declaration based on my personal knowledge and if called as a witness, I could and would competently testify to the matters stated herein.

2. SSYW and RPLG have served as counsel to government subclass representatives the City of Palo Alto and the City of Richmond and as counsel for IPPs throughout the course of this litigation. The background and experience of SSYW and RPLG and their attorneys are summarized in the CVs attached hereto as **Exhibit A**.

3. SSYW and RPLG have prosecuted this litigation solely on a contingent-fee basis and have been at risk that it would not receive any compensation for prosecuting claims against the defendants. While SSYW and RPLG have devoted their time and resources to this matter, they have foregone other legal work for which they would have been compensated.

4. During the pendency of the litigation, SSYW and RPLG performed the following work: (a) conferring with Lead Counsel concerning issues related to the governmental subclass; (b) review and drafting of pleadings related to the governmental subclass; (c) conferring with representatives from the City of Palo Alto and the City of Richmond concerning case developments and discovery-related issues, including the development and implementation of document retention protocols; (d) preparing responses on behalf of the City of Palo Alto and the City of Richmond to Defendants' written discovery; (e) assisting in the collection, review, and

[1] Ms. Renne was previously a partner with SSYW, when the firm was known as Renne Sloan Holtzman Sakai LLP ("RSHS"). RSHS was renamed SSYW effective March 1, 2018, when Ms. Renne left the firm to form RPLG. A notice reflecting this change – along with Ms. Renne's continuation as counsel – was filed with this Court on June 14, 2018 (ECF No. 2341).

production of documents by the City of Palo Alto and the City of Richmond in response to Defendants' discovery demands; and (f) preparing for and attending Defendants' FRCP 30(b)(6) depositions of the City of Palo Alto and the City of Richmond.

5. Attached hereto as **Exhibit B** is a billing summary of SSYW's and RPLG's total hours and lodestar, computed at current billing rates, from March 1, 2017 to present. Attached hereto as **Exhibit C** is a compilation of both firms' detailed time records at historical billing rates. The lodestar amount is for work assigned by Co-Lead Counsel and was performed by professional staff at SSYW and RPLG.

6. A summary of work performed by SSYW (then known as RSHS) and detailed billing records from June 1, 2013 to February 28, 2017 were submitted with the Declaration of Steve Cikes in Support of Indirect Purchaser Plaintiffs' Motion for an Award of Attorneys' Fees and Reimbursement of Expenses on Behalf of Renne Sloan Holtzman Sakai LLP and filed on May 26, 2017. (ECF No. 1813-32.) Counsel for Plaintiffs did not and do not seek attorneys' fees for any time billed prior to the appointment of lead counsel. *See* Order dated May 17, 2013 (ECF No. 198).

8. Attached hereto as **Exhibit D** is a summary of the expenses SSYW and RPLG have incurred from June 1, 2013 to present, plus applicable case filing fees. SSYW and RPLG expended a total of $482.53 in unreimbursed costs and expenses in connection with the prosecution of this case. These expenses were incurred on behalf of IPPs by SSYW and RPLG on a contingent basis and have not been reimbursed. The expenses reflected in Exhibit D were prepared from expense reports, vouchers, receipts, and bank records, and thus represent an accurate recordation of the expenses incurred. I have reviewed the time and expenses reported by SSYW and RPLG in this case which are included in this declaration, and I affirm that they are true

and accurate.

EXPERIENCE

Louise Renne is a founding partner of Renne Public Law Group, and was previously a founding partner of Renne Sloan Holtzman Sakai Public Law Group. She leads the firm's public interest litigation and elder financial abuse practices. Ms. Renne pioneered the model of public interest plaintiff coalitions comprised of government agencies, individuals, and non-profit organizations during her 16-year tenure as San Francisco City Attorney. She is known for transforming the traditionally defense-oriented practice of municipal law by creating an affirmative litigation program that won significant victories for cities and counties in California. As a nationally recognized and respected leader in municipal law, she often testifies before federal, state, and other governmental bodies. She is also frequently requested to conduct impartial investigations for local public agencies in high-profile cases.

Some of the public interest cases Ms. Renne has directed include:

- A certified national class action involving 250,000 victims, national and state putative class actions, and individual lawsuits involving elder financial abuse. These suits were brought on behalf of senior citizens against insurance companies, banks, and other entities for the sale of inappropriate annuity products to seniors.
- A lawsuit on behalf of African American employees in private industry for race discrimination, retaliation, and harassment.
- Numerous class-action suits brought on behalf of local public agencies against energy producers, tobacco companies, national banks, gun manufacturers, auto insurers and escrow companies.

RELATED EXPERIENCE

Ms. Renne previously served for 16 years as the elected City Attorney for the City and County of San Francisco. As City Attorney she was responsible for providing legal expertise and services to more than 60 operating departments and commissions, each tasked with providing essential government services. She modernized the City Attorney's office, establishing it as a national leader in the practice of public law by creating a vigorous and enterprising 200-lawyer legal department of highly-skilled litigators, negotiators, and advisory attorneys. She energized and streamlined the Office's advice function, building widely respected legal expertise in every area of municipal operations, ranging from traditional fields such as land use and public safety to the cutting-edge areas of energy regulation and telecommunications.

Ms. Renne also served as General Counsel for the San Francisco Unified School District where she led the effort to combat corruption existing at the time and established an in-house legal department, and as the City Attorney for the City of Richmond.

Renne Sloan Holtzman Sakai

E E H T I B IC

Renne Sloan Holtzman Sakai LLP was founded by Louise Renne and Jonathan Holtzman in 2002. Prior to founding the firm, Louise Renne served as the elected City Attorney of the City and County of San Francisco from 1986-2002. Ms. Renne built the City Attorney's Office into a widely respected public law firm with more than 200 lawyers practicing in virtually every area of civil law, with an annual budget of $35 million. Widely known for having "reinvented" municipal law by filing class actions against tobacco, insurance companies, energy producers, national banks, gun and lead paint manufacturers and escrow companies, Ms. Renne has recovered over $1 billion for California taxpayers. Ms. Renne was instrumental in assembling large coalitions of public agencies to pursue these public interest cases and achieved national recognition for their successful resolutions. Ms. Renne's approach to affirmative litigation has provided a national model for modernizing the traditionally defense-oriented practice of public sector law and has broken ground in affirmative litigation on behalf of public agencies. Some examples of the cases brought by Ms. Renne while City Attorney include:

- Represented cities and counties throughout California in lawsuits against the tobacco industry to recover damages incurred to local and state government. The lawsuits, later joined by the California Attorney General, recovered $25 billion, half of which now goes to California local government agencies. San Francisco's share of the recovery is estimated to be $585 million over 25 years.

- Represented over 300 California cities and counties in a false claims act whistleblower lawsuit against Bank of America. The lawsuit argued that proceeds from as many as 14,000 bond issues valued at $100 billion and managed by the bank since the 1940s had been illegally retained by the bank. Local governments recovered $187.5 million in this lawsuit.

- Represented public agencies in a $50 million lawsuit against Old Republic Title, alleging that the company engaged in a scheme to collect illegal interest payments on escrow accounts. Subsequently, Department of Insurance initiated an investigation and the State Controller filed suit. The suit ultimately recovered $8 million for the City and County of San Francisco.

- While serving as General Counsel for the San Francisco Unified School District ("SFUSD"), uncovered a nation-wide scandal, known as the "e-rate" scandal, in which numerous technology vendors and computer consultants conspired to defraud a federal government program of millions of dollars intended for the purchase of computer equipment for public schools. As part of a settlement with one company, a total of almost $16 million was paid to the federal government, of which SFUSD received $3.3 million.

- Represented California cities and counties in a lawsuit which successfully prevented tobacco companies from targeting minors in advertising. The lawsuit, often referred to as the "Joe Camel" case, resulted in a settlement in which Camel agreed to cease advertising directed at minors.

- In a case against a Fortune 250 company on behalf of SFUSD, recovered $43.1 million for SFUSD in a breach of contract and false claims lawsuit.

Renne Sloan has grown over the last few years to include approximately 37 lawyers, and over 50 total staff, and frequently partners with other law firms in affirmative litigation cases. Roughly one quarter of the lawyers in the firm work on affirmative litigation; the firm has represented multiple public entities and individuals in class actions within California and across the United States relating to insurance broking and elder financial abuse.

Public Management Group™
Renne Sloan Holtzman Sakai

LOUISE H. RENNE

Louise H. Renne is the founding partner of Renne Sloan Holtzman & Sakai, Public Law Group, LLP. Prior to founding the Public Law Group, she served as San Francisco City Attorney, an elective office, from 1986 to 2002, when she chose not to seek a fifth term.

Her current cases include a shareholder derivative action against Wells Fargo's officers and directors challenging a colossal scheme of illegal sales practices that deceived thousands of the Bank's own customers and was the subject of was the subject of regulatory proceedings brought by the Consumer Financial Protection Bureau and the U.S. Office of the Comptroller of Currency. Ms. Renne also represents the Cities of Palo Alto and Richmond, leading a municipal subclass in an antitrust action against Japanese and Korean manufacturers of lithium ion battery cells, and their American subsidiaries.

Ms. Renne is known in legal and government circles for transforming the traditionally defense-oriented practice of municipal law by pioneering an affirmative litigation program that won significant victories for cities and counties in California.

In what one newspaper termed "Renne's Revolution," she organized multiparty consumer protection lawsuits on behalf of local government and non-profit plaintiffs to reform unfair business practices by energy producers, tobacco companies, national banks, gun manufacturers, auto insurers and escrow companies.

Ms. Renne was appointed City Attorney by Mayor Dianne Feinstein in 1986 to fill the unexpired term of her predecessor, who died in office. She was subsequently elected to three full four-year terms.

Ms. Renne modernized the City Attorney's office, establishing it as a national leader in the practice of public law. She energized and streamlined its advice function, building widely respected legal expertise in every area of municipal operations ranging from traditional fields such as land use and public protection to the cutting-edge areas of energy regulation and telecommunications.

She created a vigorous and enterprising 200-lawyer city department of litigators, negotiators and regulatory attorneys, attracting top talent from private sector firms, law schools and judicial clerkships nationwide. Ms. Renne's new model of the public law firm attracted wide attention among city and county legal departments for recasting the municipal attorney in a more activist role as legal problem solver, inter-agency and community mediator, and neighborhood services provider.

Among Ms. Renne's improvements adopted by other cities and counties was the City Attorney's Code Enforcement Task Force, commended by the Ford Foundation and the Kennedy School of Government at Harvard University in 1991 for innovation in local government. Task force lawyers were assigned to meet regularly with residents in the

city's neighborhoods, responding to complaints of code violations. They took legal action to close crack houses, clean up apartment house slums, ensure disability access, and enforce the health and safety laws.

5. A summary of work performed by the Firm and detailed billing records from June 1, 2013 to February 28, 2017 were submitted with the Declaration of Alexandra S. 7. Attached hereto as Exhibit B is a summary of the expenses/charges Robbins Geller seeks from June 1, 2013 to present, plus applicable case filing fees, total $3,099.19 in connection with the prosecution of this case. These expenses/charges were on a contingent basis and have not been reimbursed. The expenses reflected in Exhibit B were prepared from expense reports, vouchers, receipts, and other records, and thus represent an accurate recordation.

PRACTICE AREAS AND SERVICES

Securities Fraud

As recent corporate scandals demonstrate clearly, it has become all too common for companies and their executives – often with the help of their advisors, such as bankers, lawyers and accountants – to manipulate the market price of their securities by misleading the public about the company's financial condition or prospects for the future. This misleading information has the effect of artificially inflating the price of the company's securities above their true value. When the underlying truth is eventually revealed, the prices of these securities plummet, harming those innocent investors who relied upon the company's misrepresentations.

Robbins Geller is the leader in the fight to protect investors from corporate securities fraud. We utilize a wide range of federal and state laws to provide investors with remedies, either by bringing a class action on behalf of all affected investors or, where appropriate, by bringing individual cases.

The Firm's reputation for excellence has been repeatedly noted by courts and has resulted in the appointment of Firm attorneys to lead roles in hundreds of complex class-action securities and other cases. In the securities area alone, the Firm's attorneys have been responsible for a number of outstanding recoveries on behalf of investors. Currently, Robbins Geller attorneys are lead or named counsel in hundreds of securities class action or large institutional-investor cases. Some notable current and past cases include:

- ***In re Enron Corp. Sec. Litig.***, No. H-01-3624 (S.D. Tex.). Robbins Geller attorneys and lead plaintiff The Regents of the University of California aggressively pursued numerous defendants, including many of Wall Street's biggest banks, and successfully obtained settlements in excess of ***$7.2 billion*** for the benefit of investors. ***This is the largest securities class action recovery in history***.

- ***Jaffe v. Household Int'l, Inc.***, No. 02-C-05893 (N.D. Ill.). As sole lead counsel, Robbins Geller obtained a record-breaking settlement of ***$1.575 billion*** after 14 years of litigation, including a six-week jury trial in 2009 that resulted in a securities fraud verdict in favor of the class. In 2015, the Seventh Circuit Court of Appeals upheld the jury's verdict that defendants made false or misleading statements of material fact about the company's business practices and financial results, but remanded the case for a new trial on the issue of whether the individual defendants "made" certain false statements, whether those false statements caused plaintiffs' losses, and the amount of damages. The parties reached an agreement to settle the case just hours before the retrial was scheduled to begin on June 6, 2016. ***The $1.575 billion settlement, approved in October 2016, is the largest ever following a securities fraud class action trial, the largest securities fraud settlement in the Seventh Circuit and the seventh-largest settlement ever in a post-PSLRA securities fraud case.*** According to published reports, the case was just the seventh securities fraud case tried to a verdict since the passage of the PSLRA.

- ***In re UnitedHealth Grp. Inc. PSLRA Litig.***, No. 06-CV-1691 (D. Minn.). Robbins Geller represented the California Public Employees' Retirement System ("CalPERS") and demonstrated its willingness to vigorously advocate for its institutional clients, even under the most difficult circumstances. The Firm obtained an $895 million recovery on behalf of the UnitedHealth shareholders, and former CEO William A. McGuire paid $30 million and returned stock options representing more than three million shares to the shareholders, bringing the total recovery for the class to over $925 million, the largest stock option backdating recovery ever, and ***a recovery that is more than four times larger than the next largest options backdating recovery***. Moreover, Robbins Geller obtained unprecedented corporate governance reforms, including election of a

shareholder-nominated member to the company's board of directors, a mandatory holding period for shares acquired by executives via option exercise, and executive compensation reforms that tie pay to performance.

- ***Alaska Elec. Pension Fund v. CitiGroup, Inc. (In re WorldCom Sec. Litig.)***, No. 03 Civ. 8269 (S.D.N.Y.). Robbins Geller attorneys represented more than 50 private and public institutions that opted out of the class action case and sued WorldCom's bankers, officers and directors, and auditors in courts around the country for losses related to WorldCom bond offerings from 1998 to 2001. The Firm's attorneys recovered more than $650 million for their clients, substantially more than they would have recovered as part of the class.

- ***Luther v. Countrywide Fin. Corp.***, No. 12-cv-05125 (C.D. Cal.). Robbins Geller attorneys secured a $500 million settlement for institutional and individual investors in what is the largest RMBS purchaser class action settlement in history, and one of the largest class action securities settlements of all time. The unprecedented settlement resolves claims against Countrywide and Wall Street banks that issued the securities. The action was the first securities class action case filed against originators and Wall Street banks as a result of the credit crisis. As co-lead counsel Robbins Geller forged through six years of hard-fought litigation, oftentimes litigating issues of first impression, in order to secure the landmark settlement for its clients and the class.

- ***In re Wachovia Preferred Sec. & Bond/Notes Litig.***, No. 09-cv-06351 (S.D.N.Y.). On behalf of investors in bonds and preferred securities issued between 2006 and 2008, Robbins Geller and co-counsel obtained a significant settlement with Wachovia successor Wells Fargo & Company and Wachovia auditor KPMG LLP. ***The total settlement – $627 million – is one of the largest credit-crisis settlements involving Securities Act claims and one of the 20 largest securities class action recoveries in history***. The settlement is also one of the biggest securities class action recoveries arising from the credit crisis. The lawsuit focused on Wachovia's exposure to "pick-a-pay" loans, which the bank's offering materials said were of "pristine credit quality," but which were actually allegedly made to subprime borrowers, and which ultimately massively impaired the bank's mortgage portfolio. Robbins Geller served as co-lead counsel representing the City of Livonia Employees' Retirement System, Hawaii Sheet Metal Workers Pension Fund, and the investor class.

- ***In re Cardinal Health, Inc. Sec. Litig.***, No. C2-04-575 (S.D. Ohio). As sole lead counsel representing Cardinal Health shareholders, Robbins Geller obtained a recovery of $600 million for investors on behalf of the lead plaintiffs, Amalgamated Bank, the New Mexico State Investment Council, and the California Ironworkers Field Trust Fund. At the time, the $600 million settlement was the tenth-largest settlement in the history of securities fraud litigation and is the largest-ever recovery in a securities fraud action in the Sixth Circuit.

- ***AOL Time Warner Cases I & II***, JCCP Nos. 4322 & 4325 (Cal. Super. Ct., Los Angeles Cty.). Robbins Geller represented The Regents of the University of California, six Ohio state pension funds, Rabo Bank (NL), the Scottish Widows Investment Partnership, several Australian public and private funds, insurance companies, and numerous additional institutional investors, both domestic and international, in state and federal court opt-out litigation stemming from Time Warner's disastrous 2001 merger with Internet high flier America Online. After almost four years of litigation involving extensive discovery, the Firm secured combined settlements for its opt-out clients totaling over $629 million just weeks before The Regents' case pending in California state court was scheduled to go to trial. The Regents' gross recovery of $246 million is the largest individual opt-out securities recovery in history.

- ***In re HealthSouth Corp. Sec. Litig.***, No. CV-03-BE-1500-S (N.D. Ala.). As court-appointed co-lead counsel, Robbins Geller attorneys obtained a combined recovery of $671 million from HealthSouth, its auditor Ernst & Young, and its investment banker, UBS, for the benefit of stockholder plaintiffs. The settlement against HealthSouth represents one of the larger settlements in securities class action history and is considered among the top 15 settlements achieved after passage of the PSLRA. Likewise, the settlement against Ernst & Young is one of the largest securities class action settlements entered into by an accounting firm since the passage of the PSLRA.

- ***Jones v. Pfizer Inc.***, No. 1:10-cv-03864 (S.D.N.Y.). Lead plaintiff Stichting Philips Pensioenfonds obtained a $400 million settlement on behalf of class members who purchased Pfizer Inc. common stock during the January 19, 2006 to January 23, 2009 class period. The settlement against Pfizer resolves accusations that it misled investors about an alleged off-label drug marketing scheme. As sole lead counsel, Robbins Geller attorneys helped achieve this exceptional result after five years of hard-fought litigation against the toughest and the brightest members of the securities defense bar by litigating this case all the way to trial.

- ***In re Dynegy Inc. Sec. Litig.***, No. H-02-1571 (S.D. Tex.). As sole lead counsel representing The Regents of the University of California and the class of Dynegy investors, Robbins Geller attorneys obtained a combined settlement of $474 million from Dynegy, Citigroup, Inc. and Arthur Andersen LLP for their involvement in a clandestine financing scheme known as Project Alpha. Most notably, the settlement agreement provides that Dynegy will appoint two board members to be nominated by The Regents, which Robbins Geller and The Regents believe will benefit all of Dynegy's stockholders.

- ***In re Qwest Commc'ns Int'l, Inc. Sec. Litig.***, No. 01-cv-1451 (D. Colo.). In July 2001, the Firm filed the initial complaint in this action on behalf of its clients, long before any investigation into Qwest's financial statements was initiated by the SEC or Department of Justice. After five years of litigation, lead plaintiffs entered into a settlement with Qwest and certain individual defendants that provided a $400 million recovery for the class and created a mechanism that allowed the vast majority of class members to share in an additional $250 million recovered by the SEC. In 2008, Robbins Geller attorneys recovered an additional $45 million for the class in a settlement with defendants Joseph P. Nacchio and Robert S. Woodruff, the CEO and CFO, respectively, of Qwest during large portions of the class period.

- ***Fort Worth Emps.' Ret. Fund v. J.P. Morgan Chase & Co.***, No. 1:09-cv-03701 (S.D.N.Y.). Robbins Geller attorneys served as lead counsel for a class of investors and obtained court approval of a $388 million recovery in nine 2007 residential mortgage-backed securities offerings issued by J.P. Morgan. The settlement represents, on a percentage basis, the largest recovery ever achieved in an MBS purchaser class action. The result was achieved after more than five years of hard-fought litigation and an extensive investigation.

- ***NECA-IBEW Health & Welfare Fund v. Goldman Sachs & Co.***, No. 1:08-cv-10783 (S.D.N.Y.). As sole lead counsel, Robbins Geller obtained a $272 million settlement on behalf of Goldman Sachs' shareholders. The settlement concludes one of the last remaining mortgage-backed securities purchaser class actions arising out of the global financial crisis. The remarkable result was achieved following seven years of extensive litigation. After the claims were dismissed in 2010, Robbins Geller secured a landmark victory from the Second Circuit Court of Appeals that clarified the scope of permissible class actions asserting claims under the Securities Act of 1933 on behalf of MBS investors. Specifically, the Second Circuit's decision rejected the concept of "tranche" standing and concluded that a lead plaintiff in an MBS class action has class standing to pursue claims on behalf of purchasers of other securities that were issued from the same registration

statement and backed by pools of mortgages originated by the same lenders who had originated mortgages backing the lead plaintiff's securities.

- ***Schuh v. HCA Holdings, Inc.***, No. 3:11-cv-01033 (M.D. Tenn.). As sole lead counsel, Robbins Geller obtained a groundbreaking $215 million settlement for former HCA Holdings, Inc. shareholders – the largest securities class action recovery ever in Tennessee. Reached shortly before trial was scheduled to commence, the settlement resolves claims that the Registration Statement and Prospectus HCA filed in connection with the company's massive $4.3 billion 2011 IPO contained material misstatements and omissions. The recovery achieved approximately 70% of classwide damages, which as a percentage of damages significantly exceeds the median class action recovery of 2%-3% of damages.

- ***In re AT&T Corp. Sec. Litig.***, MDL No. 1399 (D.N.J.). Robbins Geller attorneys served as lead counsel for a class of investors that purchased AT&T common stock. The case charged defendants AT&T and its former Chairman and CEO, C. Michael Armstrong, with violations of the federal securities laws in connection with AT&T's April 2000 initial public offering of its wireless tracking stock, one of the largest IPOs in American history. After two weeks of trial, and on the eve of scheduled testimony by Armstrong and infamous telecom analyst Jack Grubman, defendants agreed to settle the case for $100 million.

- ***Silverman v. Motorola, Inc.***, No. 1:07-cv-04507 (N.D. Ill.). The Firm served as lead counsel on behalf of a class of investors in Motorola, Inc., ultimately recovering $200 million for investors just two months before the case was set for trial. This outstanding result was obtained despite the lack of an SEC investigation or any financial restatement.

- ***Nieman v. Duke Energy Corp.***, No. 3:12-cv-00456 (W.D.N.C.). Robbins Geller, along with co-counsel, obtained a $146.25 million settlement on behalf of Duke Energy Corporation investors. The settlement resolves accusations that defendants misled investors regarding Duke's future leadership following its merger with Progress Energy, Inc., and specifically, their premeditated coup to oust William D. Johnson (CEO of Progress) and replace him with Duke's then-CEO, John Rogers. This historic settlement represents the largest recovery ever in a North Carolina securities fraud action, and one of the five largest recoveries in the Fourth Circuit.

- ***Bennett v. Sprint Nextel Corp.***, No. 2:09-cv-02122 (D. Kan.). As co-lead counsel, Robbins Geller obtained a $131 million recovery for a class of Sprint investors. The settlement, secured after five years of hard-fought litigation, resolved claims that former Sprint executives misled investors concerning the success of Sprint's ill-advised merger with Nextel and the deteriorating credit quality of Sprint's customer base, artificially inflating the value of Sprint's securities.

- ***In re LendingClub Sec. Litig.***, No. 3:16-cv-02627 (N.D. Cal.). Robbins Geller attorneys obtained a $125 million settlement for the court-appointed lead plaintiff Water and Power Employees' Retirement, Disability and Death Plan of the City of Los Angeles and the class. The settlement resolved allegations that LendingClub promised investors an opportunity to get in on the ground floor of a revolutionary lending market fueled by the highest standards of honesty and integrity. The settlement ranks among the top ten largest securities recoveries ever in the Northern District of California.

- ***Marcus v. J.C. Penney Co., Inc.***, No. 13-cv-00736 (E.D. Tex.). Robbins Geller attorneys obtained a $97.5 million recovery on behalf of J.C. Penney shareholders. The result resolves claims that J.C. Penney and certain officers and directors made misstatements and/or omissions regarding the company's financial position that resulted in artificially inflated stock prices. Specifically, defendants failed to disclose and/or misrepresented adverse facts, including that J.C. Penney

would have insufficient liquidity to get through year-end and would require additional funds to make it through the holiday season, and that the company was concealing its need for liquidity so as not to add to its vendors' concerns.

- ***Luna v. Marvell Technology Group, Ltd.***, No. 3:15-cv-05447 (N.D. Cal.). In the Marvell litigation, Robbins Geller attorneys represented the Plumbers and Pipefitters National Pension Fund and obtained a $72.5 million settlement. The case involved claims that Marvell reported revenue and earnings during the class period that were misleading as a result of undisclosed pull-in and concession sales. The settlement represents approximately 24% to 50% of the best estimate of classwide damages suffered by investors who purchased shares during the February 19, 2015 through December 7, 2015 class period.

- ***Garden City Emps.' Ret. Sys. v. Psychiatric Sols., Inc.***, No. 3:09-cv-00882 (M.D. Tenn.). In the *Psychiatric Solutions* case, Robbins Geller represented lead plaintiff and class representative Central States, Southeast and Southwest Areas Pension Fund in litigation spanning more than four years. Psychiatric Solutions and its top executives were accused of insufficiently staffing their in-patient hospitals, downplaying the significance of regulatory investigations and manipulating their malpractice reserves. Just days before trial was set to commence, attorneys from Robbins Geller achieved a $65 million settlement that was the third-largest securities recovery ever in the district and the largest in a decade.

- ***Plumbers & Pipefitters National Pension Fund v. Burns***, No. 3:05-cv-07393-JGC (N.D. Ohio). After 11 years of hard-fought litigation, Robbins Geller attorneys secured a $64 million recovery for shareholders in a case that accused the former heads of Dana Corp. of securities fraud for trumpeting the auto parts maker's condition while it actually spiraled toward bankruptcy. The Firm's Appellate Practice Group successfully appealed to the Sixth Circuit Court of Appeals twice, reversing the district court's dismissal of the action.

- ***In re St. Jude Med., Inc. Sec. Litig.***, No. 0:10-cv-00851 (D. Minn.). After four and one half years of litigation and mere weeks before the jury selection, Robbins Geller obtained a $50 million settlement on behalf of investors in medical device company St. Jude Medical. The settlement resolves accusations that St. Jude Medical misled investors by utilizing heavily discounted end-of-quarter bulk sales to meet quarterly expectations, which created a false picture of demand by increasing customer inventory due of St. Jude Medical devices. The complaint alleged that the risk of St. Jude Medical's reliance on such bulk sales manifested when it failed to meet its forecast guidance for the third quarter of 2009, which the company had reaffirmed only weeks earlier.

Robbins Geller's securities practice is also strengthened by the existence of a strong appellate department, whose collective work has established numerous legal precedents. The securities practice also utilizes an extensive group of in-house economic and damage analysts, investigators and forensic accountants to aid in the prosecution of complex securities issues.

Shareholder Derivative and Corporate Governance Litigation

The Firm's shareholder derivative and corporate governance practice is focused on preserving corporate assets and enhancing long-term shareowner value. Shareowner derivative actions are often brought by institutional investors to vindicate the rights of the corporation injured by its executives' misconduct, which can effect violations of the nation's securities, anti-corruption, false claims, cyber-security, labor, environmental and/or health & safety laws.

Robbins Geller attorneys have aided Firm clients in significantly enhancing shareowner value by obtaining hundreds of millions of dollars in financial clawbacks and successfully negotiating corporate governance enhancements. Robbins Geller has worked with its institutional clients to address corporate misconduct such as options backdating, bribery of foreign officials, pollution, off-label marketing, and insider trading and related self-dealing. Additionally, the Firm works closely with noted corporate governance consultants Robert Monks, Richard Bennett and their firm, ValueEdge Advisors LLC, to shape corporate governance practices that will benefit shareowners.

Robbins Geller's efforts have conferred substantial benefits upon shareowners, and the market effect of these benefits measures in the billions of dollars. The Firm's significant achievements include:

- ***City of Westland Police and Fire Retirement System v. Stumpf (Wells Fargo Derivative Litigation)***, No. 3:11-cv-02369 (N.D. Cal.). Prosecuted shareholder derivative action on behalf of Wells Fargo & Co. alleging that Wells Fargo's executives allowed participation in the mass-processing of home foreclosure documents by engaging in widespread robo-signing, *i.e.*, the execution and submission of false legal documents in courts across the country without verification of their truth or accuracy, and failed to disclose Wells Fargo's lack of cooperation in a federal investigation into the bank's mortgage and foreclosure practices. In settlement of the action, Wells Fargo agreed to provide $67 million in homeowner down-payment assistance, credit counseling and improvements to its mortgage servicing system. The initiatives will be concentrated in cities severely impacted by the bank's foreclosure practices and the ensuing mortgage foreclosure crisis. Additionally, Wells Fargo agreed to change its procedures for reviewing shareholder proposals and a strict ban on stock pledges by Wells Fargo board members.

- ***In re Ormat Techs., Inc. Derivative Litig.***, No. CV10-00759 (Nev. Dist. Ct., Washoe Cty.). Robbins Geller brought derivative claims for breach of fiduciary duty and unjust enrichment against the directors and certain officers of Ormat Technologies, Inc., a leading geothermal and recovered energy power business. During the relevant time period, these Ormat insiders caused the company to engage in accounting manipulations that ultimately required restatement of the company's financial statements. The settlement in this action includes numerous corporate governance reforms designed to, among other things: (i) increase director independence; (ii) provide continuing education to directors; (iii) enhance the company's internal controls; (iv) make the company's board more independent; and (iv) strengthen the company's internal audit function.

- ***In re Finisar Corp. Derivative Litig.***, No. C-06-07660 (N.D. Cal.). Prosecuted shareholder derivative action on behalf of Finisar against certain of its current and former directors and officers for engaging in an alleged nearly decade-long stock option backdating scheme that was alleged to have inflicted substantial damage upon Finisar. After obtaining a reversal of the district court's order dismissing the complaint for failing to adequately allege that a pre-suit demand was futile, Robbins Geller lawyers successfully prosecuted the derivative claims to resolution obtaining over $15 million in financial clawbacks for Finisar. Robbins Geller attorneys also obtained significant changes to Finisar's stock option granting procedures and corporate governance. As a part of the settlement, Finisar agreed to ban the repricing of stock options without first obtaining specific shareholder approval, prohibit the retrospective selection of grant dates for stock options and similar awards, limit the number of other boards on which Finisar directors may serve,

Prosecuted shareholder derivative claims arising from the company's alleged violations of the Foreign Corrupt Practices Act of 1977 ("FCPA"). As a result of Robbins Geller's efforts, Maxwell insiders agreed to adopt significant changes in Maxwell's internal controls and systems designed to protect Maxwell against future potential violations of the FCPA. These corporate governance changes included, establishing the following, among other things: a compliance plan to improve board oversight of Maxwell's compliance processes and internal controls; a clear corporate policy prohibiting bribery and subcontracting kickbacks, whereby individuals are accountable; mandatory employee training requirements, including the comprehensive explanation of whistleblower provisions, to provide for confidential reporting of FCPA violations or other corruption; enhanced resources and internal control and compliance procedures for the audit committee to act quickly if an FCPA violation or other corruption is detected; an FCPA and Anti-Corruption Compliance department that has the authority and resources required to assess global operations and detect violations of the FCPA and other instances of corruption; a rigorous ethics and compliance program applicable to all directors, officers and employees, designed to prevent and detect violations of the FCPA and other applicable anti-corruption laws; an executive-level position of Chief Compliance Officer with direct board-level reporting responsibilities, who shall be responsible for overseeing and managing compliance issues within the company; a rigorous insider trading policy buttressed by enhanced review and supervision mechanisms and a requirement that all trades are timely disclosed; and enhanced provisions requiring that business entities are only acquired after thorough FCPA and anti-corruption due diligence by legal, accounting and compliance personnel at Maxwell.

The governance reforms obtained as part of the settlement include two shareholder-nominated directors, the creation of a Healthcare Law Compliance Coordinator with specified qualifications and duties, a requirement that the Board's Compensation Committee be comprised solely of independent directors, the implementation of a compensation clawback that will automatically recover compensation improperly paid to the company's CEO or CFO in the event of a restatement, the establishment of an insider trading controls committee, and the adoption of a political expenditure disclosure policy. In addition to these reforms, $60 million in financial relief was obtained, which is the largest shareholder derivative recovery ever in Tennessee and the Sixth Circuit.

Robbins Geller has earned a reputation as the leading law firm in representing shareholders in corporate takeover litigation. Through its aggressive efforts in prosecuting corporate takeovers, the Firm has secured for shareholders billions of dollars of additional consideration as well as beneficial changes for shareholders in the context of mergers and acquisitions.

The Firm regularly prosecutes merger and acquisition cases post-merger, often through trial, to maximize the benefit for its shareholder class. Some of these cases include:

- ***In re Kinder Morgan, Inc. S'holders Litig.***, No. 06-C-801 (Kan. Dist. Ct., Shawnee Cty.). In the largest recovery ever for corporate takeover class action litigation, the Firm negotiated a settlement fund of $200 million in 2010.

- ***In re Dole Food Co., Inc. Stockholder Litig.***, No. 8703-VCL (Del. Ch.). Robbins Geller and co-counsel went to trial in the Delaware Court of Chancery on claims of breach of fiduciary duty on behalf of Dole Food Co., Inc. shareholders. The litigation challenged the 2013 buyout of Dole by its billionaire Chief Executive Officer and Chairman, David H. Murdock. On August 27, 2015, the court issued a post-trial ruling that Murdock and fellow director C. Michael Carter – who also served as Dole's General Counsel, Chief Operating Officer and Murdock's top lieutenant – had engaged in fraud and other misconduct in connection with the buyout and are liable to Dole's former stockholders for over $148 million, the largest trial verdict ever in a class action challenging a merger transaction.

- ***In re Rural Metro Corp. Stockholders Litig.***, No. 6350-VCL (Del. Ch.). Robbins Geller and co-counsel were appointed lead counsel in this case after successfully objecting to an inadequate settlement that did not take into account evidence of defendants' conflicts of interest. In a post-trial opinion, Delaware Vice Chancellor J. Travis Laster found defendant RBC Capital Markets, LLC liable for aiding and abetting Rural/Metro's board of directors' fiduciary duty breaches in the $438 million buyout of Rural/Metro, citing "the magnitude of the conflict between RBC's claims and the evidence." RBC was ordered to pay nearly $110 million as a result of its wrongdoing, the largest damage award ever obtained against a bank over its role as a merger adviser. The Delaware Supreme Court issued a landmark opinion affirming the judgment on November 30, 2015, *RBC Capital Mkts., LLC v. Jervis*, 129 A.3d 816 (Del. 2015).

- ***In re Del Monte Foods Co. S'holders Litig.***, No. 6027-VCL (Del. Ch.). Robbins Geller exposed the unseemly practice by investment bankers of participating on both sides of large merger and acquisition transactions and ultimately secured an $89 million settlement for shareholders of Del Monte. For efforts in achieving these results, the Robbins Geller lawyers prosecuting the case were named Attorneys of the Year by *California Lawyer* magazine in 2012.

- ***In re TD Banknorth S'holders Litig.***, No. 2557-VCL (Del. Ch.). After objecting to a modest recovery of just a few cents per share, the Firm took over the litigation and obtained a common fund settlement of $50 million.

- ***In re Chaparral Res., Inc. S'holders Litig.***, No. 2633-VCL (Del. Ch.). After a full trial and a subsequent mediation before the Delaware Chancellor, the Firm obtained a common fund settlement of $41 million (or 45% increase above merger price) for both class and appraisal claims.

- ***Laborers' Local #231 Pension Fund v. Websense, Inc.***, No. 37-2013-00050879-CU-BT-CTL (Cal. Super. Ct., San Diego Cty.). Robbins Geller successfully obtained a record-breaking $40 million in *Websense, Inc.*, which is believed to be the largest post-merger common fund settlement in California state court history. The class action challenged the May 2013 buyout of Websense by Vista Equity Partners (and affiliates) for $24.75 per share and alleged breach of fiduciary duty against the former Websense Board of Directors, and aiding and abetting against Websense's financial advisor, Merrill Lynch, Pierce, Fenner & Smith, Inc. Claims were pursued by the plaintiff in both California state court and the Delaware Court of Chancery.

- ***In re Onyx Pharm., Inc. S'holder Litig.***, No. CIV523789 (Cal. Super. Ct., San Mateo Cty.). Robbins Geller obtained $30 million in a case against the former Onyx Board of Directors for breaching its fiduciary duties in connection with the acquisition of Onyx by Amgen Inc. for $125 per share at the expense of shareholders. At the time of the settlement, it was believed to set the record for the largest post-merger common fund settlement in California state court history. Over the case's three years, Robbins Geller defeated defendants' motions to dismiss, obtained class certification, took over 20 depositions and reviewed over one million pages of documents. Further, the settlement was reached just days before a hearing on the defendants' motion for summary judgment was set to take place, and the result is now believed to be the second largest post-merger common fund settlement in California state court history.

- ***Harrah's Entertainment***, No. A529183 (Nev. Dist. Ct., Clark Cty.). The Firm's active prosecution of the case on several fronts, both in federal and state court, assisted Harrah's shareholders in securing an additional $1.65 billion in merger consideration.

- ***In re Chiron S'holder Deal Litig.***, No. RG 05-230567 (Cal. Super. Ct., Alameda Cty.). The Firm's efforts helped to obtain an additional $800 million in increased merger consideration for Chiron shareholders.

- ***In re Dollar Gen. Corp. S'holder Litig.***, No. 07MD-1 (Tenn. Cir. Ct., Davidson Cty.). As lead counsel, the Firm secured a recovery of up to $57 million in cash for former Dollar General shareholders on the eve of trial.

- ***In re Prime Hospitality, Inc. S'holders Litig.***, No. 652-N (Del. Ch.). The Firm objected to a settlement that was unfair to the class and proceeded to litigate breach of fiduciary duty issues involving a sale of hotels to a private equity firm. The litigation yielded a common fund of $25 million for shareholders.

- ***In re UnitedGlobalCom, Inc. S'holder Litig.***, No. 1012-VCS (Del. Ch.). The Firm secured a common fund settlement of $25 million just weeks before trial.

- ***In re eMachines, Inc. Merger Litig.***, No. 01-CC-00156 (Cal. Super. Ct., Orange Cty.). After four years of litigation, the Firm secured a common fund settlement of $24 million on the brink of trial.

- ***In re PeopleSoft, Inc. S'holder Litig.***, No. RG-03100291 (Cal. Super. Ct., Alameda Cty.). The Firm successfully objected to a proposed compromise of class claims arising from takeover defenses by PeopleSoft, Inc. to thwart an acquisition by Oracle Corp., resulting in shareholders receiving an increase of over $900 million in merger consideration.

- ***ACS S'holder Litig.***, No. CC-09-07377-C (Tex. Cty. Ct., Dallas Cty.). The Firm forced ACS's acquirer, Xerox, to make significant concessions by which shareholders would not be locked out of receiving more money from another buyer.

Insurance

Fraud and collusion in the insurance industry by executives, agents, brokers, lenders and others is one of the most costly crimes in the United States. Some experts have estimated the annual cost of white collar crime in the insurance industry to be over $120 billion nationally. Recent legislative proposals seek to curtail anti-competitive behavior within the industry. However, in the absence of comprehensive regulation, Robbins Geller has played a critical role as private attorney general in protecting the rights of consumers against insurance fraud and other unfair business practices within the insurance industry.

Robbins Geller attorneys have long been at the forefront of litigating race discrimination issues within the life insurance industry. For example, the Firm has fought the practice by certain insurers of charging African-Americans and other people of color more for life insurance than similarly situated Caucasians. The Firm recovered over $400 million for African-Americans and other minorities as redress for civil rights abuses, including landmark recoveries in *McNeil v. American General Life & Accident Insurance Company*; *Thompson v. Metropolitan Life Insurance Company*; and *Williams v. United Insurance Company of America*.

The Firm's attorneys fight on behalf of elderly victims targeted for the sale of deferred annuity products with hidden sales loads and illusory bonus features. Sales agents for life insurance companies such as Allianz Life Insurance Company of North America, Midland National Life Insurance Company, and National Western Life Insurance Company targeted senior citizens for these annuities with lengthy investment horizons and high sales commissions. The Firm recovered millions of dollars for elderly victims and seeks to ensure that senior citizens are afforded full and accurate information regarding deferred annuities.

Robbins Geller attorneys also stopped the fraudulent sale of life insurance policies based on misrepresentations about how the life insurance policy would perform, the costs of the policy, and whether premiums would "vanish." Purchasers were also misled about the financing of a new life insurance policy, falling victim to a "replacement" or "churning" sales scheme where they were convinced to use loans, partial surrenders or withdrawals of cash values from an existing permanent life insurance policy to purchase a new policy.

- **Brokerage "Pay to Play" Cases**. On behalf of individuals, governmental entities, businesses, and non-profits, Robbins Geller has sued the largest commercial and employee benefit insurance brokers and insurers for unfair and deceptive business practices. While purporting to provide independent, unbiased advice as to the best policy, the brokers failed to adequately disclose that

they had entered into separate "pay to play" agreements with certain third-party insurance companies. These agreements provide additional compensation to the brokers based on such factors as profitability, growth and the volume of insurance that they place with a particular insurer, and are akin to a profit-sharing arrangement between the brokers and the insurance companies. These agreements create a conflict of interest since the brokers have a direct financial interest in selling their customers only the insurance products offered by those insurance companies with which the brokers have such agreements.

Robbins Geller attorneys were among the first to uncover and pursue the allegations of these practices in the insurance industry in both state and federal courts. On behalf of the California Insurance Commissioner, the Firm brought an injunctive case against the biggest employee benefit insurers and local San Diego brokerage, ULR, which resulted in major changes to the way they did business. The Firm also sued on behalf of the City and County of San Francisco to recover losses due to these practices. Finally, Robbins Geller represents a putative nationwide class of individuals, businesses, employers, and governmental entities against the largest brokerage houses and insurers in the nation. To date, the Firm has obtained over $200 million on behalf of policyholders and enacted landmark business reforms.

- **Discriminatory Credit Scoring and Redlining Cases**. Robbins Geller attorneys have prosecuted cases concerning countrywide schemes of alleged discrimination carried out by Nationwide, Allstate, and other insurance companies against African-American and other persons of color who are purchasers of homeowner and automobile insurance policies. Such discrimination includes alleged redlining and the improper use of "credit scores," which disparately impact minority communities. Plaintiffs in these actions have alleged that the insurance companies' corporate-driven scheme of intentional racial discrimination includes refusing coverage and/or charging them higher premiums for homeowners and automobile insurance. On behalf of the class of aggrieved policyholders, the Firm has recovered over $400 million for these predatory and racist policies.

- **Senior Annuities**. Robbins Geller has prosecuted numerous cases against insurance companies and their agents who targeted senior citizens for the sale of deferred annuities. Plaintiffs alleged that the insurers misrepresented or failed to disclose to senior consumers material facts concerning the costs associated with their fixed and equity indexed deferred annuities and enticed seniors to buy the annuities by promising them illusory up-front bonuses. As a result of the Firm's efforts, hundreds of millions of dollars in economic relief has been made available to seniors who have been harmed by these practices. Notable recoveries include:

    - ***Negrete v. Allianz Life Ins. Co. of N. Am.***, No. CV-05-6838 (C.D. Cal.). Robbins Geller attorneys served as co-lead counsel on behalf of a nationwide RICO class consisting of over 200,000 senior citizens who had purchased deferred annuities issued by Allianz Life Insurance Company of North America. In March 2015, after nine years of litigation, District Judge Christina A. Snyder granted final approval of a class action settlement that made available in excess of $250 million in cash payments and other benefits to class members. In approving the settlement, the Court praised the effort of the Firm and noted that "counsel has represented their clients with great skill and they are to be complimented."

    - ***In re Am. Equity Annuity Practices & Sales Litig.***, No. CV-05-6735 (C.D. Cal.). As co-lead counsel, Robbins Geller attorneys secured a settlement that made available $129 million in economic benefits to a nationwide class of 114,000 senior citizens.

- ***In re Midland Nat'l Life Ins. Co. Annuity Sales Practices Litig.***, MDL No. 07-1825 (C.D. Cal.). After four years of litigation, the Firm secured a settlement that made available $79.5 million in economic benefits to a nationwide class of 70,000 senior citizens.

- ***Negrete v. Fidelity & Guar. Life Ins. Co.***, No. CV-05-6837 (C.D. Cal.). The Firm's efforts resulted in a settlement under which Fidelity made available $52.7 in benefits to 56,000 class members across the country.

- ***In re Nat'l Western Life Ins. Deferred Annuities Litig.***, No. 05-CV-1018 (S.D. Cal.). The Firm litigated this action for more than eight years. On the eve of trial, the Firm negotiated a settlement providing over $21 million in value to a nationwide class of 12,000 senior citizens.

Antitrust

Robbins Geller's antitrust practice focuses on representing businesses and individuals who have been the victims of price-fixing, unlawful monopolization, market allocation, tying and other anti-competitive conduct. The Firm has taken a leading role in many of the largest federal and state price-fixing, monopolization, market allocation and tying cases throughout the United States.

- ***In re Payment Card Interchange Fee and Merchant Discount Antitrust Litigation***, MDL No. 1720 (E.D.N.Y.). Robbins Geller attorneys, serving as co-lead counsel on behalf of merchants, have reached a $6.26 billion cash settlement with defendants in this antitrust litigation. Defendants have contributed additional funds to the class settlement fund that remains from the earlier settlement in 2012, which was approved by the district court in 2013 but was then reversed on appeal in 2016. The case is pending preliminary approval before the Honorable Margo K. Brodie in the Eastern District of New York.

- ***Dahl v. Bain Capital Partners, LLC***, No. 07-cv-12388-EFH (D. Mass). Robbins Geller attorneys served as co-lead counsel on behalf of shareholders in this antitrust action against the nation's largest private equity firms that colluded to restrain competition and suppress prices paid to shareholders of public companies in connection with leveraged buyouts. Robbins Geller attorneys recovered more than $590 million for the class from the private equity firm defendants, including Goldman Sachs Group Inc. and Carlyle Group LP.

- ***Alaska Elec. Pension Fund v. Bank of America Corp.***, No. 14-cv-07126-JMF (S.D.N.Y.). Robbins Geller attorneys prosecuted antitrust claims against 14 major banks and broker ICAP plc who were alleged to have conspired to manipulate the ISDAfix rate, the key interest rate for a broad range of interest rate derivatives and other financial instruments in contravention of the competition laws. The class action was brought on behalf of investors and market participants who entered into interest rate derivative transactions between 2006 and 2013. Final approval has been granted to settlements collectively yielding $504.5 million from all defendants.

- ***In re Currency Conversion Fee Antitrust Litig.***, 01 MDL No. 1409 (S.D.N.Y.). To date, two of the more than a dozen corporate defendants have settled for more than $65 million.

- ***In re Aftermarket Automotive Lighting Products Antitrust Litig.***, 09 MDL No. 2007 (C.D. Cal.). Robbins Geller attorneys are co-lead counsel in this multi-district litigation in which plaintiffs allege that defendants conspired to fix prices and allocate markets for automotive lighting products. The last defendants settled just before the scheduled trial, resulting in total settlements of more than $50 million. Commenting on the quality of representation, the court commended the Firm for "expend[ing] substantial and skilled time and efforts in an efficient manner to bring this action to conclusion."

- ***In re Dig. Music Antitrust Litig.***, 06 MDL No. 1780 (S.D.N.Y.). Robbins Geller attorneys are co-lead counsel in an action against the major music labels (Sony-BMG, EMI, Universal and Warner Music Group) in a case involving music that can be downloaded digitally from the Internet. Plaintiffs allege that defendants restrained the development of digital downloads and agreed to fix the distribution price of digital downloads at supracompetitive prices. Plaintiffs also allege that as a result of defendants' restraint of the development of digital downloads, and the market and price for downloads, defendants were able to maintain the prices of their CDs at supracompetitive levels. The Second Circuit Court of Appeals upheld plaintiffs' complaint, reversing the trial court's dismissal. Discovery is ongoing.

- ***In re Dynamic Random Access Memory (DRAM) Antitrust Litig.***, 02 MDL No. 1486 (N.D. Cal.). Robbins Geller attorneys served on the executive committee in this multi-district class action in which a class of purchasers of dynamic random access memory (or DRAM) chips alleged that the leading manufacturers of semiconductor products fixed the price of DRAM chips from the fall of 2001 through at least the end of June 2002. The case settled for more than $300 million.

- ***Microsoft I-V Cases***, JCCP No. 4106 (Cal. Super. Ct., San Francisco Cty.). Robbins Geller attorneys served on the executive committee in these consolidated cases in which California indirect purchasers challenged Microsoft's illegal exercise of monopoly power in the operating system, word processing and spreadsheet markets. In a settlement approved by the court, class counsel obtained an unprecedented $1.1 billion worth of relief for the business and consumer class members who purchased the Microsoft products.

Consumer Fraud

In our consumer-based economy, working families who purchase products and services must receive truthful information so they can make meaningful choices about how to spend their hard-earned money. When financial institutions and other corporations deceive consumers or take advantage of unequal bargaining power, class action suits provide, in many instances, the only realistic means for an individual to right a corporate wrong.

Robbins Geller attorneys represent consumers around the country in a variety of important, complex class actions. Our attorneys have taken a leading role in many of the largest federal and state consumer fraud, environmental, human rights and public health cases throughout the United States. The Firm is also actively involved in many cases relating to banks and the financial services industry, pursuing claims on behalf of individuals victimized by abusive telemarketing practices, abusive mortgage lending practices, market timing violations in the sale of variable annuities, and deceptive consumer credit lending practices

in violation of the Truth-In-Lending Act. Below are a few representative samples of our robust, nationwide consumer practice.

- ***In re Nat'l Prescription Opiate Litig.***, MDL No. 2804 (N.D. Ohio). Robbins Geller serves on the Plaintiffs' Executive Committee to spearhead more than 900 federal lawsuits brought on behalf of governmental entities and other plaintiffs in the sprawling litigation concerning the nationwide prescription opioid epidemic. In reporting on the selection of the lawyers to lead the case, *The National Law Journal* reported that "[t]he team reads like a 'Who's Who' in mass torts."

- ***Apple Inc. Device Performance Litigation***. Robbins Geller serves on the Plaintiffs' Executive Committee to advance judicial interests of efficiency and protect the interests of the proposed class in the *Apple Inc*. litigation. The case alleges Apple Inc. misrepresented its iPhone devices and the nature of updates to its mobile operating system (iOS), which allegedly included code that significantly reduced the performance of older-model iPhones and forced users to incur expenses replacing these devices or their batteries.

- ***In re Intel Corp. CPU Mktg., Sales Practices & Prods. Liab. Litig.***, No. 3:18-md-02828-SI (D. Or.). Robbins Geller serves on the Plaintiffs' Steering Committee in *Intel*, a massive multidistrict litigation pending in the United States District Court for the District of Oregon. *Intel* concerns serious security vulnerabilities – known as "Spectre" and "Meltdown" – that infect nearly all of Intel's x86 processors manufactured and sold since 1995, the patching of which results in processing speed degradation of the impacted computer, server or mobile device.

- ***Hauck v. Advanced Micro Devices, Inc.***, No. 18-CV-00447-LHK (N.D. Cal.). An attorney from Robbins Geller serves as co-lead counsel in a case against Advanced Micro Devices, Inc. ("AMD"), which alleges that AMD's processors are incapable of operating as intended and at processing speeds represented by AMD without exposing users to the Spectre vulnerability, which allows hackers to covertly access sensitive information stored within the CPU's kernel.

- ***In re Volkswagen "Clean Diesel" Mktg., Sales Practices, & Prods. Liab. Litig.***, No. 15-md-2672 (N.D. Cal.). As part of the Plaintiffs' Steering Committee, Robbins Geller reached a series of settlements on behalf of purchasers, lessees and dealers that total well over $17 billion, the largest settlement in history, concerning illegal "defeat devices" that Volkswagen installed on many of its diesel-engine vehicles. The device tricked regulators into believing the cars were complying with emissions standards, while the cars were actually emitting between 10 and 40 times the allowable limit for harmful pollutants.

- ***Trump University***. After six and half years of tireless litigation and on the eve of trial, Robbins Geller, serving as co-lead counsel, secured a historic recovery on behalf of Trump University students around the country. The settlement provides $25 million to approximately 7,000 consumers, including senior citizens who accessed retirement accounts and maxed out credit cards to enroll in Trump University. The extraordinary result means individual class members are eligible for upwards of $35,000 in restitution. The settlement resolves claims that President Donald J. Trump and Trump University violated federal and state laws by misleadingly marketing "Live Events" seminars and mentorships as teaching Trump's "real-estate techniques" through his "hand-picked" "professors" at his so-called "university." Robbins Geller represented the class on a *pro bono* basis.

- ***Bank Overdraft Fees Litigation***. The banking industry charges consumers exorbitant amounts for "overdraft" of their checking accounts, even if the customer did not authorize a charge beyond the

available balance and even if the account would not have been overdrawn had the transactions been ordered chronologically as they occurred – that is, banks reorder transactions to maximize such fees. The Firm brought lawsuits against major banks to stop this practice and recover these false fees. These cases have recovered over $500 million thus far from a dozen banks and we continue to investigate other banks engaging in this practice.

- ***Schwartz v. Visa Int'l***, No. 822404-4 (Cal. Super. Ct., Alameda Cty.). After years of litigation and a six-month trial, Robbins Geller attorneys won one of the largest consumer-protection verdicts ever awarded in the United States. The Firm's attorneys represented California consumers in an action against Visa and MasterCard for intentionally imposing and concealing a fee from cardholders. The court ordered Visa and MasterCard to return $800 million in cardholder losses, which represented 100% of the amount illegally taken, plus 2% interest. In addition, the court ordered full disclosure of the hidden fee.

- ***West Telemarketing Case***. Robbins Geller attorneys secured a $39 million settlement for class members caught up in a telemarketing scheme where consumers were charged for an unwanted membership program after purchasing Tae-Bo exercise videos. Under the settlement, consumers were entitled to claim between one and one-half to three times the amount of all fees they unknowingly paid.

- ***Dannon Activia®***. Robbins Geller attorneys secured the largest ever settlement for a false advertising case involving a food product. The case alleged that Dannon's advertising for its Activia® and DanActive® branded products and their benefits from "probiotic" bacteria were overstated. As part of the nationwide settlement, Dannon agreed to modify its advertising and establish a fund of up to $45 million to compensate consumers for their purchases of Activia® and DanActive®.

- ***Mattel Lead Paint Toys***. In 2006-2007, toy manufacturing giant Mattel and its subsidiary Fisher-Price announced the recall of over 14 million toys made in China due to hazardous lead and dangerous magnets. Robbins Geller attorneys filed lawsuits on behalf of millions of parents and other consumers who purchased or received toys for children that were marketed as safe but were later recalled because they were dangerous. The Firm's attorneys reached a landmark settlement for millions of dollars in refunds and lead testing reimbursements, as well as important testing requirements to ensure that Mattel's toys are safe for consumers in the future.

- ***Tenet Healthcare Cases***. Robbins Geller attorneys were co-lead counsel in a class action alleging a fraudulent scheme of corporate misconduct, resulting in the overcharging of uninsured patients by the Tenet chain of hospitals. The Firm's attorneys represented uninsured patients of Tenet hospitals nationwide who were overcharged by Tenet's admittedly "aggressive pricing strategy," which resulted in price gouging of the uninsured. The case was settled with Tenet changing its practices and making refunds to patients.

- ***Pet Food Products Liability Litigation***. Robbins Geller served as co-lead counsel in this massive, 100+ case products liability MDL in the District of New Jersey concerning the death of and injury to thousands of the nation's cats and dogs due to tainted pet food. The case settled for $24 million.

- ***In re Sony Gaming Networks & Customer Data Sec. Breach Litig.***, No. 3:11-md-2258-AJB (MDD) (S.D. Cal.). The Firm served as a member of the Plaintiffs' Steering Committee, helping to obtain a precedential opinion denying in part Sony's motion to dismiss plaintiffs' claims involving the breach of Sony's gaming network, leading to a pending $15 million settlement.

Intellectual Property

Individual inventors, universities, and research organizations provide the fundamental research behind many existing and emerging technologies. Every year, the majority of U.S. patents are issued to this group of inventors. Through this fundamental research, these inventors provide a significant competitive advantage to this country. Unfortunately, while responsible for most of the inventions that issue into U.S. patents every year, individual inventors, universities and research organizations receive very little of the licensing revenues for U.S. patents. Large companies reap 99% of all patent licensing revenues.

Robbins Geller enforces the rights of these inventors by filing and litigating patent infringement cases against infringing entities. Our attorneys have decades of patent litigation experience in a variety of technical applications. This experience, combined with the Firm's extensive resources, gives individual inventors the ability to enforce their patent rights against even the largest infringing companies.

Our attorneys have experience handling cases involving a broad range of technologies, including:

- biochemistry
- telecommunications
- medical devices
- medical diagnostics
- networking systems
- computer hardware devices and software
- mechanical devices
- video gaming technologies
- audio and video recording devices

Human Rights, Labor Practices and Public Policy

Robbins Geller attorneys have a long tradition of representing the victims of unfair labor practices and violations of human rights. These include:

- ***Does I v. The Gap, Inc.***, No. 01 0031 (D. N. Mar. I.). In this groundbreaking case, Robbins Geller attorneys represented a class of 30,000 garment workers who alleged that they had worked under sweatshop conditions in garment factories in Saipan that produced clothing for top U.S. retailers such as The Gap, Target and J.C. Penney. In the first action of its kind, Robbins Geller attorneys pursued claims against the factories and the retailers alleging violations of RICO, the Alien Tort Claims Act, and the Law of Nations based on the alleged systemic labor and human rights abuses occurring in Saipan. This case was a companion to two other actions: ***Does I v. Advance Textile Corp.***, No. 99 0002 (D. N. Mar. I.), which alleged overtime violations by the garment factories under the Fair Labor Standards Act and local labor law, and ***UNITE v. The Gap, Inc.***, No. 300474 (Cal. Super. Ct., San Francisco Cty.), which alleged violations of California's Unfair Practices Law by the U.S. retailers. These actions resulted in a settlement of approximately $20 million that included a comprehensive monitoring program to address past violations by the factories and prevent future ones. The members of the litigation team were honored as Trial Lawyers of the Year by the Trial Lawyers for Public Justice in recognition of the team's efforts at bringing about the precedent-setting settlement of the actions.

- ***Liberty Mutual Overtime Cases***, No. JCCP 4234 (Cal. Super. Ct., Los Angeles Cty.). Robbins Geller attorneys served as co-lead counsel on behalf of 1,600 current and former insurance claims adjusters at Liberty Mutual Insurance Company and several of its subsidiaries. Plaintiffs brought the case to recover unpaid overtime compensation and associated penalties, alleging that Liberty

Mutual had misclassified its claims adjusters as exempt from overtime under California law. After 13 years of complex and exhaustive litigation, Robbins Geller secured a settlement in which Liberty Mutual agreed to pay $65 million into a fund to compensate the class of claims adjusters for unpaid overtime. The Liberty Mutual action is one of a few claims adjuster overtime actions brought in California or elsewhere to result in a successful outcome for plaintiffs since 2004.

- ***Veliz v. Cintas Corp.***, No. 5:03-cv-01180 (N.D. Cal.). Brought against one of the nation's largest commercial laundries for violations of the Fair Labor Standards Act for misclassifying truck drivers as salesmen to avoid payment of overtime.

- ***Kasky v. Nike, Inc.***, 27 Cal. 4th 939 (2002). The California Supreme Court upheld claims that an apparel manufacturer misled the public regarding its exploitative labor practices, thereby violating California statutes prohibiting unfair competition and false advertising. The Court rejected defense contentions that any misconduct was protected by the First Amendment, finding the heightened constitutional protection afforded to noncommercial speech inappropriate in such a circumstance.

Shareholder derivative litigation brought by Robbins Geller attorneys at times also involves stopping anti-union activities, including:

- ***Southern Pacific/Overnite***. A shareholder action stemming from several hundred million dollars in loss of value in the company due to systematic violations by Overnite of U.S. labor laws.

- ***Massey Energy***. A shareholder action against an anti-union employer for flagrant violations of environmental laws resulting in multi-million-dollar penalties.

- ***Crown Petroleum***. A shareholder action against a Texas-based oil company for self-dealing and breach of fiduciary duty while also involved in a union lockout.

Environment and Public Health

Robbins Geller attorneys have also represented plaintiffs in class actions related to environmental law. The Firm's attorneys represented, on a *pro bono* basis, the Sierra Club and the National Economic Development and Law Center as *amici curiae* in a federal suit designed to uphold the federal and state use of project labor agreements ("PLAs"). The suit represented a legal challenge to President Bush's Executive Order 13202, which prohibits the use of project labor agreements on construction projects receiving federal funds. Our *amici* brief in the matter outlined and stressed the significant environmental and socio-economic benefits associated with the use of PLAs on large-scale construction projects.

Attorneys with Robbins Geller have been involved in several other significant environmental cases, including:

- ***Public Citizen v. U.S. D.O.T.*** Robbins Geller attorneys represented a coalition of labor, environmental, industry and public health organizations including Public Citizen, The International Brotherhood of Teamsters, California AFL-CIO and California Trucking Industry in a challenge to a decision by the Bush administration to lift a Congressionally-imposed "moratorium" on cross-border trucking from Mexico on the basis that such trucks do not conform to emission controls under the Clean Air Act, and further, that the administration did not first complete a comprehensive environmental impact analysis as required by the National Environmental Policy Act. The suit was dismissed by the United States Supreme Court, the Court holding that because the D.O.T. lacked discretion to prevent crossborder trucking, an environmental assessment was not required.

- ***Sierra Club v. AK Steel***. Brought on behalf of the Sierra Club for massive emissions of air and water pollution by a steel mill, including homes of workers living in the adjacent communities, in violation of the Federal Clean Air Act, Resource Conservation Recovery Act and the Clean Water Act.

- ***MTBE Litigation***. Brought on behalf of various water districts for befouling public drinking water with MTBE, a gasoline additive linked to cancer.

- ***Exxon Valdez***. Brought on behalf of fisherman and Alaska residents for billions of dollars in damages resulting from the greatest oil spill in U.S. history.

- ***Avila Beach***. A citizens' suit against UNOCAL for leakage from the oil company pipeline so severe it literally destroyed the town of Avila Beach, California.

Federal laws such as the Clean Water Act, the Clean Air Act, and the Resource Conservation and Recovery Act and state laws such as California's Proposition 65 exist to protect the environment and the public from abuses by corporate and government organizations. Companies can be found liable for negligence, trespass or intentional environmental damage, be forced to pay for reparations and to come into compliance with existing laws. Prominent cases litigated by Robbins Geller attorneys include representing more than 4,000 individuals suing for personal injury and property damage related to the Stringfellow Dump Site in Southern California, participation in the Exxon Valdez oil spill litigation, and litigation involving the toxic spill arising from a Southern Pacific train derailment near Dunsmuir, California.

Robbins Geller attorneys have led the fight against Big Tobacco since 1991. As an example, Robbins Geller attorneys filed the case that helped get rid of Joe Camel, representing various public and private plaintiffs, including the State of Arkansas, the general public in California, the cities of San Francisco, Los Angeles and Birmingham, 14 counties in California, and the working men and women of this country in the Union Pension and Welfare Fund cases that have been filed in 40 states. In 1992, Robbins Geller attorneys filed the first case in the country that alleged a conspiracy by the Big Tobacco companies.

Pro Bono

Robbins Geller provides counsel to those unable to afford legal representation as part of a continuous and longstanding commitment to the communities in which it serves. Over the years the Firm has dedicated a considerable amount of time, energy, and a full range of its resources for many pro bono and charitable actions.

Robbins Geller has been honored for its pro bono efforts by the California State Bar (including a

nomination for the President's Pro Bono Law Firm of the Year award) and the San Diego Volunteer Lawyer's Program, among others.

Some of the Firm's and its attorneys' pro bono and charitable actions include:

- Representing Trump University students in two class actions against President Donald J. Trump. The historic settlement provides $25 million to approximately 7,000 consumers. This means individual class members are eligible for upwards of $35,000 in restitution – an extraordinary result.

- Representing children diagnosed with Autism Spectrum Disorder, as well as children with significant disabilities, in New York to remedy flawed educational policies and practices that cause substantial harm to these and other similar children year after year.

- Representing 19 San Diego County children diagnosed with Autism Spectrum Disorder in their appeal of the San Diego Regional Center's termination of funding for a crucial therapy. The victory resulted in a complete reinstatement of funding and set a precedent that allows other children to obtain the treatments they need.

- Serving as Northern California and Hawaii District Coordinator for the United States Court of Appeals for the Ninth Circuit's Pro Bono program since 1993.

- Representing the Sierra Club and the National Economic Development and Law Center as *amici curiae* before the U.S. Supreme Court.

- Obtaining political asylum, after an initial application had been denied, for an impoverished Somali family whose ethnic minority faced systematic persecution and genocidal violence in Somalia, as well as forced female mutilation.

- Working with the ACLU in a class action filed on behalf of welfare applicants subject to San Diego County's "Project 100%" program. Relief was had when the County admitted that food-stamp eligibility could not hinge upon the Project 100% "home visits," and again when the district court ruled that unconsented "collateral contacts" violated state regulations. The decision was noted by the *Harvard Law Review*, *The New York Times* and *The Colbert Report*.

- Filing numerous *amicus curiae* briefs on behalf of religious organizations and clergy that support civil rights, oppose government-backed religious-viewpoint discrimination, and uphold the American traditions of religious freedom and church-state separation.

- Serving as *amicus* counsel in a Ninth Circuit appeal from a Board of Immigration Appeals deportation decision. In addition to obtaining a reversal of the BIA's deportation order, the Firm consulted with the Federal Defenders' Office on cases presenting similar fact patterns, which resulted in a precedent-setting *en banc* decision from the Ninth Circuit resolving a question of state and federal law that had been contested and conflicted for decades.

E-Discovery

Robbins Geller has successfully litigated some of the largest and most complex shareholder and antitrust actions in history and has become the vanguard of a rapidly evolving world of e-discovery in complex litigation. The Firm has 200 attorneys supported by a large staff of forensic and e-discovery specialists and has a level of technological sophistication that is unmatched by any other firm. As the size and stakes of complex litigation continue to increase, it is more important than ever to retain counsel with a successful track record of results. Robbins Geller has consistently proven to be the right choice for anyone seeking representation in actions against the largest corporations in the world.

Led by 20-year litigation veteran Tor Gronborg, and advised by Lea Bays, e-discovery counsel, and Christine Milliron, Director of E-Discovery and Litigation Support, the Robbins Geller e-discovery practice group is a multi-disciplinary team of attorneys, forensic analysts and database professionals. No plaintiffs' firm is better equipped to develop the type of comprehensive and case specific e-discovery strategy that is necessary for today's complex litigation. The attorneys have extensive knowledge and experience in drafting and negotiating sophisticated e-discovery protocols, including those involving the use of predictive coding. High quality document review services are performed by a consistent group of staff attorneys who are experienced in the Firm's litigation practice areas and specialize in document review and analysis. A team of forensic and technology professionals work closely with the attorneys to ensure an effective and efficient e-discovery strategy. The litigation support team includes six Relativity Certified Administrators. Collectively, the Robbins Geller forensic and technology professionals have more than 75 years of e-discovery experience.

Members of the practice group are also leaders in shaping the broader dialogue on e-discovery issues. They regularly contribute to industry publications, speak at conferences organized by leading e-discovery think tanks such as The Sedona Conference and Georgetown University Law Center's Advanced eDiscovery Institute, and play prominent roles in the local chapters of Women in eDiscovery and the Relativity Users Steering Committee. The e-discovery practice group also offers regular in-house training and education, ensuring that members of the Firm are always up-to-date on the evolving world of e-discovery law and technology.

Robbins Geller has always been a leader in document-intensive litigation. Boasting high-performing infrastructure resources, state-of-the-art technology, and a deep bench of some of the most highly trained Relativity Certified Administrators and network engineers, the Firm's capabilities rival, if not outshine, those of the top e-discovery vendors in the industry. Additionally, the Firm's implementation of advanced analytic technologies and custom workflows makes its work fast, smart and efficient. Combined with Robbins Geller's decision to manage and host its litigation support in-house, these technologies reduce the Firm's reliance on third-party vendors, enabling it to offer top-notch e-discovery services to clients at a fair and reasonable cost.

Security is a top priority at Robbins Geller. The Firm's hosted e-discovery is secured using bank-level 128 encryption and is protected behind state-of-the-art Cisco firewalls. All e-discovery data is hosted on Firm-owned equipment at an SSAE 16-compliant, SOC 1, 2, and 3 audited facility that features 9.1 megawatts of power, N+1 or better redundancy on all data center systems, and security protocols required by leading businesses in the most stringent verticals. Originally designed to support a large defense contractor, it is built to rigorous standards, complete with redundant power and cooling systems plus multiple generators.

PROMINENT CASES, PRECEDENT-SETTING DECISIONS AND JUDICIAL COMMENDATIONS

Prominent Cases

Over the years, Robbins Geller attorneys have obtained outstanding results in some of the most notorious and well-known cases, frequently earning judicial commendations for the quality of their representation.

- ***In re Enron Corp. Sec. Litig.***, No. H-01-3624 (S.D. Tex.). Investors lost billions of dollars as a result of the massive fraud at Enron. In appointing Robbins Geller lawyers as sole lead counsel to represent the interests of Enron investors, the court found that the Firm's zealous prosecution and level of "insight" set it apart from its peers. Robbins Geller attorneys and lead plaintiff The Regents of the University of California aggressively pursued numerous defendants, including many of Wall Street's biggest banks, and successfully obtained settlements in excess of ***$7.2 billion*** for the benefit of investors. ***This is the largest securities class action recovery in history***.

  The court overseeing this action had utmost praise for Robbins Geller's efforts and stated that "[t]he experience, ability, and reputation of the attorneys of [Robbins Geller] is not disputed; it is one of the most successful law firms in securities class actions, if not the preeminent one, in the country." *In re Enron Corp. Sec., Derivative & "ERISA" Litig.*, 586 F. Supp. 2d 732, 797 (S.D. Tex. 2008).

  The court further commented: "[I]n the face of extraordinary obstacles, the skills, expertise, commitment, and tenacity of [Robbins Geller] in this litigation cannot be overstated. Not to be overlooked are the unparalleled results, . . . which demonstrate counsel's clearly superlative litigating and negotiating skills." *Id.* at 789.

  The court stated that the Firm's attorneys "are to be commended for their zealousness, their diligence, their perseverance, their creativity, the enormous breadth and depth of their investigations and analysis, and their expertise in all areas of securities law on behalf of the proposed class." *Id.*

  In addition, the court noted, "This Court considers [Robbins Geller] 'a lion' at the securities bar on the national level," noting that the Lead Plaintiff selected Robbins Geller because of the Firm's "outstanding reputation, experience, and success in securities litigation nationwide." *Id.* at 790.

  The court further stated that "Lead Counsel's fearsome reputation and successful track record undoubtedly were substantial factors in . . . obtaining these recoveries." *Id.*

  Finally, Judge Harmon stated: "As this Court has explained [this is] an extraordinary group of attorneys who achieved the largest settlement fund ever despite the great odds against them." *Id.* at 828.

- ***Jaffe v. Household Int'l, Inc.***, No. 02-C-05893 (N.D. Ill). As sole lead counsel, Robbins Geller obtained a record-breaking settlement of ***$1.575 billion*** after 14 years of litigation, including a six-week jury trial in 2009 that resulted in a securities fraud verdict in favor of the class. In 2015, the Seventh Circuit Court of Appeals upheld the jury's verdict that defendants made false or misleading statements of material fact about the company's business practices and financial results, but remanded the case for a new trial on the issue of whether the individual defendants "made" certain false statements, whether those false statements caused plaintiffs' losses, and the amount of

damages. The parties reached an agreement to settle the case just hours before the retrial was scheduled to begin on June 6, 2016. ***The $1.575 billion settlement, approved in October 2016, is the largest ever following a securities fraud class action trial, the largest securities fraud settlement in the Seventh Circuit and the seventh-largest settlement ever in a post-PSLRA securities fraud case.*** According to published reports, the case was just the seventh securities fraud case tried to a verdict since the passage of the PSLRA.

In approving the settlement, the Honorable Jorge L. Alonso noted the team's "skill and determination" while recognizing that "Lead Counsel prosecuted the case vigorously and skillfully over 14 years against nine of the country's most prominent law firms" and "achieved an exceptionally significant recovery for the class." The court added that the team faced "significant hurdles" and "uphill battles" throughout the case and recognized that "[c]lass counsel performed a very high-quality legal work in the context of a thorny case in which the state of the law has been and is in flux." The court succinctly concluded that the settlement was "a spectacular result for the class." *Jaffe v. Household Int'l, Inc.*, No. 02-C-5892, 2016 U.S. Dist. LEXIS 156921, at *8 (N.D. Ill. Nov. 10, 2016); *Jaffe v. Household Int'l, Inc.*, No. 02-C-05893, Transcript at 56, 65 (N.D. Ill. Oct. 20, 2016).

- ***In re UnitedHealth Grp. Inc. PSLRA Litig.***, No. 06-CV-1691 (D. Minn.). In the *UnitedHealth* case, Robbins Geller represented the California Public Employees' Retirement System ("CalPERS") and demonstrated its willingness to vigorously advocate for its institutional clients, even under the most difficult circumstances. For example, in 2006, the issue of high-level executives backdating stock options made national headlines. During that time, many law firms, including Robbins Geller, brought shareholder derivative lawsuits against the companies' boards of directors for breaches of their fiduciary duties or for improperly granting backdated options. Rather than pursuing a shareholder derivative case, the Firm filed a securities fraud class action against the company on behalf of CalPERS. In doing so, Robbins Geller faced significant and unprecedented legal obstacles with respect to loss causation, *i.e.*, that defendants' actions were responsible for causing the stock losses. Despite these legal hurdles, Robbins Geller obtained an $895 million recovery on behalf of the UnitedHealth shareholders. Shortly after reaching the $895 million settlement with UnitedHealth, the remaining corporate defendants, including former CEO William A. McGuire, also settled. McGuire paid $30 million and returned stock options representing more than three million shares to the shareholders. The total recovery for the class was over $925 million, the largest stock option backdating recovery ever, and ***a recovery that is more than four times larger than the next largest options backdating recovery***. Moreover, Robbins Geller obtained unprecedented corporate governance reforms, including election of a shareholder-nominated member to the company's board of directors, a mandatory holding period for shares acquired by executives via option exercise, and executive compensation reforms that tie pay to performance.

- ***Alaska Elec. Pension Fund v. CitiGroup, Inc. (In re WorldCom Sec. Litig.)***, No. 03 Civ. 8269 (S.D.N.Y.). Robbins Geller attorneys represented more than 50 private and public institutions that opted out of the class action case and sued WorldCom's bankers, officers and directors, and auditors in courts around the country for losses related to WorldCom bond offerings from 1998 to 2001. The Firm's clients included major public institutions from across the country such as CalPERS, CalSTRS, the state pension funds of Maine, Illinois, New Mexico and West Virginia, union pension funds, and private entities such as AIG and Northwestern Mutual. Robbins Geller attorneys recovered more than $650 million for their clients, substantially more than they would have recovered as part of the class.

- ***Luther v. Countrywide Fin. Corp.***, No. 12-cv-05125 (C.D. Cal.). Robbins Geller attorneys secured a

$500 million settlement for institutional and individual investors in what is the largest RMBS purchaser class action settlement in history, and one of the largest class action securities settlements of all time. The unprecedented settlement resolves claims against Countrywide and Wall Street banks that issued the securities. The action was the first securities class action case filed against originators and Wall Street banks as a result of the credit crisis. As co-lead counsel Robbins Geller forged through six years of hard-fought litigation, oftentimes litigating issues of first impression, in order to secure the landmark settlement for its clients and the class.

In approving the settlement, Judge Mariana R. Pfaelzer repeatedly complimented plaintiffs' attorneys, noting that it was "beyond serious dispute that Class Counsel has vigorously prosecuted the Settlement Actions on both the state and federal level over the last six years." Judge Pfaelzer also commented that "[w]ithout a settlement, these cases would continue indefinitely, resulting in significant risks to recovery and continued litigation costs. It is difficult to understate the risks to recovery if litigation had continued." *Me. State Ret. Sys. v. Countrywide Fin. Corp.*, No. 2:10-CV-00302, 2013 U.S. Dist. LEXIS 179190, at *44, *56 (C.D. Cal. Dec. 5, 2013).

Judge Pfaelzer further noted that the proposed $500 million settlement represents one of the "largest MBS class action settlements to date. Indeed, this settlement easily surpasses the next largest . . . MBS settlement." *Id.* at *59.

- ***In re Wachovia Preferred Sec. & Bond/Notes Litig.***, No. 09-cv-06351 (S.D.N.Y.). In litigation over bonds and preferred securities, issued by Wachovia between 2006 and 2008, Robbins Geller and co-counsel obtained a significant settlement with Wachovia successor Wells Fargo & Company ($590 million) and Wachovia auditor KPMG LLP ($37 million). ***The total settlement – $627 million – is one of the largest credit-crisis settlements involving Securities Act claims and one of the 20 largest securities class action recoveries in history***. The settlement is also one of the biggest securities class action recoveries arising from the credit crisis.

  As alleged in the complaint, the offering materials for the bonds and preferred securities misstated and failed to disclose the true nature and quality of Wachovia's mortgage loan portfolio, which exposed the bank and misled investors to tens of billions of dollars in losses on mortgage-related assets. In reality, Wachovia employed high-risk underwriting standards and made loans to subprime borrowers, contrary to the offering materials and their statements of "pristine credit quality." Robbins Geller served as co-lead counsel representing the City of Livonia Employees' Retirement System, Hawaii Sheet Metal Workers Pension Fund, and the investor class.

- ***In re Cardinal Health, Inc. Sec. Litig.***, No. C2-04-575 (S.D. Ohio). As sole lead counsel representing Cardinal Health shareholders, Robbins Geller obtained a recovery of $600 million for investors. On behalf of the lead plaintiffs, Amalgamated Bank, the New Mexico State Investment Council, and the California Ironworkers Field Trust Fund, the Firm aggressively pursued class claims and won notable courtroom victories, including a favorable decision on defendants' motion to dismiss. *In re Cardinal Health, Inc. Sec. Litigs.*, 426 F. Supp. 2d 688 (S.D. Ohio 2006). At the time, the $600 million settlement was the tenth-largest settlement in the history of securities fraud litigation and is the largest-ever recovery in a securities fraud action in the Sixth Circuit. Judge Marbley commented:

  > The quality of representation in this case was superb. Lead Counsel, [Robbins Geller], are nationally recognized leaders in complex securities litigation class actions. The quality of the representation is demonstrated by the substantial benefit achieved for the Class and the efficient, effective prosecution and resolution of this action. Lead Counsel defeated a volley of motions to dismiss, thwarting well-formed challenges from prominent and capable attorneys from six different law

firms.

In re Cardinal Health Inc. Sec. Litigs., 528 F. Supp. 2d 752, 768 (S.D. Ohio 2007).

- ***AOL Time Warner Cases I & II***, JCCP Nos. 4322 & 4325 (Cal. Super. Ct., Los Angeles Cty.). Robbins Geller represented The Regents of the University of California, six Ohio state pension funds, Rabo Bank (NL), the Scottish Widows Investment Partnership, several Australian public and private funds, insurance companies, and numerous additional institutional investors, both domestic and international, in state and federal court opt-out litigation stemming from Time Warner's disastrous 2001 merger with Internet high flier America Online. Robbins Geller attorneys exposed a massive and sophisticated accounting fraud involving America Online's e-commerce and advertising revenue. After almost four years of litigation involving extensive discovery, the Firm secured combined settlements for its opt-out clients totaling over $629 million just weeks before The Regents' case pending in California state court was scheduled to go to trial. The Regents' gross recovery of $246 million is the largest individual opt-out securities recovery in history.

- ***Abu Dhabi Commercial Bank v. Morgan Stanley & Co.***, No. 1:08-cv-07508-SAS-DCF (S.D.N.Y.), and ***King County, Washington v. IKB Deutsche Industriebank AG***, No. 1:09-cv-08387-SAS (S.D.N.Y.). The Firm represented multiple institutional investors in successfully pursuing recoveries from two failed structured investment vehicles, each of which had been rated "AAA" by Standard & Poors and Moody's, but which failed fantastically in 2007. The matter settled just prior to trial in 2013. This result was only made possible after Robbins Geller lawyers beat back the rating agencies' longtime argument that ratings were opinions protected by the First Amendment.

- ***In re HealthSouth Corp. Sec. Litig.***, No. CV-03-BE-1500-S (N.D. Ala.). As court-appointed co-lead counsel, Robbins Geller attorneys obtained a combined recovery of $671 million from HealthSouth, its auditor Ernst & Young, and its investment banker, UBS, for the benefit of stockholder plaintiffs. The settlement against HealthSouth represents one of the larger settlements in securities class action history and is considered among the top 15 settlements achieved after passage of the PSLRA. Likewise, the settlement against Ernst & Young is one of the largest securities class action settlements entered into by an accounting firm since the passage of the PSLRA. HealthSouth and its financial advisors perpetrated one of the largest and most pervasive frauds in the history of U.S. healthcare, prompting Congressional and law enforcement inquiry and resulting in guilty pleas of 16 former HealthSouth executives in related federal criminal prosecutions. In March 2009, Judge Karon Bowdre commented in the *HealthSouth* class certification opinion: "The court has had many opportunities since November 2001 to examine the work of class counsel and the supervision by the Class Representatives. The court finds both to be far more than adequate." *In re HealthSouth Corp. Sec. Litig.*, 257 F.R.D. 260, 275 (N.D. Ala. 2009).

- ***In re Dynegy Inc. Sec. Litig.***, No. H-02-1571 (S.D. Tex.). As sole lead counsel representing The Regents of the University of California and the class of Dynegy investors, Robbins Geller attorneys obtained a combined settlement of $474 million from Dynegy, Citigroup, Inc. and Arthur Andersen LLP for their involvement in a clandestine financing scheme known as Project Alpha. Given Dynegy's limited ability to pay, Robbins Geller attorneys structured a settlement (reached shortly before the commencement of trial) that maximized plaintiffs' recovery without bankrupting the company. Most notably, the settlement agreement provides that Dynegy will appoint two board members to be nominated by The Regents, which Robbins Geller and The Regents believe will benefit all of Dynegy's stockholders.

- ***Jones v. Pfizer Inc.***, No. 1:10-cv-03864 (S.D.N.Y.). Lead plaintiff Stichting Philips Pensioenfonds obtained a $400 million settlement on behalf of class members who purchased Pfizer Inc. common stock during the January 19, 2006 to January 23, 2009 class period. The settlement against Pfizer resolves accusations that it misled investors about an alleged off-label drug marketing scheme. As sole lead counsel, Robbins Geller attorneys helped achieve this exceptional result after five years of hard-fought litigation against the toughest and the brightest members of the securities defense bar by litigating this case all the way to trial.

  In approving the settlement, United States District Judge Alvin K. Hellerstein commended the Firm, noting that "[w]ithout the quality and the toughness that you have exhibited, our society would not be as good as it is with all its problems. So from me to you is a vote of thanks for devoting yourself to this work and doing it well. . . . You did a really good job. Congratulations."

- ***In re Qwest Commc'ns Int'l, Inc. Sec. Litig.***, No. 01-cv-1451 (D. Colo.). Robbins Geller attorneys served as lead counsel for a class of investors that purchased Qwest securities. In July 2001, the Firm filed the initial complaint in this action on behalf of its clients, long before any investigation into Qwest's financial statements was initiated by the SEC or Department of Justice. After five years of litigation, lead plaintiffs entered into a settlement with Qwest and certain individual defendants that provided a $400 million recovery for the class and created a mechanism that allowed the vast majority of class members to share in an additional $250 million recovered by the SEC. In 2008, Robbins Geller attorneys recovered an additional $45 million for the class in a settlement with defendants Joseph P. Nacchio and Robert S. Woodruff, the CEO and CFO, respectively, of Qwest during large portions of the class period.

- ***Fort Worth Emps.' Ret. Fund v. J.P. Morgan Chase & Co.***, No. 1:09-cv-03701 (S.D.N.Y.). Robbins Geller attorneys served as lead counsel for a class of investors and obtained court approval of a $388 million recovery in nine 2007 residential mortgage-backed securities offerings issued by J.P. Morgan. The settlement represents, on a percentage basis, the largest recovery ever achieved in an MBS purchaser class action. The result was achieved after more than five years of hard-fought litigation and an extensive investigation. In granting approval of the settlement, the court stated the following about Robbins Geller attorneys litigating the case: "[T]here is no question in my mind that this is a very good result for the class and that the plaintiffs' counsel fought the case very hard with extensive discovery, a lot of depositions, several rounds of briefing of various legal issues going all the way through class certification."

- ***NECA-IBEW Health & Welfare Fund v. Goldman Sachs & Co.***, No. 1:08-cv-10783 (S.D.N.Y.). As sole lead counsel, Robbins Geller obtained a $272 million settlement on behalf of Goldman Sachs' shareholders. The settlement concludes one of the last remaining mortgage-backed securities purchaser class actions arising out of the global financial crisis. The remarkable result was achieved following seven years of extensive litigation. After the claims were dismissed in 2010, Robbins Geller secured a landmark victory from the Second Circuit Court of Appeals that clarified the scope of permissible class actions asserting claims under the Securities Act of 1933 on behalf of MBS investors. Specifically, the Second Circuit's decision rejected the concept of "tranche" standing and concluded that a lead plaintiff in an MBS class action has class standing to pursue claims on behalf of purchasers of other securities that were issued from the same registration statement and backed by pools of mortgages originated by the same lenders who had originated mortgages backing the lead plaintiff's securities.

  In approving the settlement, the Honorable Loretta A. Preska of the Southern District of New York complimented Robbins Geller attorneys, noting:

> Counsel, thank you for your papers. They were, by the way, extraordinary papers in support of the settlement, and I will particularly note Professor Miller's declaration in which he details the procedural aspects of the case and then speaks of plaintiffs' counsel's success in the Second Circuit essentially changing the law.
>
> I will also note what counsel have said, and that is that this case illustrates the proper functioning of the statute.
>
> * * *
>
> Counsel, you can all be proud of what you've done for your clients. You've done an extraordinarily good job.

- ***Schuh v. HCA Holdings, Inc.***, No. 3:11-cv-01033 (M.D. Tenn.). As sole lead counsel, Robbins Geller obtained a groundbreaking $215 million settlement for former HCA Holdings, Inc. shareholders – the largest securities class action recovery ever in Tennessee. Reached shortly before trial was scheduled to commence, the settlement resolves claims that the Registration Statement and Prospectus HCA filed in connection with the company's massive $4.3 billion 2011 IPO contained material misstatements and omissions. The recovery achieved approximately 70% of classwide damages, which as a percentage of damages significantly exceeds the median class action recovery of 2%-3% of damages. At the hearing on final approval of the settlement, the Honorable Kevin H. Sharp described Robbins Geller attorneys as "gladiators" and commented: "Looking at the benefit obtained, the effort that you had to put into it, [and] the complexity in this case . . . I appreciate the work that you all have done on this." *Schuh v. HCA Holdings, Inc.*, No. 3:11-CV-01033, Transcript at 12-13 (M.D. Tenn. Apr. 11, 2016).

- ***Silverman v. Motorola, Inc.***, No. 1:07-cv-04507 (N.D. Ill.). The Firm served as lead counsel on behalf of a class of investors in Motorola, Inc., ultimately recovering $200 million for investors just two months before the case was set for trial. This outstanding result was obtained despite the lack of an SEC investigation or any financial restatement. In May 2012, the Honorable Amy J. St. Eve of the Northern District of Illinois commented: "The representation that [Robbins Geller] provided to the class was significant, both in terms of quality and quantity." *Silverman v. Motorola, Inc.*, No. 07 C 4507, 2012 U.S. Dist. LEXIS 63477, at *11 (N.D. Ill. May 7, 2012), *aff'd*, 739 F.3d 956 (7th Cir. 2013).

  In affirming the district court's award of attorneys' fees, the Seventh Circuit noted that "no other law firm was willing to serve as lead counsel. Lack of competition not only implies a higher fee but also suggests that most members of the securities bar saw this litigation as too risky for their practices." *Silverman v. Motorola Sols., Inc.*, 739 F.3d 956, 958 (7th Cir. 2013).

- ***In re AT&T Corp. Sec. Litig.***, MDL No. 1399 (D.N.J.). Robbins Geller attorneys served as lead counsel for a class of investors that purchased AT&T common stock. The case charged defendants AT&T and its former Chairman and CEO, C. Michael Armstrong, with violations of the federal securities laws in connection with AT&T's April 2000 initial public offering of its wireless tracking stock, one of the largest IPOs in American history. After two weeks of trial, and on the eve of scheduled testimony by Armstrong and infamous telecom analyst Jack Grubman, defendants agreed to settle the case for $100 million. In granting approval of the settlement, the court stated the following about the Robbins Geller attorneys handling the case:

> Lead Counsel are highly skilled attorneys with great experience in prosecuting complex securities action[s], and their professionalism and diligence displayed during [this] litigation substantiates this characterization. The Court notes that Lead Counsel displayed excellent lawyering skills through their consistent preparedness during court proceedings, arguments and the trial, and their well-written and thoroughly researched submissions to the Court. Undoubtedly, the attentive and persistent effort of Lead Counsel was integral in achieving the excellent result for the Class.

- ***In re Dollar Gen. Corp. Sec. Litig.***, No. 01-CV-00388 (M.D. Tenn.). Robbins Geller attorneys served as lead counsel in this case in which the Firm recovered $172.5 million for investors. The *Dollar General* settlement was the largest shareholder class action recovery ever in Tennessee.

- ***Carpenters Health & Welfare Fund v. Coca-Cola Co.***, No. 00-CV-2838 (N.D. Ga.). As co-lead counsel representing Coca-Cola shareholders, Robbins Geller attorneys obtained a recovery of $137.5 million after nearly eight years of litigation. Robbins Geller attorneys traveled to three continents to uncover the evidence that ultimately resulted in the settlement of this hard-fought litigation. The case concerned Coca-Cola's shipping of excess concentrate at the end of financial reporting periods for the sole purpose of meeting analyst earnings expectations, as well as the company's failure to properly account for certain impaired foreign bottling assets.

- ***Schwartz v. TXU Corp.***, No. 02-CV-2243 (N.D. Tex.). As co-lead counsel, Robbins Geller attorneys obtained a recovery of over $149 million for a class of purchasers of TXU securities. The recovery compensated class members for damages they incurred as a result of their purchases of TXU securities at inflated prices. Defendants had inflated the price of these securities by concealing the fact that TXU's operating earnings were declining due to a deteriorating gas pipeline and the failure of the company's European operations.

- ***In re Doral Fin. Corp. Sec. Litig.***, 05 MDL No. 1706 (S.D.N.Y.). In July 2007, the Honorable Richard Owen of the Southern District of New York approved the $129 million settlement, finding in his order:

> The services provided by Lead Counsel [Robbins Geller] were efficient and highly successful, resulting in an outstanding recovery for the Class without the substantial expense, risk and delay of continued litigation. Such efficiency and effectiveness supports the requested fee percentage.
>
> Cases brought under the federal securities laws are notably difficult and notoriously uncertain. . . . Despite the novelty and difficulty of the issues raised, Lead Plaintiffs' counsel secured an excellent result for the Class.
>
> . . . In re Doral Fin. Corp. Sec. Litig., No. 1:05-md-01706, Order at 4-5 (S.D.N.Y. July 17, 2007).

- ***In re Exxon Valdez***, No. A89 095 Civ. (D. Alaska), and ***In re Exxon Valdez Oil Spill Litig.***, No. 3 AN 89 2533 (Alaska Super. Ct., 3d Jud. Dist.). Robbins Geller attorneys served on the Plaintiffs' Coordinating Committee and Plaintiffs' Law Committee in this massive litigation resulting from the Exxon Valdez oil spill in Alaska in March 1989. The jury awarded hundreds of millions in compensatory damages, as well as $5 billion in punitive damages (the latter were later reduced by the U.S. Supreme Court to $507 million).

- ***Mangini v. R.J. Reynolds Tobacco Co.***, No. 939359 (Cal. Super. Ct., San Francisco Cty.). In this case, R.J. Reynolds admitted that "the *Mangini* action, and the way that it was vigorously litigated, was an early, significant and unique driver of the overall legal and social controversy regarding underage smoking that led to the decision to phase out the Joe Camel Campaign."

- ***Does I v. The Gap, Inc.***, No. 01 0031 (D. N. Mar. I.). In this groundbreaking case, Robbins Geller attorneys represented a class of 30,000 garment workers who alleged that they had worked under sweatshop conditions in garment factories in Saipan that produced clothing for top U.S. retailers such as The Gap, Target and J.C. Penney. In the first action of its kind, Robbins Geller attorneys pursued claims against the factories and the retailers alleging violations of RICO, the Alien Tort Claims Act, and the Law of Nations based on the alleged systemic labor and human rights abuses occurring in Saipan. This case was a companion to two other actions: ***Does I v. Advance Textile Corp.***, No. 99 0002 (D. N. Mar. I.), which alleged overtime violations by the garment factories under the Fair Labor Standards Act and local labor law, and ***UNITE v. The Gap, Inc.***, No. 300474 (Cal. Super. Ct., San Francisco Cty.), which alleged violations of California's Unfair Practices Law by the U.S. retailers. These actions resulted in a settlement of approximately $20 million that included a comprehensive monitoring program to address past violations by the factories and prevent future ones. The members of the litigation team were honored as Trial Lawyers of the Year by the Trial Lawyers for Public Justice in recognition of the team's efforts in bringing about the precedent-setting settlement of the actions.

- ***Hall v. NCAA (Restricted Earnings Coach Antitrust Litigation)***, No. 94-2392 (D. Kan.). Robbins

Geller attorneys were lead counsel and lead trial counsel for one of three classes of coaches in these consolidated price-fixing actions against the National Collegiate Athletic Association. On May 4, 1998, the jury returned verdicts in favor of the three classes for more than $70 million.

- ***In re Prison Realty Sec. Litig.***, No. 3:99-0452 (M.D. Tenn.). Robbins Geller attorneys served as lead counsel for the class, obtaining a $105 million recovery.

- ***In re Honeywell Int'l, Inc. Sec. Litig.***, No. 00-cv-03605 (D.N.J.). Robbins Geller attorneys served as lead counsel for a class of investors that purchased Honeywell common stock. The case charged Honeywell and its top officers with violations of the federal securities laws, alleging the defendants made false public statements concerning Honeywell's merger with Allied Signal, Inc. and that defendants falsified Honeywell's financial statements. After extensive discovery, Robbins Geller attorneys obtained a $100 million settlement for the class.

- ***Schwartz v. Visa Int'l***, No. 822404-4 (Cal. Super. Ct., Alameda Cty.). After years of litigation and a six-month trial, Robbins Geller attorneys won one of the largest consumer protection verdicts ever awarded in the United States. Robbins Geller attorneys represented California consumers in an action against Visa and MasterCard for intentionally imposing and concealing a fee from their cardholders. The court ordered Visa and MasterCard to return $800 million in cardholder losses, which represented 100% of the amount illegally taken, plus 2% interest. In addition, the court ordered full disclosure of the hidden fee.

- ***Thompson v. Metro. Life Ins. Co.***, No. 00-cv-5071 (S.D.N.Y.). Robbins Geller attorneys served as lead counsel and obtained $145 million for the class in a settlement involving racial discrimination claims in the sale of life insurance.

- ***In re Prudential Ins. Co. of Am. Sales Practices Litig.***, MDL No. 1061 (D.N.J.). In one of the first cases of its kind, Robbins Geller attorneys obtained a settlement of $4 billion for deceptive sales practices in connection with the sale of life insurance involving the "vanishing premium" sales scheme.

Precedent-Setting Decisions

Robbins Geller attorneys operate at the vanguard of complex class action of litigation. Our work often changes the legal landscape, resulting in an environment that is more-favorable for obtaining recoveries for our clients.

- ***Alaska Electrical Pension Fund v. Asar***, No. 17-50162 (5th Cir.). In August 2018, Robbins Geller attorneys scored a significant win in the Fifth Circuit when the court ruled in favor of lead plaintiff, Alaska Electrical Pension Fund. Last January, the district court dismissed the case on the grounds that a strong inference of scienter had not been sufficiently pled. Working with Robbins Geller attorneys, the Pension Fund went above and beyond in an effort to protect the retirement savings of its thousands of hard-working participants and of the class that it represents by appealing the case to the Fifth Circuit after the district court's dismissal. Following appellate briefing and oral argument, the court reversed the dismissal, concluding that as to Hanger and its CFO, the case "support[s] a strong inference of scienter."

- ***Stoyas v. Toshiba Corporation***, No. 16-56058 (9th Cir.). In July 2018, the Ninth Circuit ruled in plaintiffs' favor in the *Toshiba Corporation* securities class action. Following appellate briefing and oral argument by Robbins Geller attorneys, a three-judge Ninth Circuit panel reversed the district court's prior dismissal in a unanimous, 36-page opinion, stating "that the Exchange Act could

apply to the Toshiba ADR transactions, as domestic transactions in securities [are] not registered on an exchange." Additionally, the court held that "Toshiba ADRs were 'securities' under the Exchange Act." In adopting the Second and Third Circuits' "irrevocable liability" test, the panel further concluded that "plaintiffs must be allowed to amend their complaint to allege that the purchase of Toshiba ADRs on the over-the-counter market was a domestic purchase, and that the alleged fraud was 'in connection with' the purchase."

- ***Cyan, Inc. v. Beaver County Employees Retirement Fund***, No. 15-1439 (U.S.). In March 2018, the Supreme Court ruled in favor of investors represented by Robbins Geller, holding that state courts continue to have jurisdiction over class actions asserting violations of the Securities Act of 1933. The Court's ruling secures investors' ability to bring 1933 Act actions when companies fail to make full and fair disclosure of relevant information in offering documents. The Court confirmed that the Securities Litigation Uniform Standards Act of 1998 was designed to preclude securities class actions asserting violations of state law – not to preclude securities actions asserting federal law violations brought in state courts.

- ***Mineworkers' Pension Scheme v. First Solar Inc.***, No. 15-17282 (9th Cir.). In January 2018, the Ninth Circuit upheld the district court's denial of defendants' motion for summary judgment, agreeing with plaintiffs that the test for loss causation in the Ninth Circuit is a general "proximate cause test," and rejecting the more stringent revelation of the fraudulent practices standard advocated by the defendants. The opinion is a significant victory for investors, as it forecloses defendants' ability to immunize themselves from liability simply by refusing to publicly acknowledge their fraudulent conduct.

- ***In re Quality Systems, Inc. Sec. Litig.***, No. 15-55173 (9th Cir.). In July 2017, Robbins Geller's Appellate Practice Group scored a significant win in the Ninth Circuit in the *Quality Systems* securities class action. On appeal, a three-judge Ninth Circuit panel unanimously reversed the district court's prior dismissal of the action against Quality Systems and remanded the case to the district court for further proceedings. The decision addressed an issue of first impression concerning "mixed" future and present-tense misstatements. The appellate panel explained that "non-forward-looking portions of mixed statements are not eligible for the safe harbor provisions of the PSLRA . . . . Defendants made a number of mixed statements that included projections of growth in revenue and earnings based on the state of QSI's sales pipeline." The panel then held *both* the non-forward-looking and forward-looking statements false and misleading and made with scienter, deeming them actionable. Later, although defendants sought rehearing by the Ninth Circuit sitting *en banc*, the circuit court denied their petition.

- ***Omnicare, Inc. v. Laborers District Council Construction Industry Pension Fund***, No. 13-435 (U.S.). In March 2015, the Supreme Court ruled in favor of investors represented by Robbins Geller that investors asserting a claim under §11 of the Securities Act of 1933 with respect to a misleading statement of opinion do not, as defendant Omnicare had contended, have to prove that the statement was subjectively disbelieved when made. Rather, the Court held that a statement of opinion may be actionable either because it was not believed, or because it lacked a reasonable basis in fact. This decision is significant in that it resolved a conflict among the federal circuit courts and expressly overruled the Second Circuit's widely followed, more stringent pleading standard for §11 claims involving statements of opinion. The Supreme Court remanded the case back to the district court for determination under the newly articulated standard. In August of 2016, upon remand, the district court applied the Supreme Court's new test and denied defendants' motion to dismiss in full.

- ***NECA-IBEW Health & Welfare Fund v. Goldman Sachs & Co.***, 693 F.3d 145 (2d Cir. 2012). In a securities fraud action involving mortgage-backed securities, the Second Circuit rejected the concept of "tranche" standing and found that a lead plaintiff has class standing to pursue claims on behalf of purchasers of securities that were backed by pools of mortgages originated by the same lenders who had originated mortgages backing the lead plaintiff's securities. The court noted that, given those common lenders, the lead plaintiff's claims as to its purchases implicated "the same set of concerns" that purchasers in several of the other offerings possessed. The court also rejected the notion that the lead plaintiff lacked standing to represent investors in different tranches.

- ***In re VeriFone Holdings, Inc. Sec. Litig.***, 704 F.3d 694 (9th Cir. 2012). The panel reversed in part and affirmed in part the dismissal of investors' securities fraud class action alleging violations of §§10(b), 20(a), and 20A of the Securities Exchange Act of 1934 and SEC Rule 10b-5 in connection with a restatement of financial results of the company in which the investors had purchased stock.

  The panel held that the third amended complaint adequately pleaded the §10(b), §20A and Rule 10b-5 claims. Considering the allegations of scienter holistically, as the U.S. Supreme Court directed in *Matrixx Initiatives, Inc. v. Siracusano*, 563 U.S 27, 48-49 (2011), the panel concluded that the inference that the defendant company and its chief executive officer and former chief financial officer were deliberately reckless as to the truth of their financial reports and related public statements following a merger was at least as compelling as any opposing inference.

- ***Fox v. JAMDAT Mobile, Inc.***, 185 Cal. App. 4th 1068 (2010). Concluding that Delaware's shareholder ratification doctrine did not bar the claims, the California Court of Appeal reversed dismissal of a shareholder class action alleging breach of fiduciary duty in a corporate merger.

- ***In re Constar Int'l Inc. Sec. Litig.***, 585 F.3d 774 (3d Cir. 2009). The Third Circuit flatly rejected defense contentions that where relief is sought under §11 of the Securities Act of 1933, which imposes liability when securities are issued pursuant to an incomplete or misleading registration statement, class certification should depend upon findings concerning market efficiency and loss causation.

- ***Matrixx Initiatives, Inc. v. Siracusano***, 563 U.S 27 (2011), *aff'g* 585 F.3d 1167 (9th Cir. 2009). In a securities fraud action involving the defendants' failure to disclose a possible link between the company's popular cold remedy and a life-altering side effect observed in some users, the U.S. Supreme Court unanimously affirmed the Ninth Circuit's (a) rejection of a bright-line "statistical significance" materiality standard, and (b) holding that plaintiffs had successfully pleaded a strong inference of the defendants' scienter.

- ***Alaska Elec. Pension Fund v. Flowserve Corp.***, 572 F.3d 221 (5th Cir. 2009). Aided by former U.S. Supreme Court Justice O'Connor's presence on the panel, the Fifth Circuit reversed a district court order denying class certification and also reversed an order granting summary judgment to defendants. The court held that the district court applied an incorrect fact-for-fact standard of loss causation, and that genuine issues of fact on loss causation precluded summary judgment.

- ***In re F5 Networks, Inc., Derivative Litig.***, 207 P.3d 433 (Wash. 2009). In a derivative action alleging unlawful stock option backdating, the Supreme Court of Washington ruled that shareholders need not make a pre-suit demand on the board of directors where this step would be futile, agreeing with plaintiffs that favorable Delaware case law should be followed as persuasive authority.

- ***Lormand v. US Unwired, Inc.***, 565 F.3d 228 (5th Cir. 2009). In a rare win for investors in the Fifth Circuit, the court reversed an order of dismissal, holding that safe harbor warnings were not meaningful when the facts alleged established a strong inference that defendants knew their forecasts were false. The court also held that plaintiffs sufficiently alleged loss causation.

- ***Institutional Inv'rs Grp. v. Avaya, Inc.***, 564 F.3d 242 (3d Cir. 2009). In a victory for investors in the Third Circuit, the court reversed an order of dismissal, holding that shareholders pled with particularity why the company's repeated denials of price discounts on products were false and misleading when the totality of facts alleged established a strong inference that defendants knew their denials were false.

- ***Alaska Elec. Pension Fund v. Pharmacia Corp.***, 554 F.3d 342 (3d Cir. 2009). The Third Circuit held that claims filed for violation of §10(b) of the Securities Exchange Act of 1934 were timely, adopting investors' argument that because scienter is a critical element of the claims, the time for filing them cannot begin to run until the defendants' fraudulent state of mind should be apparent.

- ***Rael v. Page***, 222 P.3d 678 (N.M. Ct. App. 2009). In this shareholder class and derivative action, Robbins Geller attorneys obtained an appellate decision reversing the trial court's dismissal of the complaint alleging serious director misconduct in connection with the merger of SunCal Companies and Westland Development Co., Inc., a New Mexico company with large and historic landholdings and other assets in the Albuquerque area. The appellate court held that plaintiff's claims for breach of fiduciary duty were direct, not derivative, because they constituted an attack on the validity or fairness of the merger and the conduct of the directors. Although New Mexico law had not addressed this question directly, at the urging of the Firm's attorneys, the court relied on Delaware law for guidance, rejecting the "special injury" test for determining the direct versus derivative inquiry and instead applying more recent Delaware case law.

- ***Lane v. Page***, No. 06-cv-1071 (D.N.M. 2012). In May 2012, while granting final approval of the settlement in the federal component of the Westland cases, Judge Browning in the District of New Mexico commented:

> Class Counsel are highly skilled and specialized attorneys who use their substantial experience and expertise to prosecute complex securities class actions. In possibly one of the best known and most prominent recent securities cases, Robbins Geller served as sole lead counsel – *In re Enron Corp. Sec. Litig.*, No. H-01-3624 (S.D. Tex.). *See* Report at 3. The Court has previously noted that the class would "receive high caliber legal representation" from class counsel, and throughout the course of the litigation the Court has been impressed with the quality of representation on each side. *Lane v. Page*, 250 F.R.D. at 647.

Lane v. Page, 862 F. Supp. 2d 1182, 1253-54 (D.N.M. 2012).

In addition, Judge Browning stated, "'Few plaintiffs' law firms could have devoted the kind of time, skill, and financial resources over a five-year period necessary to achieve the pre- and post-Merger benefits obtained for the class here.' . . . [Robbins Geller is] both skilled and experienced, and used those skills and experience for the benefit of the class [Robbins Geller is] both skilled and experienced, and used those skills and experience for the benefit of the class." *Id.* at 1254.

- ***Luther v. Countrywide Home Loans Servicing LP***, 533 F.3d 1031 (9th Cir. 2008). In a case of first impression, the Ninth Circuit held that the Securities Act of 1933's specific non-removal features had not been trumped by the general removal provisions of the Class Action Fairness Act of 2005.

- ***In re Gilead Scis. Sec. Litig.***, 536 F.3d 1049 (9th Cir. 2008). The Ninth Circuit upheld defrauded investors' loss causation theory as plausible, ruling that a limited temporal gap between the time defendants' misrepresentation was publicly revealed and the subsequent decline in stock value was reasonable where the public had not immediately understood the impact of defendants' fraud.

- ***In re WorldCom Sec. Litig.***, 496 F.3d 245 (2d Cir. 2007). The Second Circuit held that the filing of a class action complaint tolls the limitations period for all members of the class, including those who choose to opt out of the class action and file their own individual actions without waiting to see whether the district court certifies a class – reversing the decision below and effectively overruling multiple district court rulings that *American Pipe* tolling did not apply under these circumstances.

- ***In re Merck & Co. Sec., Derivative & ERISA Litig.***, 493 F.3d 393 (3d Cir. 2007). In a shareholder derivative suit appeal, the Third Circuit held that the general rule that discovery may not be used to supplement demand-futility allegations does not apply where the defendants enter a voluntary stipulation to produce materials relevant to demand futility without providing for any limitation as to their use. In April 2007, the Honorable D. Brooks Smith praised Robbins Geller partner Joe Daley's efforts in this litigation:

  > Thank you very much Mr. Daley and a thank you to all counsel. As Judge Cowen mentioned, this was an exquisitely well-briefed case; it was also an extremely well-argued case, and we thank counsel for their respective jobs here in the matter, which we will take under advisement. Thank you.

  In re Merck & Co., Inc. Sec., Derivative & ERISA Litig., No. 06-2911, Transcript at 35:37-36:00 (3d Cir. Apr. 12, 2007).

- ***Alaska Elec. Pension Fund v. Brown***, 941 A.2d 1011 (Del. 2007). The Supreme Court of Delaware held that the Alaska Electrical Pension Fund, for purposes of the "corporate benefit" attorney-fee doctrine, was presumed to have caused a substantial increase in the tender offer price paid in a "going private" buyout transaction. The Court of Chancery originally ruled that Alaska's counsel, Robbins Geller, was not entitled to an award of attorney fees, but Delaware's high court, in its published opinion, reversed and remanded for further proceedings.

- ***Crandon Capital Partners v. Shelk***, 157 P.3d 176 (Or. 2007). Oregon's Supreme Court ruled that a shareholder plaintiff in a derivative action may still seek attorney fees even if the defendants took actions to moot the underlying claims. The Firm's attorneys convinced Oregon's highest court to take the case, and reverse, despite the contrary position articulated by both the trial court and the Oregon Court of Appeals.

- ***In re Qwest Commc'ns Int'l***, 450 F.3d 1179 (10th Cir. 2006). In a case of first impression, the Tenth Circuit held that a corporation's deliberate release of purportedly privileged materials to governmental agencies was not a "selective waiver" of the privileges such that the corporation could refuse to produce the same materials to non-governmental plaintiffs in private securities fraud litigation.

- ***In re Guidant S'holders Derivative Litig.***, 841 N.E.2d 571 (Ind. 2006). Answering a certified question from a federal court, the Supreme Court of Indiana unanimously held that a pre-suit demand in a derivative action is excused if the demand would be a futile gesture. The court adopted a "demand futility" standard and rejected defendants' call for a "universal demand" standard that might have immediately ended the case.

- ***Denver Area Meat Cutters v. Clayton***, 209 S.W.3d 584 (Tenn. Ct. App. 2006). The Tennessee Court of Appeals rejected an objector's challenge to a class action settlement arising out of Warren Buffet's 2003 acquisition of Tennessee-based Clayton Homes. In their effort to secure relief for Clayton Homes stockholders, the Firm's attorneys obtained a temporary injunction of the Buffet acquisition for six weeks in 2003 while the matter was litigated in the courts. The temporary halt to Buffet's acquisition received national press attention.

- ***DeJulius v. New Eng. Health Care Emps. Pension Fund***, 429 F.3d 935 (10th Cir. 2005). The Tenth Circuit held that the multi-faceted notice of a $50 million settlement in a securities fraud class action had been the best notice practicable under the circumstances, and thus satisfied both constitutional due process and Rule 23 of the Federal Rules of Civil Procedure.

- ***In re Daou Sys.***, 411 F.3d 1006 (9th Cir. 2005). The Ninth Circuit sustained investors' allegations of accounting fraud and ruled that loss causation was adequately alleged by pleading that the value of the stock they purchased declined when the issuer's true financial condition was revealed.

- ***Barrie v. Intervoice-Brite, Inc.***, 397 F.3d 249 (5th Cir.), *reh'g denied and opinion modified*, 409 F.3d 653 (5th Cir. 2005). The Fifth Circuit upheld investors' accounting-fraud claims, holding that fraud is pled as to both defendants when one knowingly utters a false statement and the other knowingly fails to correct it, even if the complaint does not specify who spoke and who listened.

- ***City of Monroe Emps. Ret. Sys. v. Bridgestone Corp.***, 399 F.3d 651 (6th Cir. 2005). The Sixth Circuit held that a statement regarding objective data supposedly supporting a corporation's belief that its tires were safe was actionable where jurors could have found a reasonable basis to believe the corporation was aware of undisclosed facts seriously undermining the statement's accuracy.

- ***Ill. Mun. Ret. Fund v. Citigroup, Inc.***, 391 F.3d 844 (7th Cir. 2004). The Seventh Circuit upheld a district court's decision that the Illinois Municipal Retirement Fund was entitled to litigate its claims under the Securities Act of 1933 against WorldCom's underwriters before a state court rather than before the federal forum sought by the defendants.

- ***Nursing Home Pension Fund, Local 144 v. Oracle Corp.***, 380 F.3d 1226 (9th Cir. 2004). The Ninth Circuit ruled that defendants' fraudulent intent could be inferred from allegations concerning their false representations, insider stock sales and improper accounting methods.

- ***Southland Sec. Corp. v. INSpire Ins. Sols. Inc.***, 365 F.3d 353 (5th Cir. 2004). The Fifth Circuit sustained allegations that an issuer's CEO made fraudulent statements in connection with a contract announcement.

- ***Smith v. Am. Family Mut. Ins. Co.***, 289 S.W.3d 675 (Mo. Ct. App. 2009). Capping nearly a decade of hotly contested litigation, the Missouri Court of Appeals reversed the trial court's judgment notwithstanding the verdict for auto insurer American Family and reinstated a unanimous jury verdict for the plaintiff class.

- ***Troyk v. Farmers Grp., Inc.***, 171 Cal. App. 4th 1305 (2009). The California Court of Appeal held that Farmers Insurance's practice of levying a "service charge" on one-month auto insurance policies, without specifying the charge in the policy, violated California's Insurance Code.

- ***Lebrilla v. Farmers Grp., Inc.***, 119 Cal. App. 4th 1070 (2004). Reversing the trial court, the California Court of Appeal ordered class certification of a suit against Farmers, one of the largest automobile insurers in California, and ruled that Farmers' standard automobile policy requires it to provide parts that are as good as those made by vehicle's manufacturer. The case involved Farmers' practice of using inferior imitation parts when repairing insureds' vehicles.

- ***In re Monumental Life Ins. Co.***, 365 F.3d 408, 416 (5th Cir. 2004). The Fifth Circuit Court of Appeals reversed a district court's denial of class certification in a case filed by African-Americans seeking to remedy racially discriminatory insurance practices. The Fifth Circuit held that a monetary relief claim is viable in a Rule 23(b)(2) class if it flows directly from liability to the class as a whole and is capable of classwide "'computation by means of objective standards and not dependent in any significant way on the intangible, subjective differences of each class member's circumstances.'"

- ***Dent, et al. v. National Football League***, No. 15-15143 (9th Cir.). In September 2018, the United States Court of Appeals for the Ninth Circuit issued an important decision reversing the district court's previous dismissal of the *Dent v. National Football League* litigation, concluding that the complaint brought by NFL Hall of Famer Richard Dent and others should not be dismissed on labor-law preemption grounds. The case was remanded to the district court for further proceedings.

- ***Kwikset Corp. v. Superior Court***, 51 Cal. 4th 310 (2011). In a leading decision interpreting the scope of Proposition 64's new standing requirements under California's Unfair Competition Law (UCL), the California Supreme Court held that consumers alleging that a manufacturer has misrepresented its product have "lost money or property" within the meaning of the initiative, and thus have standing to sue under the UCL, if they "can truthfully allege that they were deceived by a product's label into spending money to purchase the product, and would not have purchased it otherwise." *Id*. at 317. *Kwikset* involved allegations, proven at trial, that defendants violated California's "Made in the U.S.A." statute by representing on their labels that their products were "Made in U.S.A." or "All-American Made" when, in fact, the products were substantially made with foreign parts and labor.

- ***Safeco Ins. Co. of Am. v. Superior Court***, 173 Cal. App. 4th 814 (2009). In a class action against auto insurer Safeco, the California Court of Appeal agreed that the plaintiff should have access to discovery to identify a new class representative after her standing to sue was challenged.

- ***Consumer Privacy Cases***, 175 Cal. App. 4th 545 (2009). The California Court of Appeal rejected objections to a nationwide class action settlement benefiting Bank of America customers.

- ***Koponen v. Pac. Gas & Elec. Co.***, 165 Cal. App. 4th 345 (2008). The Firm's attorneys obtained a published decision reversing the trial court's dismissal of the action, and holding that the plaintiff's claims for damages arising from the utility's unauthorized use of rights-of-way or easements obtained from the plaintiff and other landowners were not barred by a statute limiting the authority of California courts to review or correct decisions of the California Public Utilities Commission.

- ***Sanford v. MemberWorks, Inc.***, 483 F.3d 956 (9th Cir. 2007). In a telemarketing-fraud case, where the plaintiff consumer insisted she had never entered the contractual arrangement that defendants said bound her to arbitrate individual claims to the exclusion of pursuing class claims, the Ninth Circuit reversed an order compelling arbitration – allowing the plaintiff to litigate on behalf of a class.

- ***Ritt v. Billy Blanks Enters.***, 870 N.E.2d 212 (Ohio Ct. App. 2007). In the Ohio analog to the *West* case, the Ohio Court of Appeals approved certification of a class of Ohio residents seeking relief under Ohio's consumer protection laws for the same telemarketing fraud.

- ***Haw. Med. Ass'n v. Haw. Med. Serv. Ass'n***, 148 P.3d 1179 (Haw. 2006). The Supreme Court of Hawaii ruled that claims of unfair competition were not subject to arbitration and that claims of tortious interference with prospective economic advantage were adequately alleged.

- ***Branick v. Downey Sav. & Loan Ass'n***, 39 Cal. 4th 235 (2006). Robbins Geller attorneys were part of a team of lawyers that briefed this case before the Supreme Court of California. The court issued a unanimous decision holding that new plaintiffs may be substituted, if necessary, to preserve actions pending when Proposition 64 was passed by California voters in 2004. Proposition 64 amended California's Unfair Competition Law and was aggressively cited by defense lawyers in an effort to dismiss cases after the initiative was adopted.

- ***McKell v. Wash. Mut., Inc.***, 142 Cal. App. 4th 1457 (2006). The California Court of Appeal reversed the trial court, holding that plaintiff's theories attacking a variety of allegedly inflated mortgage-related fees were actionable.

- ***West Corp. v. Superior Court***, 116 Cal. App. 4th 1167 (2004). The California Court of Appeal upheld the trial court's finding that jurisdiction in California was appropriate over the out-of-state corporate defendant whose telemarketing was aimed at California residents. Exercise of jurisdiction was found to be in keeping with considerations of fair play and substantial justice.

- ***Kruse v. Wells Fargo Home Mortg., Inc.***, 383 F.3d 49 (2d Cir. 2004), and ***Santiago v. GMAC Mortg. Grp., Inc.***, 417 F.3d 384 (3d Cir. 2005). In two groundbreaking federal appellate decisions, the Second and Third Circuits each ruled that the Real Estate Settlement Practices Act prohibits marking up home loan-related fees and charges.

Additional Judicial Commendations

Robbins Geller attorneys have been praised by countless judges all over the country for the quality of their representation in class-action lawsuits. In addition to the judicial commendations set forth in the Prominent Cases and Precedent-Setting Decisions sections, judges have acknowledged the successful results of the Firm and its attorneys with the following plaudits:

- On December 20, 2018, at the final approval hearing for the settlement, the court lauded Robbins Geller's attorneys and their work: "I've been very impressed with the level of lawyering in the case . . . and with the level of briefing . . . and I wanted to express my appreciation for that and for the work that everyone has done here." The court concluded, "your clients were all blessed to have you, [and] not just because of the outcome." *Duncan v. Joy Global, Inc.*, No. 16-CV-1229, Transcript at 20-21 (E.D. Wis. Dec. 20, 2018).

- On November 9, 2018, in granting final approval of the settlement, the Honorable Jesse M. Furman commented: "[Robbins Geller] did an extraordinary job here. . . . [I]t is fair to say [this was] probably the most complicated case I have had since I have been on the bench. . . .
